PAPER 1

Thursday 16 May 2024 – Morning

Time: 2 hours 15 minutes

Resource Booklet

**DO NOT RETURN THIS RESOURCE BOOKLET WITH
THE QUESTION PAPER.**

Contents

For some Figures there is a modified colour and modified black and white diagram. You may use whichever version is easier for you to view. Some diagrams are only in modified colour but you are then provided with a description of the diagram.

Page

SECTION B

- 3 Figure 2a
- 4 Figure 2b – Key (Colour)
- 5 Figure 2b – Diagram (Colour)
- 6 Figure 2b – Key (Black and White)
- 7 Figure 2b – Diagram (Black and White) – Part 1
- 8 Figure 2b – Diagram (Black and White) – Part 2
- 9 Figure 3a – Part 1
- 10 Figure 3a – Part 2
- 11 Figure 3b – Key (Colour)
- 12 Figure 3b – Diagram (Colour)
- 13 Figure 3b – Key (Black and White)
- 14 Figure 3b – Diagram (Black and White) – Part 1
- 15 Figure 3b – Diagram (Black and White) – Part 2

SECTION C

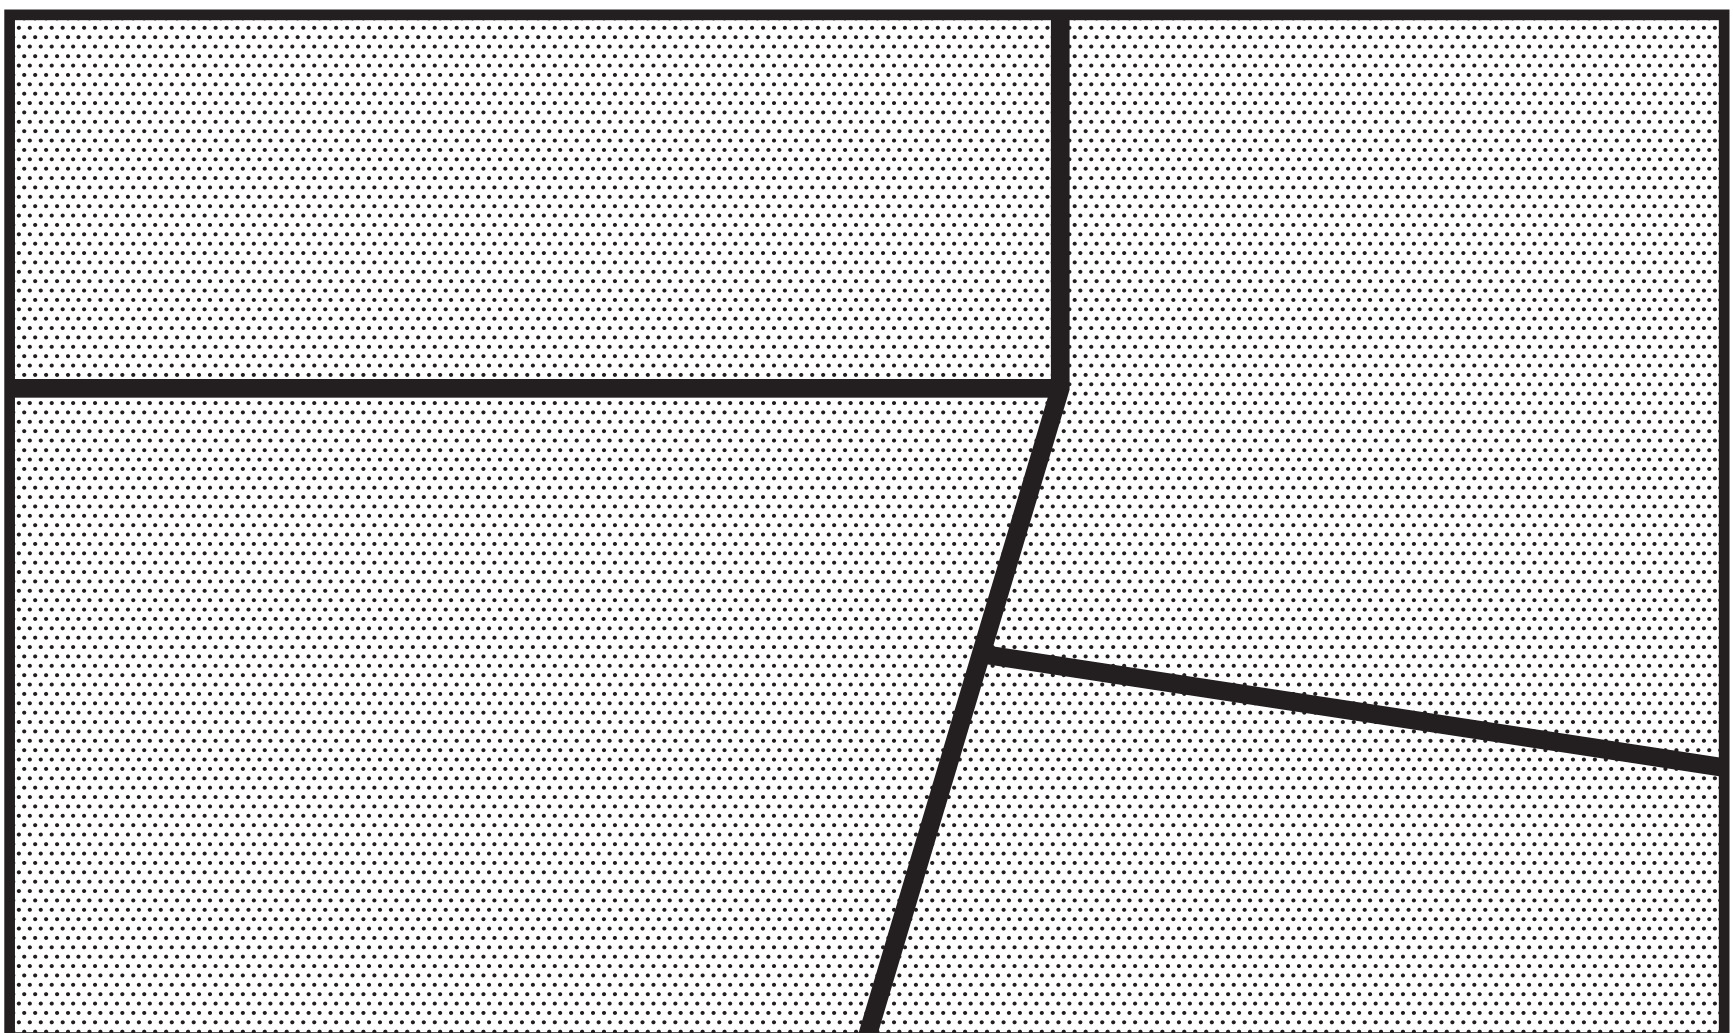

- 16 Figure 4

SECTION B

The following resources relate to Question 2.

Figure 2a

A relict till plain created by the Laurentide Ice Sheet, in North America

KEY  Large flat field  Field boundaries

Figure 2b – Key (Colour)

A relict upland glaciated landscape in the Lake District, northern England

KEY

ROCK FEATURES

--- Footpath

Figure 2b – Diagram (Colour)

