- This document outlines six set briefs. Candidates must select one brief to respond to. Both the chosen brief and free composition are each marked out of 30.
- You are reminded that the minimum total duration of both compositions must be a minimum of 4 minutes and 30 seconds.
- You are reminded of the importance of clear and orderly presentation of your score and recording.
Composition Task

Free composition

You will compose two pieces. One of these is a free composition, as outlined in the specification. You may use your imagination and skills to compose a piece of music. You can draw inspiration or starting points from the set works and suggested wider listening, as well as your own interests and the world around you. You should consider the role of the audience and/or occasion in your composition. The piece composed may be for any instrument or voice, or combination of instruments and/or voices, and in any style. The piece of music must be at least two minutes in duration.

This document only covers the Awarding Organisation’s set brief.

Set brief

You must compose one piece of music based on one of the six briefs linked to areas of study listed below.

- The piece of music must be at least two minutes in duration.
- You may write for one or more instrument(s), acoustic and/or amplified and/or synthesised.
- You must compose using one of the areas of study.

When composing, you should consider the following:

- Type of occasion
- Who is the audience

You can draw on your knowledge of the set works and wider listening that you have studied to help you think about the structure, style and features of your composition. Consider treatment of ideas, techniques and structures in your composition.

Composition briefs

Select one of the following briefs, and compose your piece of music according to the brief.

Brief 1 – Instrumental Music

Compose a theme and variations that would be suitable for a solo instrumentalist accompanied by piano. The composition would be played as part of a recital of Western classical music.

Brief 2 – Vocal Music

Compose a song using a poem of your choice for use as opening music in a poetry slam competition. The setting of the song should reflect the meaning of the text. You may re-order the words.

Brief 3 – Music for Film

Compose an overture for a 15-rated romantic comedy film. The overture should be based around leitmotivs representing the two main characters.
**Brief 4 - Fusions**

Compose a piece of music for a performance at a world music festival. The music must contain stylistic features of African drumming fused with British pop style.

**Brief 5 – Popular Music and Jazz**

Compose an electro pop song aiming for the top of the charts. There should be a catchy vocal hook integrated into a texture for synthesised instruments.

**Brief 6 – New Directions**

General marking guidance

- All candidates must receive the same treatment. Examiners must mark the last candidate in exactly the same way as they mark the first.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.
- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.
- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved. Examiners should also be prepared to award zero marks if the candidate’s response is not worthy of credit according to the mark scheme.
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification/indicative content will not be exhaustive.
- When examiners are in doubt regarding the application of the mark scheme to a candidate’s response, a senior examiner must be consulted before a mark is given.
- Crossed-out work should be marked unless the candidate has replaced it with an alternative response.
- Brackets around parts of words/phrases in this mark scheme indicate the possible additional words/phrases candidates may write as their answer. They must not be awarded twice for an answer relating to one bullet point.
- Where a word is underlined, that word must be included in the answer to be awarded a mark for that point.

How to award marks for the levels based mark scheme
(Questions 5 and 6)

For all questions marked using a Levels Based Mark Scheme, examiners should pay particular attention to the initial rubric which precedes the indicative content section. This rubric details the Assessment Objective and where applicable strand emphasis that should be applied when making judgements within each band.

Finding the right level

The first stage is to decide which level the answer should be placed in. To do this, use a ‘best-fit’ approach, deciding which level most closely describes the quality of the answer.

Answers can display characteristics from more than one level, and where this happens examiners must use their professional judgement to decide which level is most appropriate.

Placing a mark within a level

After a level has been decided on, the next stage is to decide on the mark within the level. The instructions below tell you how to reward responses within a level. However, where a level has specific guidance about how to place an answer within a level, always follow that guidance.
Examiners should be prepared to use the full range of marks available in a level and not restrict marks to the middle. Examiners should start at the middle of the level (or the upper-middle mark if there is an even number of marks) and then move the mark up or down to find the best mark. To do this, they should take into account how far the answer meets the requirements of the level:

- If it meets the requirements fully, markers should be prepared to award full marks within the level. The top mark in the level is used for answers that are as good as can realistically be expected within that level.
- If it only barely meets the requirements of the level, markers should consider awarding marks at the bottom of the level. The bottom mark in the level is used for answers that are the weakest that can be expected within that level.
- The middle marks of the level are used for answers that have a reasonable match to the descriptor. This might represent a balance between some characteristics of the level that are fully met and others that are only barely met.
