

Amendment Notice - September 2012

Re: Edexcel BTEC Level 1/Level 2 Certificate, Extended Certificate and Diploma in Vehicle Technology (QCF)

Unit 7: Vehicle Systems Fault Diagnosis

In the Assessment and grading criteria table on Pages 102 and 103 P5 ‘use appropriate diagnostic equipment to diagnose two different faults on two different vehicles [SM3, CT1, CT5, SM4]’ has been duplicated and P6 has been omitted due to a type error.

A new issue of the qualification will be published shortly which will contain P6.

There will be no other amendments to the content of the qualification.