A relict upland glaciated landscape in the Lake District, northern England

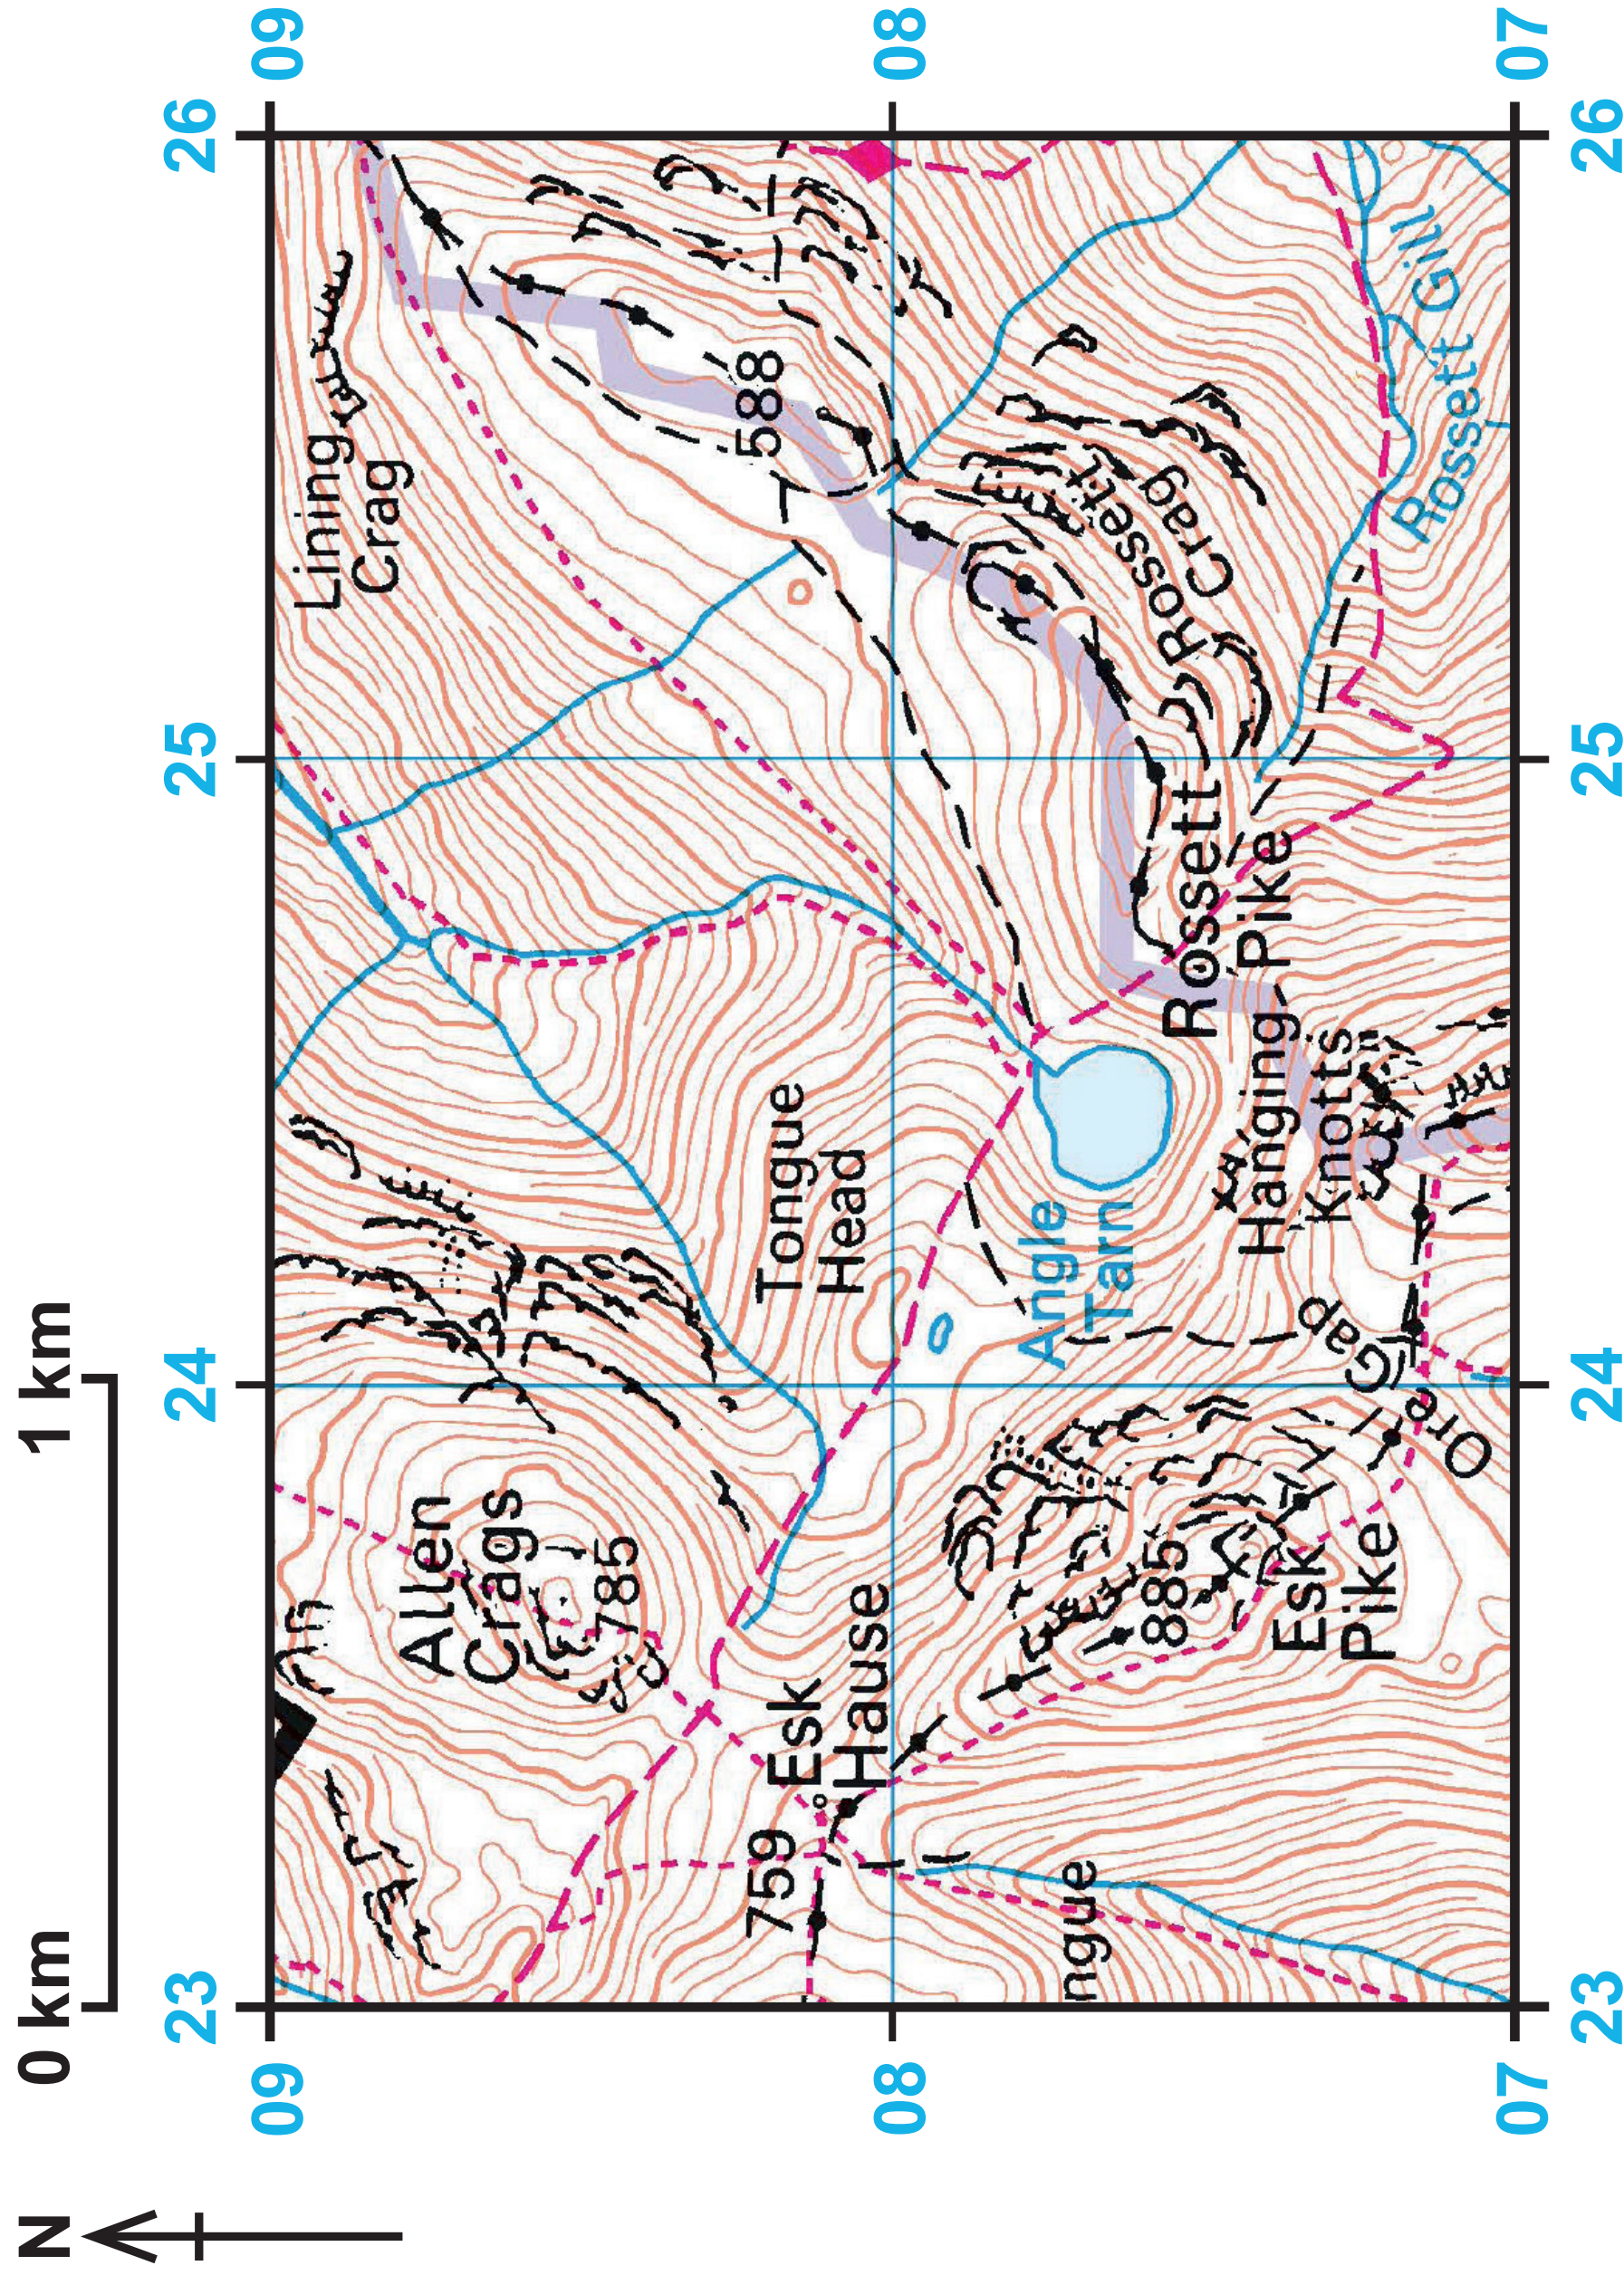

Figure 2b – Key (Black and White)

