1 Introduction

BTEC is one of the world's most recognised applied learning brands, engaging students in practical, interpersonal and thinking skills, for more than thirty years. BTECs are work-related qualifications for students taking their first steps into employment, or for those already in employment and seeking career development opportunities. BTECs provide progression into the workplace either directly or via study at university and are also designed to meet employers’ needs. Therefore, Pearson BTEC Higher National qualifications are widely recognised by industry and higher education as the principal vocational qualification at Levels 4 and 5.

When developing the Pearson BTEC Higher National qualifications in Performing Arts, we collaborated with a wide range of students, employers, higher education providers, colleges and subject experts to ensure that the new qualifications meet their needs and expectations. We also worked closely with the relevant Professional Bodies, to ensure alignment with recognised professional standards.

There is now a greater emphasis on employer engagement and work readiness. The new BTEC Higher National qualifications in Performing Arts are designed to reflect this increasing need for high-quality professional and technical education pathways at Levels 4 and 5, thereby providing students with a clear line of sight to employment and to progression to a degree at Level 6.

1.1 The Student Voice

Students are at the heart of what we do. That is why, from the outset, we consulted with students in the development of these qualifications. We involved them in writing groups, sought their feedback, and added their voices and views to those of other stakeholders.

The result, we believe, are qualifications that will meet the needs and expectations of students worldwide.

1.2 Why choose Pearson BTEC Higher Nationals?

Pearson BTEC Higher Nationals are designed to help students secure the knowledge skills and behaviours needed to succeed in the workplace. They represent the latest in professional standards and provide opportunities for students to develop behaviours for work, for example by undertaking a group project, or responding to a client brief. A student may even achieve exemption from professional or vendor qualifications, or student membership of selected professional bodies, to help them on their journey to professional competence.
At the same time, the BTEC Higher Nationals are intended to keep doors open for future study should a student wish to progress further in their education after their Level 5 study. They do this by allowing space for the development of higher education study skills, such as the ability to research. Clear alignment of level of demand with the Framework for Higher Education qualification descriptors at Levels 4 and 5 means that students wishing to progress to Level 6 study should feel better prepared. The Pearson BTEC Higher Nationals address these various requirements by providing:

- A range of Core, Optional and Specialist units, each with a clear purpose, so there is something to suit each student's choice of programme and future progression plans
- Fully revised content that is closely aligned with the needs of employers, professional bodies, vendors and higher education for a skilled future workforce
- The opportunity to develop transferable skills useful for work and for higher education, including research skills, the ability to meet deadlines and communication skills
- Learning Outcomes mapped against Professional Body standards and vendor accreditation requirements, where appropriate
- Assessments and projects chosen to help students progress to the next stage (this means some are set by the Centre to meet local needs, while others are set by Pearson). Students are required to apply their knowledge to a variety of assignments and activities, with a focus on the holistic development of practical, interpersonal and higher-level thinking skills
- An approach to demand at Levels 4 and 5 which is aligned with the Framework for Higher Education Qualifications (FHEQ)
- Support for student and tutors, including Schemes of Work and Example Assessment Briefs.

1.3 HN Global

Pearson BTEC Higher Nationals are supported by a specially designed range of digital resources, to ensure that tutors and students have the best possible experience during their course.

With HN Global, tutors can access programme specifications which contain useful information on programme planning and quality assurance processes. Tutors can also view Schemes of Work and Example Assessment Briefs, helping them create meaningful courses and assessments. HN Global also allows tutors to create and annotate reading lists for their students and also keep up-to-date on the latest news regarding HN programmes.
1.4 Qualification Titles

Pearson BTEC Level 4 Higher National Certificate in Performing Arts
Specialist pathways are included within brackets in the qualification title:
- Pearson BTEC Level 4 Higher National Certificate in Performing Arts (Acting)
- Pearson BTEC Level 4 Higher National Certificate in Performing Arts (Musical Theatre)
- Pearson BTEC Level 4 Higher National Certificate in Performing Arts (Dance)
- Pearson BTEC Level 4 Higher National Certificate in Performing Arts (Technical Arts)
- Pearson BTEC Level 4 Higher National Certificate in Performing Arts (General).

Pearson BTEC Level 5 Higher National Diploma in Performing Arts
Specialist pathways are included within brackets in the qualification title:
- Pearson BTEC Level 5 Higher National Diploma in Performing Arts (Acting)
- Pearson BTEC Level 5 Higher National Diploma in Performing Arts (Musical Theatre)
- Pearson BTEC Level 5 Higher National Diploma in Performing Arts (Dance)
- Pearson BTEC Level 5 Higher National Diploma in Performing Arts (Technical Arts).

1.5 Qualification codes

Ofqual Regulated Qualifications Framework (RQF) Qualification numbers:
- Pearson BTEC Level 4 Higher National Certificate in Performing Arts: 603/2377/2
- Pearson BTEC Level 5 Higher National Diploma in Performing Arts: 603/2375/9

1.6 Awarding institution

Pearson Education Ltd.
1.7 **Key features**

Pearson BTEC Higher National qualifications in Performing Arts offer:

- A stimulating and challenging programme of study that will be both engaging and memorable for students
- The essential subject knowledge that students need to progress successfully into further study or the world of work
- A simplified structure: students undertake a substantial core of learning in the Higher National Certificate and can build on this in the Higher National Diploma, with Optional units linked to their specialist area of study
- Four Specialist pathways in the Level 4 Certificate and Level 5 Diploma, so there is something to suit each student’s preference of study and future progression plans
- Refreshed content that is closely aligned with Professional Body, employer and higher education needs
- Assessments that consider cognitive skills (what students know) along with affective and applied skills (respectively how they behave and what they can do)
- Unit-specific grading and Pearson-set assignments
- A varied approach to assessment that supports progression to Level 6 and also allows Centres to offer assessment relevant to the local economy, thereby accommodating and enhancing different learning styles
- Quality Assurance measures – as outlined in sections 6 and 7 of this Programme Specification – to ensure that all stakeholders (e.g. Professional bodies, vendors, if appropriate, and universities, colleges and students) can feel confident in the integrity and value of the qualifications
- A qualification designed to meet the needs and expectations of students aspiring to work in an international Performing Arts environment.

**Qualification frameworks**

Pearson BTEC Higher National qualifications are designated higher education qualifications in the UK. They are aligned to the Framework for Higher Education Qualifications (FHEQ) in England, Wales and Northern Ireland, and Quality Assurance Agency (QAA) Subject Benchmark Statements. These qualifications are part of the UK Regulated Qualifications Framework (RQF).

1.8 **Collaborative development**

Students completing their BTEC Higher Nationals in Performing Arts will be aiming to go on to employment or progress to a final year at university. Therefore, it was essential that we developed these qualifications in close collaboration with experts from professional bodies and universities, and with the providers who will be delivering the qualifications.
We are very grateful to the university and further education tutors, employers, Professional Body representatives and other individuals who have generously shared their time and expertise to help us develop these new qualifications.

2 Programming purpose and objectives

2.1 Purpose of the BTEC Higher Nationals in Performing Arts

The purpose of BTEC Higher Nationals in Performing Arts is to develop students as professional, self-reflecting individuals able to meet the demands of employers in the Performing Arts and adapt to a constantly changing world. The qualifications aim to widen access to higher education and enhance the career prospects of those who undertake them.

2.2 Objectives of the BTEC Higher Nationals in Performing Arts

The objectives of the BTEC Higher Nationals in Performing Arts are as follows:

- To equip students with Performing Arts skills, knowledge and the understanding necessary to achieve high performance in the global Performing Arts environment
- To provide education and training for a range of careers in Performing Arts, including areas/titles
- To provide insight and understanding into the diversity of roles within the Performing Arts, recognising the importance of collaboration at all levels
- To equip students with knowledge and understanding of culturally diverse organisations, cross-cultural issues, diversity and values
- To provide opportunities for students to enter or progress in employment in Performing Arts, or progress to higher education qualifications such as an Honours degree in Performing Arts or a related area
- To provide opportunities for students to develop the skills, techniques and personal attributes essential for successful working lives
- To support students to understand the local, regional and global context of performing arts and, for those students with a global outlook, to aspire to international career pathways
- To provide students with opportunities to address contemporary issues facing the industry, and society at large; recognising the role that performing arts plays in addressing these issues
- To provide opportunities for students to achieve a nationally-recognised professional qualification within their chosen area of specialisation
- To provide opportunities for students to achieve vendor accredited certifications
To offer students the chance of career progression in their chosen field, with particular emphasis on achieving management-level positions, professional recognition and beyond

To allow flexibility of study and to meet local or specialist needs

To offer a balance between employability skills and the knowledge essential for students with entrepreneurial, employment or academic aspirations

To provide students with opportunities to engage in an industry-recognised apprenticeship scheme that aligns with their employer’s needs and their own career aspirations

To provide students with the context in which to consider professional ethics and their relation to personal, professional and statutory responsibilities within the industry.

We meet these objectives by:

- Providing a Level 4 that leads the student to a range of specialist progression pathways at Level 4 and Level 5 which relate to individual professions within the Performing Arts

- Equipping individuals with commercial acumen, understanding and Performing Arts skills for success in a range of the roles in Performing Arts, and a General pathway at Level 4 for those who have not yet decided on their specialism

- Enabling progression to a university degree by supporting the development of appropriate academic study skills.

Enabling progression to further professional qualifications in specific Performing Arts areas by mapping to units in a range of professional Performing Arts qualifications.

**Who is this qualification for?**

The BTEC Higher National qualifications in Performing Arts are aimed at students wanting to continue their education through applied learning. Higher Nationals provide a wide-ranging study of the Performing Arts and are designed for students who wish to pursue or advance their career in Performing Arts. In addition to the knowledge, understanding and skills that underpin the study of the Performing Arts, Pearson BTEC Higher Nationals in Performing Arts give students experience of the breadth and depth of the Performing Arts that will prepare them for further study or training.
2.3 Aims of the Level 4 Higher National Certificate in Performing Arts

The Level 4 Higher National Certificate in Performing Arts offers students a broad introduction to the subject area via a mandatory core of learning, while allowing for the acquisition of skills and experience through the selection of Optional units across a range of occupational sectors at Level 4 through a ‘General Performing Arts’ pathway. This effectively builds underpinning core skills while preparing the student for subject specialisation at Level 5. Students will gain a wide range of Performing Arts knowledge tied to practical skills gained in research, self-study, directed study and workplace scenarios.

At Level 4 Higher National Certificate in Performing Arts also offers students four Specialist pathways designed to support students who wish to concentrate on a particular aspect of Performing Arts:

- Dance
- Acting
- Musical Theatre
- Technical Arts.

At Level 4 students develop a broad knowledge and awareness of key aspects of the Performing Arts through two Core units, which include one unit assessed by a Pearson-set assignment. The units are:

- The Performing Arts Industry (Pearson-set unit)
- Professional Development.

Graduates successfully completing the Higher National Certificate will be able to demonstrate a sound knowledge of the basic concepts of Performing Arts. They will be able to communicate accurately and appropriately and they will have the qualities needed for employment that require some degree of personal responsibility. They will have developed a range of transferable skills to ensure effective team working, independent initiatives, organisational competence and problem-solving strategies. They will be adaptable and flexible in their approach to Performing Arts, show resilience under pressure, and meet challenging targets within a given resource.
2.4 **Aims of the Level 5 Higher National Diploma in Performing Arts**

The Level 5 Higher National Diploma in Performing Arts offers students four Specialist pathways designed to support progression into relevant occupational areas or on to degree-level study.

The Level 5 Higher National Diploma offers the following Specialist pathways for students who wish to concentrate on a particular aspect of Performing Arts:

- Dance
- Acting
- Musical Theatre
- Technical Arts.

Holders of the Level 5 Higher National Diploma will have developed a sound understanding of the principles in their field of study and will have learned to apply those principles more widely. They will have learned to evaluate the appropriateness of different approaches to solving problems. They will be able to perform effectively in their chosen field and will have the qualities necessary for employment in situations requiring the exercise of personal responsibility and decision-making.

2.5 **What could these qualifications lead to?**

The Level 4 Higher National Certificate provides a solid grounding in Performing Arts, which students can build on should they decide to continue their studies beyond the Certificate stage. Students can choose to study on a Specialist pathway or on the General pathway if they are yet to decide on their specialist area of study, from which they can progress onto a Specialist pathway at Level 5.

The Level 5 Higher National Diploma allows students to further specialise by committing to specific career paths and progression routes to degree-level study.

On successful completion of the Level 5 Higher National Diploma, students can develop their careers in the Performing Arts through:

- Entering employment
- Continuing existing employment
- Linking with the appropriate professional body
- Linking with the appropriate certificates
- Committing to continuing professional development (cpd)
- Progressing to university.
2.5.1 Progression to university

The Level 5 Higher National Diploma is recognised by Higher Education providers as meeting admission requirements to many relevant Performing Arts-related courses, for example:

- BSc Hons in Technical Arts
- BA Hons in Dance Studies
- BA Hons in Acting
- BA Hons in Musical Theatre.

Students should always check the entry requirements for degree programmes at specific Higher Education providers. After completing a BTEC Higher National Certificate or Diploma, students can also progress directly into employment.

University recognition and articulations

We work with a range of higher education institutions around the world that recognise and accept BTEC Higher Nationals as a qualification for entry onto an undergraduate degree. Many universities allow advanced entry onto the second or third year of a degree, and agreements can include credit transfer, articulation and case-by-case admission. Students should be aware that university admission criteria are always subject to change and remain at the discretion of the institution. Students should take time to understand the course entry requirements for subject, year and grade before applying.

For more information on entry requirements, including 2+1 articulations, please visit: https://www.highernationals.com/degree-finder.

2.5.2 Employment

The skills offered as part of the Pearson BTEC Higher National Diploma can provide graduates with the opportunity to work in many different areas of the Performing Arts. Below are some examples of job roles each qualification could lead to.

<table>
<thead>
<tr>
<th>Employment areas</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dancer: jazz, ballet, commercial dance, tap, American tap, contemporary, physical theatre.</td>
</tr>
<tr>
<td>Choreographer, Assistant Choreographer, Dance Captain</td>
</tr>
<tr>
<td>Performer: vocalist, dancer and actor</td>
</tr>
<tr>
<td>Actor: stage, camera, radio and multimedia</td>
</tr>
<tr>
<td>Costume design</td>
</tr>
<tr>
<td>Sound design</td>
</tr>
</tbody>
</table>
Set design
Hair and make-up design
Crew
Stage Manager, Assistant Stage Manager, Deputy Stage Manager
Education: workshop leader, facilitator

2.6 Use of Maths and English within the curriculum

Those working within the Performing Arts sector cannot just rely on their technical skills and must ensure they develop, for example they will be required to communicate appropriately with stakeholders throughout their career, so the ability to use maths and English in a professional context is an essential employability skill that must be developed at all levels of study.

Development of essential maths and English skills are embedded throughout these qualifications in accordance with industry requirements and below are some examples of how these skills are developed in the BTEC Higher National curriculum:

- Written reports
- Formal presentations
- Informal conversations
- Use of professional, Performing Arts-specific language.

2.7 How Pearson BTEC Higher Nationals in Performing Arts provide both transferable employability skills and academic study skills

Students need both relevant qualifications and employability skills to enhance their career prospects and contribute to their personal development. Pearson Higher National Performing Arts qualifications embed throughout the programme the development of key skills, attributes and strengths required by 21st century employers.

Where employability skills are referred to in this specification, this generally refers to skills in five main categories:

- **Cognitive and problem-solving skills**: critical thinking, approaching non-routine problems by applying expert and creative solutions, use of systems and digital technology, generating and communicating ideas creatively.

- **Intra-personal skills**: self-management, adaptability and resilience, self-monitoring and self-development, self-analysis and reflection, planning and prioritising.
- **Interpersonal skills**: effective communication and articulation of information, working collaboratively, negotiating and influencing, self-presentation.
- **Commercial skills**: sector awareness; sales; marketing/promotion; budget management/monitoring;
- **Business skills**: awareness of types of companies, company formation, invoicing, calculating fees, business management.

Example Assessment Briefs make recommendations for a range of real or simulated assessment activities, for example, group work where appropriate, to encourage development of collaborative and interpersonal skills or a solution focused case study to provide the opportunity to develop cognitive skills. There are specific requirements for the assessment of these skills, as relevant, within the assessment grids for each unit. Example Assessment Briefs are for guidance and support only and must be customised and amended according to localised needs and requirements. All assignments must still be verified as per the internal verification process.

Students can also benefit from opportunities for deeper learning, where they are able to make connections between units and select areas of interest for detailed study. In this way BTEC Higher Nationals provide a vocational context in which students can develop the knowledge and academic study skills required for progression to university degree courses, including:

- Active research skills
- Effective writing skills
- Analytical skills
- Critical thinking
- Creative problem-solving
- Decision-making
- Team building
- Exam preparation skills
- Digital literacy
- Competence in assessment methods used in higher education.

To support you in developing these skills in your students, we have developed a map of Higher Education relevant transferable and academic study skills, available in appendices.
3 Planning your programme

3.1 Delivering the Higher Nationals in Performing Arts

You play a central role in helping your students to choose the right BTEC Higher National qualification.

You should assess your students very carefully to ensure that they take the right qualification and the right pathways or Optional units, to allow them to progress to the next stage. You should check the qualification structures and unit combinations carefully when advising students.

You will need to ensure that your students have access to a full range of information, advice and guidance in order to support them in making the necessary qualification and unit choices. When students are recruited, you need to give them accurate information on the title and focus of the qualification for which they are studying.

3.2 Entry requirements and admissions

Although Pearson do not specify formal entry requirements, as a centre it is your responsibility to ensure that the students you recruit have a reasonable expectation of success on the programme.

For students who have recently been in education, the entry profile is likely to include one of the following:

- A BTEC Level 3 qualification in Performing Arts
- A GCE Advanced Level profile that demonstrates strong performance in a relevant subject or adequate performance in more than one GCE subject. This profile is likely to be supported by GCSE grades at A* to C and/or 9 to 4 (or equivalent)
- Other related Level 3 qualifications
- An Access to Higher Education Diploma awarded by an approved further education institution
- Related work experience
- An international equivalent of the above.

Centres may wish to consider applicants’ prior learning when considering their acceptance on a BTEC Higher Nationals, through Recognition of Prior Learning. (For further information please refer to section 8 of this document.)
3.2.1 English language requirements for Higher Nationals

Pearson’s mission is to help people make more of their lives through learning. In order for students to be successful on Pearson BTEC Higher National qualifications which are both taught and assessed in English, it is critical that they have an appropriate level of English language skills.

The following clarifies the requirements for all centres when recruiting applicants on to new Pearson BTEC Higher National qualifications.

