## 2 Prime Ministerial Power

Study the following passage and answer the questions that follow.

It is often asserted that 'the British prime minister is as powerful as he or she wants to be'. Margaret Thatcher wanted to be dominant and ensured this by removing her political opponents in the cabinet and replacing them with people she could rely on. Tony Blair similarly strengthened his position by including his closest allies in the cabinet. Prime ministers who want to be dominant will take their prerogative powers and stretch them to the limits. This can also be seen in the area of foreign affairs. Both Tony Blair and Gordon Brown spent much time attempting to take a leading role in world affairs, including conducting wars and negotiating international treaties.

This picture may nevertheless be misleading. There are powerful forces which can be ranged against them. The prime minister's cabinet colleagues can turn against him or her, as occurred with Thatcher in 1990. In the case of Blair, his position was undermined by growing criticism within the party, particularly after the 2003 invasion of Iraq. The media, too, can become hostile. Brown received unfavourable press coverage and he was presented as a weak and indecisive leader. A prime minister's strength also depends on many factors beyond his or her direct control. These include the size of the parliamentary majority and the course of world events.
