Dear Lesley Davies

**Re: Letter of Support for  
Pearson BTEC Level 2 Technical Diploma in Laboratory Science**

I am representing an employer from the industry that carry out analysis of all clinical pathology samples. I have read through the standards of the above mentioned qualification and can safely confirm that the qualification will provide the learners with the required knowledge an employer is looking for. **The Pearson BTEC Level 2 Technical Diploma in Laboratory Science** will enable the individual learner to develop the necessary skills and behaviours needed for employment in our industry.

I am confident that this qualification will provide the learner with an opportunity and progress for employment in a range of occupational areas across the industry.

These may be: Health Science Laboratory Assistant  
Pharmaceutical Laboratory Assistant  
Food Science Laboratory Assistant  
Beauty Products Laboratory Assistant

The qualification will also support the individual for further preparation to level 3 qualifications or apprenticeship. It provides an excellent base for either progression route.

Yours sincerely,

Beata Sztasi-Sieha
