A Level Physical Education (2016)

Specification Erratum Notice

Dear Colleagues

On page 65 of the course specification, under the section titled **Awarding and reporting**, the table included in this section which provides a break down by component of the weighting, raw marks, scaling factor and scaling mark, is incorrect, specifically the values in the columns titled scaling factor and scaling marks.

The following table presents the correct scaling factors and scaling marks that are applied on awarding for each component for this qualification.

Component	Weighting	Raw Marks	Scaling Factor	Scaling Marks
Component 1	40%	140	1.029	144
Component 2	30%	100	1.080	108
Component 3	15%	40	1.350	54
Component 4	15%	40	1.350	54

Amendment of the course specification will be completed at an appropriate time to replace this inaccurate information in the document.

Kind regards

Phil Holton
