BTEC Nationals in Land-based 2016–2019

With the spotlight on changing food production methods, increased pressure on supply, and heightened environmental considerations, the Land-based sector offers a wide range of career routes for learners keen to make a difference in an industry that underpins so much of what we take for granted today.

BTEC Level 3 Nationals (RQF) Land-based qualifications reflect the latest industry standards and requirements so your learners can get their Land-based career off to the best possible start.

Qualifications available:

Agriculture

Equine Management

Animal Management

Forestry and Arboriculture

Countryside Management

Horticulture

In partnership with Lantra Awards

Pearson BTEC and Lantra Awards have teamed-up to offer your Level 3 learners comprehensive study programmes designed around specific land-based occupations.

BTEC Nationals in Land-based – full suite of RQF qualifications

We've highlighted below the main differences between the QCF and RQF qualifications:

- **Units come in a range of sizes** – 60, 90 and 120 GLH which means that their weighting is different when calculating the final grade.
- **There is compensation across the qualification**, with grades to reflect all achievement.
- **Externally assessed units** with a Near Pass grade.
- **Assessment criteria** in internally assessed units are set out differently.
- **Synoptic Assessment** requires learners to demonstrate that they can identify and use effectively, in an integrated way, an appropriate selection of skills, techniques, concepts, theories and knowledge from across the whole sector as relevant to a key task.

Planning your delivery – INTERNAL ASSESSMENT

EXAMPLE UNIT

Learning aims to help clarify assessment criteria.

Pass	Merit	Distinction
Learning aim A: Explore the features of different businesses and what makes them successful		AB.D1 Evaluate the reasons for the success of two contrasting businesses, reflecting on evidence gathered.
A.P1 Explain the features of two contrasting businesses.	A.M1 Assess the relationship and communication with stakeholders of two contrasting businesses using independent research.	
A.P2 Explain how two contrasting businesses are influenced by stakeholders.		
Learning aim B: Investigate how businesses are organised		
B.P3 Explore the organisation structures, aims and objectives of two contrasting businesses.	B.M2 Analyse how the structures of two contrasting businesses allow each to achieve its aims and objectives.	

Further information provides key information about preparing for and delivering a unit

Further information for teachers and assessors

Resource requirements

There are no specific resource requirements for this unit but centres must give learners access to information on a range of businesses, including local, national and international.

Essential information for assessment decisions

It is expected that learners in a cohort will individually select and research their choice of businesses.

Throughout the unit, learners will show individuality of thought, independent collection, collation and judgement of evidence.

The businesses selected by the learner in Learning aims A and B should be contrasting in terms of their features, e.g. ownership and liability, purpose, sector, scope and/or size.

It is recommended the learner's own centre is not used for this unit.

Learning aims A and B

For distinction standard, learners will produce relevant evidence of how differing features and the complex relationship and communications with its internal and external stakeholders make businesses successful to support the evaluation given.

For merit standard, learners will present a careful consideration of each of the businesses relationship and communication with its stakeholders, and arrive at conclusions about how well each business communication impacts on its relationship with stakeholders. Learners will give a breakdown of the organisational structure including the different functional areas within the structure, what each does and how the areas interrelate or work together to contribute to each business's aims and objectives.

For pass standard, learners will carry out research that allows them to clearly link familiar and obvious features of the businesses and the stakeholder influence to success factors.

Glossary highlights the key terms used.

ASSIGNMENT BRIEFS

To give you maximum flexibility and support when planning your course, you have **three options available** when preparing your assignment briefs:

1. Use the **Pearson Authorised Assignment Briefs** as published – you will find these under the Internal Assessment tab on the Course Materials section of the qualification specification page.
2. Adapt a **Pearson Authorised Assignment Brief** to suit the needs of your learners.
3. **Create your own Assignment Briefs** if you think this will better meet the needs of your learners, or where an Authorised Assignment Brief is not available. To help check you have everything covered you can use our **Assignment Checking Service**.

(Remember, you must still internally verify assignments even if you've used them 'off the shelf'.)