All centres delivering the new Pearson BTEC Higher National qualifications must ensure that all students who are non-native English speakers and who have not undertaken their final two years of schooling in English, can demonstrate capability in English at a standard equivalent to the levels identified below, before being recruited to the programme where the programme is both taught and assessed in English:

- Common European Framework of Reference (CEFR) level B2
- PTE 51
- IELTS 5.5; Reading and Writing must be at 5.5
- or equivalent.

It is up to the centre to decide what proof will be necessary to evidence individual student proficiency.

The following clarifies the requirements for all centres when recruiting applicants on to new Pearson BTEC Higher National qualifications which are taught in a language other than English, but are assessed in English.

All centres delivering the new Pearson BTEC Higher National qualifications wholly or partially in a language other than English, but who are assessed in English, must ensure that all students can demonstrate capability in English at a standard equivalent to the levels identified below, on completion of the programme:

Common European Framework of Reference (CEFR) level B2

- PTE 51
- IELTS 5.5; Reading and Writing must be at 5.5
- or equivalent.

It is up to the centre to decide what proof will be necessary to evidence individual student proficiency.

3.2.2 Centre approval

To ensure that centres are ready to assess students and that we can provide the support that is needed all centres must be approved before they can offer these qualifications. For more information about becoming a centre and seeking approval to run our qualifications please visit the support section on our website (http://qualifications.pearson.com/).
3.2.3 Level of sector knowledge required
We do not set any requirements for tutors, but we do recommend that centres assess the overall skills and knowledge of the teaching team, which should be relevant, up to date and at the appropriate level.

3.2.4 Resources required
As part of your centre approval, you will need to show that the necessary material resources and work spaces are available to deliver BTEC Higher Nationals. For some units, specific resources are required, this is clearly indicated in the unit descriptors.

3.2.5 HN Global support
HN Global is an online resource that supports centre planning and delivery of BTEC Higher Nationals by providing appropriate teaching and learning resources. For further information see sections 5 and 6 of this Programme Specification.

3.2.6 Modes of delivery
Subject to approval by Pearson, centres are free to deliver BTEC Higher Nationals using modes of delivery that meet the needs of their students. We recommend making use of a wide variety of modes, including:

- Full-time
- Part-time
- Blended learning.

3.2.7 Recommendations for employer engagement
BTEC Higher Nationals are vocational qualifications and as an approved centre you are encouraged to work with employers on the design, delivery and assessment of the course. This will ensure that students enjoy a programme of study that is engaging and relevant, and which equips them for progression. There are suggestions in section 5.2 about how employers could become involved in delivery and/or assessment, but these are not intended to be exhaustive and there will be other possibilities at a local level.

3.2.8 Support from Pearson
We provide a range of support materials, including Schemes of Work and Example Assessment Briefs, with supporting templates. You will be allocated an External Examiner early in the planning stage, to support you with planning your assessments, and there will be training events and support from our Subject Leads.
3.2.9 **Student employability**

All BTEC Higher Nationals have been designed and developed with consideration of National Occupational Standards, where relevant.

Employability skills such as team working and entrepreneurialism as well as practical hands-on skills have been built into the design of the learning aims and content. This gives you the opportunity to use relevant contexts, scenarios and materials to enable students to develop a portfolio of evidence demonstrating the breadth of their skills and knowledge in a way that equips them for employment.
3.3 Access to study

This section focuses on the administrative requirements for delivering a BTEC Higher National qualification. It will be of value to Quality Nominees, Programme Leaders and Examinations Officers.

Our policy regarding access to our qualifications is that:

- They should be available to everyone who is capable of reaching the required standards.
- They should be free from any barriers that restrict access and progression.

There should be equal opportunities for all those wishing to access the qualifications. We refer Centres to our Pearson Equality and Diversity Policy, which can be found in the support section of our website (http://qualifications.pearson.com/).

Centres are required to recruit students to Higher National programmes with integrity. They will need to make sure that applicants have relevant information and advice about the qualification, to make sure it meets their needs. Centres should review the applicant’s prior qualifications and/or experience to consider whether this profile shows that they have the potential to achieve the qualification. For students with disabilities and specific needs, this review will need to take account of the support available to the student during the teaching and assessment of the qualification. For further guidance and advice please refer to Section 9 on reasonable adjustments.

3.4 Student registration and entry

All students should be registered for the qualification, and appropriate arrangements made for internal and external verification. For information on making registrations for the qualification, you will need to refer to the information manual available in the support section of our website (http://qualifications.pearson.com/).

Students can be formally assessed only for a qualification on which they are registered. If students’ intended qualifications change (for example, if a student decides to choose a different specialist pathway), then the centre must transfer the student to the chosen pathway appropriately. Please note that student work cannot be sampled if the student is not registered or is registered on an incorrect pathway.
3.5 Access to assessments

Assessments need to be administered carefully, to ensure that all students are treated fairly, and that results and certification are issued on time, allowing students to move on to chosen progression opportunities.

Our equality policy requires that all students should have equal opportunity to access our qualifications and assessments, and that our qualifications are awarded in a way that is fair to every student. We are committed to making sure that:

- Students with a protected characteristic (as defined in legislation) are not, when they are undertaking one of our qualifications, disadvantaged in comparison to students who do not share that characteristic.
- All students achieve the recognition they deserve for undertaking a qualification and that this achievement can be compared fairly to the achievement of their peers.

Further information on access arrangements can be found on the Joint Council for Qualifications website (http://www.jcq.org.uk/).

3.6 Administrative arrangements for internal assessment

3.6.1 Records

You are required to retain records of assessment for each student. Records should include assessments taken, decisions reached and any adjustments or appeals. Further information on quality and assessment can be found in our UK and international guides available in the support section on our website (http://qualifications.pearson.com/). We may ask to audit your records, so they must be retained as specified. All student work must be retained for a minimum of 12 weeks after certification has taken place.

3.6.2 Reasonable adjustments to assessment

A reasonable adjustment is one that is made before a student takes an assessment, to ensure that he or she has fair access to demonstrate the requirements of the assessments.

You are able to make adjustments to internal assessments to take account of the needs of individual students. In most cases this can be achieved through a defined time extension or by adjusting the format of evidence. We can advise you if you are uncertain as to whether an adjustment is fair and reasonable. You need to plan for time to make adjustments, if necessary.

Further details on how to make adjustments for students with protected characteristics are available on the support section of our website (http://qualifications.pearson.com/).
3.6.3 Special consideration

Special consideration is given after an assessment has taken place for students who have been affected by adverse circumstances, such as illness, and require an adjustment of grade to reflect normal level of attainment. You must operate special consideration in line with Pearson policy (see previous paragraph). You can provide special consideration related to the period of time given for evidence to be provided, or for the format of the assessment (if it is equally valid). You may not substitute alternative forms of evidence to that required in a unit, or omit the application of any assessment criteria to judge attainment. Pearson can consider applications for special consideration in line with the policy, which can be found in the document linked above.

Please note that your centre must have a policy for dealing with mitigating circumstances if students are affected by adverse circumstances, such as illness, which result in non-submission or late submission of assessment.

3.6.4 Appeals against assessment

Your centre must have a policy for dealing with appeals from students. These appeals may relate to assessment decisions being incorrect or assessment not being conducted fairly. The first step in such a policy could be a consideration of the evidence by a Programme Leader or other member of the programme team. The assessment plan should allow time for potential appeals after assessment decisions have been given to students. If there is an appeal by a student, you must document the appeal and its resolution. Students have a final right of appeal to Pearson, but only if the procedures that you have put in place have been followed.

Further details of our policy on enquiries and appeals is available on the support section of our website (http://qualifications.pearson.com/).

If your centre is located in England or Wales and the student is still dissatisfied with the final outcome of their appeal they can make a further appeal to the Office of the Independent Adjudicator (OIA) by emailing: enquiries@oiahe.org.uk. In Northern Ireland a further appeal may be lodged with the Northern Ireland Public Service Ombudsman (NIPS0) by emailing: nipso@nipso.org.uk.

3.7 Dealing with malpractice in assessment

‘Malpractice’ means acts that undermine the integrity and validity of assessment, the certification of qualifications and/or may damage the authority of those responsible for delivering the assessment and certification.

Pearson does not tolerate actual or attempted actions of malpractice by learners, centre staff or centres in connection with Pearson qualifications. Pearson may impose penalties and/or sanctions on learners, centre staff or centres where malpractice or attempted malpractice has been proven.
Malpractice may occur or be suspected in relation to any unit or type of assessment within a qualification. For further details on malpractice and advice on preventing malpractice by learners, please see Pearson's Centre Guidance: Dealing with Malpractice, available on our website.

The procedures we ask you to adopt vary between units that are internally assessed and those that are externally assessed.

Centres are required to take steps to prevent malpractice and to investigate instances of suspected malpractice. Learners must be given information that explains what malpractice is for internal assessment and how suspected incidents will be dealt with by the centre. The Centre Guidance: Dealing with Malpractice document gives full information on the actions we expect you to take.

Pearson may conduct investigations if we believe a centre is failing to conduct internal assessment according to our policies. The above document gives further information and examples, and details the penalties and sanctions that may be imposed.

In the interests of learners and centre staff, centres need to respond effectively and openly to all requests relating to an investigation into an incident of suspected malpractice.

### 3.7.1 Internally assessed units

Centres are required to take steps to prevent malpractice and to investigate instances of suspected malpractice. Students must be given information that explains what malpractice is for internal assessment and how suspected incidents will be dealt with by the Centre. Full information on dealing with malpractice and the actions we expect you to take is available on the support section of our website (http://qualifications.pearson.com/).

Pearson may conduct investigations if it is believed that a Centre is failing to conduct internal assessment according to Pearson policies. The above document gives further information, provides examples, and details the penalties and sanctions that may be imposed.

### 3.7.2 Student malpractice

The head of centre is required to report incidents of suspected learner malpractice that occur during Pearson qualifications. We ask centres to complete JCQ Form M1 (www.jcq.org.uk/malpractice) and email it with any accompanying documents (signed statements from the learner, invigilator, copies of evidence, etc) to the Investigations Processing team at candidatemalpractice@pearson.com. The responsibility for determining appropriate sanctions or penalties to be imposed on learners lies with Pearson.
Learners must be informed at the earliest opportunity of the specific allegation and the centre's malpractice policy, including the right of appeal. Learners found guilty of malpractice may be disqualified from the qualification for which they have been entered with Pearson.

Failure to report malpractice constitutes staff or centre malpractice.

### 3.7.3 Staff and centre malpractice

The head of centre is required to inform Pearson’s Investigations team of any incident of suspected malpractice (which includes maladministration) by centre staff, before any investigation is undertaken. The head of centre is requested to inform the Investigations team by submitting a *JCQ M2 Form* (downloadable from [www.jcq.org.uk/malpractice](http://www.jcq.org.uk/malpractice)) with supporting documentation to pqsmalpractice@pearson.com. Where Pearson receives allegations of malpractice from other sources (for example Pearson staff, anonymous informants), the Investigations team will conduct the investigation directly or may ask the head of centre to assist.

Pearson reserves the right in cases of suspected malpractice to withhold the issuing of results/certificates while an investigation is in progress. Depending on the outcome of the investigation, results and/or certificates may not be released or they may be withheld.

We reserve the right to withhold certification when undertaking investigations, audits and quality assurance processes. You will be notified within a reasonable period of time if this occurs.

### 3.7.4 Sanctions and appeals

Where malpractice is proven, we may impose sanctions or penalties, such as:

- mark reduction for affected external assessments
- disqualification from the qualification
- debarment from registration for Pearson qualifications for a period of time.

If we are concerned about your centre’s quality procedures we may impose sanctions such as:

- working with centres to create an improvement action plan
- requiring staff members to receive further training
- placing temporary suspensions on certification of learners
- placing temporary suspensions on registration of learners
- debarring staff members or the centre from delivering Pearson qualifications
- suspending or withdrawing centre approval status.
The centre will be notified if any of these apply.

Pearson has established procedures for centres that are considering appeals against penalties and sanctions arising from malpractice. Appeals against a decision made by Pearson will normally be accepted only from the head of centre (on behalf of learners and/or members or staff) and from individual members (in respect of a decision taken against them personally). Further information on appeals can be found in the JCQ Appeals booklet (https://www.jcq.org.uk/exams-office/appeals).
4 Programme structure

4.1 Units, Credits, Total Qualification Time (TQT) and Guided Learning (GL)

The Higher National Certificate (HNC) is a Level 4 qualification made up of 120 credits. It is usually studied full-time over one year, or part-time over two years.

The Higher National Diploma (HND) is a Level 4 and Level 5 qualification made up of 240 credits. It is usually studied full-time over two years, or part-time over four years.

Pearson would expect that an HND student would have achieved at least 90 credits at Level 4 before progressing to Level 5 units. This allows for the students to submit the remaining 30 credits at Level 4 while undertaking their Level 5 study.

Students undertaking an HND who fail to successfully complete the full qualification may be awarded an HNC, if their credit achievement permits.

BTEC Higher Nationals consist of core units, specialist units and optional units:

- Core units are mandatory
- Specialist units are designed to provide a specific occupational focus to the qualification and are aligned to Professional Body standards
- Required combinations of optional units are clearly set out in the tables below.

All units are usually 15 credits in value, or a multiple thereof. These units have been designed from a learning time perspective, and are expressed in terms of Total Qualification Time (TQT). TQT is an estimate of the total amount of time that could reasonably be expected to be required for a student to achieve and demonstrate the achievement of the level of attainment necessary for the award of a qualification. TQT includes undertaking each of the activities of Guided Learning, Directed Learning and Invigilated Assessment. Each 15-credit unit approximates to a Total Unit Time of 150 hours with 60 hours of Guided Learning.

Total Qualification Time (TQT) Higher National Certificate (HNC) = 1,200 hours
Total Qualification Time (TQT) Higher National Diploma (HND) = 2,400 hours

Examples of activities which can contribute to Total Qualification Time include:

- Guided Learning
- Independent and unsupervised research/learning
- Unsupervised compilation of a portfolio of work experience
- Unsupervised e-learning
● Unsupervised e-assessment
● Unsupervised coursework
● Watching a pre-recorded podcast or webinar
● Unsupervised work-based learning.

**Guided Learning (GL)** is defined as the time when a tutor is present to give specific guidance towards the learning aim being studied on a programme. This definition includes lectures, tutorials and supervised study in, for example, open learning centres and learning workshops. Guided Learning includes any supervised assessment activity; this includes invigilated examination and observed assessment and observed work-based practice.

**Total Guided Learning (GL)** Higher National Certificate (HNC) = 480 hours

**Total Guided Learning (GL)** Higher National Diploma (HND) = 960 hours

Some examples of activities which can contribute to Guided Learning include:
● Classroom-based learning supervised by a tutor
● Work-based learning supervised by a tutor
● Live webinar or telephone tutorial with a tutor in real time
● E-learning supervised by a tutor in real time
● All forms of assessment which take place under the immediate guidance or supervision of a tutor or other appropriate provider of education or training, including where the assessment is competence-based and may be turned into a learning opportunity.

### 4.2 Programme structures

The programme structures specify:
● The total credit value of the qualification
● The minimum credit to be achieved at the level of the qualification
● The core units
● The specialist units
● The optional units
● The maximum credit value in units that can be centre commissioned.

When combining units for a Pearson Higher National qualification, it is the centre’s responsibility to make sure that the correct combinations are followed.
4.2.1 Pearson BTEC Level 4 Higher National Certificate in Performing Arts

Qualification credit value: a minimum of 120 credits. This is made up of eight units, each with a value of 15 credits.

Total Qualification Time (TQT) Higher National Certificate (HNC) = 1,200 hours
Total Guided Learning (GL) Higher National Certificate (HNC) = 480 hours

There is a required mix of Core, Specialist and Optional units totalling 120 credits. All units are at Level 4.

In some cases a maximum of 30 credits from a Higher National qualification may be from units designed by the centre and approved by Pearson. Core units may not be substituted and are mandatory. For more information please refer to Higher National Commissioned Qualifications.

Please note that some Specialist units are available as Optional units and some Optional units are available as Specialist units.

The General pathway has been created to support students who are unsure of their chosen specialist area at this stage in their development.

Here is an example of a possible unit combination for centres who wish to offer a general HNC programme:

<table>
<thead>
<tr>
<th>Unit Number</th>
<th>Unit Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>Unit 1</td>
<td>The Performing Arts Industry</td>
</tr>
<tr>
<td>Unit 2</td>
<td>Professional Development</td>
</tr>
</tbody>
</table>

The following selection demonstrates a combination of unit choices available from the general optional unit bank, which cover all the specialist areas – Dance, Acting, Technical Arts and Musical Theatre – for students wishing to explore all of these areas.

<table>
<thead>
<tr>
<th>Unit 6</th>
<th>Commercial Dance 1</th>
</tr>
</thead>
<tbody>
<tr>
<td>Unit 20</td>
<td>Devising Theatre and Performance</td>
</tr>
<tr>
<td>Unit 29</td>
<td>Crewing</td>
</tr>
<tr>
<td>Unit 17</td>
<td>Acting for Camera</td>
</tr>
<tr>
<td>Unit 16</td>
<td>Vocal Repertoire</td>
</tr>
<tr>
<td>Unit 22</td>
<td>Stagecraft</td>
</tr>
</tbody>
</table>
Students can progress from the General pathway at Level 4 to any pathway at Level 5 provided they have completed the relevant core units.

However centres have the responsibility to ensure students have a reasonable expectation of success on the programme and are advised to ensure that students have the required specialist skill set to achieve level 5 units if they have not completed any level 4 units in the specialist area being studied in the HND. For example, it would not be appropriate for a student to take the Level 5 Dance pathway, if they have not had any previous training or experience in Dance. The suitability of previous training and experience is at the centre’s discretion.

Please do contact the Higher National team for any further guidance.
| Core unit | 1 The Performing Arts Industry (Pearson-set) | 15 | 4 |
| Core unit | 2 Professional Development                  | 15 | 4 |

Centres must select one of the following groups:

**Group A**

| Specialist unit | 4 Ballet 1 | 15 | 4 |

Plus five Optional Level 4 15 credit units (see below)

<p>| Optional unit | 3 Jazz Dance 1 | 15 | 4 |
| Optional unit | 5 Contemporary Dance 1 | 15 | 4 |
| Optional unit | 6 Commercial Dance 1 | 15 | 4 |
| Optional unit | 7 Tap 1 | 15 | 4 |
| Optional unit | 8 American Tap | 15 | 4 |
| Optional unit | 9 Choreography 1 | 15 | 4 |
| Optional unit | 10 Investigation of Specialism | 15 | 4 |
| Optional unit | 11 Dance for Camera | 15 | 4 |
| Optional unit | 12 Singing 1 | 15 | 4 |
| Optional unit | 13 Acting 1 | 15 | 4 |
| Optional unit | 14 Musical Theatre History in Practice | 15 | 4 |
| Optional unit | 15 Ensemble Singing | 15 | 4 |
| Optional unit | 16 Vocal Repertoire | 15 | 4 |
| Optional unit | 18 Voice and Speech for Actors | 15 | 4 |
| Optional unit | 19 Movement for Actors | 15 | 4 |
| Optional unit | 20 Devising Theatre and Performance | 15 | 4 |
| Optional unit | 21 Production Communication | 15 | 4 |
| Optional unit | 22 Stagecraft | 15 | 4 |
| Optional unit | 24 Sound Operation | 15 | 4 |

4.2.2 Pearson BTEC Level 5 Higher National Diploma in Performing Arts

The Level 5 Higher National Diploma consists of the Level 4 Higher National Certificate (above) plus an additional 120 credits at Level 5 delivered via one of the following four Specialist pathways:

- Technical Arts
- Acting
- Dance
- Musical Theatre.

