# Health and Social Care

## Unit 1: Human Lifespan Development

Friday 8 January 2016 – Morning <b>Time: 1 hour</b>	Paper Reference <b>20544E</b>
--	----------------------------------

**You do not need any other materials.**

Total Marks

### Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and learner registration number.
- Answer **all** questions.
- Answer the questions in the spaces provided  
– *there may be more space than you need.*

### Information

- The total mark for this paper is 50.
- The marks for **each** question are shown in brackets  
– *use this as a guide as to how much time to spend on each question.*

### Advice

- Read each question carefully before you start to answer it.
- Try to answer every question.
- Check your answers if you have time at the end.

2 The following information is about four people who share a house.

Read the information and answer the questions that follow.

Tom King is 65 years old and is married to Laura, who is aged 64 years. They share their house with their daughter, Jenny, and her partner, Sonia.

Tom has noticed that he has to increase the volume on the television and doesn't always hear when people are talking to him. This loss of hearing is part of the ageing process.

(a) (i) Identify **two** other physical signs of the ageing process in later adulthood.

(2)

1 .....

.....

2 .....

.....

Tom has recently retired from the local veterinary practice where Laura still works.

(ii) State **one** social effect and **one** economic effect that retirement may have on Tom's development.