**A relict upland glaciated landscape in the
Lake District, northern England**

KEY

Angle Tarn

Rivers

Footpath

Cliff

Contours are at **50** metres
vertical interval

Figure 2b – Diagram (Black and White) – Part 1

A relict upland glaciated landscape in the Lake District, northern England

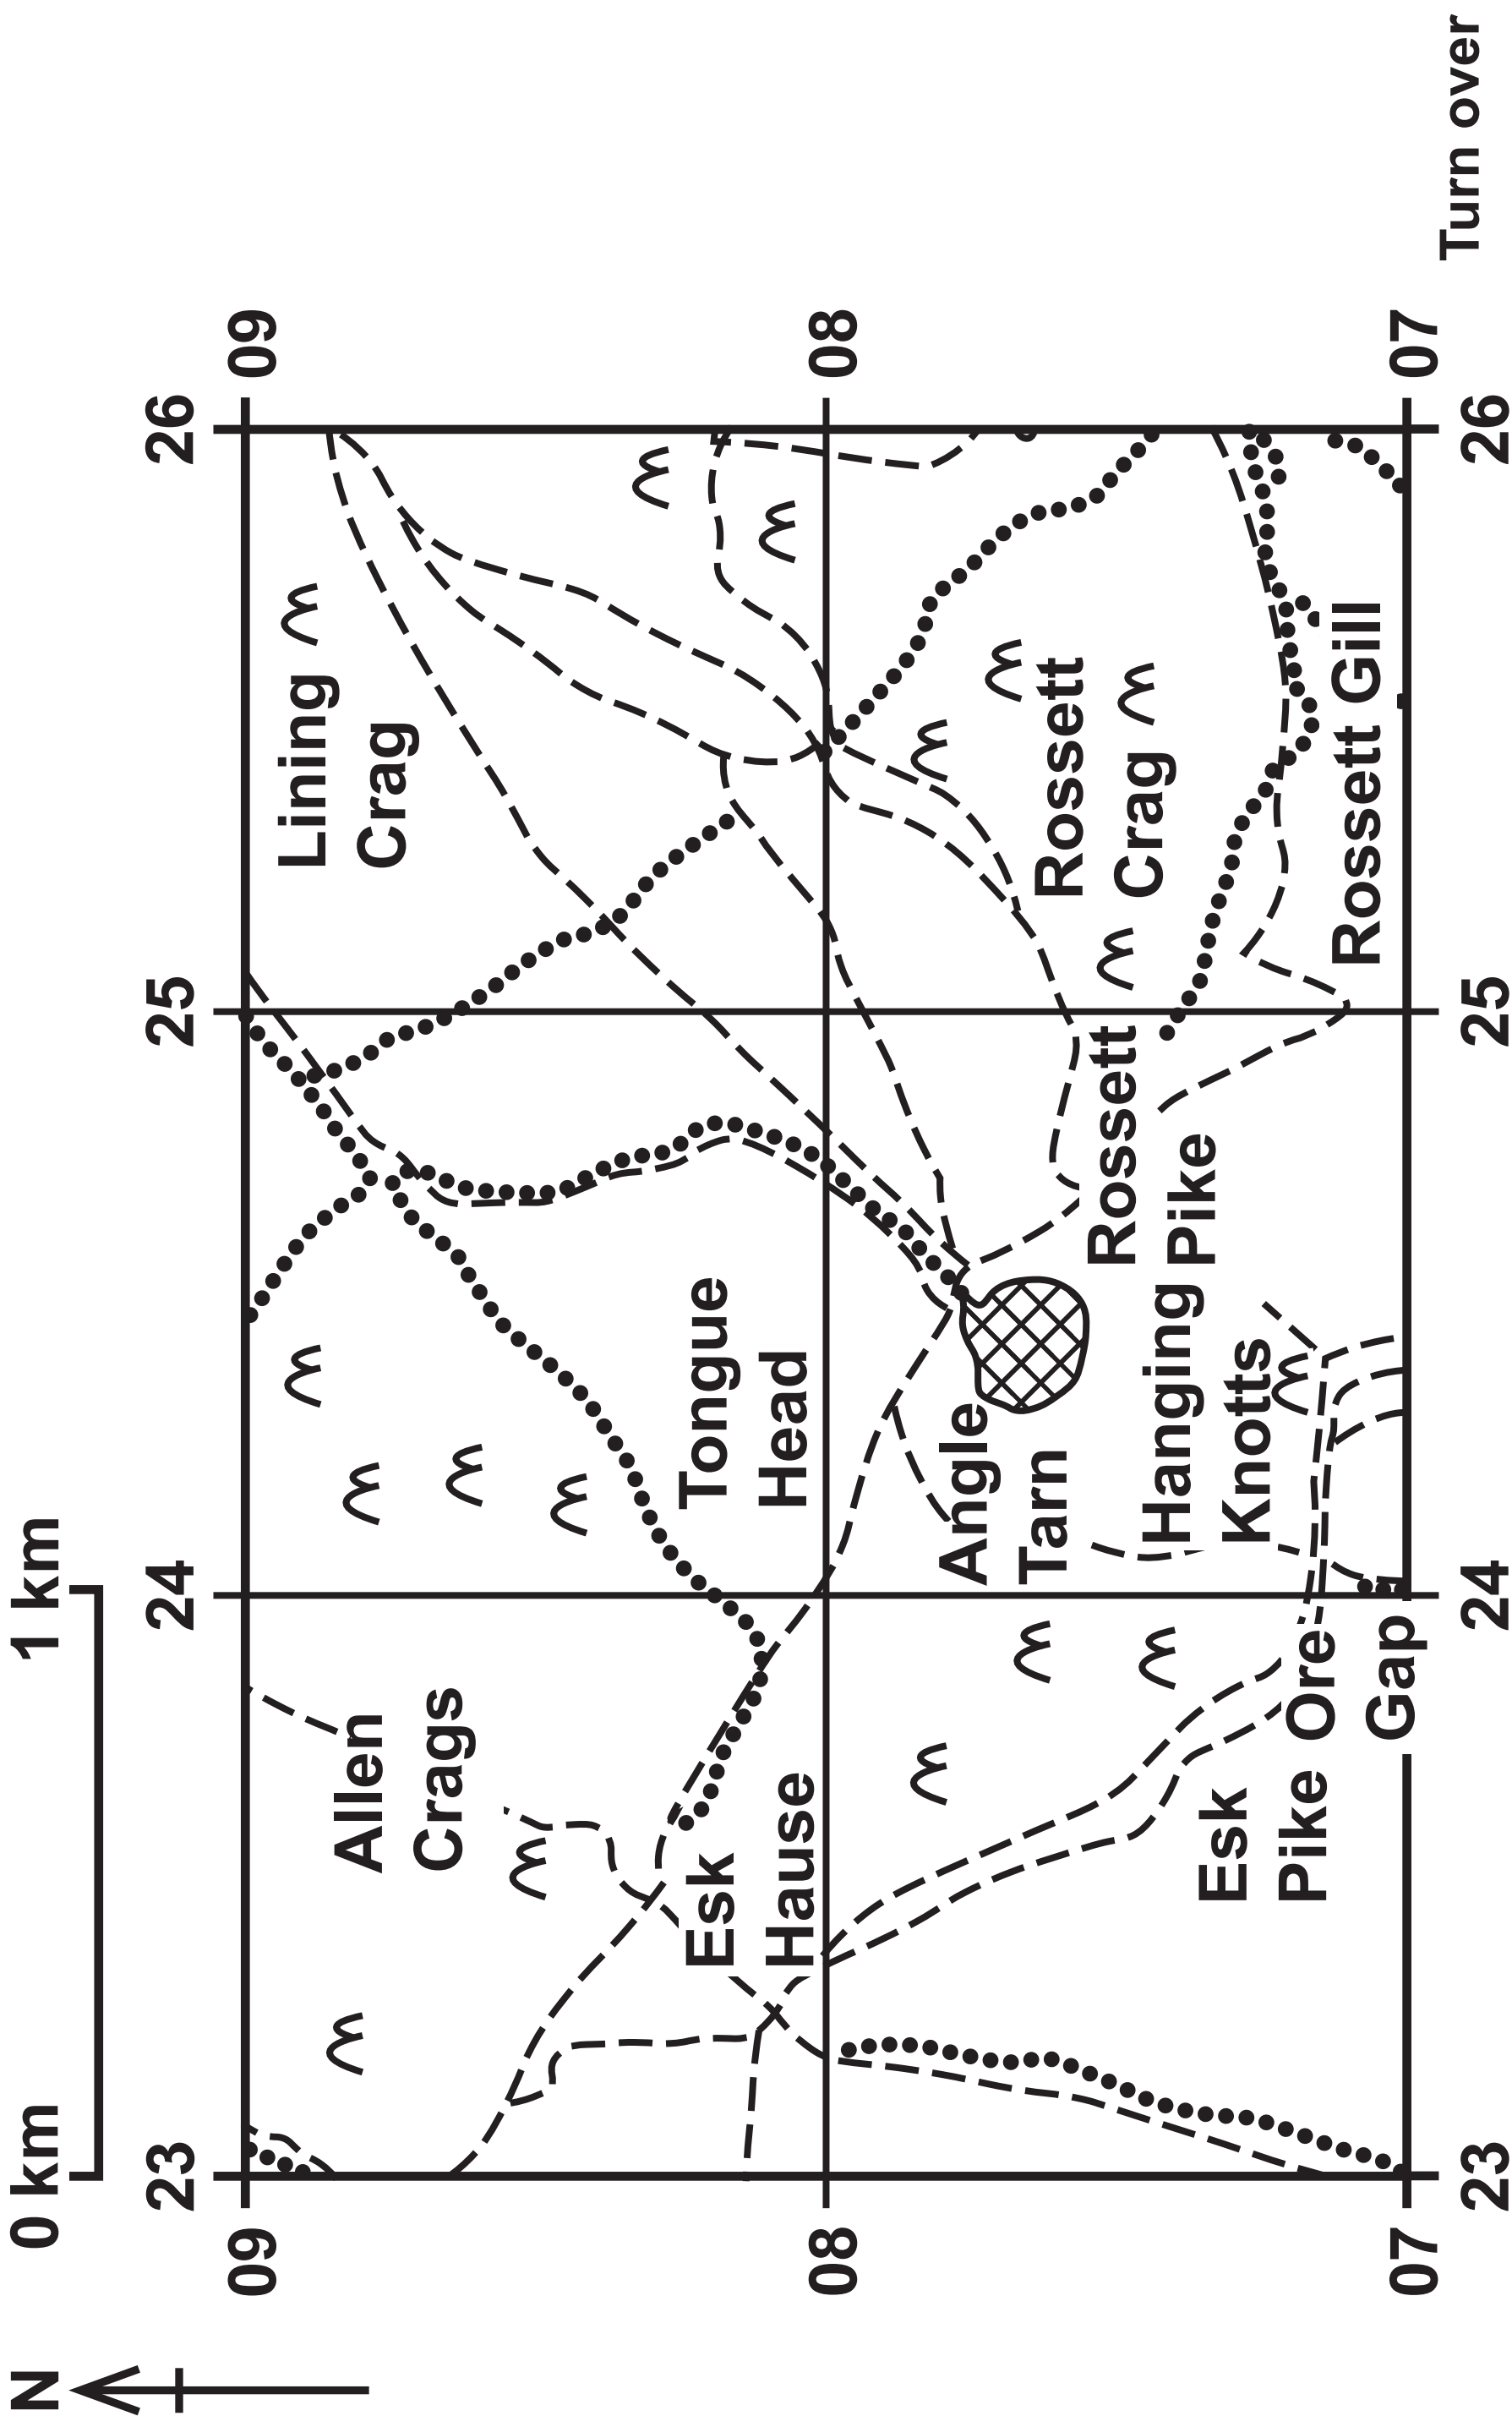

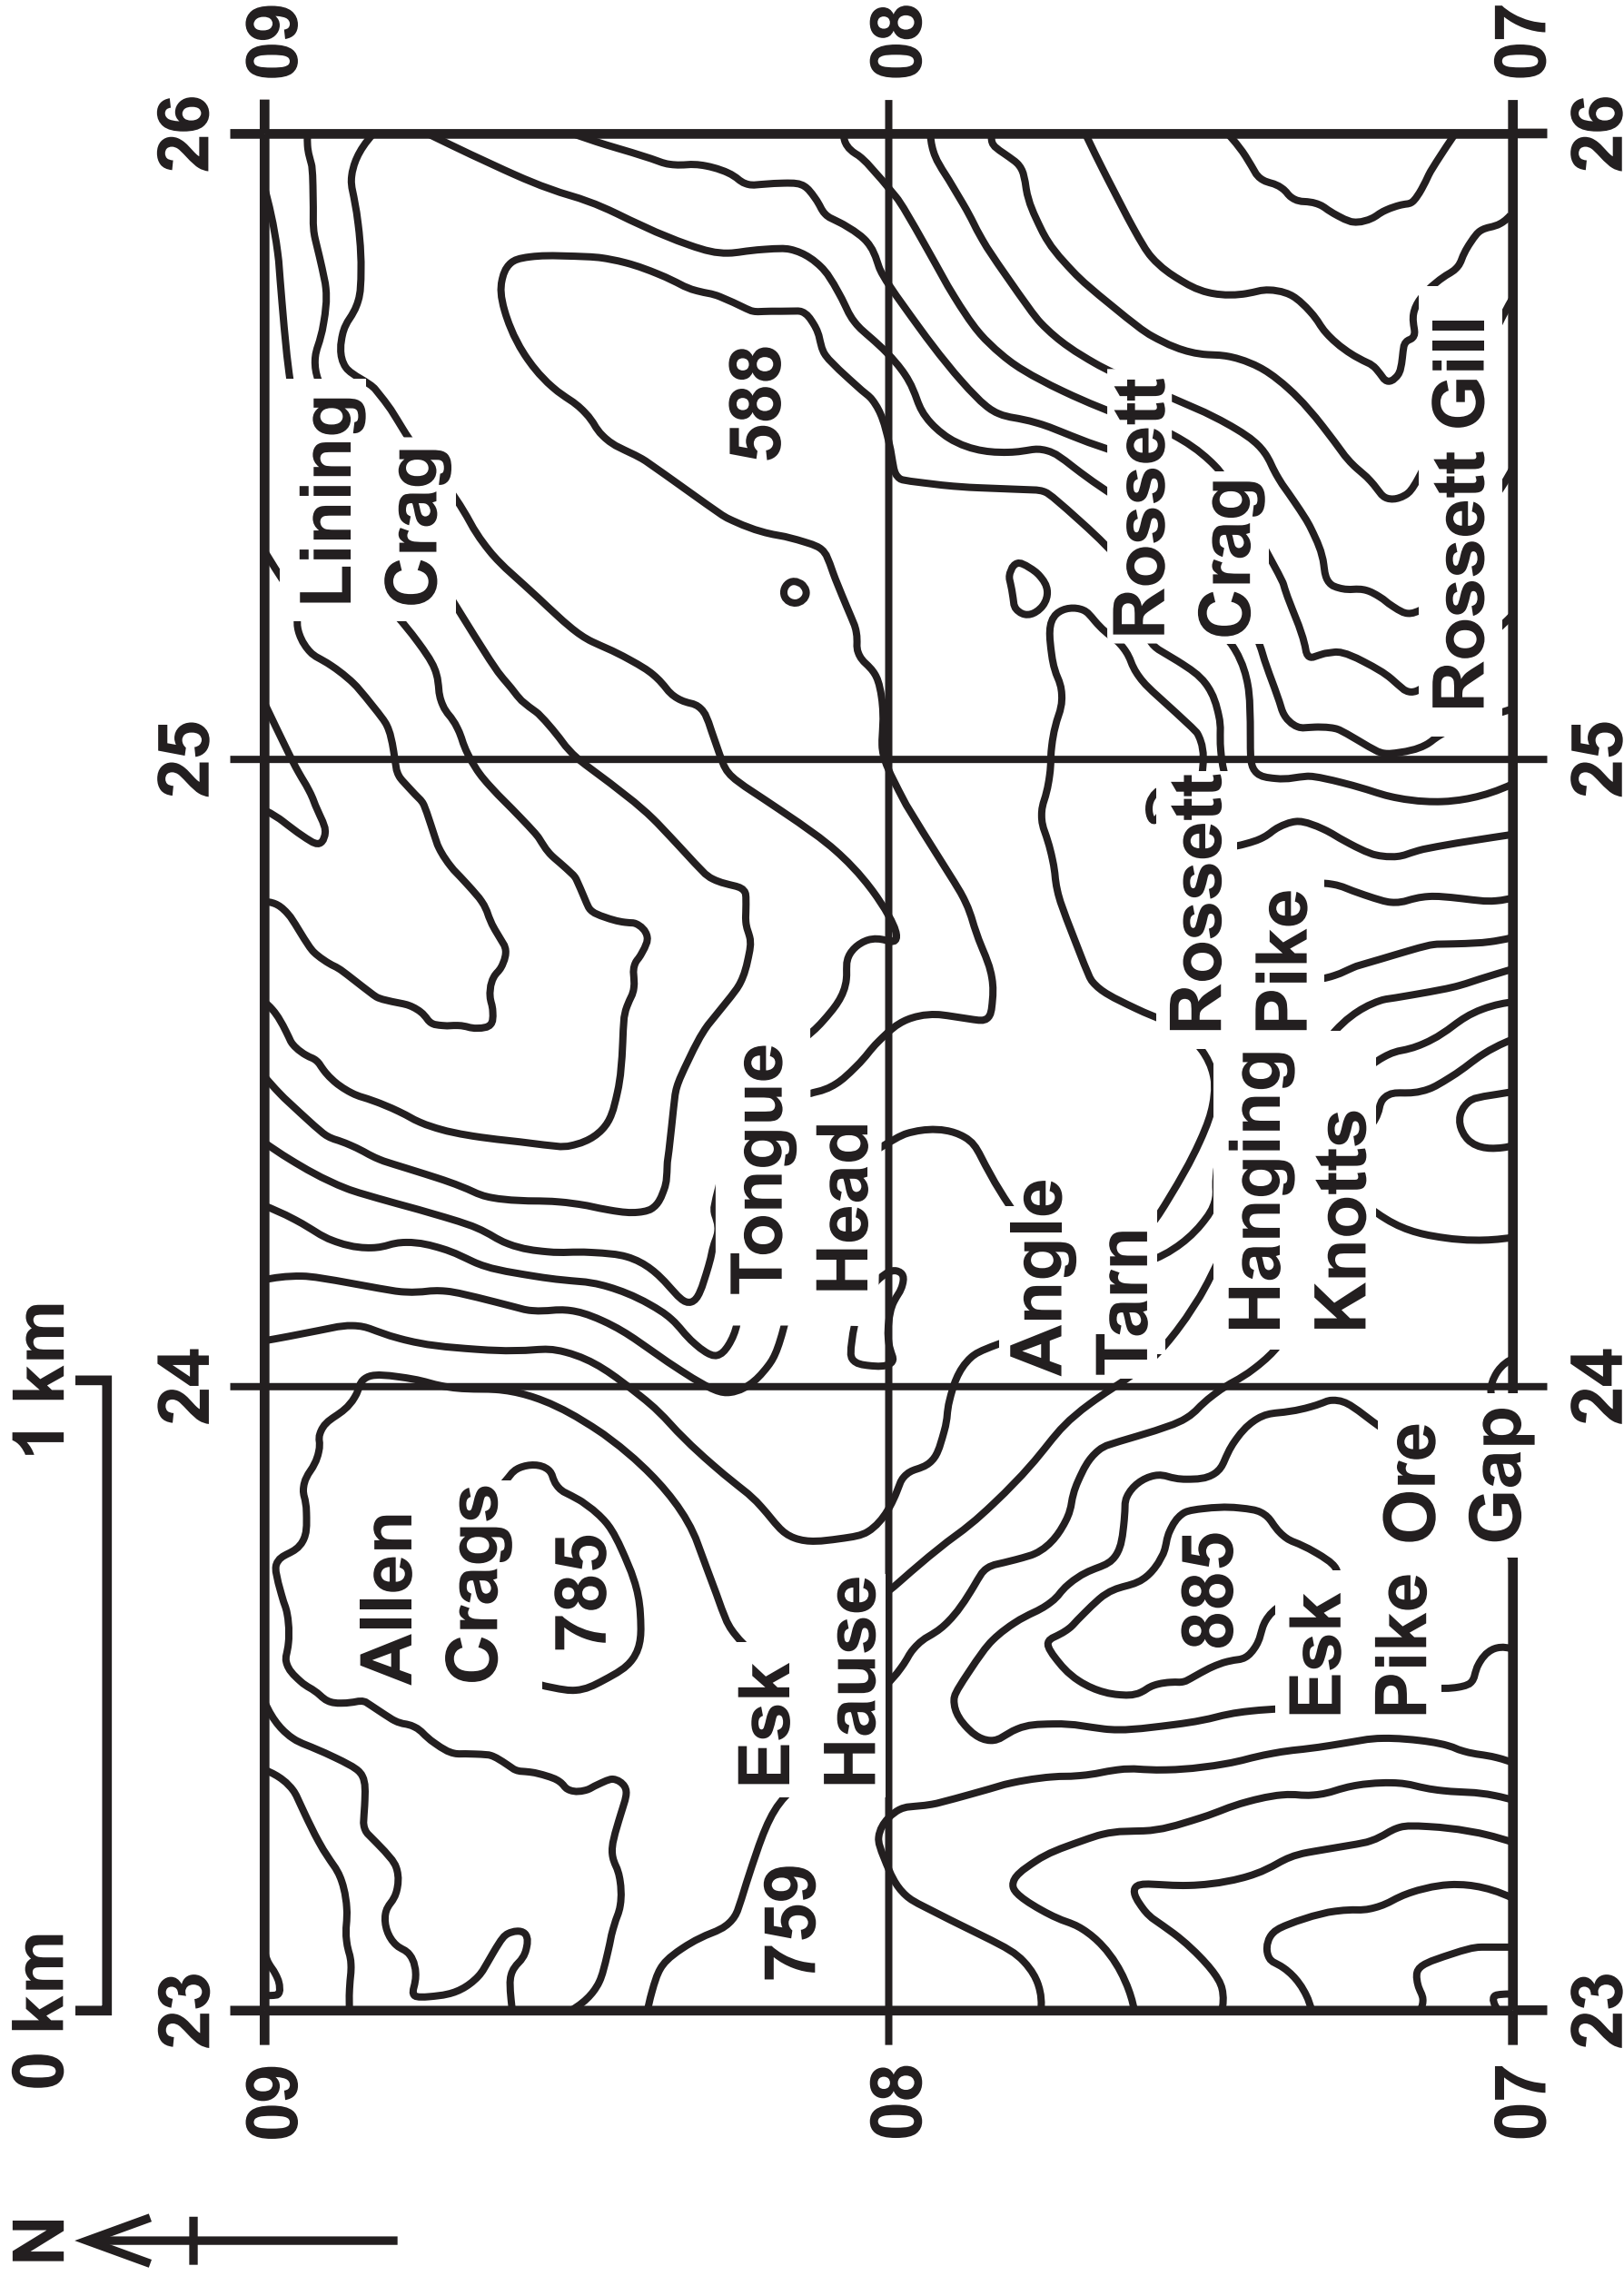

Figure 2b – Diagram (Black and White) – Part 2

A relict upland glaciated landscape in the Lake District, northern England

The following resources relate to Question 3.

