## Qualification summary

### Subject criteria

The General Certificate of Education is part of the Level 3 provision. This specification is based on the Advanced Subsidiary GCE and Advanced GCE subject criteria for modern foreign languages, which are prescribed by the regulatory authorities and are mandatory for all awarding bodies.

The Advanced Subsidiary and Advanced GCE in Japanese have been designed in response to subject criteria which are intended to:

- help ensure consistent and comparable standards in the same subject across the awarding bodies
- define the relationship between the Advanced Subsidiary and Advanced GCE level specifications, with the Advanced Subsidiary as a subset of the Advanced GCE level
- ensure that the rigour of the Advanced GCE is maintained
- help higher education institutions and employers know what has been studied and assessed.

### Aims

The Edexcel Advanced Subsidiary and Advanced GCE in Japanese aims to encourage students to:

- develop an interest in, and enthusiasm for, language learning
- develop understanding of the language in a variety of contexts and genres
- communicate confidently, clearly and effectively in the language for a range of purposes
- develop awareness and understanding of the contemporary society, cultural background and heritage of countries or communities where the language is spoken
- consider their study of the language in a broader context.

The Edexcel Advanced Subsidiary and Advanced GCE in Japanese enables students to:

- derive enjoyment and benefit from language learning
- acquire knowledge, skills and understanding for practical use, further study and/or employment
- communicate with speakers of the language
- take their place in a multilingual global society.

### AS/A2 knowledge and understanding

The Advanced Subsidiary specification requires students to:

- read and respond to a variety of Japanese-language written texts, including authentic sources, covering different contexts, registers, styles and genres\*
- adapt their written Japanese language appropriately for different situations and purposes
- use the Japanese language accurately to express facts and ideas, and to present explanations, opinions and information in writing
- understand and apply the grammatical system and a range of structures of the Japanese language as detailed in *Appendix 4: Grammar lists*
- transfer meaning from Japanese into English and/or vice versa.

In addition, Advanced GCE specification requires students to:

- use the Japanese language to present viewpoints, develop arguments, analyse and evaluate in writing
- understand and apply the grammatical system and a range of structures in Japanese as detailed in *Appendix 4: Grammar lists*
- study aspects of the contemporary society, cultural background and heritage of one or more of the Japanese-language countries or communities
- transfer meaning from English into Japanese, and/or vice versa. If one skill is not assessed at Advanced Subsidiary level it must be assessed at A2 level.

\* Written Japanese-language sources must include material that relates to the contemporary society, cultural background and heritage of one or more of the countries or communities where the language is spoken.

### AS/A2 skills

- The knowledge and understanding requirements of this Advanced Subsidiary and Advanced GCE specification are inextricably linked to the two language skills of **reading and writing** in Japanese in line with the requirements of the subject criteria.
- Although speaking and listening skills are not directly assessed, it is anticipated that these will be developed in the course of general teaching to support this specification.

## C GCE Japanese unit content

Unit 1 Understanding and Written Response in Japanese 13

Unit 2 Understanding, Written Response and Research in Japanese 19

## Course structure

- Edexcel's GCE in Japanese comprises two units and contains an Advanced Subsidiary.
- The Advanced Subsidiary GCE is the first half of the GCE course and consists of Unit 1. It may be awarded as a discrete qualification or contribute 50 per cent of the total Advanced GCE marks.
- The full Advanced GCE award consists of one AS unit (Unit 1), plus one A2 unit (Unit 2) which makes up the other 50 per cent of the Advanced GCE. Students wishing to take the full Advanced GCE must, therefore, complete both units.
- The structure of this qualification allows teachers to construct a course of study which can be taught and assessed either as:
  - ◆ distinct modules of teaching and learning with related units of assessment taken at appropriate stages during the course; or
  - ◆ a linear course which is assessed in its entirety at the end.

