This season he has attempted 45 passes of which 33 were completed.</p> <p>What percentage of his overall passes were completed?</p> <p style="text-align: right;">(1)</p>	<p>2. Southend United's win, draw and loss ratio this season is:</p> <p style="text-align: center;">5:2:4</p> <p>If they played 44 games, how many did they win?</p> <p style="text-align: right;">(1)</p>	<p>3. Josie plays for her local football team. These are the times she has spent on the pitch in minutes.</p> <table border="1" style="margin: 10px auto; border-collapse: collapse; text-align: center;"> <tr> <td style="padding: 2px 10px;">54</td> <td style="padding: 2px 10px;">52</td> <td style="padding: 2px 10px;">47</td> <td style="padding: 2px 10px;">51</td> <td style="padding: 2px 10px;">45</td> <td style="padding: 2px 10px;">42</td> </tr> </table> <p>What is the mean amount of time she played across these games?</p> <p style="text-align: right;">(1)</p>	54	52	47	51	45	42				
54	52	47	51	45	42							
<p>4. England lionesses are playing at the Stadium of Light. The capacity is forty-eight thousand, seven hundred and seven.</p> <p>Only 1928 tickets were left unsold. How many tickets were sold?</p> <p style="text-align: right;">(1)</p>	<p>5. Darren is going to watch his local team. He has worked out his journey to the match.</p> <p>Bus to the station – 20 mins Train journey – 1 hour 25 minutes Walk to the ground – $\frac{1}{4}$ hour</p> <p>How long will it take him to get to the match?</p> <p style="text-align: right;">(1)</p>	<p>6. Sue is watching her favourite team. Before the match she goes to the club shop and see the following:</p> <div style="border: 1px solid black; padding: 5px; margin: 10px auto; width: fit-content;"> <p style="text-align: center; margin: 0;">Special Offer</p> <p style="text-align: center; margin: 0;">Have your name printed on your shirt.</p> <p style="text-align: center; margin: 0;">£4.50 per letter</p> </div> <p>The shirt itself costs £39.99. How much would it cost her to buy the shirt with her name printed on it?</p> <p style="text-align: right;">(1)</p>										
<p>7. Claire is working out how many points her team could get this season.</p> <p>She knows how many points her team will get for winning a match, losing a match, and drawing a match.</p> <p>She also knows how many games her team has won, lost and drawn.</p> <p>How can she work out how many points the team has got?</p> <p style="text-align: right;">(1)</p>	<p>8. Chris has been keeping a record of the number of points Leeds United have got this season. They have created this graph.</p> <div style="text-align: center; margin: 10px 0;"> <p>Number of Points</p>  <table border="1" style="margin: 5px auto; border-collapse: collapse; font-size: small;"> <thead> <tr> <th>Games</th> <th>Points</th> </tr> </thead> <tbody> <tr> <td>Games 1 - 9</td> <td>10</td> </tr> <tr> <td>Games 10 - 18</td> <td>7</td> </tr> <tr> <td>Games 19 - 27</td> <td>9</td> </tr> <tr> <td>Games 28 - 36</td> <td>11</td> </tr> </tbody> </table> </div> <p>Using the graph, calculate how many points this was in total.</p> <p style="text-align: right;">(1)</p>	Games	Points	Games 1 - 9	10	Games 10 - 18	7	Games 19 - 27	9	Games 28 - 36	11	<p>9. Use a reverse calculation to check your answer to question 3.</p> <p style="text-align: right;">(1)</p>
Games	Points											
Games 1 - 9	10											
Games 10 - 18	7											
Games 19 - 27	9											
Games 28 - 36	11											

Total Marks: _____ / 9