Figure 3a – Part 1

Diagram showing an emergent coastline

3D view

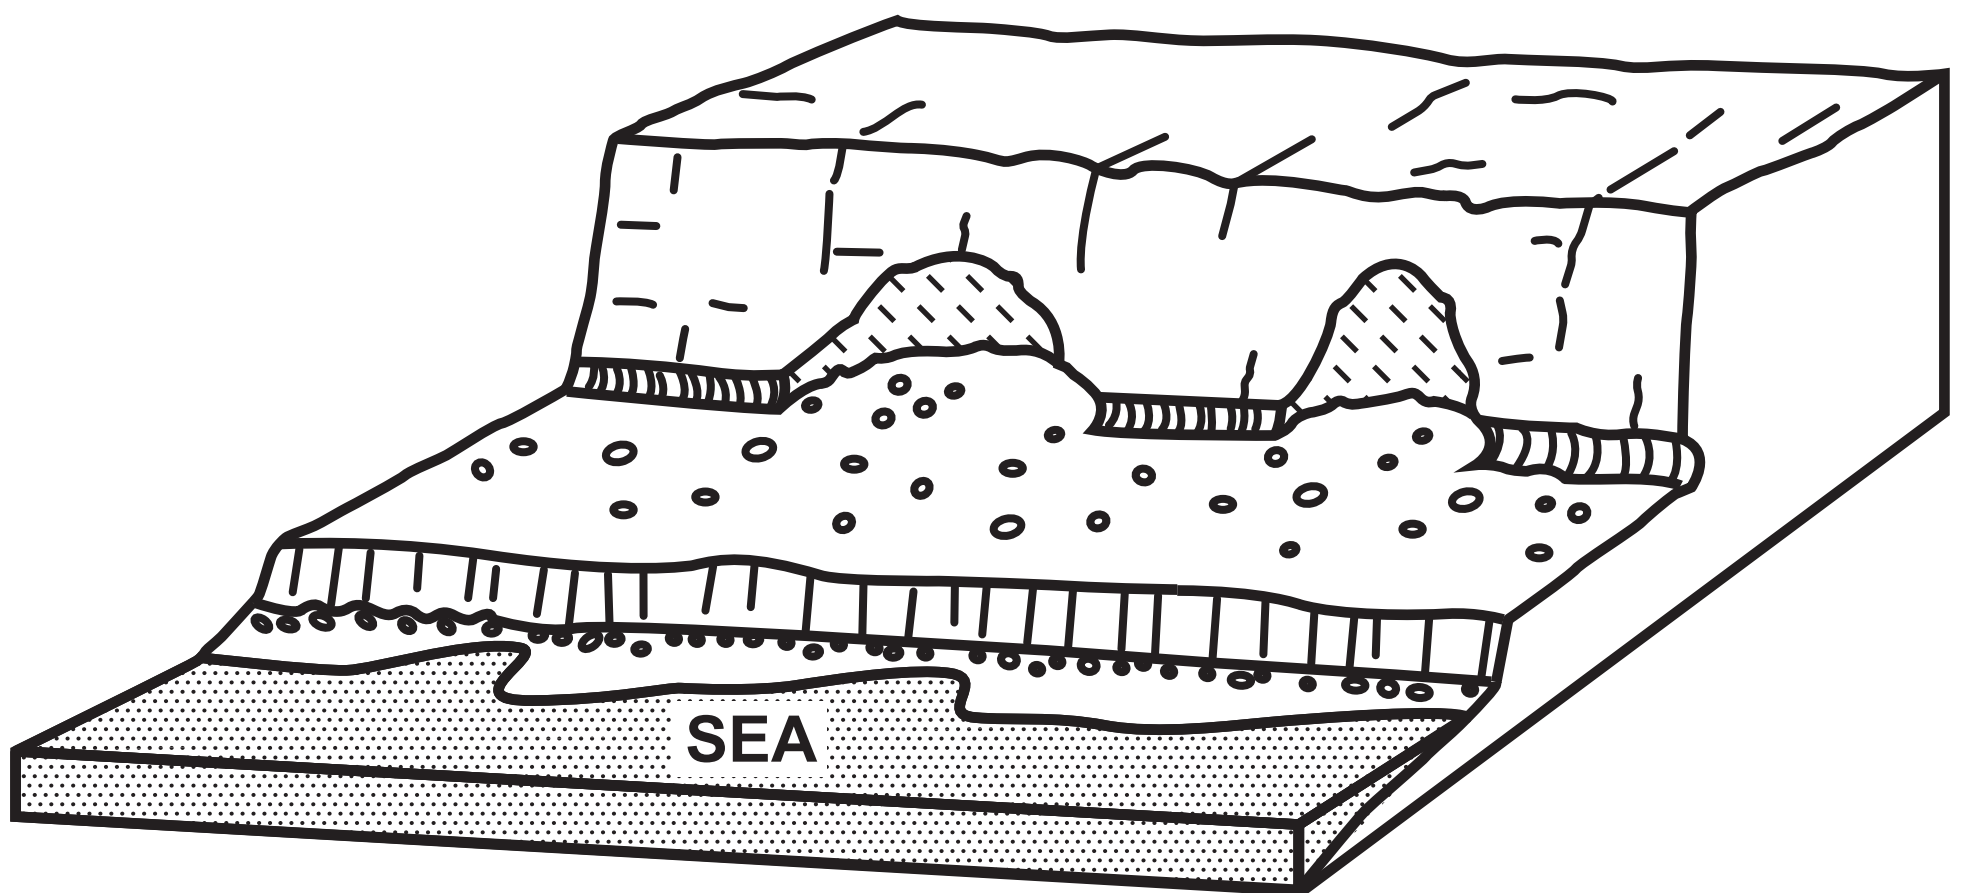

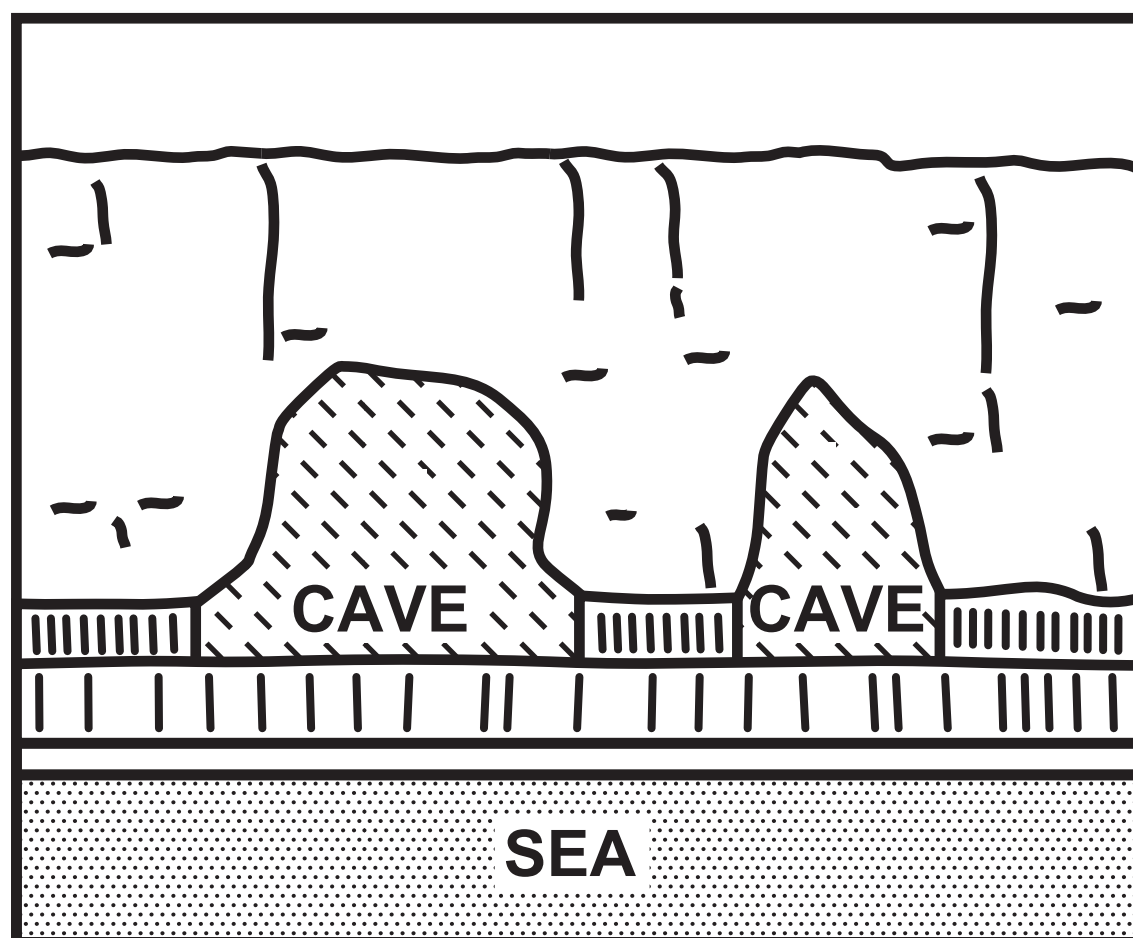

Figure 3a – Part 2

Diagram showing an emergent coastline

Front view

Side view

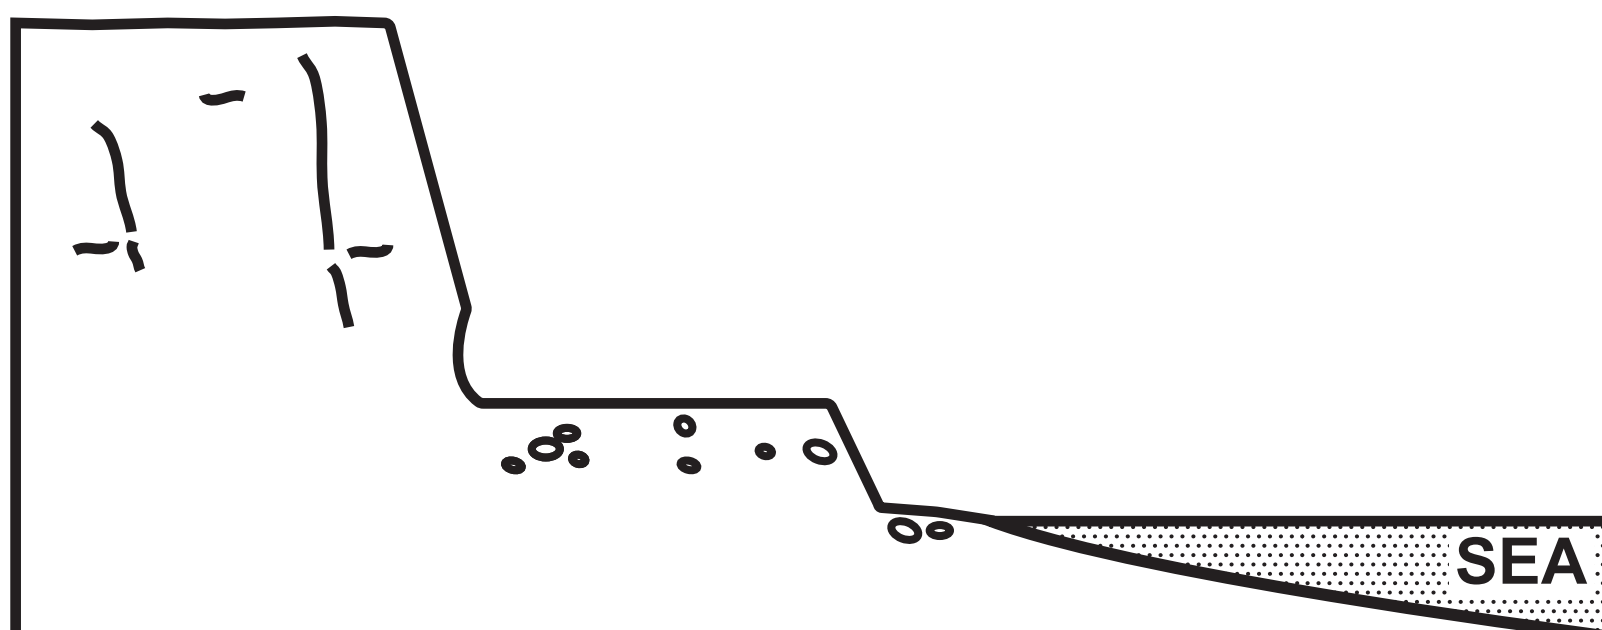

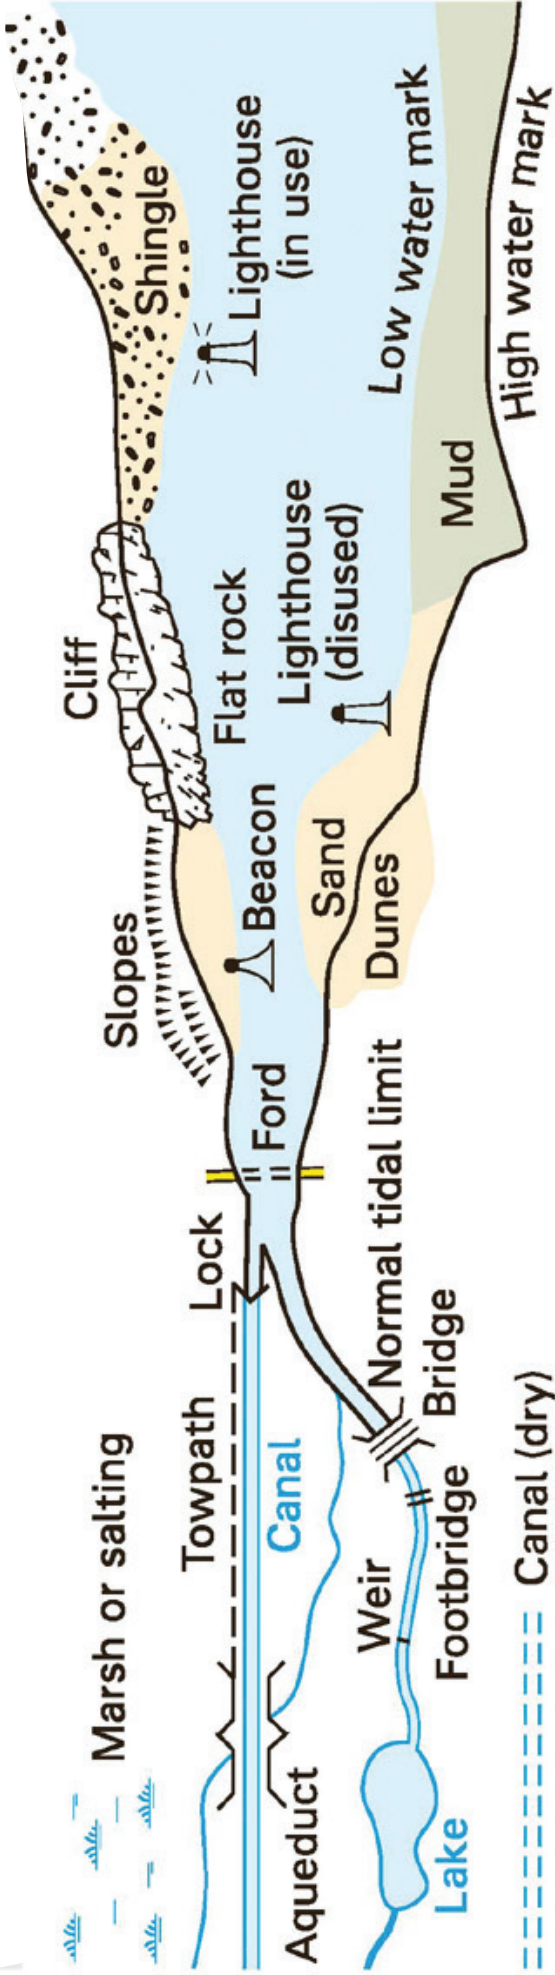

Figure 3b – Key (Colour)

A depositional coastal landscape in southern England

KEY

 National Park

WATER FEATURES

- ◆ National Trail, Scotland’s Great Trails, ◆ Footpath
- European Long Distance Path and selected Recreational Routes

Figure 3b – Diagram (Colour)

