## General Marking Guidance

- All candidates must receive the same treatment. Examiners must mark the first candidate in exactly the same way as they mark the last.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.
- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.
- There is no ceiling on achievement. All marks on the mark scheme should be used appropriately.
- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.
- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.
- Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.

Question Number	Question	Mark	
3(a)	You have been asked to make a sequenced version of this song. Describe <b>two</b> sequencing/production techniques you might consider in recreating the piano in the opening bars of the intro and a reason why you would use each of them. An example has been given.	4	
	Acceptable Answers		
	<b>Sequencing/Production Techniques</b>		<b>Reason</b>
	Panning		To separate the pianos L and R
	Quantise		Use either a very small value or none at all as the playing is quite 'loose'
	Velocity		The playing is heavily accented / varied velocities
	Reverb		The piano sounds are quite wet / the grand piano has a larger amount of reverb
	Note on values / Note off values		The two pianos are not perfectly in time with each other / the note lengths need to be correct
Delay	A single piano could be delayed slightly and panned L and R		
NB: marks can only be awarded in the RH box if LH box is correct <b>and</b> if the reason relates to the technique.
