

## **BTEC Technical – what is new for 2025**

### BTEC Technical

BTEC Technical is Pearson’s leading brand for Technical Occupational Entry Qualifications on the Regulated Qualifications Framework (RQF), and it is funded for both 16-19-year-olds and adults.

These qualifications are grounded in occupational standards developed by employers, focusing on delivering the essential knowledge, skills, and behaviours required for in-demand occupations.

They can be taught through a blend of classroom instruction and work-based learning, with assessment methods that reflect real-world applications.

Our Level 2 BTEC Technical suite includes a range of:

- BTEC Level 2 Technical Occupational Entry Qualifications

### BTEC Level 2 Technical Occupational Entry Qualifications

All our Level 2 BTEC Technical qualifications are funded for both 16-19-year-olds and adults. They offer diverse progression opportunities, including apprenticeships, employment, or further study, such as T Levels or BTEC Level 3 Technical Occupational Entry Qualifications.

In certain cases, our BTEC Technical qualifications also grant users the license to practice and are recognised by relevant regulatory or professional bodies. For specific details, refer to the Qualification Purpose Statement on the specification webpage.

## Who are level 2 BTEC Technical qualifications for?

Level 2 BTEC Technical qualifications are designed for students aged 16-19 and adults who are eager to advance into employment, secure an apprenticeship, or pursue further technical study, like a T Level or Level 3 Technical Occupational Entry Qualification.

These qualifications can be part of a full-time Level 2 Study Programme or taken as a standalone course.

## What will be available for September 2025?

### **BTEC Technical - First Teach 2025**

Starting September 2025, we will offer our first five level 2 BTEC Technical qualifications. The new Lean Manufacturing Operatives qualification, a valuable addition to our Engineering suite, is perfect for students aiming to enter the engineering sector.

Additionally, our three Sport BTEC Technical qualifications and the Early Years Practitioners qualification will replace existing BTEC offerings.

## How do level 2 BTEC Technical qualifications fit into a Level 2 Post-16 Study Programme?

English and Maths	Vocational and Technical Skills	Work Experience and Preparation	Personal Development
<ul style="list-style-type: none"><li>• GCSE</li><li>• Functional Skills</li><li>• ESOL</li></ul>	<ul style="list-style-type: none"><li>• BTEC First</li><li>• BTEC Technical</li></ul>	<ul style="list-style-type: none"><li>• WorkSkills</li><li>• Digital Functional Skills</li></ul>	<ul style="list-style-type: none"><li>• Personal Growth and Wellbeing</li></ul>

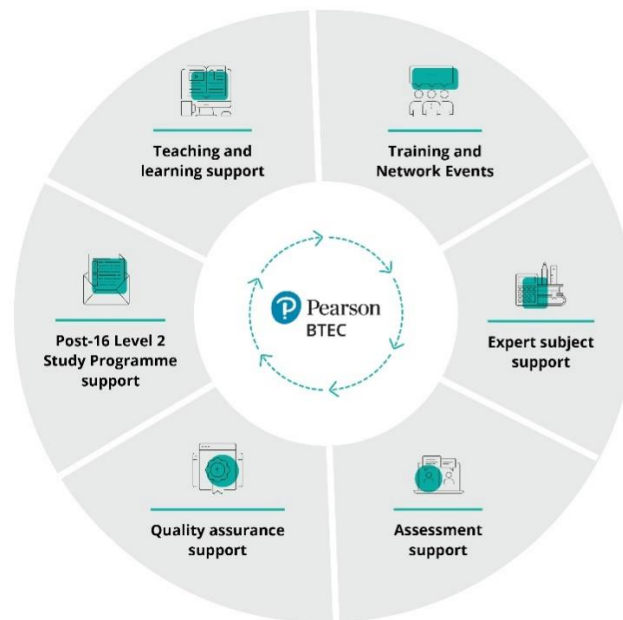

Our Level 2 BTEC Technical qualifications perfectly complement your Post-16 Level 2 Study Programme. Pearson equips you with all the resources needed to tailor the program to fit the unique needs of each student.

### Key fundamentals

- Authorised Assignment Briefs to enhance your assessment process.
- 100% internally assessed units, allowing students to apply their knowledge and showcase their skills.
- Opportunities for work placements to support hands-on, industry-based learning and skill development.
- Accreditation from regulatory or professional bodies, where applicable.

## What about support and guidance?