A depositional coastal landscape in southern England

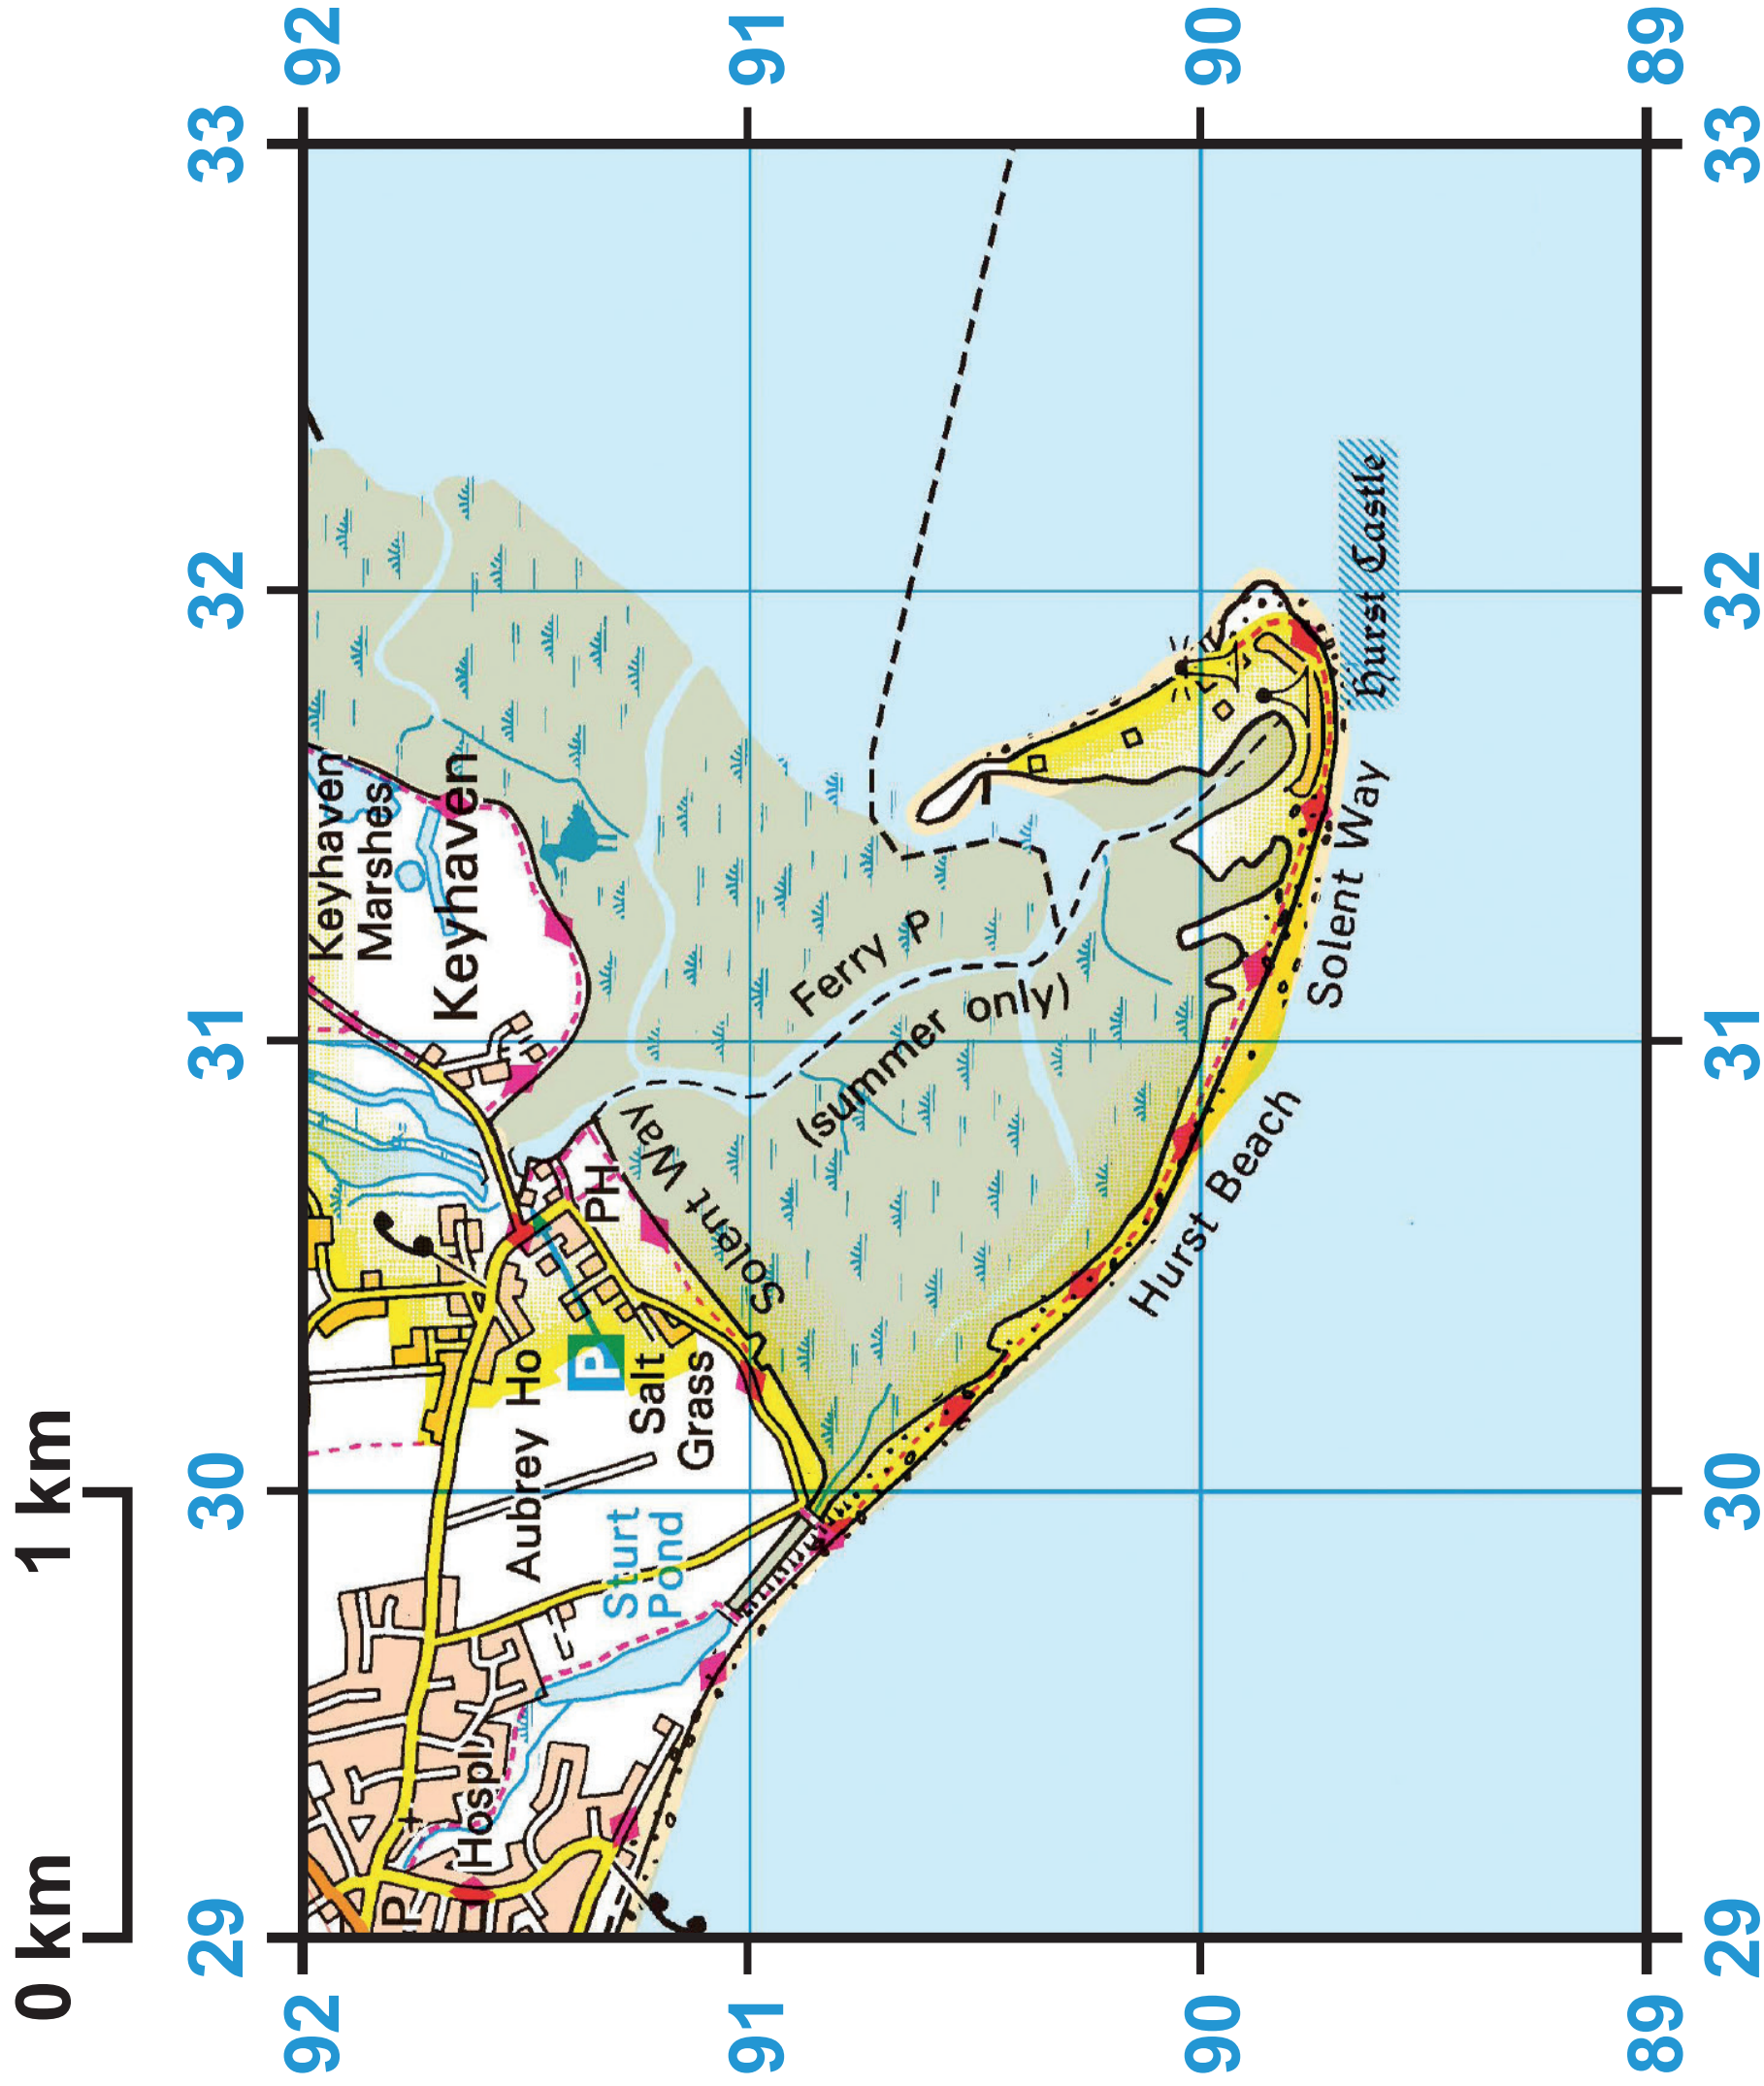

Figure 3b – Key (Black and White)

A depositional coastal landscape in southern England

KEY

 National Park  Buildings

== Road -- Footpath

NR Nature reserve H Hospital

   National Trail, Scotland's Great Trails,
European Long Distance Path and
selected Recreational Routes

WATER FEATURES

 Mud Ferry P (summer only)

 Shingle  Beacon

 Sand  Lighthouse (in use)