Students who achieved the ‘General’ pathway at Level 4, may progress onto any pathway at Level 5.

Qualification credit value: a minimum of 240 credits, of which 120 credits are at Level 5, and 120 credits are at Level 4 and usually attained via the HNC.

There is a required mix of Core, Specialist and Optional units totalling 240 credits. The Core units required for each Level 5 Specialist pathway (in addition to the Specialist units) are Unit 31: Working in the Performing Arts Industry, which is weighted at 15 credits, and Unit 30: Creative Research Project, weighted at 30 credits.

The requirements of the Higher National Certificate (or equivalent) have to be met. In some cases, a maximum of 60 credits can be imported from another RQF Pearson BTEC Higher National qualification and/or from units designed by the Centre and approved by Pearson. Core units and Specialist units may not be substituted.

4.2.3 Meeting local needs (MLN)

Centres should note that Pearson BTEC Higher National qualifications have been developed in consultation with centres, employers and relevant professional organisations. The units were designed to meet the skill needs of the sector and thereby allow coverage of the full range of employment within the sector. Centres should make maximum use of the choices available to them within the specialist pathways to meet the needs of their students, as well as the local skills and training needs.

Where centres identify a specific need that cannot be addressed using the units in this specification, centres can seek approval to use units from other RQF Pearson BTEC Higher National qualifications, through the MLN process (refer to Commissioned qualification design and validation service of our website http://qualifications.pearson.com or get in touch your Pearson regional contact for application details. Centres will need to justify the rationale for importing units from other RQF Pearson BTEC Higher National specifications. Meeting local need applications must be made in advance of delivery and before 31 January in the year of student registration.

The flexibility to import standard units from other RQF Pearson BTEC Higher National specifications is limited to a maximum of 30 credits in a BTEC HNC qualification and a maximum of 60 credits in a BTEC HND qualification (30 credits at Level 4 and 30 credits at Level 5). This is an overall maximum of units that can be imported. MLN units cannot be used at the expense of the mandatory units in any qualification nor can the qualification’s rules of combination, as detailed in the specification, be compromised. It is the responsibility of the centre requesting the MLN to ensure that approved units are used only in eligible combinations.

For the Pearson BTEC Level 4 Higher National Certificate and Pearson BTEC Level 5 Diploma in Performing Arts, the maximum number of credits that can be imported by pathway are as follows.

<table>
<thead>
<tr>
<th>Qualification</th>

</tr>
<tr>
<td></td>
<td>Technical Arts</td>
<td>30</td>
<td>N/A</td>
</tr>
</tbody>
</table>
4.2.4 Pearson BTEC Higher National Commissioned Development

Where MLN does not provide enough flexibility in terms of qualification structure, centres can request design and development of units by Pearson to meet their specific needs. This is offered by the following types of developments; full commission or partial commission.

We would be pleased to discuss your ideas for a Pearson BTEC Higher National Commissioned Development. For more information please refer to the Commissioned qualification design and validation service on our website http://qualifications.pearson.com

Once the centre is ready to proceed with a commissioned development, an application must be made, which provides a clear rationale for the development request. Pearson will review the application and may confirm or deny the request. The commissioned unit(s) will be authored by Pearson, in full consultation within the commissioning centre. Applications must be made one year in advance of the first year of commissioned unit(s) delivery.

4.3 Pearson-set Assignments

There are Pearson-set assignments as part of the core units. Each year, Pearson will issue a Theme and (for Level 4) a set of related Topics. Centres will develop an assignment, to be internally assessed, to engage students in work related to the Pearson-set Theme.

At Level 4, tutors will select a Topic to further define their approach to the Theme and assignment. At Level 5, it is expected that students will define their own Topic, in negotiation with Tutors, based on the Pearson-set Theme.

For example, from the Higher Nationals in Business:

Theme: “Corporate Social Responsibility (CSR) and its importance for sustainability and competitive advantage”

Level 4 Topics:

- How to start up a socially responsible company
- The impact of CSR on a functional area (e.g. HR, Marketing, Finance) within an organisation to promote profitability and financial sustainability.
- Implementing CSR activities within organisations to meet sustainability objectives.
Centres can find relevant support in the Pearson-set Assignment Guidance for the units, and the theme and topic release documentation which will be provided for each level.

The aim of the Pearson-set assignments is to provide a common framework for centres to develop work that will allow cross-sector benchmarking, through the standardisation of student work, and identification and sharing of ‘best practice.’ in higher education teaching and learning. Pearson will share the ‘best practice’ results with all centres. For further information about Pearson-set Assignments and assessment, see section 6 of this document.

4.4 The unit descriptor

The Unit Descriptor is how we define the individual units of study that make up a Higher National qualification. Students will study and complete the units included in the programme offered at your centre.

We have described each part of the unit, as below. You may refer to any of the Unit Descriptors in Section 10 of this programme specification.

<table>
<thead>
<tr>
<th>Unit Title</th>
<th>A broad statement of what the unit will cover.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Unit Code</td>
<td>The Ofqual unit designation</td>
</tr>
<tr>
<td>Unit Type</td>
<td>There are three unit types: core (mandatory to all pathways); specialist (mandatory to specific pathways); and optional (available to most pathways)</td>
</tr>
<tr>
<td>Unit level</td>
<td>All Pearson BTEC Higher National units are at Level 4 or Level 5</td>
</tr>
<tr>
<td>Credit value</td>
<td>The credit value is related to total qualification time (TQT) and unit learning hours (ULH), and is easy to calculate. 1 credit is equal to 10 ULH, so 15 credits are equal to 150 ULH. To complete a Higher National Certificate or Diploma students are expected to achieve the appropriate number of credits</td>
</tr>
<tr>
<td>Introduction</td>
<td>Some general notes on the unit, setting the scene, stating the purpose, outlining the topics and skills gained on completion of the unit</td>
</tr>
<tr>
<td>Learning Outcomes</td>
<td>The Learning Outcomes are explicit statements that clearly express what students will be able to do after the completion of the unit. There are, typically, four Learning Outcomes for each unit.</td>
</tr>
<tr>
<td>-------------------</td>
<td>--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Essential Content</td>
<td>This section covers the content that students can expect to study as they work towards achieving their Learning Outcomes.</td>
</tr>
<tr>
<td>Learning Outcomes</td>
<td>Each unit sets out the ‘Pass’, ‘Merit’ and ‘Distinction’ criteria for that unit. When assignments are graded, a tutor will refer to this table, which connects the unit’s Learning Outcomes with the student's work. This assignment may be graded at ‘Pass’, ‘Merit’ or ‘Distinction level, depending on the quality of the students work.</td>
</tr>
<tr>
<td>and Assessment</td>
<td></td>
</tr>
<tr>
<td>Criteria</td>
<td></td>
</tr>
<tr>
<td>Recommended</td>
<td>Lists the resources appropriate to support the study of this unit. This includes books, journals and online material to support learning. The programme tutor may suggest alternatives and additions, usually with a local application or relevance.</td>
</tr>
<tr>
<td>Resources</td>
<td></td>
</tr>
</tbody>
</table>
Web resources – referencing:

Some units have web resources as part of their recommended resources lists. Hyperlinking to these resources directly can be problematic as locations and addresses of resources can change over time. To combat this we have referenced web resources as follows:

[1] A link to the main page of the website
[2] The title of the site
[3] The name of the section or element of the website where the resource can be found
[4] The type of resource it is, which may be one of the following –
  ● research
  ● general reference
  ● tutorials
  ● training
  ● e-books
  ● report
  ● wiki
  ● article
  ● datasets
  ● development tool
  ● discussion forum

                                      [3] Homepage

                                      [3] Homepage
5 Teaching and learning

The aim of this section is to provide guidance to Centres so that they can engage students in a dynamic, interactive and reflective learning experience. This experience should effectively prepare students to successfully engage in the assessments, which will measure depth, as well as breadth, of knowledge. Teaching should stimulate academic engagement, develop challenging yet constructive discourse and encourage students to reflect on their own performance in preparation for a professional career. Additionally, Centres are encouraged to expose students to autonomous and independent learning, which will facilitate the development of their academic skills, experiences and the techniques required as they progress from one level of study to the next.

Centres are encouraged to develop programmes that have a distinctive focus on entry into work, delivering a curriculum that embeds employability, has a strong commitment to ethics and diversity, and introduces students to contemporary as well as seminal research. All teaching and learning should reflect the expectations of employers and society, and be informed and guided by external benchmarks such as professional and statutory bodies. In so doing students completing a Higher National in Performing Arts will have the attributes, skills, principles and behaviours that will enable them to make a valuable contribution to local, national and international commerce.

The contributions students make to their own experiences, alongside the experience of their peers, is invaluable. Student engagement and the student voice should form a significant aspect of a student's life. Centres are encouraged to gather student opinions on a range of teaching and learning matters, which would be used to inform and enhance future practice within a programme of study and within a Centre.

5.1 Delivering quality and depth

A high-quality teaching and learning experience should include qualified and experienced lecturers, an interactive and engaging curriculum, motivated and inspired students, and a support system that caters for the pastoral as well as academic interests of students.

In addition to delivering a quality learning experience, Centres must also encourage students to have a deeper understanding of the subject where they are able to go beyond the fundamentals of explaining and describing. Students are expected to show they can analyse data and information, make sense of this and then reach evaluative judgements. At the higher levels of study there is an expectation that students will be able to apply a degree of criticality to their synthesis of knowledge. This criticality would come from exposure to appropriate and relevant theories, concepts and models.
One of the reasons for delivering a quality learning experience, which has depth as well as breadth, is the benchmarking of the qualification to the Framework for Higher Education Qualifications (FHEQ). It also meets requirements set by the Regulated Qualifications Framework (RQF). The first stage of a Higher National in Performing Arts is the Higher National Certificate (HNC), which is aligned with Level 4 of both frameworks; with the Higher National Diploma (HND) aligned with Level 5. This means that the HNC has the same level of demand and expectations as the first year of a degree programme, with the HND having the same level of demand and expectations as the second year of a degree programme.

Centres are expected to provide a broadly similar experience for students to that which they would have if they attended a similar programme at a university. This could mean:

- Providing access to library facilities which has, as a minimum, available copies (physically and/or electronically) of all required reading material
- Access to research papers and journals
- Utilising a virtual learning environment (VLE) to support teaching
- Working with local employers (see below) to present real-life case studies
- Creating schemes of work that embrace a range of teaching and learning techniques
- Listening to the student voice.

Irrespective of the type of programme on which a student is enrolled, it is highly advisable that students are inducted onto their Higher National programme. This induction should include an introduction to the course programme and academic study skills that will be essential in supporting their research and studies, and, therefore, enhance the learning experience.

An induction programme should consist of the following:

- Course programme overview
- Preparing for lessons
- Effective engagement in lectures and seminars
- Making the most out of their tutor
- Assignment requirements
- Referencing and plagiarism
- Centre policies
- Academic study skills.
Pearson offer Higher National Global Study Skills to all students – an online toolkit that supports the delivery, assessment and quality assurance of BTECs in Centres. This is available on the HN Global website www.highernationals.com. HN Global provides a wealth of support to ensure that tutors and students have the best possible experience during their course. With HN Global, students can search, share, comment, rank and sort a vast range of learning resources via an online digital library and tutors can create and annotate reading lists for students.

5.2 Engaging with employers

Just as the student voice is important, so too is the employer’s. Employers play a significant role in the design and development of all regulated qualifications, including the Higher Nationals in Performing Arts. This input should extend into the learning experience, where engagement with employers will add value to students, particularly in transferring theory into practice.

Centres should consider a range of employer engagement activities. These could include:

- Field trips to local theatres
- Inviting members of the local performing arts community to present guest lectures
- Using employers to judge the quality of assessed presentations and/or products
- (For the more entrepreneurial) establishing a panel of experts who students can pitch an idea to.

While detailed guidance on assessment has been provided in this specification (see Section 6), it is worth considering the involvement of employers when determining assessment strategies and the use of different assessment methods. This enables Centres to design assessments that are more closely related to what students would be doing in the workplace. Employers are able to comment on relevance and content, as well as the challenge presented by an assessment. Notwithstanding this, ultimately it is the Centre’s responsibility to judge the extent to which any employer contributes to teaching and learning.

5.3 Engaging with students

Students are integral to teaching and learning. As such it is important that they are involved as much as possible with most aspects of the programme on to which they are enrolled. This input could include taking into account their views on how teaching and learning will take place, their role in helping to design a curriculum, or on the assessment strategy that will test their knowledge and understanding.
There are many ways in which to capture the student voice and student feedback, both formal and informal. Formal mechanisms include the nomination of student representatives to act as the collective student voice for each student cohort, student representation at course team meetings, and an elected Higher Education representative as part of the Student Union. Student forums should also take place periodically throughout the year with minutes and action plans updated and informing the overall annual course monitoring process. Unit specific feedback can also be collated by students completing unit feedback forms, end of year course evaluations, and scheduled performance review meetings with their tutor.

However, this should not be the only time when feedback from students is sought. Discourse with students should be constant, whereby teachers adopt a ‘reflection on action’ approach to adjust teaching, so that students are presented with an environment that is most supportive of their learning styles. Just as employers could have an input into assessment design, so too could students. This will support the development of assignments that are exciting and dynamic, and fully engage students in meaningful and informative assessment.

The biggest advantage of consulting students on their teaching, learning and assessment is securing their engagement in their own learning. Students are likely to feel empowered and develop a sense of ownership of all matters related to teaching, learning and assessment, not just their own experiences. Students could also view themselves as more accountable to their lecturers, ideally seeing themselves as partners in their own learning and not just part of a process.

5.4 Planning and structuring a programme

Learning should be challenging yet exciting; teaching should be motivating and inspirational. Consequently, both teaching and learning should form part of a programme structure that is active, flexible and progressive, and has an industry focus wherever possible.

It is important for a programme structure to be effectively planned, taking into account the nature of the student cohort, the primary mode of delivery (face-to-face or distance learning) and the level of study. It is also advisable to consider the student voice (whether that voice is heard through end of programme feedback, or through on-going dialogue) when planning how and when students will be exposed to a particular subject. One other vital source of information that centres would do well to embrace is the feedback from tutors who have been and/or will be delivering learning.
It is recommended that centres establish a programme planning forum where various stakeholders are represented. This forum could consider different perspectives of teaching and learning and how these are planned into an effective programme structure. Consideration could be given to, for example, the holistic and consistent use of Virtual Learning Environments (VLEs), a programme of field trips, a strategy for engaging with employers, and how and when to assess learning.

Consideration should be given to a number of factors when planning a programme structure. These include:

- The sequencing of units
- Whether to have condensed or expanded delivery
- Teaching and learning techniques.

5.4.1 Sequencing units
The level of demand embedded within a unit is benchmarked to recognised standards. This applies to all units within a level of study, and this means that all Level 4 units have similar demands, as do all Level 5 units. However, this does not mean that units can, or should, be delivered in any order. For example, in the Higher National Diploma in Performing Arts it is strongly advised that Level 4 units are delivered, and achieved, by students before progression to Level 5. However, students are able to progress to level 5 with a minimum of 90 credits at Level 4.

Within each level it is advisable to sequence units so that those providing fundamental knowledge and understanding are scheduled early in the programme. It may also be advisable to schedule the assessment of units requiring the practice and application of more advanced skills later in the programme.
5.4.2 Condensed and expanded delivery

The next consideration is whether to deliver a unit in a condensed format alongside other units, or to deliver units over an expanded period. The following tables provide examples of this, based on four units being delivered in one teaching block.

### Condensed version:

<table>
<thead>
<tr>
<th>Weeks 1 to 6</th>
<th>Week 7</th>
<th>Weeks 8 to 13</th>
<th>Week 14</th>
</tr>
</thead>
<tbody>
<tr>
<td>Unit 1</td>
<td>Assessment</td>
<td>Unit 3</td>
<td>Assessment</td>
</tr>
<tr>
<td>Unit 2</td>
<td></td>
<td>Unit 4</td>
<td></td>
</tr>
</tbody>
</table>

### Expanded version:

<table>
<thead>
<tr>
<th>Weeks 1 to 12</th>
<th>Weeks 13 and 14</th>
</tr>
</thead>
<tbody>
<tr>
<td>Unit 1</td>
<td></td>
</tr>
<tr>
<td>Unit 2</td>
<td>Assessment</td>
</tr>
<tr>
<td>Unit 3</td>
<td></td>
</tr>
<tr>
<td>Unit 4</td>
<td></td>
</tr>
</tbody>
</table>
The decision to deliver a condensed, expanded or mixed programme would depend on a number of factors, including availability of resources, the subjects to be taught and the requirements of students. Each version has advantages: the condensed version would provide an opportunity for students to gain early success and achievement. This will enhance their self-efficacy, the sense of one's belief in one's ability to succeed, and self-confidence, with tutors being able to identify and respond to less able students early in the teaching and learning cycle.

The advantages of the expanded version include providing a longer timescale for students to absorb new knowledge and therefore, potentially, improve success, and giving tutors an opportunity to coach and support less able students over a longer period of time.

The mixed version, with some units spanning over the entire period and others lasting for shorter periods, provides opportunities for learning in some units to support development in others. This format may be particularly suited to a combination of practical and theoretical units. In all cases, the choice of which type of unit sequence must consider student opportunities as well as staff and physical resources of the centre.

As there are pros and cons to both approaches, the use of a planning forum would help to ensure the most appropriate approach is taken. For example, centres could choose to deliver the first teaching block using the expanded version, with the subsequent teaching block being delivered through a condensed approach.

It should be noted that the above consideration would apply equally to programmes that are being delivered face-to-face or through distance learning.
5.4.3 **Drawing on a wide range of delivery techniques**

As part of planning the range of techniques that will be used to deliver the syllabus, centres should also consider an appropriate combination of techniques for the subject.

The table below lists some of the techniques that centres could introduce into a planned programme structure.