## Assessment information

<b>Assessment requirements</b>	For a summary of assessment requirements and assessment objectives, see <i>Section B, Specification overview</i> .
<b>Entering students for the examinations for this qualification</b>	Details of how to enter students for the examinations for this qualification can be found in Edexcel's Information Manual, copies of which are sent to all examinations officers. The information can also be found on Edexcel's website ( <a href="http://www.edexcel.com">www.edexcel.com</a> ).
<b>Resitting of units</b>	<p>There is no limit to the number of times that a student may retake a unit prior to claiming certification for the qualification. The best available result for each contributing unit will count towards the final grade.</p> <p>After certification all unit results may be reused to count towards a new award. Students may re-enter for certification only if they have retaken at least one unit.</p> <p>Results of units held in the Edexcel unit bank have a shelf life limited only by the shelf life of this specification.</p>
<b>Awarding and reporting</b>	<p>The grading, awarding and certification of this qualification will comply with the requirements of the current GCSE/GCE Code of Practice, which is published by the Office of Qualifications and Examinations Regulation (Ofqual). The AS qualification will be graded and certificated on a five-grade scale from A to E. The full GCE Advanced level will be graded on a six-point scale A* to E. Individual unit results will be reported.</p> <p>A pass in an Advanced Subsidiary subject is indicated by one of the five grades A, B, C, D, E of which grade A is the highest and grade E the lowest. A pass in an Advanced GCE subject is indicated by one of the six grades A*, A, B, C, D, E of which Grade A* is the highest and Grade E the lowest. To be awarded an A* students will need to achieve an A on the full GCE Advanced level qualification and an A* aggregate of the A2 units. Students whose level of achievement is below the minimum judged by Edexcel to be of sufficient standard to be recorded on a certificate will receive an unclassified U result.</p>
<b>Performance descriptions</b>	Performance descriptions give the minimum acceptable level for a grade. See <i>Appendix 1</i> for the performance descriptions for this subject.

**Unit results**

The minimum uniform marks required for each grade for each unit:

**Language of assessment**

Assessment of this specification will be available in Japanese although some responses in English will be required. Assessment materials will be published in Japanese.

## Quality of written communication

Students will be assessed on their ability to:

- write legibly, with accurate use of spelling, grammar and punctuation in order to make the meaning clear.
- At AS level, where English language responses are required, it is important that students produce these responses legibly and pay attention to spelling, punctuation and grammar to ensure effective communication.

## Assessment objectives and weighting

		% in AS	% in A2	% in GCE
<b>AO2</b>	Understand and respond, in speech and writing, to written language.	75%	75%	75%
<b>AO3</b>	Show knowledge of and apply accurately the grammar and syntax prescribed in the specification.	25%	25%	25%
TOTAL		100%	100%	100%

## Synoptic assessment

In synoptic assessment there should be a concentration on the quality of assessment to ensure that it encourages the development of the holistic understanding of the subject.

Synopticity requires students to connect knowledge, understanding and skills acquired in different parts of the Advanced GCE course.

Synoptic assessment in the context of Japanese is naturally occurring and requires students to draw upon different skills within an assessment task. In Unit 2 the essays related to the student's chosen topic(s) and/or text(s) implicitly requires some reading as part of the student's preparation and research for this 'written' exercise. Knowledge of grammar structures is also not restricted to one skill area but is tested across skills and in both units.

### Stretch and challenge

Students can be stretched and challenged in the A2 unit through the use of different assessment strategies. Some examples are given below.

Translation into Japanese enables students to demonstrate an ability to manipulate complex language at an advanced level. They can draw on appropriate vocabulary and structures to produce a translation which is accurate and natural rather than pedestrian.

The topic or text essay (extended writing) enables students to demonstrate that they can produce fluent and relevant language at an advanced level. It can reveal use of complex language structures and comprehensive range of vocabulary. They can use this to convey opinions and express themselves well and accurately.

**Prior learning and progression**

**Prior learning**

Students who would benefit most from studying a GCE in Japanese are likely to have Level 2 qualification such as a GCSE in Japanese at grades A\*-C or other relevant prior learning.

**Progression**

This qualification supports progression into further and higher education, training or employment. It provides a suitable foundation for specialist linguists wishing to study Japanese at a higher level, those wishing to combine language study with other disciplines at higher level and those considering other qualifications without a language focus.

**Combinations of entry**

There are no forbidden combinations.

**Student recruitment**

Edexcel's access policy concerning recruitment to our qualifications is that:

- they must be available to anyone who is capable of reaching the required standard
- they must be free from barriers that restrict access and progression
- equal opportunities exist for all students.

**The wider curriculum**

This qualification provides opportunities for developing an understanding of spiritual, moral, ethical, social and cultural issues, together with an awareness of citizenship, environmental issues and health and safety considerations. *Appendix 2: Wider curriculum* maps the opportunities available.

### Edexcel support services

Edexcel has a wide range of support services to help you implement this qualification successfully.

