## 2. Entry information & Summary of examination requirements

All Advanced GCE in Applied (Single Award) qualifications comprise six equally-weighted units and contain an Advanced Subsidiary (Single Award) subset of three AS units. The AS (Single) contributes 50% of the total Advanced GCE marks. The A2 (Single) comprises the other 50%.

It is essential that centres ensure that their candidates are entered for all the relevant individual unit(s) rather than just the cash-in code. If candidates are entered for the cash-in code only, entries for the individual units will not be registered.

Cash-in Code / Specification Title	Unit Codes
<b>Advanced Subsidiary (Single)</b>	
<b>8771</b>	<b>6973, 6974, 6975</b>
<b>Advanced (Single)</b>	
<b>9771</b>	<b>6976, 6977, 6978</b>

There is no restriction on the number of times a unit may be attempted prior to claiming certification for the qualification (as long as it is available). The best available result for each unit will count towards the final grade. Coursework units can be improved upon and re-submitted, but unit 3 will have to be re-sat as the theme/brief changes each summer.

These specifications are not available to private candidates.

<b>AS (Single Award)</b>		
<b>UNIT 1 Industries, Texts and Audience</b>	<b>UNIT 2 Skills for Media Production</b>	<b>UNIT 3 Media Production Brief (Externally set)</b>

<b>Advanced (Single Award)</b>		
<b>UNIT 1 Industries, Text and Audience</b>	<b>UNIT 2 Skills for Media Production</b>	<b>UNIT 3 Media Production Brief (Externally set)</b>
<b>UNIT 4 Research and Development for Media Production</b>	<b>Unit 5 Media Production Project</b>	<b>UNIT 6 Professional Practice in the Media Industries</b>

Teacher-assessors are advised to check the assessment evidence required for each unit as stated in the specification.

### 3. Marking candidate work

Teacher-assessors must mark individual units separately by evidencing also the whole portfolio for each candidate using the appropriate Assessment Grids of the current Issue (4) of the specification for each Unit.

**For guidance on applying the Mark Bands please refer to Page 80 in the revised specification and also the Assessment Guidance for each unit.**

Portfolios will be marked by the centre and externally moderated by Edexcel. Each of the internally and externally assessed units has an assessment criteria grid, divided into three broad mark bands (with mark band 1 divided into the bottom and top bands), showing how to award marks in relation to the task and the assessment objectives. The assessment criteria grids indicate the required assessment outcomes as well as the quality of the outcomes needed for achievement in each of the mark bands.

The teacher-assessor should ensure that:

- All marks are recorded accurately and the arithmetic is correct
- The total mark is correctly submitted via EDI/Edexcel Online
- The candidate and the teacher, as appropriate, sign any required authentication

**It is not possible to moderate work unless the centre has carried out the initial marking as required by the specification and Assessment Grids for each unit have been completed correctly.**

For internal record-keeping centres may wish to make a copy of the Assessment Grid for each candidate and use it to record the mark for that unit. The GCSE and GCE Code of Practice require assessors to show clearly how credit has been assigned.

#### Internal Standardisation

Where marking for this specification has been carried out by more than one assessor in a centre, there must be a process of internal standardisation to ensure that there is consistent application of the criteria laid down in the assessment criteria grids.

This procedure ensures that the work of all candidates at the centre is marked to the same standard. The statement confirming this **MUST** be ticked on Edexcel Online or signed on the EDI printout.

*'I declare that the work of each candidate for whom marks are listed is, to the best of my knowledge, the candidate's own and that where several teaching groups are involved, the marking has been internally standardised to ensure consistency across groups.'*

Signed ..... Date .....

It may not be possible for external moderation to take place if effective internal standardisation has not been carried out. If the Moderator suspects that internal standardisation has not been carried out, s/he may recommend adjustment to the centre marks accordingly which will affect the whole cohort.

## 4. Submission of centre marks (Edexcel Online/EDI)

All centres will no longer receive Optically-read Teacher Examiner Mark Sheets (OPTEMS) for each Component which has been entered. All marks are to be submitted online.

Centres will have the option of submitting their marks to Edexcel in one of the following ways:

### EITHER

- by submitting marks on Edexcel Online (for registered centres).

### OR

- by recording marks on computer for transfer to Edexcel by means of Electronic Data Interchange (EDI).

However the centre chooses to submit its marks the deadline for mark submission is as follows:

**The marks for each unit must be sent to Edexcel no later than 15 May.**

### 4.1 Amendments (Pre-Results Day)

It is the centre's responsibility to ensure that marks are submitted correctly. It is not the moderator's responsibility to check that the marks awarded to the candidate have been correctly totalled on the Assessment Matrix and correctly transferred.