<table>
<thead>
<tr>
<th>Technique</th>
<th>Face-to-face</th>
<th>Distance learning</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lectures and seminars</td>
<td>These are the most common techniques used by tutors. They offer an opportunity to engage with a large number of students, where the focus is on sharing knowledge through the use of presentations.</td>
<td>Delivery would be through video conferencing and/or pre-recorded audio and/or visual material, available through an online platform. Synchronous discussion forums could also be used.</td>
</tr>
<tr>
<td>Workshops</td>
<td>These are used to build on knowledge shared via tutors and seminars. Teaching can be more in-depth where knowledge is applied, for example to case studies or real-life examples. Workshops could be student-led, where students present, for example, findings from independent study.</td>
<td>While more challenging to organise than for face-to-face delivery, workshops should not be dismissed. Smaller groups of three or four students could access a forum simultaneously and engage in the same type of activity as for face-to-face.</td>
</tr>
<tr>
<td>Tutorials</td>
<td>These present an opportunity for focused one-to-one support, where teaching is led by an individual student's requirements. These can be most effective in the run up to assessment, where tutors can provide more focused direction, perhaps based on a formative assessment.</td>
<td>Other than not necessarily being in the same room as a student, tutors could still provide effective tutorials. Video conferencing tools provide the means to see a student, which makes any conversation more personal.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Technique</th>
<th>Face-to-face</th>
<th>Distance learning</th>
</tr>
</thead>
<tbody>
<tr>
<td>Virtual Learning Environments (VLEs)</td>
<td>These are invaluable to students studying on a face-to-face programme. Used effectively, VLEs not only provide a repository for taught material such as presentation slides or handouts, but could be used to set formative tasks such as quizzes. Further reading could also be located on a VLE, along with a copy of the programme documents, such as the handbook and assessment timetable.</td>
<td>A VLE is a must if students are engaged with online delivery through distance or blended learning, as this would be the primary or the key source of learning. Where distance learning is primarily delivered through hard copies of workbooks, etc., the same principle would apply as for face-to-face learning.</td>
</tr>
<tr>
<td>Blended learning</td>
<td>The combination of traditional face-to-face learning and online learning. This can enable the students to gain personalised support, instruction and guidance while completing assigned activities and tasks remotely.</td>
<td>Offline learning enables students to develop autonomy and self-discipline by completing set activities and tasks with limited direction and traditional classroom-based constraints.</td>
</tr>
<tr>
<td>Work-based learning</td>
<td>Any opportunity to integrate work-based learning into a curriculum should be taken. This adds realism and provides students with an opportunity to link theory to practice in a way in which case studies do not. Many full-time students are involved in some form of employment, either paid or voluntary, which could be used, where appropriate, as part of their learning, for example when assignments require students to contextualise a response to a real organisation.</td>
<td>It is likely that the majority of distance learning students would be employed and possibly classed as mature students. Bringing theory to life through a curriculum, which requires work-based application of knowledge, would make learning for these students more relevant and meaningful. Perhaps more importantly, assessment should be grounded in a student's place of work, wherever possible.</td>
</tr>
<tr>
<td>Technique</td>
<td>Face-to-face</td>
<td>Distance learning</td>
</tr>
<tr>
<td>----------------------</td>
<td>-----------------------------------------------------------------------------</td>
<td>------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Guest speakers</td>
<td>These could be experts from industry or visiting academics in the subject area that is being studied. They could be used to present a lecture/seminar, a workshop or to contribute to assessment. The objective is to make the most effective use of an expert’s knowledge and skill by adding value to the teaching and learning experience.</td>
<td>As long as the expert has access to the same platform as the students then the value-added contribution would still be very high. Consideration would need to be given to timings and logistics, but with some innovative management this technique would still have a place in distance learning programmes.</td>
</tr>
<tr>
<td>Field trips</td>
<td>Effectively planned field trips, which have a direct relevance to the syllabus, would add value to the learning experience. Through these trips students could relate theory to practice, have an opportunity to experience organisations in action, and potentially open their minds to career routes.</td>
<td>The use of field trips could be included as part of a distance learning programme. They will add the same value and require the same planning. One additional benefit of field trips for distance learning is that they provide an opportunity for all students in a cohort to meet, which is a rare occurrence for distance learning students.</td>
</tr>
</tbody>
</table>
5.4.4 Assessment considerations

Centres should design assessment for learning. This is where an assessment strategy requires students to engage with a variety of assessment tools that are accessible, appropriately challenging, and support the development of student self-efficacy and self-confidence. To ensure that assignments are valid and reliable, Centres must implement robust Quality Assurance measures and monitor the effectiveness of their implementation (see Section 7 of this Programme Specification). This includes ensuring that all students engage in assessment positively and honestly.

Assessment also provides a learning opportunity for all stakeholders of the assessment to have access to feedback that is both individual to each student and holistic to the cohort. Feedback to students should be supportive and constructive. Student self-efficacy (and, therefore, self-confidence) can be significantly enhanced where feedback not only focuses on areas for improvement but recognises the strengths a student has. At the cohort level, similar trends could be identified that inform future approaches to assessments and teaching. Assessment is an integral part of the overall learning process and assessment strategy must be developed to support effective, reflective, thinking performing arts practitioners for the future. Assessment can be either formative, summative or both.

5.4.5 Formative assessment

Formative assessment is primarily developmental in nature and designed to give feedback to students on their performance and progress. Assessment designed formatively should develop and consolidate knowledge, understanding, skills and competencies. It is a key part of the learning process and can enhance learning and contribute to raising standards.

Through formative assessment tutors can identify students’ differing learning needs early on in the programme and so make timely corrective interventions. Tutors can also reflect on the results of formative assessment to measure how effective the planned teaching and learning is at delivering the syllabus. Each student should receive one set of written formative feedback, otherwise some students may feel that others are being given more than their share of verbal feedback.

5.4.6 Summative assessment

Summative assessment is where students are provided with the assignment grades contributing towards the overall unit grade. For summative assessment to be effective it should also give students additional formative feedback to support on-going development and improvement in subsequent assignments. All formative assessment feeds directly into the summative assessment for each unit and lays the foundations from which students develop the necessary knowledge and skills required for the summative assessment.
5.4.7 Assessment feedback

Effective assessment feedback is part of continuous guided learning which promotes learning and enables improvement. It also allows students to reflect on their performance and helps them understand how to make effective use of feedback. Constructive and useful feedback should enable students to understand the strengths and limitations of their performance, providing positive comments where possible as well as explicit comments on how improvements can be made. Feedback should reflect the learning outcomes and assessment criteria to also help students understand how these inform the process of judging the overall grade.

The timing of the provision of feedback and of the returned assessed work also contributes to making feedback effective. Specific turnaround time for feedback should be agreed and communicated with both tutors and students. Timing should allow students the opportunity to reflect on the feedback and consider how to make use of it in forthcoming assessments, taking into account the tutor’s workload and ability to provide effective feedback.

5.4.8 Designing valid and reliable assessments

To help ensure valid and reliable assignments are designed and are consistent across all units, Centres could consider a number of actions.

Use of language

The first aspect of an assignment that a Centre could focus on is ensuring that language makes tasks/questions more accessible to students.

Due consideration must be given to the command verbs (i.e. the verbs used in unit assessment criteria) when considering the Learning Outcomes of a unit. Assignments must use appropriate command verbs that equate to the demand of the learning outcome. If the outcome requires ‘analysis’ then ‘evaluative’ requirements within the assignment must not be set when testing that outcome. This would be viewed as over-assessing. Similarly, it is possible to under-assess where analytical demands are tested using, for example, explanatory command verbs.

The following can be used as a guide to support assignment design.

- Ensure there is a holistic understanding (by tutors and students) and use of command verbs.
- Set assignment briefs that use a single command verb, focusing on the highest level of demand expected for the learning outcome(s) that is (are) being tested.
- Assignments should be supported by additional guidance that helps students to interpret the demand of the assessment criteria.
Time-constrained assessments should utilise the full range of command verbs (or acceptable equivalents) appropriate to the academic level. Modes of time-constrained assessments include in-class tests and exams that could be both open- or closed-book. Centres should pay close consideration to ensuring tests and exams are not replicated during the course of the year.

**Consistency**

This relates to the consistency of presentation and structure, the consistent use of appropriate assessment language, and the consistent application of grading criteria. Where assignments are consistent, reliability is enhanced. Where validity is present in assignments this will result in assignments that are fit for purpose and provide a fair and equitable opportunity for all students to engage with the assignment requirements.

**Employing a range of assessment tools**

Just as variation in teaching methods used is important to the planning of a programme structure, so too is the use of a range of assessment tools appropriate to the unit and its content. Centres should consider taking a holistic view of assessment, ensuring a balanced assessment approach with consideration given to the subject being tested and what is in the best interests of students. As mentioned above, consultation with employers could add a sense of realism to an assessment strategy. (A comprehensive list of assessment tools is provided in Section 6.2 Setting effective assignments).

No matter what tool is used, assignments should have a sector focus (whether this is in a workplace context or through a case study), and be explicitly clear in its instructions. In the absence of a case study, a scenario should be used to provide some context. Finally, students should be clear on the purpose of the assignment and which elements of the unit it is targeting.
6 Assessment

BTEC Higher Nationals in Performing Arts are assessed using a combination of internally assessed centre-devised internal assignments (which are set and marked by centres) and internally assessed Pearson-set assignments (which are set by Pearson and marked by centres). Pearson-set assignments are mandatory and target particular industry-specific skills. The number and value of these units are dependent on qualification size:

For the HNC, one core, 15 credit, unit at Level 4 will be assessed by a mandatory Pearson-set assignment targeted at particular skills;

For the HND, two core units: one core, 15 credit, unit at Level 4 and one core, 30 credit, unit at Level 5, will be assessed by a mandatory Pearson-set assignment targeted at particular skills;

All other units are assessed by Centre-devised internal assignments.

The purpose and rationale of having Pearson-set units on Higher Nationals is as follows:

- **Standardisation of student work** – Assessing the quality of student work, that it is meeting the level and the requirements of the unit across all centres, that grade decisions and assessor feedback are justified, and that internal verification and moderation processes are picking up any discrepancies and issues.

- **Sharing of good practice** – We will share good practice in relation to themes such as innovative approaches to delivery, the use of digital literacy, enhancement of student employability skills and employer engagement. **These themes will align to those for QAA Higher Education Reviews.**

An appointed External Examiner (EE) for the centre will ask to sample the Pearson-set assignment briefs in advance of the external examination visit. Although this is not a mandatory requirement for centres, we strongly advise that centres seek guidance and support from their EE on the Pearson-set assignments. The EE may also include the Pearson-set units in their sample of student work during their centre visit.

We have taken great care to ensure that the assessment method chosen is appropriate to the content of the unit and in line with requirements from professional bodies, employers and higher education.

In developing an overall plan for delivery and assessment for the programme, you will need to consider the order in which you deliver units, whether delivery will take place over short or long periods of time, and when assessment can take place.
Example Assessment Briefs

Each unit has supporting Example Assessment Briefs (EABs) that are available to download from the course materials section on our website (http://qualifications.pearson.com/). The example assessment briefs are there to give you an example of what the assessment will look like in terms of the feel and level of demand of the assessment.

The EABs, with the exception of the mandatory Pearson-set unit, provide tutors with suggested types of assignment and structure that must be adapted accordingly.

6.1 Principles of internal assessment

This section gives an overview of the key features of internal assessment and how you, as an approved Centre, can offer it effectively. The full requirements and operational information are given in the Pearson Quality Assurance Handbook available in the support section of our website (http://qualifications.pearson.com/). All of the assessment team will need to refer to this document.

For BTEC Higher Nationals it is important that you can meet the expectations of stakeholders and the needs of students by providing a programme that is practical and applied. Centres can tailor programmes to meet local needs and should use links with local employers and the wider business sector.

When internal assessment is operated effectively it is challenging, engaging, practical and up to date. It must also be fair to all students and meet national standards.

6.1.1 Assessment through assignments

For internally assessed units the format of assessment is an assignment taken after the content of the unit, or part of the unit if several assignments are used, has been fully delivered. An assignment may take a variety of forms, including practical and written types. An assignment is a distinct activity completed independently by students (either alone or in a team). An assignment is separate from teaching, practice, exploration and other activities that students complete with direction from and, formative assessment by, tutors.

An assignment is issued to students as an assignment brief with a hand-out date, a completion date and clear requirements for the evidence that students are expected to provide. There may be specific observed practical components during the assignment period. Assignments can be divided into separate parts and may require several forms of evidence. A valid assignment will enable a clear and formal assessment outcome based on the assessment criteria.
6.1.2 Assessment decisions through applying unit-based criteria

Assessment decisions for BTEC Higher Nationals are based on the specific criteria given in each unit and set at each grade level. The criteria for each unit have been defined according to a framework to ensure that standards are consistent in the qualification and across the suite as a whole. The way in which individual units are written provides a balance of assessment of understanding, practical skills and vocational attributes appropriate to the purpose of the qualifications.

The assessment criteria for a unit are hierarchical and holistic. For example, if an M criterion requires the student to show ‘analysis’ and the related P criterion requires the student to ‘explain’, then to satisfy the M criterion a student will need to cover both ‘explain’ and ‘analyse’. The unit assessment grid shows the relationships among the criteria so that assessors can apply all the criteria to the student's evidence at the same time. In Appendix 1 we have set out a definition of terms that assessors need to understand.

Assessors must show how they have reached their decisions using the criteria in the assessment records. When a student has completed all the assessment for a unit then the assessment team will give a grade for the unit. This is given simply according to the highest level for which the student is judged to have met all the criteria. Therefore:

- **to achieve a Pass**, a student must have satisfied all the Pass criteria for the Learning Outcomes, showing coverage of the unit content and therefore attainment at Level 4 or 5 of the national framework
- **to achieve a Merit**, a student must have satisfied all the Merit criteria (and, therefore, the Pass criteria) through high performance in each learning outcome
- **to achieve a Distinction**, a student must have satisfied all the Distinction criteria (and therefore the Pass and Merit criteria), and these define outstanding performance across the unit as a whole.

The award of a Pass is a defined level of performance and cannot be given solely on the basis of a student completing assignments. Students who do not satisfy the Pass criteria should be reported as Unclassified.

6.1.3 The assessment team

It is important that there is an effective team for internal assessment. There are three key roles involved in implementing assessment processes in your Centre, each with different interrelated responsibilities, and these roles are listed below. Full information is given in the Pearson Quality Assurance Handbook available in the support section of our website (http://qualifications.pearson.com/).
● **The Programme Leader** has overall responsibility for the programme, its assessment and internal verification to meet our requirements, record-keeping and liaison with the EE. The Programme Leader registers with annually Pearson and acts as an assessor, supports the rest of the assessment team, makes sure they have the information they need about our assessment requirements, and organises training, making use of our guidance and support materials.

● **Internal Verifiers** (IVs) oversee all assessment activity in consultation with the Programme Leader. They check that assignments and assessment decisions are valid and that they meet our requirements. IVs will be standardised by working with the Programme Leader. Normally, IVs are also assessors, but they do not verify their own assessments.

● **Assessors** set or use assignments to assess students to national standards. Before taking any assessment decisions, assessors participate in standardisation activities led by the Programme Leader. They work with the Programme Leader and IVs to ensure that the assessment is planned and carried out in line with our requirements.

● Your EE will sample student work across assessors. Your EE will also want to see evidence of internal verification of assignments and assessment decisions.

6.1.4 Effective organisation

Internal assessment needs to be well organised so that student progress can be tracked and so that we can monitor that assessment is being carried out in line with national standards. We support you in this through, for example, providing training materials and sample documentation. Our online HN Global service can also help support you in planning and record-keeping.

It is particularly important that you manage the overall assignment programme and deadlines to make sure that all your students are able to complete assignments on time.

6.1.5 Student preparation

To ensure that you provide effective assessment for your students, you need to make sure that they understand their responsibilities for assessment and the Centre’s arrangements. From induction onwards, you will want to ensure that students are motivated to work consistently and independently to achieve the requirements of the qualifications. They need to understand how assignments are used, the importance of meeting assignment deadlines, and that all the work submitted for assessment must be their own.
You will need to give your students a guide that explains:

- how assignments are used for assessment
- how assignments relate to the teaching programme
- how students should use and reference source materials, including what would constitute plagiarism.

The guide should also set out your Centre's approach to operating assessments, such as how students must submit assignments/work and the consequences of submitting late work and the procedure for requesting extensions for mitigating circumstances.

You will need to give your students a guide that explains:

- How assignments are used for assessment
- How assignments relate to the teaching programme
- How students should use and reference source materials, including what would constitute plagiarism.

The guide should also set out your centre's approach to operating assessments, such as how students must submit assignments/work and the consequences of submitting late work and the procedure for requesting extensions for mitigating circumstances.

### 6.2 Setting effective assessments

#### 6.2.1 Setting the number and structure of assignments

In setting your assessments you need to work with the structure of assessments shown in the relevant section of a unit. This shows the learning aims and outcomes and the criteria that you are expected to follow.

Pearson provide online EABs for each unit to support you in developing and designing your own assessments.

In designing your own assignment briefs you should bear in mind the following points.

- The number of assignments for a unit must not exceed the number of Learning Outcomes listed in the unit descriptor. However, you may choose to combine assignments, either to cover a number of Learning Outcomes or to create a single assignment for the entire unit.

- You may also choose to combine all or parts of different units into single assignments, provided that all units and all their associated Learning Outcomes are fully addressed in the programme overall. If you choose to take this approach you need to make sure that students are fully prepared, so that they can provide all the required evidence for assessment, and that you are able to track achievement in assessment records.
● A learning outcome must always be assessed as a whole and must not be split into two or more elements.

● The assignment must be targeted to the Learning Outcomes but the Learning Outcomes and their associated criteria are not tasks in themselves. Criteria are expressed in terms of the outcome shown in the evidence.

You do not have to follow the order of the Learning Outcomes of a unit in setting assignments, but later Learning Outcomes often require students to apply the content of earlier Learning Outcomes, and they may require students to draw their learning together.

Assignments must be structured to allow students to demonstrate the full range of achievement at all grade levels. Students need to be treated fairly by being given the opportunity to achieve a higher grade, if they have the ability to do so.

As assignments provide a final assessment, they will draw on the specified range of teaching content for the Learning Outcomes. The specified unit content must be taught/delivered. The evidence for assessment need not cover every aspect of the teaching content, as students will normally be given particular examples, case studies or contexts in their assignments. For example, if a student is carrying out one practical performance, or an investigation of one organisation, then they will address all the relevant range of content that applies in that instance.

6.2.2 Providing an assignment brief

A good assignment brief is one that, through providing challenging and authentic sector/work-related tasks, motivates students to provide appropriate evidence of what they have learned.

