Observation Record/Witness Statement

Learner Name	P Turner	Learner number	XXXX
Centre Name	Projects High	Centre Number	XXXXX
Unit Name	Dissertation	Unit number	P301
Project Title	Is the mind the same as the brain?		

This form should be included in the candidates work which is submitted for moderation

What task/activity are you assessing?
Oral Presentation
How has the task/activity met the requirements of the Specification?
I observed Paige Turner's presentation along with PJ Smith, her supervisor, and a group of other EPQ students. She spoke well about her chosen topic. She is clearly knowledgeable and articulate and she responded well during the question and answer session. It was clear that she had learned a great deal from the project process and was able to explain what she had learned.
