Q2

--	--

Turn over

3.

Maura and her mother Yana live in a small house in an area of the UK prone to flooding. Last year, the flooding was heavy and prolonged leading to disruption of clean water supplies and sewerage services. Yana is over 80 years of age and in the early stages of dementia. She refused to leave the house during the flooding due to reports of looting of properties. Maura is a schoolteacher almost 50 years of age and experiencing the symptoms of the menopause and stress.

(a) (i) Identify the life stages of Maura and Yana.

Maura's life stage

Yana's life stage

(2)

(ii) Describe **three** physical features of the menopause that Maura might experience.