An assignment brief should have:

● a vocational scenario: this could be a simple situation or a full, detailed set of vocational requirements that motivates the student to apply their learning through the assignment

● clear instructions to the student about what they are required to do, normally set out through a series of tasks

● an audience or purpose for which the evidence is being provided

● an explanation of how the assignment relates to the unit(s) being assessed.
6.2.3 Forms of evidence

BTEC Higher Nationals have always allowed for a variety of forms of assessment evidence to be used, provided they are suited to the type of Learning Outcomes being assessed. For many units, the practical demonstration of skills is necessary and, for others, students will need to carry out their own research and analysis, working independently or as part of a team.

The Example Assessment Briefs give you information on what would be suitable forms of evidence to give students the opportunity to apply a range of employability or transferable skills. Centres may choose to use different suitable forms of evidence to those proposed. Overall, students should be assessed using varied forms of evidence.

These are some of the main types of assessment:

- written reports, essays
- in-class tests
- examinations
- creation of financial documents
- creation of planning documents
- work-based projects
- academic posters, displays, leaflets
- PowerPoint (or similar) presentations
- recordings of interviews/role plays
- working logbooks, reflective journals
- presentations with assessor questioning
- time-constrained assessment.

(Full definitions of different types of assessment are given in Appendix 2.)

The form(s) of evidence selected must:

- allow the student to provide all the evidence required for the Learning Outcomes and the associated assessment criteria at all grade levels
- allow the student to produce evidence that is their own independent work
- allow a verifier to independently reassess the student to check the assessor’s decisions.

For example, when you are using performance evidence, you need to think about how supporting evidence can be captured through recordings, photographs or task sheets.
Centres need to take particular care that students are enabled to produce independent work. For example, if students are asked to use real examples, then best practice would be to encourage them to use examples of their own or to give the group a number of examples that can be used in varied combinations.

6.3 Making valid assessment decisions

6.3.1 Authenticity of student work
An assessor must assess only student work that is authentic, i.e. the student’s own independent work. Students must authenticate the evidence that they provide for assessment through signing a declaration stating that it is their own work. A student declaration must state that:
- evidence submitted for the assignment is the student’s own
- the student understands that false declaration is a form of malpractice.

Assessors must ensure that evidence is authentic to a student through setting valid assignments and supervising them during the assessment period. Assessors must also take care not to provide direct input, instructions or specific feedback that may compromise authenticity.

Centres may use Pearson templates or their own templates to document authentication.

During assessment, an assessor may suspect that some or all of the evidence from a student is not authentic. The assessor must then take appropriate action using the Centre's policies for malpractice. (See Section 3.7 in this Programme Specification for further information.)

6.3.2 Making assessment decisions using criteria
Assessors make judgements using the criteria. The evidence from a student can be judged using all the relevant criteria at the same time. The assessor needs to make a judgement against each criterion that evidence is present and sufficiently comprehensive. For example, the inclusion of a concluding section may be insufficient to satisfy a criterion requiring 'evaluation'.

Assessors should use the following information and support in reaching assessment decisions.
- The explanation of key terms in Appendix 3 of this document.
- Examples of verified assessed work.
- Your Programme Leader and assessment team’s collective experience.
6.3.3 Dealing with late completion of assignments

Students must have a clear understanding of the centre’s policy on completing assignments by the deadlines that you give them. Students may be given authorised extensions for legitimate reasons, such as illness, at the time of submission, in line with your centre policies (see also Section 3.6 “Administrative arrangements for internal assessment”).

For assessment to be fair, it is important that students are all assessed in the same way and that some students are not advantaged by having additional time or the opportunity to learn from others. Centres should develop and publish their own regulations on late submission; and, this should make clear the relationship between late submission and the centre’s mitigating circumstances policy.

Centres may apply a penalty to assignments that are submitted beyond the published deadline. However, if a late submission is accepted, then the assignment should be assessed normally, when it is submitted, using the relevant assessment criteria; with any penalty or cap applied after the assessment. Where the result of assessment may be capped, due to late submission of the assignment, the student should be given an indication of their uncapped grade; in order to recognise the learning that has been achieved, and assessment feedback should be provided in relation to the uncapped achievement.

As with all assessment results, both the uncapped and capped grades should be recorded and ratified by an appropriate assessment board; taking into account any mitigating circumstances that may have been submitted. For assessment to be fair, it is important that students are all assessed in the same way and that some students are not advantaged by having additional time or the opportunity to learn from others. Therefore, it may be advisable that students who do not complete assignments by your planned deadline should not have the opportunity to subsequently resubmit. Centres should develop and publish their own regulations on late submission. However, if you accept a late completion by a student, then the assignment should be assessed normally when it is submitted, using the relevant assessment criteria.

6.3.4 Issuing assessment decisions and feedback

Once the assessment team has completed the assessment process for an assignment, the outcome is a formal assessment decision. This is recorded formally and reported to students. The information given to the student:

- must show the formal decision and how it has been reached, indicating how or where criteria have been met
- may show why attainment against criteria has not been demonstrated
- must not provide feedback on how to improve evidence but how to improve in the future.
6.3.5 Resubmission opportunity
An assignment provides the final assessment for the relevant Learning Outcomes and is normally a final assessment decision. A student who, for the first assessment opportunity, has failed to achieve a Pass for that unit specification shall be expected to undertake a reassessment.

Only one opportunity for reassessment of the unit will be permitted.

Reassessment for coursework, project- or portfolio-based assessments shall normally involve the reworking of the original task.

For examinations, reassessment shall involve completion of a new task.

A student who undertakes a reassessment will have their grade capped at a Pass for that unit.

A student will not be entitled to be reassessed in any component of assessment for which a Pass grade or higher has already been awarded.

6.3.6 Repeat Units
A student who, for the first assessment opportunity and resubmission opportunity, still failed to achieve a Pass for that unit specification can:

- be permitted a repeat of a unit (at Centre discretion or with a decision made at Assessment Board)
- study the unit again (with full attendance and payment of the unit fee)
- receive an overall unit grade for a successfully completed repeat unit (but this will be capped at a Pass for that unit)
- repeat a unit once only.

6.3.7 Assessment Boards
Each Centre is expected by Pearson to hold Assessment Boards for all of its BTEC Higher National programmes. The main purpose of an Assessment Board is to make recommendations on:

- the grades achieved by students on the individual units
- extenuating circumstances
- cases of cheating and plagiarism
- progression of students on to the next stage of the programme
- the awards to be made to students
- referrals and deferrals.
Assessment Boards may also monitor academic standards. The main boards are normally held at the end of the session, although if your Centre operates on a semester system there may be (intermediate) boards at the end of the first semester. There may also be separate boards to deal with referrals.

Where a Centre does not currently have such a process then the External Examiner (EE) should discuss this with the Quality Nominee and Programme Leader, stressing the requirement for Assessment Boards by both Pearson and QAA and that Assessment Board reports and minutes provide valuable evidence for QAA’s Review of Higher Education process.

6.4 Planning and record keeping

For internal processes to be effective, an assessment team needs to be well organised and keep effective records. The Centre will also work closely with us so that we can quality assure that national standards are being satisfied. This process gives stakeholders confidence in the assessment approach.

The Programme Leader should have an assessment plan. When producing a plan, the assessment team will wish to consider:

- the time required for training and standardisation of the assessment team
- the time available to undertake teaching and carrying out of assessment, taking account of when students may complete external assessments and when Quality Assurance will take place
- the completion dates for different assignments
- who is acting as IV for each assignment and the date by which the assignment needs to be verified
- setting an approach to sampling assessor decisions though internal verification that covers all assignments, assessors and a range of students
- how to manage the assessment and verification of students’ work so that they can be given formal decisions promptly
- how resubmission opportunities can be scheduled.

The Programme Leader will also maintain records of assessment undertaken. The key records are:

- verification of assignment briefs
- student authentication declarations
- assessor decisions on assignments, with feedback given to students
- verification of assessment decisions.

Examples of records and further information are available in the Pearson Quality Assurance Handbook available in the support section of our website (http://qualifications.pearson.com).
6.5 Calculation of the final qualification grade

6.5.1 Conditions for the award

Conditions for the award of the HND
To achieve a Pearson BTEC Level 5 Higher National Diploma qualification a student must have:
- completed units equivalent to 120 credits at level 5
- achieved at least a pass in 105 credits at level 5
- completed units equivalent to 120 credits at level 4
- achieved at least a pass in 105 credits at level 4.

Conditions for the award of the HNC
To achieve a Pearson BTEC Level 4 Higher National Certificate qualification a student must have:
- completed units equivalent to 120 credits at level 4
- achieved at least a pass in 105 credits at level 4.

6.5.2 Compensation provisions

Compensation provisions for the HND
Students can still be awarded an HND if they have attempted but not achieved a Pass in one of the 15-credit units completed at level 4, and similarly if they have attempted but not achieved a Pass in one of the 15-credit units at level 5. However, they must complete and pass the remaining units for an HNC or HND as per the unit rules of combination of the required qualification.

Compensation provisions for the HNC
Students can still be awarded an HNC if they have attempted but not achieved a Pass in one of the 15-credit units completed, but have completed and passed the remaining units.

6.5.3 Calculation of the overall qualification grade
The calculation of the overall qualification grade is based on the student’s performance in all units. Students are awarded a Pass, Merit or Distinction qualification grade, using the points gained through all 120 credits, at Level 4 for the HNC or Level 5 for the HND, based on unit achievement. The overall qualification grade is calculated in the same way for the HNC and for the HND.
All units in valid combination must have been attempted for each qualification. The conditions of award and the compensation provisions will apply as outlined above. All 120 credits count in calculating the grade (at each level, as applicable).

The overall qualification grade for the HND will be calculated based on student performance in Level 5 units only.

Units that have been attempted but not achieved, and subsequently granted compensation, will appear as ‘Unclassified’, i.e. a ‘U’ grade, on the student’s Notification of Performance, that is issued with the student certificate.

Opt = Optional
7 Quality assurance

Pearson’s Quality Assurance system for all Pearson BTEC Higher National programmes is benchmarked to Level 4 and Level 5 on the Quality Assurance Agency (QAA) Framework for Higher Education Qualifications (FHEQ). This will ensure that Centres have effective Quality Assurance processes to review programme delivery. It will also ensure that the outcomes of assessment are to national standards.

The Quality Assurance process for Centres offering Pearson BTEC Higher National programmes comprise five key components:

1 the approval process
2 monitoring of internal Centre systems
3 independent assessment review
4 annual programme monitoring report (APMR)
5 annual student survey.

7.1 The approval process

Centres new to the delivery of Pearson programmes will be required to seek approval initially through the existing Centre approval process and then through the programme approval process. Programme approval for new Centres can be considered in one of two ways:

- desk-based approval review
- review and approval visit to the Centre.

Prior to approval being given, Centres will be required to submit evidence to demonstrate that they:

- have the human and physical resources required for effective delivery and assessment
- understand the implications for independent assessment and agree to abide by these
- have a robust internal assessment system supported by ‘fit-for-purpose’ assessment documentation
- have a system to internally verify assessment decisions to ensure standardised assessment decisions are made across all assessors and sites.

Applications for approval must be supported by the Head of the Centre (Principal or Chief Executive, etc.) and include a declaration that the Centre will operate the programmes strictly, as approved and in line with Pearson requirements.
Centres seeking to renew their programme approval upon expiry of their current approval period may be eligible for the Automatic Approval process, subject to the Centre meeting the eligibility criteria set out by Pearson.

Regardless of the type of Centre, Pearson reserves the right to withdraw either qualification or Centre approval when it deems there is an irreversible breakdown in the Centre's ability either to quality assure its programme delivery or its assessment standards.

### 7.2 Monitoring of internal centre systems

Centres will be required to demonstrate ongoing fulfilment of the Centre approval criteria over time and across all Higher National programmes. The process that assures this is external examination, which is undertaken by External Examiners. Centres will be given the opportunity to present evidence of the ongoing suitability and deployment of their systems to carry out the required functions. This includes the consistent application of policies affecting student registrations, appeals, effective internal examination and standardisation processes. Where appropriate, Centres may present evidence of their operation within a recognised code of practice, such as that of the QAA for Higher Education. Pearson reserves the right to confirm independently that these arrangements are operating to Pearson's standards.

Pearson will affirm, or not, the ongoing effectiveness of such systems. Where system failures are identified, sanctions (appropriate to the nature of the problem) will be applied, in order to assist the Centre in correcting the problem.

### 7.3 Independent assessment review

The internal assessment outcomes reached for all Pearson BTEC Higher National programmes benchmarked to Level 4 and Level 5 of the QAA's FHEQ, are subject to a visit from a Pearson appointed EE. The outcomes of this process will be:

- to confirm that internal assessment is to national standards and allow certification, or
- to make recommendations to improve the quality of assessment outcomes before certification is released, or
- to make recommendations about the Centre’s ability to continue to be approved for the Pearson BTEC Higher National qualifications in question.
7.4 **Annual Programme Monitoring Report (APMR)**

The APMR is a written annual review form that provides opportunity for centres to analyse and reflect on the most recent teaching year. By working in collaboration with centres, the information can be used by Pearson to further enhance the quality assurance of the Pearson BTEC Higher National programmes.

7.5 **Annual student survey**

Pearson will conduct an annual survey of Pearson BTEC Higher National students. The purpose of the survey is to enable Pearson to evaluate the student experience as part of the quality assurance process, by engaging with students studying on these programmes.

7.6 **Centre and qualification approval**

As part of the approval process, your Centre must make sure that the resource requirements listed below are in place before offering the qualification.

Centres must have appropriate physical resources (for example equipment, IT, learning materials, teaching rooms) to support the delivery and assessment of the qualifications.

- Staff involved in the assessment process must have relevant expertise and/or occupational experience.
- There must be systems in place to ensure continuing professional development for staff delivering the qualification.
- Centres must have in place appropriate Health and Safety policies relating to the use of equipment by staff and students.
- Centres must deliver the qualification in accordance with current equality legislation.
- Centres should refer to the individual unit descriptors to check for any specific resources required.

The result, we believe, are qualifications that will meet the needs and expectations of students worldwide.

7.7 **Continuing quality assurance and standards verification**

We produce annually the latest version of the Pearson Quality Assurance Handbook available in the support section of our website (http://qualifications.pearson.com). It contains detailed guidance on the quality processes required to underpin robust assessment and internal verification.
The key principles of Quality Assurance are that:

- a Centre delivering Pearson BTEC Higher National programmes must be an approved Centre, and must have approval for the programmes or groups of programmes that it is delivering
- the Centre agrees, as part of gaining approval, to abide by specific terms and conditions around the effective delivery and Quality Assurance of assessment; it must abide by these conditions throughout the period of delivery
- Pearson makes available to approved Centres a range of materials and opportunities through the assessment checking service. This is intended to exemplify the processes required for effective assessment and provide examples of effective standards. Approved Centres must use the materials and services to ensure that all staff delivering BTEC qualifications keep up to date with the guidance on assessment.
- an approved Centre must follow agreed protocols for standardisation of assessors and verifiers, for the planning, monitoring and recording of assessment processes, and for dealing with special circumstances, appeals and malpractice.
- The approach of quality-assured assessment is through a partnership between an approved Centre and Pearson. We will make sure that each Centre follows best practice and employs appropriate technology to support quality-assurance processes where practicable. We work to support Centres and seek to make sure that our quality-assurance processes do not place undue bureaucratic processes on Centres. We monitor and support Centres in the effective operation of assessment and Quality Assurance.

The methods we use to do this for BTEC Higher Nationals include:

- making sure that all Centres complete appropriate declarations at the time of approval
- undertaking approval visits to Centres
- making sure that Centres have effective teams of assessors and verifiers who are trained to undertake assessment
- assessment sampling and verification through requested samples of assessments, completed assessed student work and associated documentation
- an overarching review and assessment of a Centre's strategy for assessing and quality-assuring its BTEC programmes.

An approved Centre must make certification claims only when authorised by us and strictly in accordance with requirements for reporting. Centres that do not fully address and maintain rigorous approaches to Quality Assurance cannot seek certification for individual programmes or for all BTEC Higher National qualifications. Centres that do not comply with remedial action plans may have their approval to deliver qualifications removed.
Recognition of Prior Learning (RPL) is a method of assessment (leading to the award of credit) that considers whether students can demonstrate that they can meet the assessment requirements for a unit through knowledge, understanding or skills they already possess, and so do not need to develop through a course of learning.

Pearson encourages Centres to recognise students’ previous achievements and experiences whether at work, home or at leisure, as well as in the classroom. RPL provides a route for the recognition of the achievements resulting from continuous learning. RPL enables recognition of achievement from a range of activities using any valid assessment methodology. Provided that the assessment requirements of a given unit or qualification have been met, the use of RPL is acceptable for accrediting a unit, units or a whole qualification. Evidence of learning must be valid and reliable.

For full guidance on RPL please refer to the Recognition of Prior Learning policy document available in the support section of our website (https://qualifications.pearson.com).

QCF Pearson BTEC Level 4 Higher National Certificate in Performing Arts unit content mapped to the Level 4 units available in the RQF Pearson BTEC Higher National in Performing Arts can be found in Appendix 6 of this programme specification.
9 Equality and diversity

Equality and fairness are central to our work. The design of these qualifications embeds consideration of equality and diversity as set out in the qualification regulators’ General Conditions of Recognition. Promoting equality and diversity involves treating everyone with equal dignity and worth while also raising aspirations and supporting achievement for people with diverse requirements, entitlements and backgrounds. An inclusive environment for learning anticipates the varied requirements of students, and aims to ensure that all students have equal access to educational opportunities. Equality of opportunity involves enabling access for people who have differing individual requirements as well as eliminating arbitrary and unnecessary barriers to learning. In addition, students with and without disabilities are offered learning opportunities that are equally accessible to them by means of inclusive qualification design.

Pearson’s equality policy requires all students to have equal opportunity to access our qualifications and assessments. It also requires our qualifications to be designed and awarded in a way that is fair to every student. We are committed to making sure that:

- students with a protected characteristic (as defined in legislation) are not, when they are undertaking one of our qualifications, disadvantaged in comparison to students who do not share that characteristic
- all students achieve the recognition they deserve from undertaking a qualification and that this achievement can be compared fairly to the achievement of their peers.

Pearson’s policy regarding access to its qualifications is that:

- they should be available to everyone who is capable of reaching the required standards
- they should be free from any barriers that restrict access and progression
- there should be equal opportunities for all those wishing to access the qualifications.
Centres are required to recruit students to Higher National qualifications with integrity. This will include ensuring that applicants have appropriate information and advice about the qualifications, and that the qualification will meet their needs. Centres will need to review the entry profile of qualifications and/or experience held by applicants, considering whether this profile shows an ability to progress to a higher-level qualification. Centres should take appropriate steps to assess each applicant's potential and make a professional judgement about their ability to successfully complete the programme of study and achieve the qualification. This assessment will need to take account of the support available to the student within the Centre during their programme of study and any specific support that might be necessary to allow the student to access the assessment for the qualification. Centres should consult our policy documents on students with particular requirements.

