Dear James

**Letter of support for the Pearson BTEC Level 2 Technical Diploma in Engineering**

As an employer in the sector, we recognise the following qualification as being fit for purpose:

*Pearson BTEC Level 2 Technical Diploma in Engineering*

The qualification will support learners to progress to employment within a range of job roles across the industry, for example:

SOC Code 8119 - Process operatives nec  
SOC Code 8139 - Assemblers and routine operatives nec  
SOC Code 8111 - Food, drink and tobacco process operatives  
SOC Code 8117 - Metal making and treating process operatives  
SOC Code 8125 - Metal working machine operatives

For such roles, we believe that the structure of the qualification provides an appropriate level of knowledge and skills, meeting the needs of the business and the individual, ensuring employees are appropriately skilled for the job and able to deliver to the standard that the sector expects. We believe also that the assessment methods for each unit is suitable for the assessment of the unit content.

The qualification will also support the individual, should they chose to progress in to further training.

We are happy for Pearson to use this letter in support of its work with government and its agencies, to ensure that this invaluable qualification can continue to be recognised for college performance tables and 19+ funding.

Yours sincerely,

Jenna Wells  
HR Advisor
