

**Assessment Evidence**

You need to produce a portfolio of work, which demonstrates that you have recorded ideas to develop a design intention. Your work will explore a chosen discipline and will demonstrate your understanding and skills in using media, materials, techniques, processes and associated technology to realise your design outcome. The portfolio should include:

- appropriate records of observations, experiences and research
- final outcome.
- exploratory work, design sheets, models, trials etc

Your work must include evidence of:

- |  |   |
|--|---|
| a resolving the needs of the brief to develop intentions   | c production and presentation of a design solution                              |
| b development of a range of ideas in response to the brief | d evaluation of the creative potential and effectiveness of the developed idea. |