**Access to qualifications for students with disabilities or specific needs**

Students taking a qualification may be assessed in a recognised regional sign language, where it is permitted for the purpose of reasonable adjustments. Further information on access arrangements can be found in the Joint Council for Qualifications (JCQ) document Access Arrangements, Reasonable Adjustments and Special Consideration for General and Vocational Qualifications. Details on how to make adjustments for students with protected characteristics are given in the document *Pearson Supplementary Guidance for Reasonable Adjustment and Special Consideration in Vocational Internally Assessed Units*. See the support section of our website for both documents (http://qualifications.pearson.com/).

Introduction

The performing arts industry is a complex network of specialist disciplines that cross over into each other in an ever-evolving creative workplace. Understanding how this industry works, from individual and collaborative working to looking after participants' own health and wellbeing, is essential for anyone wanting to be employed in performing arts.

This unit develops students' awareness of key areas of working in performing arts and allows for exploration and research in all matters related to surviving and thriving within the performing arts industry. Employability, self-maintenance, managing finances and the increasing importance of online and offline marketing are all areas that will be covered throughout this unit.

The pressure of working in a performing arts environment and the associated risks are discussed through exploring health, safety and wellbeing, and students will be encouraged to explore their own personal development in the context of wellbeing.

By the end of this unit, students will have a clear understanding of how the performing arts industry works and the steps that are required to access employment opportunities. Students will also have developed their understanding of health and wellbeing within the performing arts environment.

*Please refer to the accompanying Pearson-set Assignment Guide and the Theme Release document for further support and guidance on the delivery of the Pearson-set unit.*
Learning Outcomes

By the end of this unit students will be able to:

1. Describe the importance of health, safety and wellbeing when working within the performing arts industry
2. Explain the roles and responsibilities within the performing arts industry
3. Investigate the range and accessibility of employment opportunities that relate to your specialist area
4. Investigate how to market and develop a career as a performing arts professional.
Essential Content

LO1 Describe the importance of health, safety and wellbeing when working within the performing arts

Health and wellbeing:
Mental health
Eating disorders
Stamina
Fitness
Nutrition
Hydration
Injury prevention and management
Associations and organisations
Workload
Life/work balance

Health and Safety:
Legislation
Risk assessment
First aid
Legal responsibilities
Associations and organisations

LO2 Explain the roles and responsibilities within the performing arts industry

The performing arts workforce:
Ethnic diversity, relevant associations and organisations worldwide and regional variances.
Areas, e.g. recruitment, pre-production, production, front of house (FOH) and business, the casting process and education
Roles, e.g. agents, producer, director, sound design, lighting design, costume design, hair and make-up design, set design, composer, author/writer, choreographer, performers, musicians, musical director, stage management, technicians (sound, lighting, etc.), wardrobe, crew, ushers, marketing, finance and merchandise
LO3 Investigate the range and accessibility of employment opportunities that relate to your specialist area

Contracts:
Self-employed
PAYE
Contract length
Legal rights
Clauses and commitments
Work permits

Finance:
Financial planning and management
National Insurance
Tax
Working abroad

Job interviews:
Auditions – closed calls, open calls, interview
Portfolio creation and requirements (physical and digital)
Marketing:
Offline and online activities
Development of technology in relation to accessing employment and Promotional opportunities

LO4 Investigate how to market and develop a career as a performing arts professional

Agents:
Auditions
Accessibility
Open/closed calls
How to get an agent
Marketing:
Promotion
Offline and online activities
Social media
Show reels
Photographs
Portfolios

CV:
Purpose of CV e.g. relevant and appropriate information
Networking:
Auditions
Organisations
Key contacts
Impact of online activities through social media and technology skills required

Introduction

The landscape of the performing arts industry has changed dramatically over recent years and technology has influenced the way we both produce and consume art. While this has presented many challenges, it has also created new opportunities. However, the emphasis on staying up to date with the industry and continually updating skills is imperative for employability in this challenging industry.

For employment in the performing arts industry to be successful and sustainable, today's professional is often versatile and enterprising, maintaining a portfolio career in which they are able to fully exploit their complete range of skills. Knowledge of your professional strengths and identity is the first step towards building a strategy that will inform your route towards professionalism.

In this unit, you will explore the many potential avenues of employment that relate to your specialism, build an awareness of how to present yourself to the market place and embark on a journey of professional development.

On completion of this unit, students will have made decisions around their vocation and demonstrated the level of autonomy needed for success in the creative industry.
Learning Outcomes

By the end of this unit students will be able to:

1. Assess the skills required for employment in your chosen area of specialism within the performing arts industry
2. Design a personal professional development strategy that will outline targets for proactive skills development
3. Undertake the personal development plan over an agreed time frame
4. Evaluate own continuing professional development in line with wider commercial awareness of industry trends and the employment market.
Essential Content

LO1 **Assess the skills required for employment in your chosen area of specialism within the performing arts industry**

*Overview of generic employability skills:*
Communication
Confidence
Discipline
Time management
Motivation
Team working
Resilience and independence
Technical skills relevant to chosen discipline

*Emerging opportunities:*
Keeping up to date with industry development
Development of technology
Emerging practices

LO2 Design a personal professional development strategy that will outline targets for proactive skills development

*Professional attributes*

*Career aims and objectives*

*Skills audits:*
E.g. communication
Communication
Confidence
Discipline
Time management
Motivation
Team working
Resilience and independence
Technical skills relevant to chosen discipline
Goal and target setting:
SMART targets and time management

Marketing skill development:
Online and offline activities technology skills
LO3 Undertake the personal development plan over an agreed time frame

Time management skills:
Working to targets
Managing workload
Health safety and wellbeing in context of chosen discipline
Reflective practice

LO4 Evaluate own continuing professional development in line with wider commercial awareness of industry trends and the employment market

Industry developments:
Political, legal and cultural
Technology
Artistic
Commercial
Globalisation

Introduction

Jazz, as a dance genre, has developed greatly over the years and, as such, forms the basis for many musical theatre dance styles and pop videos as well as providing a technical base for classes.

There have been many innovators and creators of their own styles during the development of the genre, and this unit aims to enable students to develop their ability in the studio as a jazz dancer and broaden their contextual knowledge, which will, in turn, inform style and performance. An emphasis is placed on the quality of the work produced, and the ability to self-correct through knowledge and understanding of jazz technique.

Students will also learn to combine steps, which will result in the ability to pick up choreographic combinations.

By the end of this unit, students will be able to execute the required vocabulary in set and unset combinations, incorporating and demonstrating musicality and artistry. Students will also have a broader knowledge of the development of jazz as a dance genre.
Learning Outcomes

By the end of this unit students will be able to:

1. Explore the techniques and vocabulary required for jazz as a dance genre
2. Perform the techniques and vocabulary with musicality and artistry
3. Interpret feedback, as directed in lessons, to enhance technical skills
4. Discuss the development of jazz as a dance genre.
Essential Content

LO1 Explore the techniques and vocabulary required for jazz as a dance genre

*Techniques and vocabulary:*
- A safe warm-up and cool down
- Accurate placing and alignment
- Core strengthening work and flexibility work
- Pliés and tendus (footwork)
- Jazz ports de bras and adage
- Isolations
- Contractions
- Travelling steps using a low centre of gravity
- Turns – minimum requirement – clean single turn to each side
- Corner work e.g. kicks, walks, leaps
- Choreographic sequences

LO2 Perform the techniques and vocabulary with musicality and artistry

*Technique:*
- Repetition of movement in order to create movement pathways connecting the brain to the muscles
- Interpreting direction and instruction in order to appropriate the correct movement or sequence
- Using visual skills to replicate shapes and movements
- Mental practice for success imaging and enhancement of danced skills
- Combining all of the above skills to create a technical base

*Musicality:*
- Consideration of the phrasing of all work given, both in choreography and music
- Interpretation of different types of music to enhance performance
- Counting rhythm, considering dynamics, off beats and syncopation in order to bring light and shade to the choreography
Artistry:
Interpretation of performance, either given by the choreographer/teacher or students own ideas
Exploration and application of appropriate style, either via the request of the choreographer or personal choice
Creating engaging and dynamic energy within performance by approaching the work with the correct dynamics, phrasing, musicality, technique and artistic flair

LO3 Interpret feedback, as directed in lessons, to enhance technical skills

Feedback:
Exploration of what feedback is and how to extract information for personal use from general feedback/correction
Identification of how to process feedback by analysing all feedback given to see what resonates for you
Application of personal processing of given feedback in order to maximise the effect on technique
Mental stamina and resilience in relation to feedback and critiques.

LO4 Discuss the development of jazz as a dance genre

Historical influences:
African-American vernacular dance late 1800s to the mid-1900s
The music of New Orleans in the early 1900s
The Jazz Age
Modern jazz dance of the 1950s
Film and stage musicals, MTV and pop videos
Influencers:
Katherine Dunham
Jack Cole
Lester Horton
Gene Kelly
Bob Fosse
Gus Giordano
Matt Mattox
Jerome Robbins
Michael Kidd
Michael Jackson
Madonna
Luigi
Michael Bennett
Mia Michael

Introduction

Ballet is a key dance skill which develops core strength, co-ordination, line, placement and flexibility along with the requisite artistry and musicality.

This unit has been designed to allow technical and artistic development in the dance studio and to encourage the independent investigation of different approaches to ballet technique. Students will develop an understanding of how these different approaches may or may not assist them within their personal facility, physicality and prior experience.

Students will learn to combine vocabulary, which will result in the ability to pick up enchaînements. In addition, students will be required to investigate different approaches to ballet which inform technique and style, reflecting on how they may or may not be accessible or useful, depending on personal factors such as facility, physicality and prior experience.

On successful completion of this unit, students will be able to execute the required vocabulary in unset combinations and enchaînements, incorporating and demonstrating musicality and artistry. Students will also have a broader knowledge of different approaches to ballet and be able to reflect constructively on how these approaches may or may not be appropriate or useful to them.
Learning Outcomes

By the end of this unit students will be able to:

1. Explore the techniques and vocabulary required for ballet as a genre
2. Perform the required content and vocabulary with technique, musicality and artistry
3. Interpret feedback, as directed in lessons, to enhance technical skills
4. Explain the technical requirements of ballet within different approaches and how they apply to own practice.
Essential content

LO1 Explore the techniques and vocabulary required for ballet as a genre

At the barre:

Pliés – demi and grand pliés in first, second and third position, incorporating rises and balances

Tendus – en croix and/or repeated in devant, seconde and derriere, closing in plié and/or en fondu – from first, third or fifth position

Glisses – en croix and/or repeated in devant, seconde and derriere – from first, third or fifth position

Rond des jambes – en dehors and en dans à terre, incorporating ports de bras and balances in fifth, retire on the flat foot and on one leg

Battement fondu – à terre, en croix and/or repeated in devant, seconde and derriere – from third or fifth position

Grand battement – en croix and/or repeated in devant, seconde and derriere

Développés – en croix

Stretch – ballet-related stretching exercises for all areas of the body

In the centre:

Ports de bras – including forward and sideways ports de bras, chassés and pas de bourrées, first, second, third, fourth, fourth crossed and fifth and first, second and third arabesque positions of the arms

Adage – développé devant and à la seconde, first, second and third arabesque en l'air, utilising chassés, glissades, pas de bourrées as required to create enchaînements

Pirouettes – single pirouette from fifth or fourth position to right and left, chaîné turns to left and right

Petit allegro – échappé sauté, sautés in first, soubresauts, changements, glissades over, under, devant and derrière

Allegro – assemble, jeté devant and derrière, sissone over and under, utilising chassés, glissades, and pas de bourrées as required to create enchaînements

Grand allegro – jeté en avant, pose temps, levé in first, second or third arabesque, utilising chassés, glissades, runs, pas de bourrées as required to create enchaînements
LO2 **Perform the required content and vocabulary with technique, musicality and artistry**

*Technique:*
Repetition of movement in order to create movement pathways connecting the brain to the muscles
Interpreting direction and instruction in order to appropriate the correct movement or sequence
Using visual skills to replicate shapes and movements
Mental practice for success imaging and enhancement of danced skills
Combining all the above skills to create a technical base

*Musicality:*
Consideration of the phrasing of all work given, both in choreography and music
Interpretation of different types of music to enhance performance
Counting rhythm, considering dynamics, off beats and syncopation in order to bring light and shade to the choreography

*Artistry:*
Interpretation of performance, either given by the choreographer/teacher or own ideas
Exploration and application of appropriate style, either via the request of the choreographer or personal choice
Creating engaging and dynamic energy within performance by approaching the work with the correct dynamics, phrasing, musicality, technique and artistic flair

LO3 **Interpret feedback as directed in lessons to enhance technical skills**

*Exploration:*
What feedback is
How to extract information for personal use from general feedback/correction
Identification of how to process feedback by analysing everything given to see what resonates
Application of your personal processing of given feedback in order to maximise the effect on your technique
Mental stamina and resilience in relation to feedback and critiques.
LO4 Explain the technical requirements of ballet within different approaches and how they apply to own practice

Technical requirements of ballet:
Investigation in order to enhance understanding and inform the approach when learning ballet
Learn about how the body works within ballet, both within a studio (in ballet class) and classroom setting, using practice, observation of others and research via online resources, books and DVD

Application to own practice:
Explore different ways of presenting and communicating research outcomes by reading, watching and practising to establish how to submit work
Health and wellbeing within the ballet industry. Mental health, resilience, stamina and a healthy mind and body.

Introduction

The roots of contemporary dance can be traced back to the experimental Denishawn school of the 1910s in Los Angeles, the maverick choreography of Martha Graham and the revolutionary ‘space and spine’ approach of Merce Cunningham, yet it endures as a constantly evolving, vital art form, where anything goes, everything can be tried and the possibilities seem endless. The demands on today’s contemporary dancer are greater than ever before, and a need for robust training even more appropriate. Dancers in Matthew Bourne’s groundbreaking company perform eight shows a week for months on end. More and more, contemporary dancers will also perform in music videos and on tour with music acts in addition to a teaching schedule, professional development, a personal fitness regime in the shape of pilates, weight training and/or yoga.

The aim of this unit is to give students a grounding in contemporary dance technique, achieving greater control over their creativity, agency to grow as unique artists, improving the quality of movement and strengthening of their bodies through dance combinations, the learning of modern dance language, contemporary dance technique and to develop a stronger relationship to musicality and creativity.

Topics included in this unit are: the development of modern dance techniques; examination of movement quality; development of musicality and creativity; development of the unique artist voice; measuring dance ability using combinations of contemporary dance language; and the presenting of a project regarding current contemporary dance culture.

On successful completion of this unit, students will be able to use the required contemporary dance language to develop and maintain a sound technical foundation to use in the professional world of dance. They will be able to pick up and retain combinations of the required technique. An approach to research and delivery of said research will also be covered.
Learning Outcomes

By the end of this unit students will be able to:

1. Demonstrate required technical skills and feedback, as directed in lessons
2. Demonstrate required dance language for the genre
3. Perform the required dance language with technique and musicality
4. Explain the current evolution of contemporary dance and how this relates to technique and artistry.
Essential Content

LO1 **Demonstrate required technical skills and feedback, as directed in lessons**

The role of contemporary dance technique:
Overview of various techniques and schools of thought, e.g. Graham, Cunningham, Limon, Horton, Release, or a hybrid of any or all of these core approaches

Implementation of contemporary dance technique:
Graham-based floor routine, pleadings, contractions, pitches and turns, triplets and jumping
Cunningham-based spinal twists, back stretches, tendu combinations, curve work, adage, triplets
Horton-based across-the-floor combinations, layouts, leaps
Release-based intuition work as well as, in general, turns, jumps, leg work, extensions, falls, floor work, back bends

LO2 **Demonstrate the required dance language for the genre**

Identify contemporary dance language:
Gestures, terminology, new line, core approaches

Implementation of contemporary dance combinations:
Floor work, centre work, adage, jumps, leaps, corner and travelling work

Overview of contemporary dance-making:
How it’s done and who does it

LO3 **Perform the required dance language with technique and musicality**

The role of performance in contemporary dance:
What it means and how it is different to other genres
How creativity becomes intrinsic when dancing
Implementation of technique, musicality and creativity:
Sound
String technique
Innate and intimate relationship with music
Unique expression through an individual style of creativity when dancing

Overview of the unique artist voice:
The importance of a unique approach within the field of contemporary dance while maintaining sound technique

Consider expression within the use of contemporary dance performance:
How to find one's own style, an individual stance

LO4 Explain the current evolution of contemporary dance and how this relates to technique and artistry.

Identify elements of the current contemporary dance scene:
Who is setting trends and 'political and cultural climate'
Emerging styles of dance

Determining requirements of current trends within the industry:
Funding implications
New approaches to rehearsing

Consideration of technique and artistry within the current contemporary dance scene:
How important technique remains within contemporary dance, examples of when it isn't as important, e.g. anti-dance, the diversity within the contemporary dance scene currently and how this informs artistry

Workforce:
Diversity of historical and current workforce

Introduction

Commercial dance is an ever-evolving dance genre, with new styles and dance moves appearing all the time.

There have been many innovators and creators of their own styles during the development of the genre, mostly influenced by music, and this unit aims to enable students to develop their ability in the studio as a dancer and their contextual knowledge which will, in turn, inform style and performance.

While studying this unit, students will participate in regular commercial classes in order to develop the skills listed below along with the knowledge of the required content and how to execute it. Students will also learn to combine steps, which will result in the ability to pick up choreographic combinations. In addition, students will investigate the history and development of commercial as a dance genre in order to enhance knowledge and understanding.

On successful completion of this unit, students will be able to execute the required vocabulary in unset combinations and enchaînements, incorporating and demonstrating musicality and artistry. Students will also have a broader knowledge of the evolution and development of commercial dance.
Learning Outcomes

By the end of this unit students will be able to:

1. Demonstrate the required content and vocabulary for the unit
2. Perform the required vocabulary with technique and style
3. Interpret feedback, as directed in lessons, to enhance technical skills
4. Explain the evolution and development of commercial dance.
Essential Content

LO1 Demonstrate the required content and vocabulary for the unit

Content:
Core strengthening work
Basic technique with accurate placing and alignment within all styles
The physicality needed to dance with sharpness and fluidity as required
Using jazz and other dance techniques within commercial dance
Choreographic sequences

Vocabulary:
For a safe warm-up and cool-down
The movement vocabulary used within in commercial dance, e.g. isolations, contractions and co-ordination

LO2 Perform the required vocabulary with technique and style

Technique:
Repetition of movement in order to create movement pathways connecting the brain to the muscles
Interpreting direction and instruction in order to appropriate the correct movement or sequence
Using visual skills to replicate shapes and movements
Mental practice for success imaging and enhancement of danced skills
Combining all the above skills to create a technical base

Musicality:
Consideration of the phrasing of all work given, both in choreography and music
Interpretation of different types of music to enhance performance
Using aural skills to hear the beats and dynamics used by the choreographer
Counting rhythm, considering dynamics, offbeats and syncopation in order to bring light and shade to the choreography
Artistry:
Interpretation of performance, either given by the choreographer/teacher or own ideas
Exploration and application of appropriate style, either via the request of the choreographer or personal choice
Creating engaging and dynamic energy within performance by approaching the work with the correct dynamics, phrasing, musicality, technique and artistic flair

LO3 Interpret feedback, as directed in lessons, to enhance technical skills

Exploration:
What feedback is
How to extract information for personal use from general feedback/correction
Identification of how to process feedback by analysing everything given to see what resonates
Application of personal processing of given feedback in order to maximise the effect on technique
Mental stamina and resilience in relation to feedback and critiques.