 Marsh or salting

Figure 3b – Diagram (Black and White) – Part 1

A depositional coastal landscape in southern England

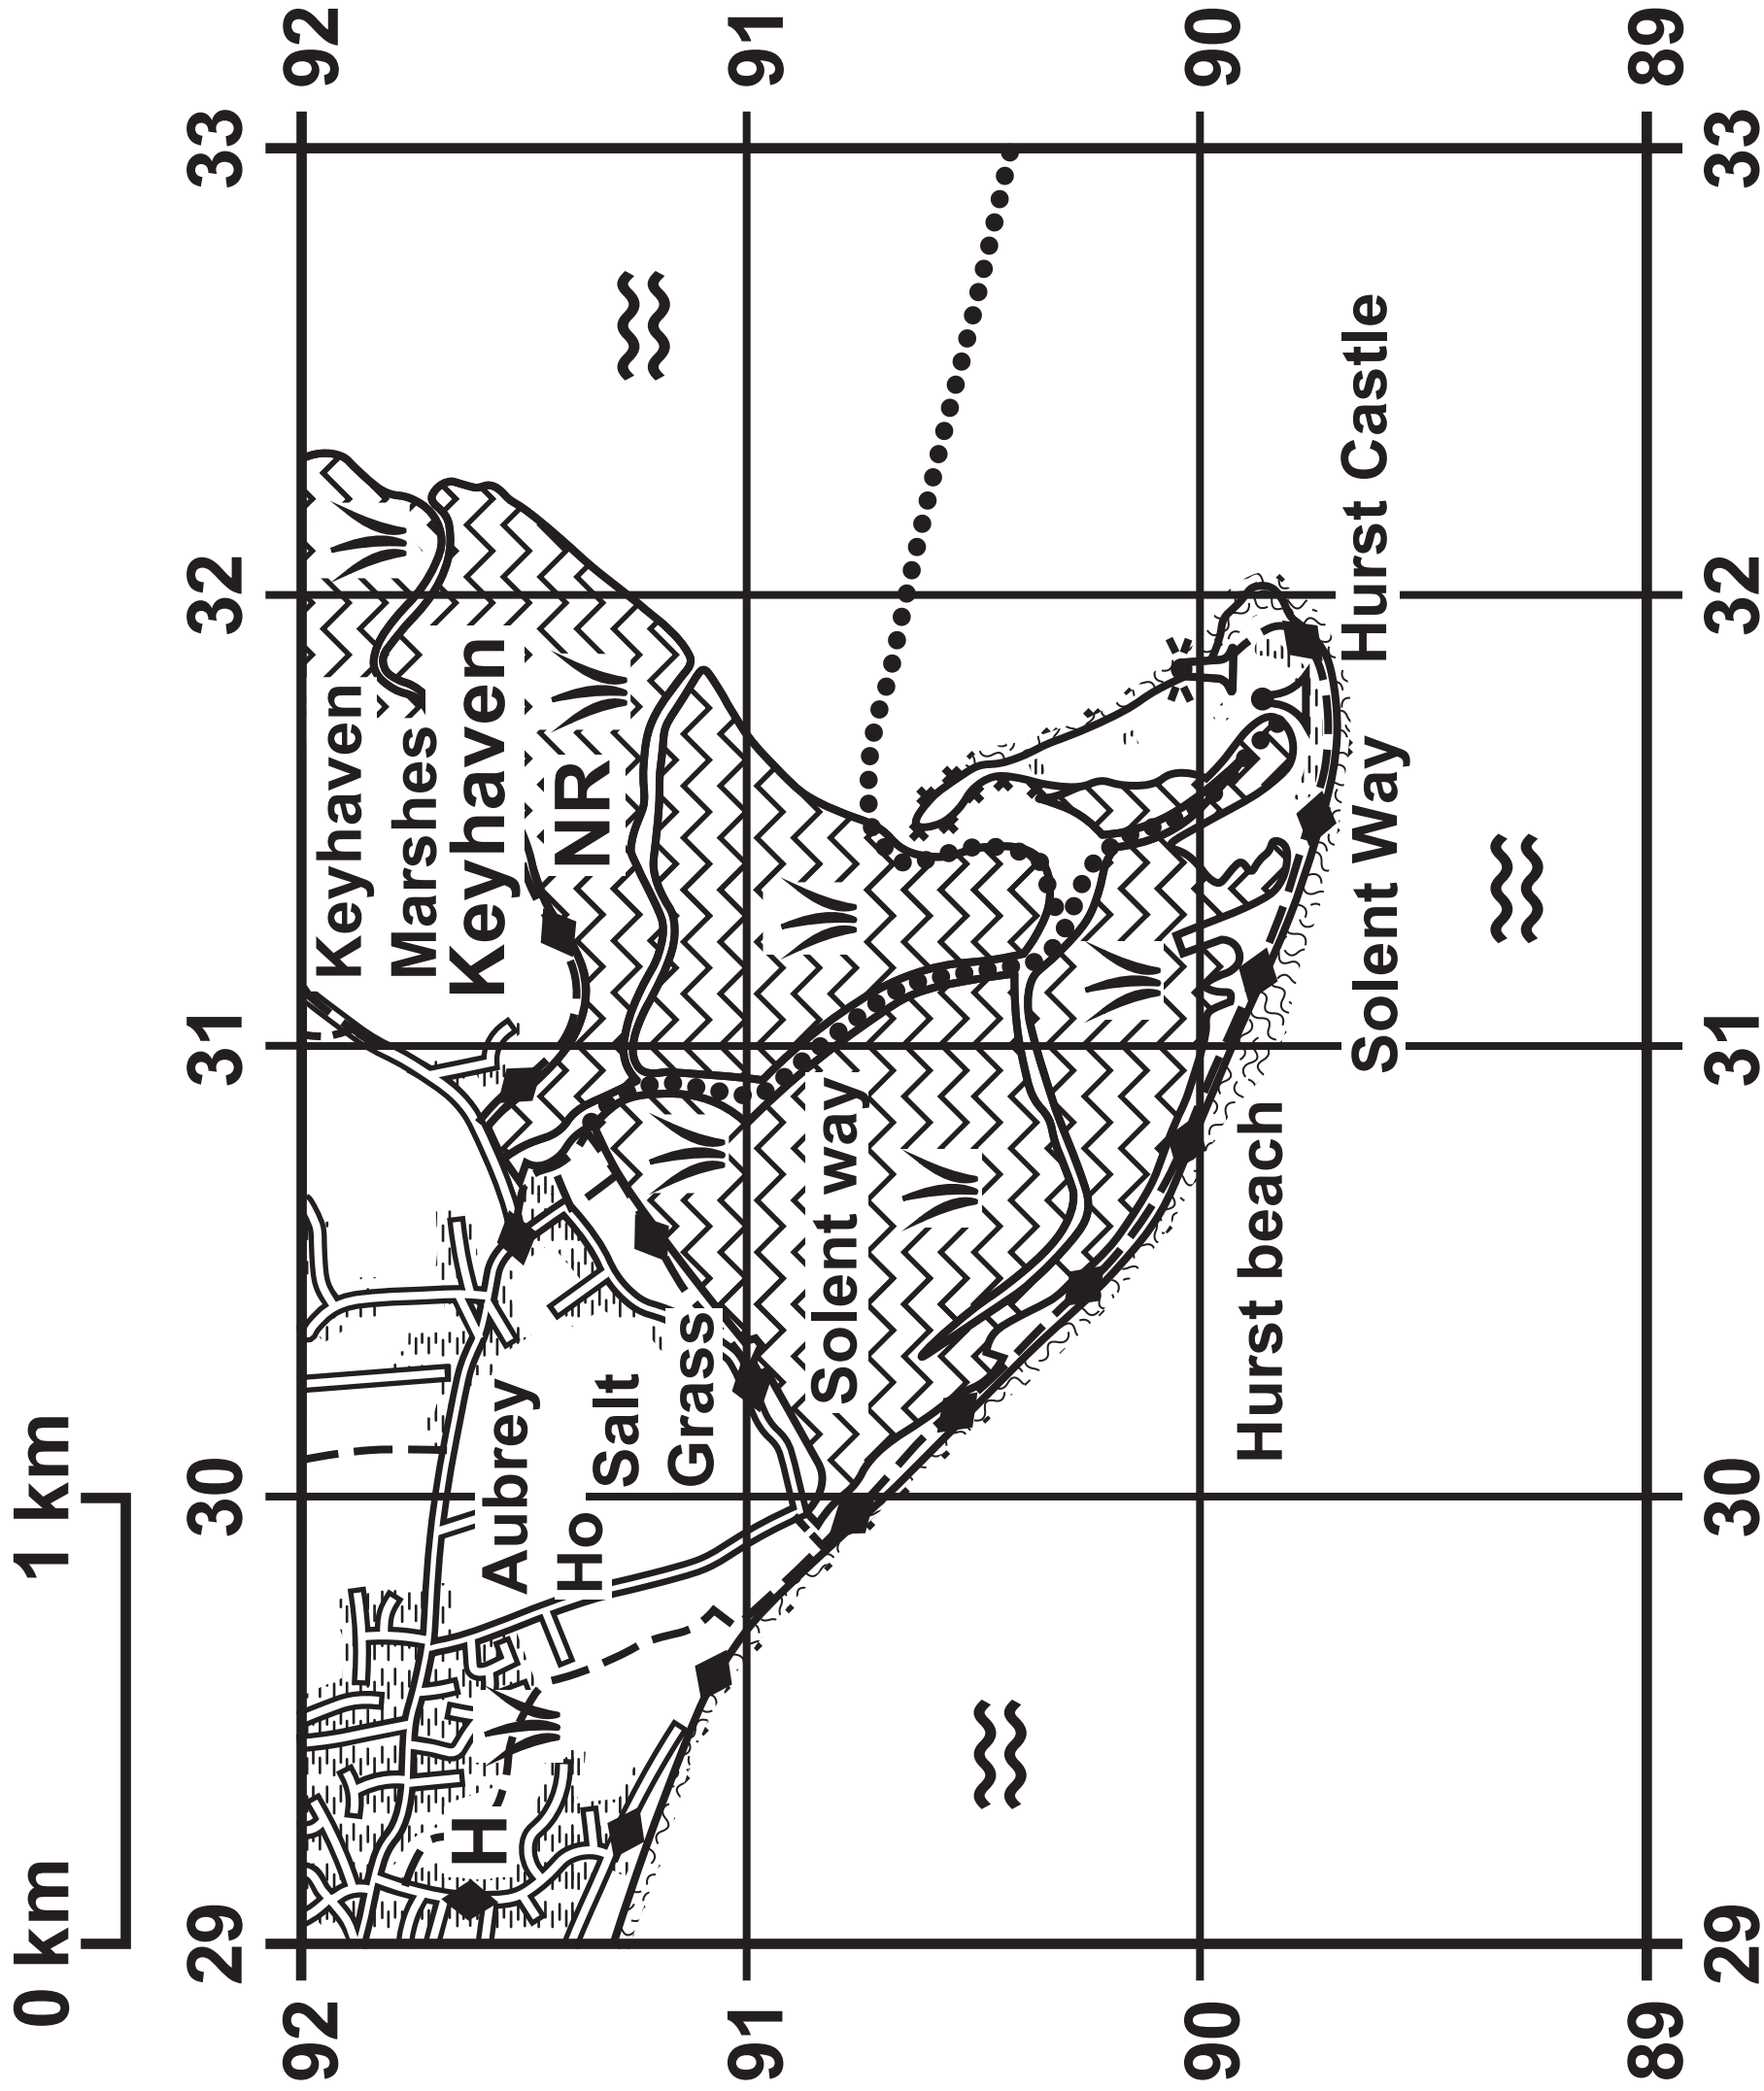

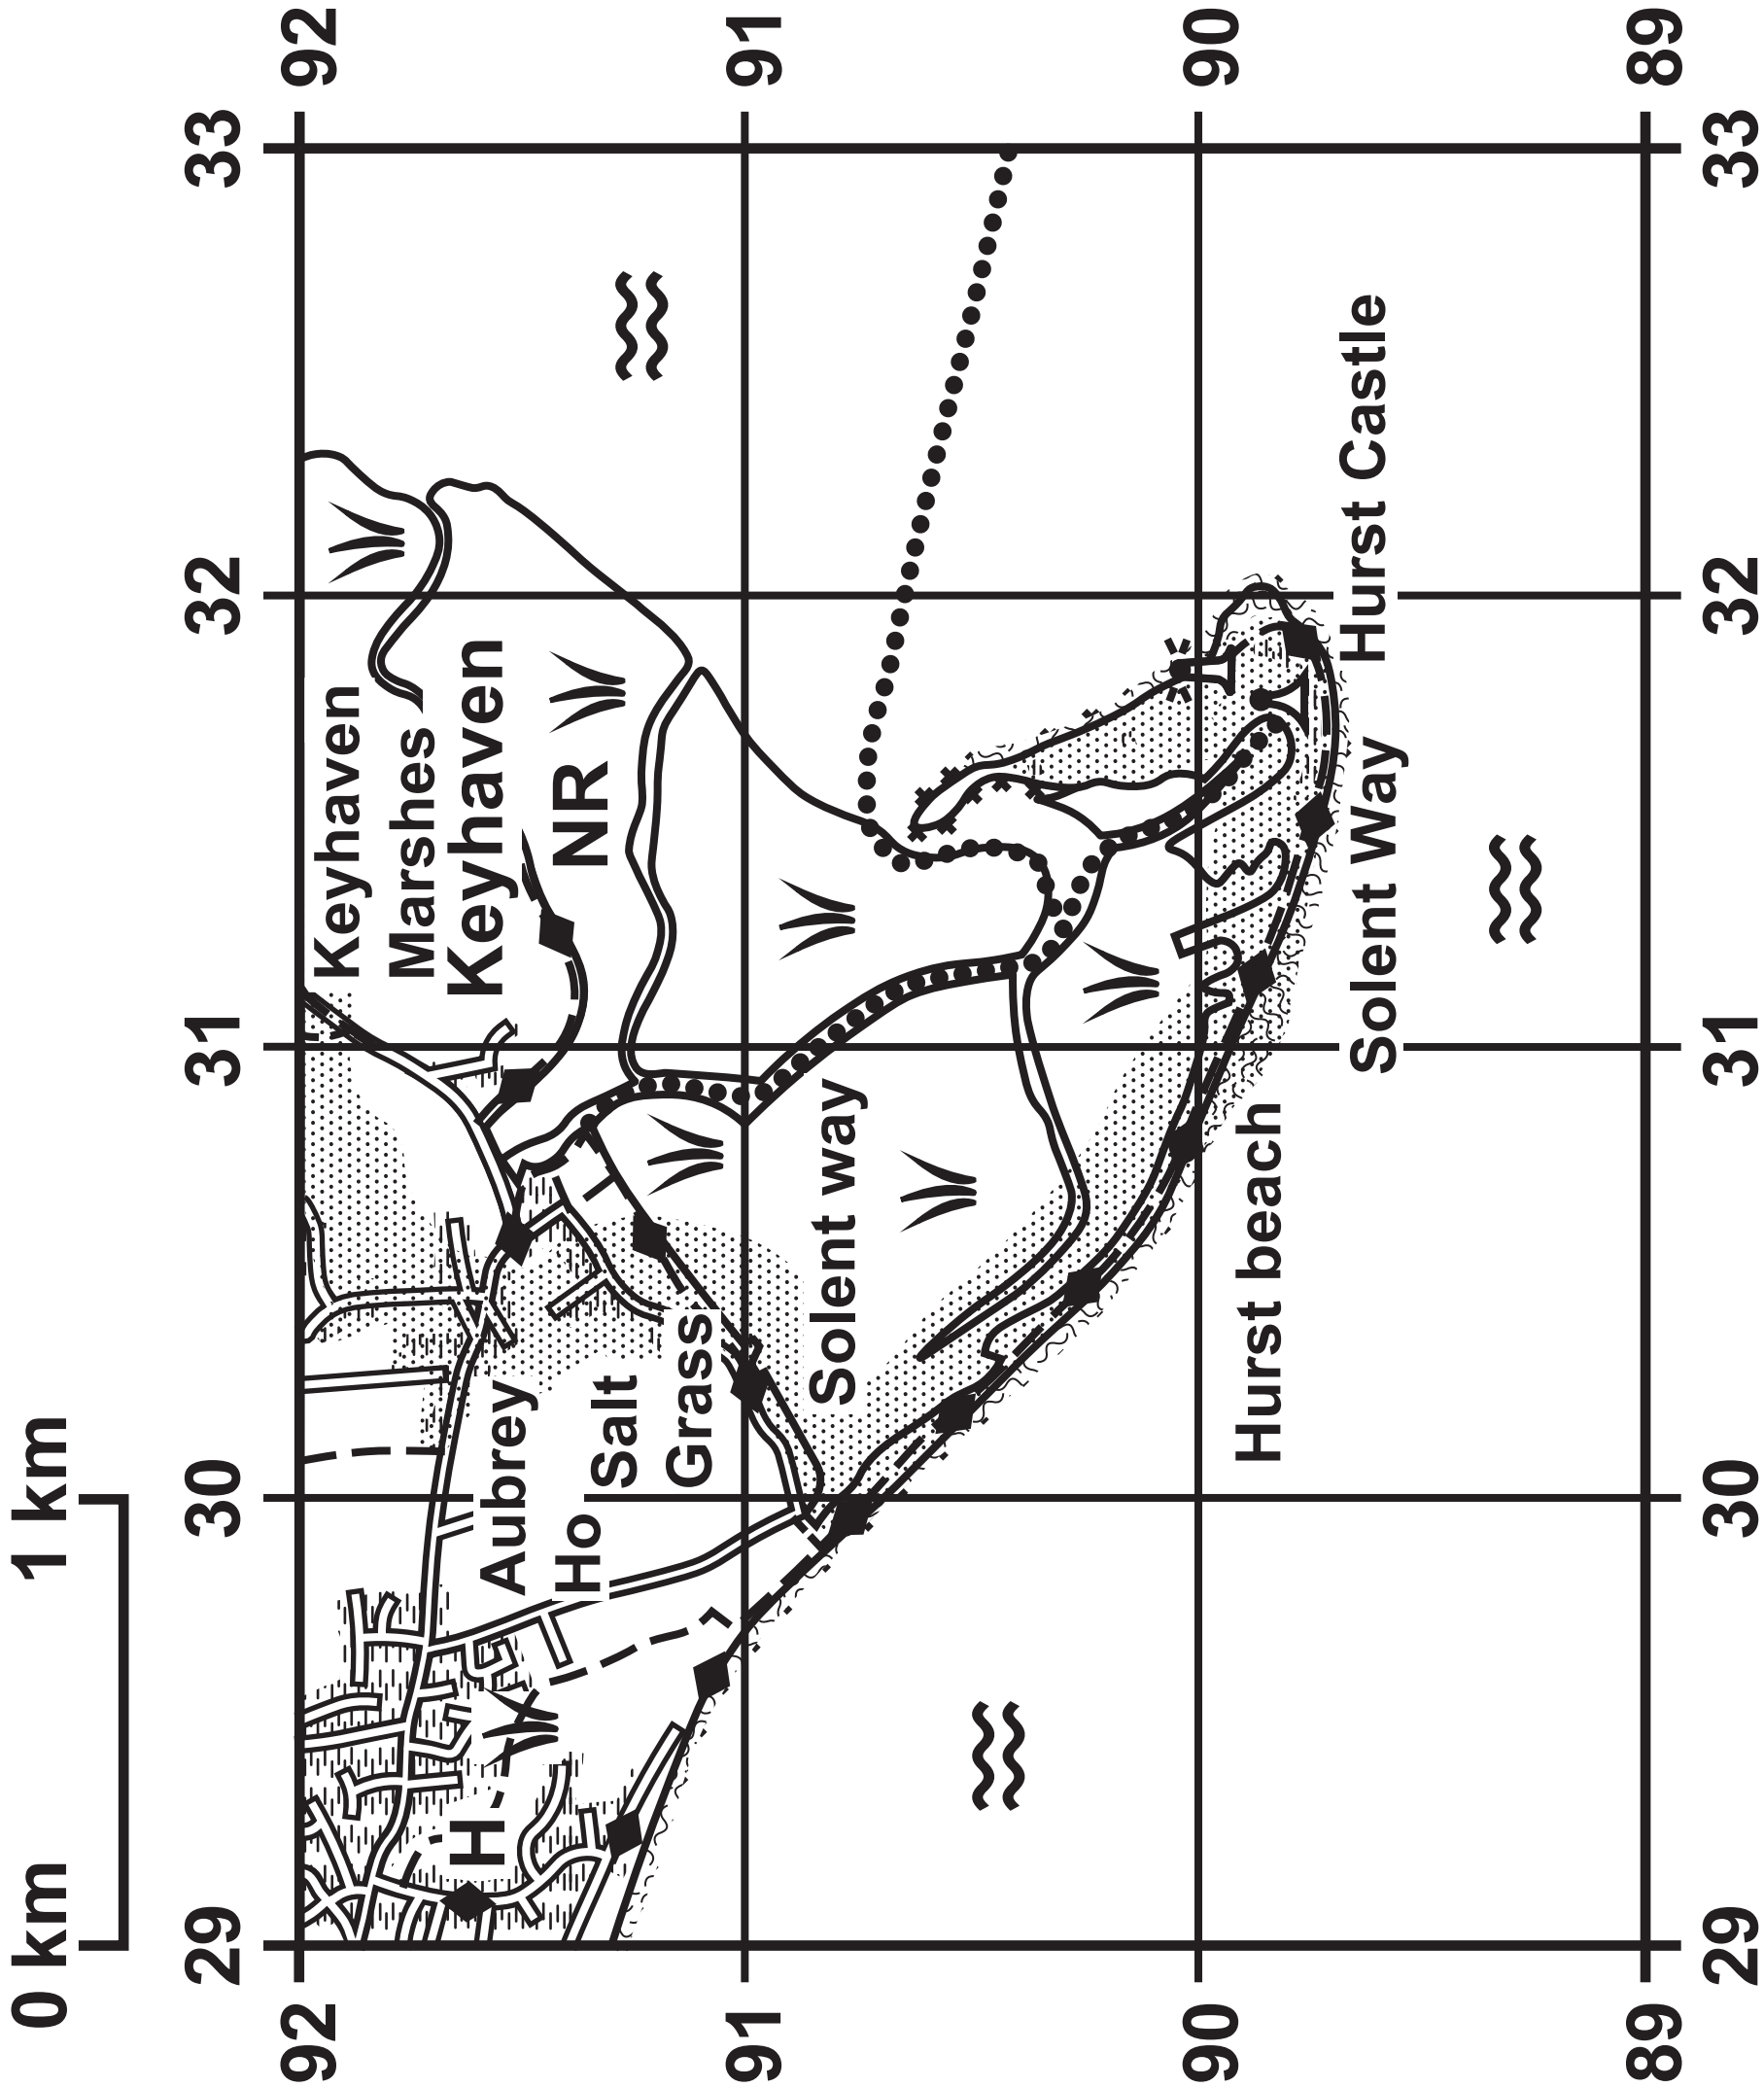

Figure 3b – Diagram (Black and White) – Part 2

