Your switching
support guide

Before we get started...

Whether it be through having a conversation with our dedicated subject team or by receiving all of our free support materials in one easy to access place, we are **100% committed to supporting you.**

We've worked with teachers to provide the best switch experience, to save you time and give you the confidence to get started with us straight away.

This switching support guide brings together the information you've told us you need in one handy place, along with clear guidance about where to go next with further questions.

Simply choose the step that's right for you...

We're here to support you every step of the way with unparalleled free and paid-for resources.

Here are the essential things to know about our qualifications if you're thinking of switching to us.

If you like what you see, feel free to get in touch with us directly about how the course could work for you and your students.

Get started straight away

We have everything you need to help you transition from your current awarding body, including:

- [our qualification guide](#) providing a quick overview of our specification and all the free support on offer
- **free ‘New to Edexcel’** [online training](#) events run by our science experts to equip you with everything you need to get started

Get started straight away

- [Detailed mapping guidance](#) to compare our specifications and support guides with your current awarding body.
- [Teaching support](#) to help you plan and teach our AS and A level Chemistry qualifications successfully.
- Free [Scheme of Work](#) to help you plan your curriculum.
- **1:1 support from our dedicated science subject specialist** to make sure you have everything you need to hit the ground running.

Accessible assessments with a consistent approach for every paper

- **Clear language, simple layout and consistent use of command words** with no hidden surprises. See this in practice in our past [exam papers](#)*.
- Three complete sets of [specimen papers, as well as two “mock exam” papers](#), to give your students lots of practice.

*All materials published by Pearson Edexcel including past question papers and mark schemes are protected by copyright legislation and may not be copied or made available electronically in whole or in part without permission from Pearson. In addition, unauthorised or further dissemination of the above assessment materials can have a detrimental impact on teachers and learners who use them as mocks throughout the academic year.

Support with what to expect in our assessments

- A guide to [‘Understanding our Assessments’](#) to explain our accessibility principles.
- A guide to [transition from KS4](#) and best reinforce knowledge, skills and literacy in chemistry.
- A guide to [exemplar work with commentaries](#) as well as extended open response questions with example student responses at each level.
- Comprehensive [principal examiner reports](#) available for each paper from results day.
- Detailed [pre-recorded feedback sessions](#) from the summer 2019 exams by our senior examining team.

Unbeatable local and national support

- Collaborative network events delivered by our Pearson Edexcel science specialists – providing you with a mix of CPD, networking and important updates.

“ *Our team members have brought back a wealth of information.* **”**

- Fast, expert advice and support from our dedicated science team.

We're here to make sure cost and time aren't barriers when switching to us, so get in touch to discuss the qualification support and resource packages open to you.

Post-results support

- [Access to Scripts](#) – our free online service allowing you to view your students' marked exam papers online or download as a PDF.
- [ResultsPlus](#) – our free online results analysis tool that gives you a detailed breakdown of your students' performance in the exams.
- [exemplar answers](#) with examiner feedback.
- [examWizard](#) – a free exam preparation tool containing a bank of Pearson Edexcel A level Science exam questions, mark schemes and examiners' reports.