LO4 Explain the evolution and development of commercial dance

The evolution of pop videos and MTV
Evidence of the elements of current commercial dance in old movies

Styles and innovators:
Break dancing
Street dance
Hip-hop music and dance
BBoys
Arlene Phillips
Michael Jackson
Beyoncé

Workforce:
Diversity of historical and current workforce

Introduction

Tap is a skill that requires rhythm, control, tone, musicality, style and performance. Although the core vocabulary is small, the combinations and rhythms you can create are infinite. Styles vary across countries, with many countries boasting that they were the originators of tap dance as we know it today.

This unit has been designed to allow technical and artistic development in the dance studio alongside the acquisition of basic vocabulary in various combinations and to encourage the independent investigation of different tap practitioners and their influence on the genre as it is today.

By the end of this unit, students will be able to execute the required vocabulary in unset combinations, incorporating and demonstrating rhythm, control, tone, musicality, style and performance. Students will also have a broader knowledge of different tap practitioners and how they have influenced the genre as it stands today.
Learning Outcomes

By the end of this unit students will be able to:

1. Demonstrate the required vocabulary for the unit
2. Perform the required vocabulary with rhythm, control, tone, musicality, style and performance
3. Interpret feedback, as directed in lessons, to enhance technical skills
4. Discuss tap practitioners who have influenced the genre as it stands today.
Essential Content

LO1 **Demonstrate the required vocabulary for the unit**

*All steps of one sound:*
- Tap
- Step
- Stamp
- Drop
- Hop
- Spring
- Dig
- Beat
- Touch
- Stomp
- Brush
- Scuff

*Combination steps of two sounds:*
- E.g. Shuffle (to the front side and back)
- Step heel
- Tap step
- Flap
- Pick up (from standing pick up change and pick up on one foot)
- Two-beat riff
- Ball change

*Three-beat shuffles:*
- Time steps – single, double and triple shuffle time steps and break
- Pull backs on the flat foot or on the balls of the feet depending on ability
- Basic wings on two feet
- Paddles (also known as paradiddles) – four beat
Four beat cramp rolls and cramp rolls changing with a turn
Four and five beat riffs
Single and double waltz steps
Basic progressive tap

**LO2** **Perform the required vocabulary with rhythm, control, tone, musicality, style and performance**

*Technique:*
- Repetition of movement in order to create movement pathways connecting the brain to the muscles
- Interpreting direction and instruction in order to appropriate the correct movement or sequence
- Developing visual skills to replicate shapes and movements
- Developing aural skills to replicate sounds and tone
- Creating the correct posture to allow the relaxed looking stance of the genre without loss of the necessary control
- Mental practice for success imaging and enhancement of danced skills
- Combining all the above skills to create a technical base

*Musicality:*
- Consideration of the phrasing of all work given, both in choreography and music
- Interpretation of different types of music to enhance performance
- Counting rhythm, considering dynamics, off beats and syncopation in order to bring light and shade to the choreography

*Artistry:*
- Interpretation of performance, either given by the choreographer/teacher or own ideas
- Exploration and application of appropriate style, either via the request of the choreographer or personal choice
- Creating engaging and dynamic energy within performance by approaching the work with the correct dynamics, phrasing, musicality, technique and artistic flair
LO3 **Interpret feedback, as directed in lessons, to enhance technical skills**

*Exploration:*
What feedback is
How to extract information for personal use from general feedback/correction
Identification of how to process feedback by analysing everything given to see what resonates
Application of personal processing of given feedback in order to maximise the effect on technique
Mental stamina and resilience in relation to feedback and critiques.

LO4 **Discuss tap practitioners who have influenced the genre as it stands today**

*Innovators:*
Fred Astaire
Gene Kelly
Savion Glover
Michael Flatley
Ann Miller
Gregory Hines
Donald O’Connor
Dein Perry

*Workforce:*
Diversity of historical and current workforce

Introduction

American Tap differs from that taught in the UK and, as such, has its own vocabulary and feel. While many steps are familiar to both countries, many of the same steps have different names and it is important to be able to distinguish them when working with different choreographers.

This unit has been designed to develop American Tap style and technique while also enhancing knowledge of the history of the genre and great American Tap dancers. Students will learn to combine vocabulary which will result in the ability to pick up and perform combinations.

Students will learn to execute the required vocabulary in unset combinations, incorporating and demonstrating rhythm, control, tone, musicality, style and performance. Students will also develop a broader knowledge of different American Tap practitioners and how they have influenced the genre as it stands today.
Learning Outcomes

By the end of this unit students will be able to:

1. Demonstrate the required vocabulary for the unit
2. Perform the required vocabulary in set and unseen combinations with rhythm, control, tone, musicality, style and performance
3. Interpret feedback, as directed in lessons, to enhance technical skills
4. Discuss the history of American Tap and its innovators.
Essential Content

LO1 Demonstrate the required vocabulary for the unit

*All steps of one sound that contribute to more complex sounds:*

Spank
Brush
Slam
Chug
Clunk
Dig
Toe
Toe tip
Toe stand
Heel
Slide
Step
Heel stand
Jump
Smack
Leap
Jump click
Hop
Spring
Touch
Scuff
Stamp
Trenches
Stomp
All steps of two sounds that contribute to more complex sounds:
Slap
Dig toe
Flap
Shuffle
Riff
Over-the-top
Scuffle
Basic wings
Pick-ups
Step heel
Paddle
Camp rolls
Paradiddle
Bombershay
Maxie Ford
Grab-off
Buffalo
Pullback
Complex riffs and rolls
Complex scuffles
Shirley Temple
Time steps
Waltz Clog
LO2 Perform the required vocabulary in set and unseen combinations with rhythm, control, tone, musicality, style and performance

**Technique:**
Repetition of movement in order to create movement pathways connecting the brain to the muscles
Interpreting direction and instruction in order to appropriate the correct movement or sequence
Developing visual skills to replicate shapes and movements
Developing aural skills to replicate sounds and tone
Creating the correct posture to allow the relaxed looking stance of the genre without loss of the necessary control
Mental practice for success imaging and enhancement of danced skills
Combining all the above skills to create a technical base

**Musicality:**
Consideration of the phrasing of all work given, both in choreography and music
Interpretation of different types of music to enhance performance
Counting rhythm, considering dynamics, off beats and syncopation in order to bring light and shade to the choreography

**Artistry:**
Interpretation of performance, either given by the choreographer/teacher or own ideas
Exploration and application of appropriate style, either via the request of the choreographer or personal choice
Creating engaging and dynamic energy within performance by approaching the work with the correct dynamics, phrasing, musicality, technique and artistic flair

LO3 Interpret feedback, as directed in lessons, to enhance technical skills
**Exploration**

What feedback is

How to extract information for personal use from general feedback/correction

Identification of how to process feedback by analysing everything given to see what resonates

Application of personal processing of given feedback in order to maximise the effect on your technique

Mental stamina and resilience in relation to feedback and critiques.

**LO4 Discuss the history of American Tap and its innovators**

*Investigate the history and development of American Tap as a dance genre:*

*Genre:*

Gumboot dance

Irish/American

Soft-shoe shuffle

Folk dance

Clog

*Innovative dancers:*

Fred Astaire

Gene Kelly

Gregory Hines

Donald O'Connor

Ann Miller

Savion Glover

Introduction

Choreography is the backbone of dance: without it there would be no ground-breaking dance companies, no big numbers in musical theatre and movies, no iconic dance trends in pop videos. It is the essence of taking technique, pairing it with human beings and using it to create a vital pathway of non-verbal communication. Spiritual, powerful, humorous, uplifting, dynamic, sensual, and anything else you imagine it to be.

The aim of this unit is to give students an overview of choreography, establishing an understanding of what goes into dance making. They will also explore the history of movement as an art form, how to construct an original piece of choreography, how to measure one's own skill as a choreographer and develop an understanding of choreography as a chosen career pathway.

Topics included in this unit are: the development of choreographic approaches, examination of movement making, development of musicality and creativity, development of the unique choreographic language, measuring dance ability using combinations of contemporary vocabulary, the creation of a dance piece, where all learned skills thus far can be utilised. An approach to research and delivery of said research will also be covered, leading to the presentation of a project detailing career paths in choreography.

On successful completion of this unit, students will be able to apply the required choreographic skills to develop and maintain a sound stylistic foundation to use in the professional world of movement making. They will be able to improvise ideas and set original combinations of the required choreographic skills. Students will develop other skills such as leadership, communication, improvisation, research, reasoning and interpretation, recall, adaptation, which are all critical for gaining employment.
Learning Outcomes

By the end of this unit students will be able to:

1. Demonstrate required choreographic skills as directed in lessons
2. Demonstrate the required vocabulary for the genre
3. Construct own dance piece using required choreographic skills and required vocabulary for the genre
4. Explain the career trajectory in choreography and how this relates to artistry and creativity.
Essential Content

LO1 Demonstrate required choreographic skills as directed in lessons

The role of choreography in the current dance industry:
Overview of various approaches and schools of thought
Diversity of choreographers

Exploration of skills required to effectively choreograph:
originality, concepts and idea creation, leadership, communication.
Implementation of choreographic skills
An effective warm-up based on genre specific to style

LO2 Demonstrate the required vocabulary for the genre

Identify choreographic vocabulary:
Creation of dance combinations
Overview of choreographic styles

LO3 Construct own dance piece using required choreographic skills and required vocabulary for the genre

The role of performance in choreography:
Implementation of creation, style, staging, musicality and originality
Consider unique expression within the use of choreography

LO4 Explain the career trajectory in choreography and how this relates to artistry and creativity

The business of choreography – copyright and ownership or moves and works.
Research and deliver a presentation on choreography as a career:
Be able to provide research
Acknowledge role of feedback and evaluation within a career trajectory

Introduction

The aim of this unit is to give students a grounding in the history of their specialist area, so that they may achieve a greater knowledge of their roots. Through the academic study of their chosen genre, they will also develop presentation and dissemination skills, refine their artist’s voice, gain confidence and retain important historical information to use throughout their careers.

Topics included in this unit are: the development of relevant techniques peculiar to their chosen genre, the crossover of genres, the development of research skills, the development of the unique artist voice, measuring academic ability using written word projects, and the presentation of a project focusing on the history of the genre specific to the chosen study pathway.

On successful completion of this unit, students will be able to disseminate and relate information relating to the history of their chosen specialist area and develop their presentation skills as a result. Students will develop other skills such as writing, presenting, studying, recall, differentiation, discernment, cataloguing and indexing, all of which are crucial in today's digital world and are transferable skills which cross over into any other career pathway.
Learning Outcomes

By the end of this unit students will be able to:

1. Describe the history of chosen specialism
2. Explore the crossover element between the chosen specialism and other specialist areas
3. Demonstrate the development of chosen specialism
4. Assess how the historical development of chosen specialist area could impact on own career development.
Essential Content

LO1 Describe the history of chosen specialism

One of the following broader specialist areas would include: Dance, Acting, Musical Theatre, Technical Arts

Within this, students must select a specialism, relevant to their own chosen career goals, which could be:

Dance: a variety of genres, choreographers, practitioners
Acting: a variety of acting methods, practitioners
Technical Arts: Light, Sound, Set, Costume, Make up, Hair etc, innovations, technology

The historical development of the specialist area to include:
Context: Social and Political development, milestones
Diversity: Historical and current workforce
Technology: Impact on development
Current trends and advances.

LO2 Explore the crossover element between the chosen specialism and other specialist areas

Exploration of wider impact on the Performing Arts industry:
Key milestones on the development – style/genre development, influence of a practitioner, technological impact and/or influence, development of equipment

Examples could include:
New technology and its impact on productions
Creation of Performance Art
Development of Immersive Theatre
MTV and the impact on choreography
Impact on own specialist development
LO3 **Demonstrate the development of chosen specialism**

*Define key developments and interactions of specialist area within the Performing Arts Industry*

LO4 **Assess how the historical development of chosen specialist area could impact on own career development**

*Personal skills development:*

Staying up to date with industry trends and development, future-proofing employment skills, growth and impact of technology

Current trends, movements, technological advances and potential impact on employment in specialist area

Consideration of a resurgence of skills eg. traditional wig making, analogue productions.

Introduction

Filming of any sort requires specific shots which are then edited together to create the final product. This would be the case, for example, when filming a pop promo, a film sequence or a commercial or television programme.

This unit has been designed to enable students to explore how dance is shot for screen and the different platforms which engage with dance on camera. It will give students the opportunity to analyse different films, commercials, television programmes and pop promos in order to gain an understanding of how they were created. Research of the technical requirements of film-making will inform students in the creation of their own filmed dance sequence.

On successful completion of this unit, students will have a better understanding of how dance may be filmed in a range of settings and what is required in order to create a filmed dance sequence.
Learning Outcomes

By the end of this unit students will be able to:

1. Assess a range of filmed dance sequences
2. Review the choreographic considerations when performing to camera
3. Rehearse a dance sequence for camera in any dance genre
4. Perform a dance sequence for camera in any dance genre.
Essential Content

LO1 Assess a range of filmed dance sequences

A wide and diverse range of genres/styles used in filmed dances sequences, to include: Ballet, Tap, Jazz, Contemporary, American Tap and Commercial Dance

Development and growth of dance for film from 1894 to present day

LO2 Review the choreographic considerations when performing to camera

Choreography for a wide and diverse range of genres/styles used in filmed dances sequences, to include: Ballet, Tap, Jazz, Contemporary, American Tap and Commercial Dance

Choreography for a wide and diverse range of filmed dance sequences in a range of settings including film, commercial, games, television and music video

Choreographic considerations for context – working to a brief, audience, intentions, output

LO3 Rehearse a dance sequence for camera in any dance genre

Develop aims and objectives

Work with a director and working to a brief

Work with a choreographer – choreographic intentions

Develop camera awareness and focal point, camera angles, movement adjustments, spatial awareness, communication

Develop dance technique appropriate to genre

Time management – rehearsal process
LO4 **Perform a dance sequence for camera in any dance genre**

*Meet aims and objectives of director’s brief*

*Communication of choreographic intentions*

*Performance relevant to context: spatial awareness, performance to camera, communicating with a camera (if appropriate)*

*Applying dance technique relevant to genre*
Learning Outcomes and Assessment Criteria

**Introduction**

This unit is designed to produce independent vocal practitioners who have the knowledge and skills to fulfil their full potential as a singer and the versatility to meet the wide-ranging vocal demands of the musical theatre industry. Students will acquire a detailed physical understanding of the workings of the vocal mechanism and the technique and awareness required to achieve vocal performances of the highest possible standard. By the end of the unit students will learn how to produce a more confident and tonally secure sound by developing their musical ear.

Students will learn a range of exercises and songs through which they will explore the fundamentals of good vocal production. The abdominal release required for effective singing is fundamentally opposed to the abdominal core strength required for the dance units. Students will be encouraged to understand that they must develop the ability to master both requirements. As the student progresses through the unit, new exercises to further develop the fundamentals of good vocal production will be introduced.

By the end of this unit, students will be able to warm up and prepare their voices for performance effectively and safely, be able to demonstrate basic breathing techniques and effective breath control, understand the mechanisms of voice production and perform using the appropriate techniques.
Learning Outcomes

By the end of this unit students will be able to:

1. Demonstrate the ability to warm up the voice safely and effectively
2. Explain the anatomy and physiology of the voice
3. Apply basic techniques of breathing and breath control in singing to produce a consistent and healthy sound
4. Perform with vocal resonance, flexibility and clear diction.
Essential Content

LO1 Demonstrate the ability to warm up the voice safely and effectively

Posture:
Developing good posture for singing
Position of the feet
Knees
Hips
Abdomen
Chest
Shoulders
Arms
Neck and head

Releasing unwanted tension particularly in the neck, jaw and tongue
Creating a clear sound
Accessing vocal registers and controlling the access
Developing flexibility – vocal range, register access, dynamics, diction
Improving intonation and the ability to pitch intervals precisely

LO2 Explain the anatomy and physiology of the voice

Anatomy of the voice:
Mechanisms
Functions
Actions and roles
Voice production and control

Vocal Health:
Identify vocal problems
How to resolve them through exercises and health strategies
When to seek professional advice
Hydration
Healthy eating
Vocal exercise for vocal health
Vocal stress
Environmental effects

LO3 **Apply basic techniques of breathing and breath control in singing to produce a consistent and healthy sound**

*Tutors should select vocal repertoire relevant to students abilities and range, standards and to demonstrate relevant techniques in class*

*The difference types of breathing and their purpose*

*Application of breathing techniques – purpose of technique, appropriate to material, vocal range, lyrical relevance/emotional content, vocal registers, dynamics*

LO4 **Perform with vocal resonance, flexibility and clear diction**

*Tutors should select vocal repertoire relevant to students abilities and range, standards and to demonstrate relevant techniques through performance*

*Application of breathing techniques in performance*

*Vocal placement and understanding the role of the vocal resonators (the chest, the larynx, the pharynx, the oral cavity and the nasal cavity)*

*Healthy projection using muscle engagement, mouth shape and space, and the position of the jaw and tongue to amplify sound*

*Employ techniques to achieve clear diction while maintaining good projection, considering the impact of vowel sounds, diphthongs and consonants*

*Introduce vocal colour through the use of dynamics and phrasing without compromising projection and audibility*

Introduction

There is no one defined process which provides a ready manual to be followed to develop a student’s acting skills. The aim of the unit is to introduce students to accepted principles of acting technique. Students will explore and develop technical and interpretive skills required to perform in a range of performance contexts and as such provide a foundation for future development which, as their understanding of the acting process and themselves develops, they can shape to suit their own needs.

There are a range of accepted acting techniques and systems which should be explored through training as an actor. Topics included in this unit are preparation for performance, analysis of text, rehearsal and performance technique.

