## Comparing unit content

**BTEC Level 2 Technical Diploma in Floristry**  
**BTEC First in Floristry (QCF – 2010)**

## Introduction to BTEC Level 2 Technical Diploma in Floristry

This document maps the content of the new BTEC Level 2 Tech Diploma in Floristry (RQF), shown in the left-hand column, against the content of the current BTEC First in Floristry (QCF – 2010) in the right-hand column.

This mapping will help you transition from one specification to the other by highlighting where there are changes in content, particularly where there is new content which will need to be delivered to help your learners prepare for the new assessment.

**In order to make the table easy to use and to demonstrate new content we have used a ‘traffic lights’ colour scheme as follows**

**GREEN** - covered. In this case the content in the Level 2 Technical is very close indeed to the existing BTEC First in Floristry (QCF – 2010). In the right-hand column, the title of the relevant unit and learning outcome (LO) is identified.

**YELLOW** - partially covered. In this case the content is partially covered, perhaps in learning outcomes in more than one unit from the BTEC First in Floristry QCF – 2010). Where there is some additional knowledge, this is stated in the left-hand column under the heading **NEW CONTENT**

**RED** - not covered. In this case the content in the BTEC L2 Technical is new. It will appear in the left-hand column so you can see immediately what you will need to teach.

## **Purpose of the qualification:**

This qualification, which is 360 GLH, is for you if you want to start a career in agriculture. It is designed for post-16 students and can be taken as part of a wider study programme. It is an ideal qualification if you are intending to progress directly to employment within agriculture, or to an agriculture apprenticeship.

This qualification has been developed in consultation with employers in the floristry sector. This means that it will enable you to learn the skills and behaviours that give you the best opportunity to be successful in applying for work.

All the content in this qualification is mandatory and relates directly to the skills, knowledge and behaviours expected by employers in the floristry sector.

The areas you will cover include:

- identification and care of cut flowers, foliage and plants
- health and safety working practices within the floristry industry
- work experience in the floristry industry
- construction of hand-tied floristry designs
- construction of wired and glued designs
- construction of designs in a medium
- responding to a floristry brief.

You will also cover broader skills in literacy and numeracy, which will help you to progress. You will develop other transferable technical and practical skills in communication (working with colleagues, customers and clients), and research and project work, giving you with the opportunity to show your reflective practice by suggesting alternative approaches to solving a problem.

<b>Unit 1 – Identification and Care of Cut Flowers, Foliage and Plants</b>	
<b>Learning Aims</b>	
<b>A</b> Explore cut flowers, foliage and plants used in commercial floristry	
<b>B</b> Demonstrate receiving, checking and conditioning of cut flowers, foliage and plants	
<b>C</b> Demonstrate care and storage routines for cut flowers, foliage and plants	
<b>Unit Content</b>	
<b>Knowledge and sector skills</b>	
<b>Learning aim A</b> Explore cut flowers, foliage and plants used in commercial floristry	
<b>A1</b> Cut flowers and foliage used in commercial floristry	<b>Unit 11: Identify, Check and Monitor the Quality of Incoming Cut Materials</b> <b>LO1</b> Be able to identify incoming cut materials <b>LO2</b> Understand the conditioning and monitoring process <b>LO3</b> Be able to condition incoming cut materials <b>LO4</b> Be able to monitor and control the quality of cut materials <b>LO5</b> Know how to check incoming cut materials for problems.

**A2** Common plants used in commercial floristry

**Unit 12: Identify and Maintain the Condition of Plants and Planted Designs**

- LO1** Be able to identify plants, pests and diseases
- LO2** Know the functions of plants
- LO3** Be able to maintain the condition of plants and planted designs
- LO4** Understand stock rotation

**Learning aim B** Demonstrate receiving, checking and conditioning of cut flowers, foliage and plants

**B1** Receiving and checking flowers, foliage and plants

**Unit 11: Identify, Check and Monitor the Quality of Incoming Cut Materials**

- LO1** Be able to identify incoming cut materials
- LO2** Understand the conditioning and monitoring process
- LO3** Be able to condition incoming cut materials
- LO4** Be able to monitor and control the quality of cut materials
- LO5** Know how to check incoming cut materials for problems.

**LO4** Understand how to evaluate tied floristry designs.

**Unit 8: Plan, Prepare and Construct Floral Arrangements**

**LO1** Be able to plan, prepare and cost construction of floral arrangements

**LO2** Know how to plan, prepare and assemble tied floristry designs

**LO3** Be able to construct floral arrangements

**LO4** Understand how to evaluate constructed floral arrangements.

**Unit 9: Plan, Prepare and Construct Wedding Designs with Floral Materials**

**LO1** Be able to plan, prepare and cost the construction of wedding designs

**LO2** Know how to plan, prepare and construct wedding designs

**LO3** Be able to construct wedding designs

**LO4** Understand how to evaluate constructed wedding designs.

**Unit 10: Plan, Prepare and Construct Funeral Designs**

**LO1** Be able to plan, prepare and cost the construction of funeral designs

**LO2** Know how to plan, prepare and construct funeral designs

**LO3** Be able to construct funeral designs

**LO4** Understand how to evaluate constructed funeral designs.

**B2 Design in medium techniques**

**Unit 7: Plan, Prepare and Construct Tied Floristry Designs**

- LO1** Be able to plan, prepare and cost the assembly of tied floristry designs
- LO2** Know how to plan, prepare and assemble tied floristry designs
- LO3** Be able to assemble and maintain tied floristry designs
- LO4** Understand how to evaluate tied floristry designs.

**Unit 8: Plan, Prepare and Construct Floral Arrangements**

- LO1** Be able to plan, prepare and cost construction of floral arrangements
- LO2** Know how to plan, prepare and assemble tied floristry designs
- LO3** Be able to construct floral arrangements
- LO4** Understand how to evaluate constructed floral arrangements.

**Unit 9: Plan, Prepare and Construct Wedding Designs with Floral Materials**

- LO1** Be able to plan, prepare and cost the construction of wedding designs
- LO2** Know how to plan, prepare and construct wedding designs
- LO3** Be able to construct wedding designs
- LO4** Understand how to evaluate constructed wedding designs.

**Unit 10: Plan, Prepare and Construct Funeral Designs**

- LO1** Be able to plan, prepare and cost the construction of funeral designs
- LO2** Know how to plan, prepare and construct funeral designs
- LO3** Be able to construct funeral designs
- LO4** Understand how to evaluate constructed funeral designs.

**B3 Tools and materials**

**Unit 7: Plan, Prepare and Construct Tied Floristry Designs**

**LO1** Be able to plan, prepare and cost the assembly of tied floristry designs

**LO2** Know how to plan, prepare and assemble tied floristry designs

**LO3** Be able to assemble and maintain tied floristry designs

**LO4** Understand how to evaluate tied floristry designs.

**Unit 8: Plan, Prepare and Construct Floral Arrangements**

**LO1** Be able to plan, prepare and cost construction of floral arrangements

**LO2** Know how to plan, prepare and assemble tied floristry designs

**LO3** Be able to construct floral arrangements

**LO4** Understand how to evaluate constructed floral arrangements.

**Unit 9: Plan, Prepare and Construct Wedding Designs with Floral Materials**

**LO1** Be able to plan, prepare and cost the construction of wedding designs

**LO2** Know how to plan, prepare and construct wedding designs