**ResultsPlus** – ResultsPlus is an application launched by Edexcel to help subject teachers, senior management teams, and students by providing detailed analysis of examination performance. Reports that compare performance between subjects, classes, your centre and similar centres can be generated in 'one-click'. Skills maps that show performance according to the specification topic being tested are available for some subjects. For further information about which subjects will be analysed through ResultsPlus, and for information on how to access and use the service, please visit [www.edexcel.com/resultsplus](http://www.edexcel.com/resultsplus)

**Ask the Expert** – to make it easier for our teachers to ask us subject specific questions we have provided the **Ask the Expert** Service. This easy-to-use web query form will allow you to ask any question about the delivery or teaching of Edexcel qualifications. You'll get a personal response, from one of our administrative or teaching experts, sent to the email address you provide. You can access this service at [www.edexcel.com/ask](http://www.edexcel.com/ask)

### Support for Students

Learning flourishes when students take an active interest in their education; when they have all the information they need to make the right decisions about their futures. With the help of feedback from students and their teachers, we've developed a website for students that will help them:

- understand subject specifications
- access past papers and mark schemes
- learn about other students' experiences at university, on their travels and when entering the workplace.

We're committed to regularly updating and improving our online services for students. The most valuable service we can provide is helping schools and colleges unlock the potential of their learners.

Appendix 2 Wider curriculum	43
Appendix 3 Codes	45
Appendix 4 Grammar lists	47
Appendix 5 Kanji lists	53
Appendix 6 Further resources and support	55

## Introduction

Performance descriptions have been created for all GCE subjects. They describe the learning outcomes and levels of attainment likely to be demonstrated by a representative candidate performing at the A/B and E/U boundaries for AS and A2.

In practice most candidates will show uneven profiles across the attainments listed, with strengths in some areas compensating in the award process for weaknesses or omissions elsewhere. Performance descriptions illustrate expectations at the A/B and E/U boundaries of the AS and A2 as a whole; they have not been written at unit level.

Grade A/B and E/U boundaries should be set using professional judgement. The judgement should reflect the quality of candidates' work, informed by the available technical and statistical evidence. Performance descriptions are designed to assist examiners in exercising their professional judgement. They should be interpreted and applied in the context of individual specifications and their associated units. However, performance descriptions are not designed to define the content of specifications and units.

The requirement for all AS and A level specifications to assess candidates' quality of written communication will be met through one or more of the assessment objectives.

The performance descriptions have been produced by the regulatory authorities in collaboration with the awarding bodies.

In addition to the acquisition of knowledge about language structures and the development of practical language skills, effective language learning involves a promotion of cultural understanding. This specification requires students to consider a range of topics, issues and different aspects of target-language culture and to give their views and express opinions on these. Consequently, the specification and linked classroom studies should give learners many opportunities to relate their language study to all of the listed 'issues'.

Type of code	Use of code	Code number
National classification codes	Every qualification is assigned to a national classification code indicating the subject area to which it belongs. Centres should be aware that students who enter for more than one GCE qualification with the same classification code will have only one grade (the highest) counted for the purpose of the school and college performance tables.	6010
National Qualifications Framework (NQF) codes	Each qualification title is allocated a National Qualifications Framework (NQF) code.  The National Qualifications Framework (NQF) code is known as a Qualification Number (QN).  This is the code that features in the DfE Section 96, and on the LARA as being eligible for 16–18 and 19+ funding, and is to be used for all qualification funding purposes. The QN is the number that will appear on the student's final certification documentation.	The QNs for the qualifications in this publication are:  AS — 500/2439/5 Advanced GCE — 500/2308/1
Unit codes	Each unit is assigned a unit code. This unit code is used as an entry code to indicate that a student wishes to take the assessment for that unit. Centres will need to use the entry codes only when entering students for their examination.	Unit 1 — 6JA01 Unit 2 — 6JA02
Cash in codes	The cash-in code is used as an entry code to aggregate the student's unit scores to obtain the overall grade for the qualification. Centres will need to use the entry codes only when entering students for their qualification.	AS — 8JA01 Advanced GCE — 9JA01
Entry codes	The entry codes are used to: <ol style="list-style-type: none"> <li>1 enter a student for the assessment of a unit</li> <li>2 aggregate the student's unit scores to obtain the overall grade for the qualification.</li> </ol>	Please refer to the Edexcel Information Manual available on the Edexcel website.