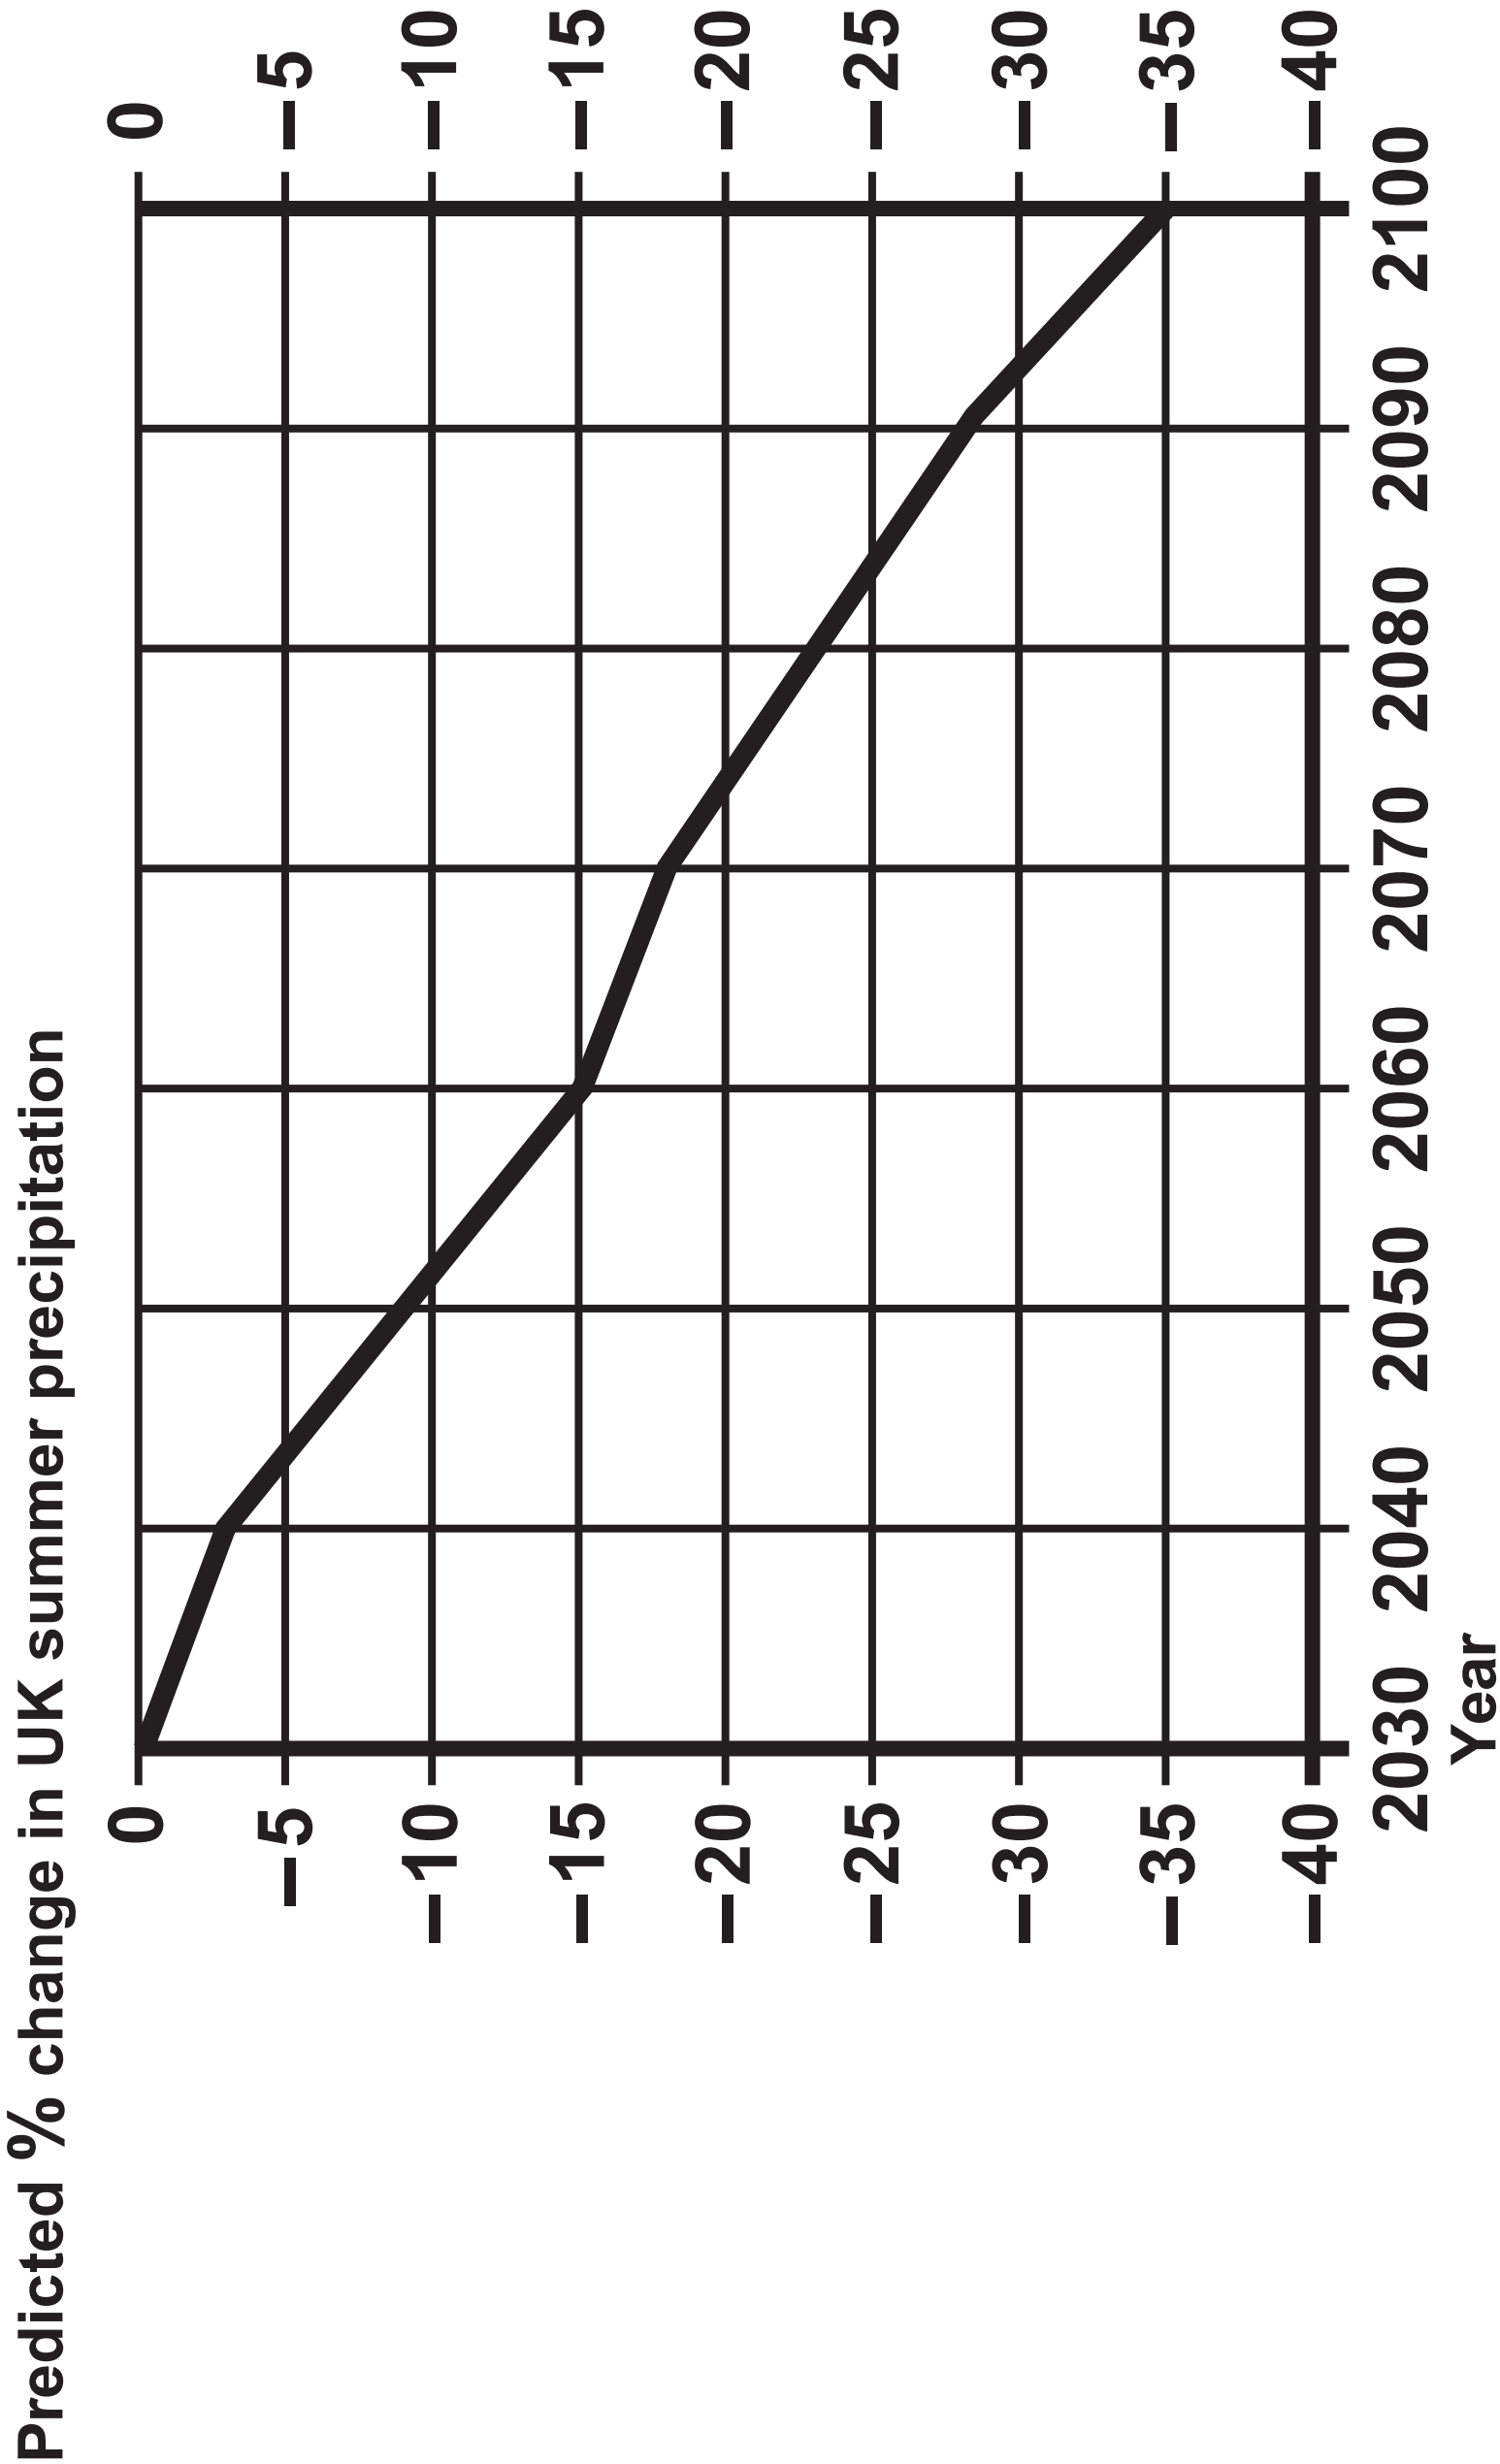

A depositional coastal landscape in southern England

The following resource relates to Question 4a.

Figure 4

Predicted percentage (%) change to UK summer precipitation, 2030–2100
