**6PS04/01**

**You do not need any other materials.**

Total Marks

### Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Answer **all** questions in Section **A**. In Section **B** answer Questions 5, 6 and 7 and then **EITHER** Question 8(a) **OR** 8(b).
- Answer the questions in the spaces provided  
– *there may be more space than you need.*

### Information

- The total mark for this paper is 90.
- The marks for **each** question are shown in brackets  
– *use this as a guide as to how much time to spend on each question.*
- Questions labelled with an **asterisk** (\*) are ones where the quality of your written communication will be assessed  
– *you should take particular care with your spelling, punctuation and grammar, as well as the clarity of expression, on these questions.*

### Advice

- Read each question carefully before you start to answer it.
- Keep an eye on the time.
- Check your answers if you have time at the end.

(Total for Question 5 = 5 marks)

6 (a) Within the Psychodynamic Approach you learned about the study by Freud (1909) into the case of Little Hans who had a phobia of horses. In this study, Hans's father wrote to Freud to tell him the content of Hans's dreams and his interviews with his child. Freud then analysed this information.

(i) Evaluate this study in terms of validity issues.

(2)

.....

.....

.....

.....

.....

.....

.....

(ii) Suggest **one** way in which the Little Hans study might have been improved.

(2)

.....

.....

.....

.....

.....

.....

.....

(b) Freud developed psychoanalysis, a therapy designed to treat patients with psychological issues. Today there are many other treatments/therapies available to help people. Treatments/therapies can be seen as forms of social control.

Assess both practical and ethical implications of the social control exerted by those who provide treatment/therapy.

(6)

A series of horizontal dotted lines for writing an answer.

Handwriting practice area with 20 horizontal dotted lines.

**(Total for Question 6 = 10 marks)**

Handwriting practice area with 20 horizontal dotted lines.

Handwriting practice area with 25 horizontal dotted lines.

**(Total for Question 7 = 12 marks)**

Answer EITHER Question 8(a) OR Question 8(b).

**EITHER**

\*8 (a) You have studied the Social, Cognitive, Psychodynamic, Biological and Learning Approaches during your course.

Describe Psychodynamic explanations of human behaviour and evaluate these explanations using **at least two** other approaches.

(18)

**OR**

\*8 (b)

**Finders' keepers? Is taking something from a shipwreck theft?**

© Michael Lusmore/epa/Corbis

Several recent incidents of ships losing some of their cargo in stormy weather have revived behaviour thought to have disappeared from modern life, with people descending on the coastline to help themselves to the goods washed ashore. The police have reminded people that such behaviour is theft. Others argue the activities are traditional, people have done this ever since humans started travelling by sea, and no-one is harmed by taking shipwrecked goods as the owners will not want to reclaim items spilling out of the containers into the sea.

With reference to the article above, use your knowledge of psychological theories to describe and evaluate **one or more** explanations for why people behave in this way.