If marks that have already been submitted require amendment, it is the centre's responsibility to notify Edexcel of the amended mark(s). This can be done by either contacting Edexcel Customer Service or by contacting the coursework mark processing team at [courseworkmarks@pearson.com](mailto:courseworkmarks@pearson.com)

A valid reason for amendment must be provided. The late submission of additional work does not qualify as a valid reason.

### 4.2 Amendments (post-Results Day)

If an error is found with the marks that were originally submitted by the centre after the issue of results, the centre should contact Edexcel via the Post-Results line. Centres should note that amending the centre mark of one candidate at the centre might have an effect on the final marks and subsequently the grades issued to all candidates at the centre.

Upon receipt of post-results amended mark(s) Edexcel will analyse the effect the amended mark(s) will have on the marks /grades for all candidates at the centre. If the amended mark(s) will lead to a downward adjustment to marks/grades for any candidate at the centre apart from the specific candidate(s) for whom the error was reported, Edexcel will contact the centre to notify them of the effect the amended mark(s) will have and to obtain the centre's approval prior to the actual amendment of the mark.

**In all cases Edexcel will require proof that an error has been made prior to amending any mark.**

## 5. Moderation process

Coursework will be moderated by sending all sample candidates work to the moderator. The details of your designated Moderator will be available on Edexcel Online. All sample candidate work must be sent by post to the moderator by May 15th.

The teacher-assessor must mark all the work of all the candidates for each unit, however only the work of the candidates in the moderation sample should be presented for moderation, although all work should be available if required.

### 5.1 Sample candidate work

The sample selected will consist of work from ten candidates for each unit, where less than ten candidates are entered for the unit all candidate work will be moderated. The sample is selected by the centre and should consist of work across a range of abilities and include the highest and lowest scoring candidates. Where a candidate has completed all three units, at either AS or A2, all three units should be sent for that candidate in the moderation sample. This is because evidence for one unit can often be found in another unit. Where possible, the same ten candidates should be selected for all three units. However, each unit should be separately labelled.

### **Accredited Centres:**

Centres with OSCA accreditation for all AS and/or A2 units are not required to send any sample for moderation. Details on whether your centre has been accredited can be found on Edexcel Online. In cases where only some units are accredited at either AS or A2 level, centres should still select and send candidates work as detailed above. Accredited units within the programme group will not be subject to external moderation by Edexcel. Failure to send all portfolios as outlined above will disadvantage candidates in terms of the integrated evidence in other units.

### 5.2 Postal moderation

The moderator's address will be available via Edexcel Online.

The following material must be sent to the moderator by **15<sup>th</sup> May**:

- Send copies of all Edexcel Online/EDI print out for each unit.
- A complete portfolio of evidence for each of the sample candidates for each unit.
- Teacher annotation is vital in assisting the moderation process.
- A signed candidate authentication statement must be signed by every candidate for each unit/portfolio.

The samples of work will be returned to centres between 1 and 15 October 2017, if any work is retained for Awarding purposes you will be informed in writing.

### 5.3 Ensure the following is completed before 15 May

- Apply for Special Consideration if necessary (through the Examinations Officer)
  - Arrange dispatch of work
  - Ensure internal standardisation has taken place within each unit across all teaching groups and across all specialisms
  - Make a copy of the Authentication Form for each candidate
  - Mark all units of work for all candidates, using the appropriate Assessment Grids and transfer a final mark for each unit for every candidate on to the relevant Edexcel Online form/EDI form
  - Ensure all work in the moderation sample is clearly identified and accompanied by the Assessment Grid and Authentication Form for each Unit.
  - Ensure all paperwork has been correctly completed and is dispatched to the moderator
-

## 6. Final mark procedure

The following is an explanation of the procedure for determining the final coursework marks of candidates based upon the marks awarded by the centre and the moderator. All centres have this procedure applied, even those for which the moderator sees all candidates' work. This is to ensure that all centres are treated equally, whether the entry is large or small.

For the candidates sampled by the moderator, the marks awarded by the centre and the moderator are compared and if the differences all lie within a given number then the centre's marks are accepted.

If at least one candidate's mark is outside the designated allowable difference then an adjustment to candidates' marks is considered.

However, if the 'adjusted' marks for all candidates lie within the given range when compared to the centre marks then, again, the decision would be to accept the centre's marks.

If the condition stated above is not satisfied then the 'adjusted' marks would be recommended. Please note that this adjustment is applied by unit across all teaching groups to every candidate at the centre.