On successful completion of this unit, students will understand key principles of the acting process, rehearsal methods including how to develop a character as well as an appreciation of the complexity and challenge of creating truthful performances.
Learning Outcomes

By the end of this unit students will be able to:

1. Apply key acting principles to the creation of a performance
2. Apply analysis and interpretation to realising a text
3. Develop material for performance by employing rehearsal techniques
4. Perform rehearsed material, demonstrating application of relevant technique.
Essential Content

LO1 **Apply key acting principles to the creation of a performance**

*Developing the creative state:*
- Relaxation
- Concentration
- Imagination
- Preparation
- Naivety

*Explore and develop key techniques such as:*
- Objective/task
- Superobjective/supertask
- Action
- Problem/obstacle
- Given circumstances
- Units/bits
- Reality of doing
- Emotional memory
- Magic if
- Communication
- Tempo-rhythm
- Method of physical action
- Active analysis

*Develop and use of imagination and self to improve acting facility and skills*

*Develop first person present tense acting technique*

*Explore a wide range of practitioners such as Stanislavsky, Chekhov, Meisner, and Adler*

*Health and wellbeing while developing a role.*
LO2 **Apply analysis and interpretation to realising a text**

*Research and exploration of text: explore a range of approaches to analysing text*

*Deconstructing the text:*

Breaking down play into acts and scenes
Units/bits
Titling acts
Scenes
Units/bits

*Interpretation of character:*

Methods for analysing character
Character decisions
Playing choices

*Analysis of key characteristics of text such as:*

Theme
Context
Subject matter
Inciting incident
Major dramatic question
Rising action
Reversals
Crisis
Climax
Denouement

*Background world of the text: application of relevant technique to explore and create world of play*
LO3 Develop material for performance by employing rehearsal techniques

Explore a wide range of rehearsal processes/methodologies:
E.g. Stanislavsky – early and late phase processes
Stafford-Clark
Alfreds
Mitchell

Employ defined rehearsal strategies to realise performance text building on techniques explored in the development phase

Exploration of acting choices and ability to work with others and accept and build on ideas to develop material for performance.

Develop character through observation, background research, and identification.

Standard character development exercises: e.g. Archetypes, tension states, centres, psychological gesture, status

Employ relevant skills to embody character such as vocal characterisation, movement qualities, gesture, proxemics, physicality and psychological insight

Personal management to include time management, health and safety, co-operation, preparation, communication and discipline

Working with others – listening and responding, taking direction, interacting collegially, accepting and building creative ideas

Developing material: experimentation, risk, spontaneity, reflection, sense of play/fun.

LO4 Perform rehearsed material, demonstrating application of relevant technique

Emotional and psychological engagement demonstrating embodiment of character

Sustain role during performance:
Concentration
Focus
Interpretation
Relationships with other characters

Present a considered interpretation of role:
Interpreting and analysing role
Working with director to define interpretation
Express character through:
Posture
Gesture
Dynamics
Tempo-rhythm
Vocal dexterity

Sustain a role employing concentration, discipline, and tempo-rhythm

Channel performance energy with belief and focus

Work with confidence employing appropriate techniques to realise performance fully

Introduction

The evolution of musical theatre occurred in the period from the 1930s to the present day. It is important, therefore, to consider the work of different periods in relation to the social context of the time.

This unit is designed to provide students with an overview of musical theatre history, covering musical theatre genres, practitioners (creatives and performers) and seminal works. The work of different composers, librettists, directors, choreographers and actors will also be introduced and the role of each discussed. In addition to this, students will explore different musical theatre genres.

The unit will equip students with research and study skills appropriate at Level 4, learning to extract, analyse and criticise information from primary and secondary sources. Students will be given research tasks related to the set topics. During these tasks, they will communicate what they have discovered through the creation of a number of written and practical pieces in a variety of styles. These could include programme notes, book and show reviews, research articles and biographies, presentations and performed excerpts. Students will present their ideas to an audience of their peers and will critically assess their own work and the work of their peers.

On completion of this unit, students will have developed the ability to reflect on, analyse and criticise the work they do in class and rehearsal.
Learning Outcomes

By the end of this unit students will be able to:

1. Describe the development of musical theatre from the 1930s to the present day
2. Analyse a musical theatre work, identifying its principal elements and setting it in historical context
3. Prepare material from a chosen musical theatre work that demonstrates the principal elements identified
4. Perform musical theatre material to an audience, as directed.
Essential Content

LO1 **Describe the development of musical theatre from the 1930s to the present day**

*A historical framework:*

Works from each decade, identifying cultural norms, audience expectations and other influences

Musical theatre genres most closely associated with particular decades

Musical theatre works, performers, composers, writers, and choreographers associated with each genre

Trends and turning points in the development of musical theatre

Cultural developments in musical theatre across the world.

LO2 **Analyse a musical theatre work, identifying its principal elements and setting it in historical context**

*Define musical theatre genres:*

Identify distinguishing characteristics

*Define principal elements:*

Musical and choreographic motifs, plot devices, and structural elements, from a wide and diverse range of musical theatre

*How composers and librettists make use of musical effects, characters, and form to convey their message*

*Influence on musical theatre of wider cultural trends (and vice versa)*

LO3 **Prepare material from a chosen musical theatre work that demonstrates the principal elements identified**

*Define principal elements:*

E.g. Musical and choreographic motifs

Plot devices

Structural elements

Giving examples from particular works of musical theatre
LO4  **Perform musical theatre material to an audience, as directed**

*Communication:* Vocal skills (tone, articulation, inflection, projection) Working in a team, audience awareness and interpretation, working with a director, communication of ideas and concepts, confidence and clarity

*Physicality:* Spatial awareness, characterisation, gesture, musicality through physicality, confidence and strength,

*Musicality:* Pitch, tone, rhythm, intonation, varied forms (solo, duet, group etc) harmonisation, use of dynamics, confidence and clarity

*Interpretation:* communicating subject and theme of text, characterisation – vocal, physical and psychological, stylistic features of text, working a director and others, audience awareness.

</tbody>
</table>

Introduction

The aim of the unit is to develop the skills required to be an effective member of an ensemble, performers need to develop their ability to sing, in both unison and harmony, within that ensemble. They need to acquaint themselves with the key principles of a music rehearsal, such as how to learn, record and practise harmony lines, musical listening skills, understanding the relationship between the cast and the musical director, rehearsal etiquette and procedures, and the disciplines of ensemble singing, including unity of phrasing, dynamics, accent and diction, harmony work, blending, and sight singing.

Students will acquire an understanding of the relationship between notes and develop their understanding of relative pitch. Students will build an awareness of what is happening around them while they are singing. Specific skills to be taught include the singing of major scales and arpeggios, listening to, and the accurate reproduction of, melodic lines, singing a capella, copying and identifying metre and rhythm, and developing internal timekeeping. Students will be taught basic aural skills and the ability to recognise and sing musical intervals. They will acquire knowledge of the rudiments of music notation and score reading (to include recognising simple Italian music terms and symbols, repeats, codas, bar numbers and rehearsal markings) and to learn to sing simple and more complex melodies at sight.

In addition to singing new musical material (learned aurally or by sight-reading), students will be expected to include characterisation, storytelling, and retain an appropriate sense of style and an understanding of the genre of the piece.
Learning Outcomes

By the end of this unit students will be able to:

1. Perform a given musical line with rhythmic accuracy, both in unison and in harmony sections
2. Perform a given musical line with melodic accuracy, both in unison and in harmony sections
3. Rehearse a musical score as part of an ensemble
4. Demonstrate performance skills that incorporate characterisation and acting choices as part of an ensemble.
Essential Content

LO1 Perform a given musical line with rhythmic accuracy both in unison and in harmony sections

Learn how to recognise different time signatures and understand how they affect the metre and emphasis

Be able to maintain a given tempo, both in homophonic and polyphonic settings

LO2 Perform a given musical line with melodic accuracy both in unison and in harmony sections

Sing and sustain a melodic line while others sing a completely different line

Develop the ability to identify and sing any diatonic interval above or below a given note

Develop the ability to sing a previously unknown melody line at sight

LO3 Rehearse a musical score as part of an ensemble

Develop the ability to maintain concentration and focus for the duration of the rehearsal

Be able to follow direction and instructions, e.g. responding to and maintaining corrections

Understand how to follow cues, both in the music and also from the musical director

Develop a basic understanding of musical notation, e.g. converting music to the most suitable key through online transposition tools

Follow an unfamiliar score easily and accurately

Mark rehearsal directions in a score and mark up a score so that an audition pianist will understand the singer's requirements (cuts; repeated sections, tempo changes, dynamics)

Create a personal practice schedule that includes acting on corrections

Transfer the technical skills acquired in the Singing unit to performance in this unit

Develop an awareness of the other components in a piece and how each part fits together, e.g. considering blend
LO4 Demonstrate performance skills that incorporate characterisation and acting choices as part of an ensemble

Realise tempo, dynamic and articulation markings
Create light and shade through the use of expressive phrasing
Explore the song-journey of a piece and how it fits in to the wider context of the musical
Explore and convey the meaning of the lyrics
Identify the mood of the music and how this connects to the text and sub-text of the lyric
Communicate a character and his/her emotions and intentions through vocal and physical choices
Develop clear and truthful relationships with other characters in the ensemble

Key contacts
Impact of online activities through social media and technology skills required

Introduction

The aim of the unit is for students to understand and be able to perform the various forms and contrasting styles of songs required in today's professional musical theatre, and to acquire a well-rounded portfolio of audition songs.

Students will study a number of eras and composers and explore the styles and techniques required by the musical theatre canon. The unit will begin with the key composers of the 1920s and 1930s and progress chronologically. The songs taught will provide some of the material for a professional portfolio of audition songs that students will be required to assemble during the course. They will be encouraged to see the disciplines of singing and acting as symbiotic and should apply this principle at all times when singing in their acting classes.

During the unit, students will be introduced to musical theatre ‘standards’ which are representative of each genre of musical theatre. As students progress through the unit, they will be encouraged to discover and select songs of their own choice that are appropriate for each category in terms of style and genre.
Learning Outcomes

By the end of this unit students will be able to:

1. Present a varied and well-balanced portfolio of songs that showcase the strengths of the student's vocal and acting abilities
2. Analyse a musical theatre song and classify its style
3. Apply informed vocal choices for each song, taking into account the use of different voice qualities, styles and resonances appropriate to the genre
4. Apply informed acting choices to each song, taking into account the styles and social/historical context appropriate to the genre.
Essential Content

LO1 Present a varied and well-balanced portfolio of songs that showcase the strengths of the student's vocal and acting abilities

Explore songs and composers from the following periods:

Early musical theatre (1925–1943) – the works of Cole Porter, Jerome Kern, Irving Berlin, George Gershwin, Rodgers and Hart and their contemporaries

Traditional musical theatre – classical (1943–1970) – the works of Rodgers and Hammerstein, Lerner and Loewe, Bock and Harnick, Leonard Bernstein, Lionel Bart and their contemporaries

Traditional musical theatre – showtunes (1950–present) – the works of Kander and Ebb, Jerry Herman, Frank Loesser, Charles Strouse, Cy Coleman, Jule Styne, Ross and Adler

Sondheim (1963–present) Sondheim’s work is generally considered to be the most complex and varied in the musical theatre canon in respect of acting and vocal demands

Late-twentieth-century musical theatre (1970–2000s) – the works of Andrew Lloyd Webber, Boublil and Schönberg, Flaherty and Ahrens, Stephen Schwartz, Maltby and Shire, William Finn, Maury Yeston, and their contemporaries

Family entertainment (1964–present) – the works of the Sherman Brothers, Alan Menken, Randy Newman and their contemporaries, whose work is used extensively in family entertainment environments

LO2 Analyse a musical theatre song and classify its style

Key Components of Musical Theatre

Song types eg. patter, dramatic ballad, dramatic uptempo, torch song

Structure and principal elements
Song Journeys: winning journey; a losing journey; a spiral journey, or a serendipitous journey

Author intentions, context and comparison

LO3 Apply informed vocal choices for each song, taking into account the use of different voice qualities, styles and resonances appropriate to the genre

Develop the ability to recognise and recreate the primary vocal qualities used in musical theatre (speech quality; cry/sob; twang; opera; falsetto, and belt)

Identify the use of each of the vocal qualities and resonances in recorded musical theatre, illustrating their uses, and evaluating their effectiveness in navigating gear changes and most importantly in communicating character and emotion

Use knowledge of a character’s objective and whether or not the character succeeds in fulfilling that objective in order to decide on which vocal qualities and resonances to employ

Use the understanding of singing technique to influence the choice of vocal qualities and resonances in order to help to navigate difficult passages

LO4 Apply informed acting choices to each song, taking into account the styles and social/historical context appropriate to the genre

Place the musical text in its historical context, exploring the: influences; cultural norms; relationship with other art forms; socio-political factors; technological developments, and the status of musical theatre as an art form at the time, and use this information to establish appropriate available acting tools

Explore and convey the meaning of the lyrics by considering both the text and the sub-text of the lyrics for the specific song in conjunction with other songs/pieces of dialogue sung/spoken by the same character in the wider work

Explore the song-journey and consider the acting choices available to communicate the journey effectively to an audience

Identify the mood of the music and how this connects to the text and sub-text of the lyric

Communicate a character and his/her emotions and intentions through vocal and physical choices
### Learning Outcomes and Assessment Criteria

### Introduction

A significant area of employment for the actor is working on camera in a variety of domains from film and television to online. Actors need to develop appropriate technique in order to perform successfully in front of a camera. While the technique of performing to camera may be rooted in realistic technique for the stage, it poses challenges of its own.

This unit will foster technical acumen in meeting the practical and artistic demands of realising performance for the screen. Topics included in this unit are understanding the challenges of working on set, developing suitable acting techniques for camera, rehearsing material and performing in front of camera.

On successful completion of this unit, students will have acquired knowledge of the technical challenges of performing to camera, developed appropriate technique to realise effective screen performance, and performed to camera.
Learning Outcomes

By the end of this unit students will be able to:

1. Assess the moving image environment
2. Develop acting techniques for performances to a range of screen mediums
3. Apply acting technique to rehearse material for screen performance
4. Effectively apply identified acting skills to a performance-to-camera scenario.
Essential Content

LO1 Assess the moving image environment

Influential screen performers and their acting methodologies

Historical and contemporary screen acting techniques and methodologies

Style/medium/format: to include Thrillers, Noir soap, Blockbuster, Independent, Comedy, Romcom

Key terms, e.g. ADR/looping, aspect ratio, background, boom, call, call sheet, cheating (look, position, movement), clapper board, continuity, coverage, cut, dailies, depth of field, dubbing, eye line, extras, first assembly or rough cut, Foley, hitting a mark, location, marks, matching, pickup, post-production, principal photography, radio mic, reshoot, rolling, second unit, setup, shoot, shooting schedule, shooting script, shot, shot list, slate, speed, take, tracking, wrap

Personnel on a set, e.g. director of photography (DoP), camera operator, focus puller, camera assistant, grip, gaffer, sparks, boom operator, sound recordist, floor manager, first assistant director (AD), second AD, third AD, stunt coordinators, runners, art director, stand-by props, script supervisor, wardrobe, make-up

Production processes peculiar to range of film environments, e.g. script development, funding, screen tests, schedules and calls, Health and Safety

LO2 Develop acting techniques for performances to a range of screen mediums

Experimentation with different methodologies, e.g. Stanislavsky, Meisner, Adler, Leigh:

Exploration of appropriate skills and technique based on exploration of practitioners

Development of vocal, physical and psychological technique for screen performance

Develop understanding of shot size and behaviour: extreme long shot, long shot, medium, medium close-up, close-up, extreme close-up

Acting on and off camera

Technical challenge of blocking and hitting marks

Moment-to-moment acting: listening and responding, playing reactions

Analysis of script: beats/bits/units, objectives/tasks, actions, obstacles, given circumstances, character personality and traits
LO3  **Apply acting techniques to rehearse material for a performance to camera scenario.**

*Realising script:*
Director's vision, taking direction, needs of the script, interpretation, analysis of script, originality of characterisation
Absorbing technical challenges to create a performance – camera angles, shot size, continuity, green screen, acting to nothing
Rehearsing alone to create performance as required
Preparation – script analysis, developing character, learning lines
Blocking rehearsal and hitting marks

*Learning to be in the moment:*
Listening and responding

*Developing the performance:*
Experimenting with choices and taking risks

*Defining and communicating the character:*
Interpretation of role through analysis and realisation of character through behaviour

*Working with other actors:*
Sensitivity
Listening
Responding
Working relations

*Personal management:*
Timekeeping
Preparation
Props
Costumes
Health and Safety
On set rehearsal:
Blocking the scene
Rehearsing the blocking
Showing the scene to the crew
Working out the coverage
Setting up the shot
Camera rehearsal

LO4 Effectively apply identified acting skills to a performance-to-camera scenario

The take:
Technical requirements
Acting in front of the crew
Preparation before the take (focus task emotional state tempo-rhythm)
Continuing until the director calls ‘cut’
Recovering from the take
Take two
Feedback from the director/the director as audience
Maintaining concentration
Between takes

Consistency of performance in performing multiple takes

Creating correct intensity for shot size:
appropriate level of performance vocally, physically and psychologically

Characterising role to meet the needs of the script
Dealing with technical challenges:
Hitting marks
Working with the camera
Using props
Managing eye-lines
Continuity
Crossing the line

Keeping the performance as if for the first time

Working out of sequence

Interaction with other performers, e.g. performing off camera for takes of others

Meeting the needs of the director: responding to direction

Unit 1: The Performing Arts Industry
Unit 2: Professional Development
Unit 13: Acting 1
Unit 18: Voice and Speech for Actors
Unit 20: Devising Theatre and Performance
Unit 51: Dance for Actors.
Introduction

One of the instruments for communicating the inner life of a character is the voice. As such, the development of the expressive capability of the voice is essential to the actor.

This unit introduces students to the fundamental principles of vocal performance and how sound is formed physiologically. In this way, through the application of technique and exercises, they can develop an expressive and flexible vocal instrument capable of meeting the demands of a variety of material.

Topics included in this unit are physiological sound formation, including the physical process of articulation, vocal health, voice production and vocal delivery. Students will participate in a regime of exercises to improve voice production and will have the opportunity to review and reflect on their performance in order to identify targets for improvement.

On successful completion of this unit, students will be able to understand the physiological formation of sound and how to develop and improve vocal quality through reflection and application of technique. They will be able to perform while demonstrating an appropriate vocal technique.
Learning Outcomes

By the end of this unit students will be able to:

1. Demonstrate the principles of voice production and how sound is formed physiologically
2. Apply technique for voice production to develop voice and speech skills
3. Apply vocal technique to a portfolio of performed material
4. Evaluate effectiveness of vocal delivery and identify areas for improvement.
Essential Content

LO1  **Demonstrate the principles of voice production and how sound is formed physiologically**

*Physiological exploration of the formation of sound including:*
- Voice produced in larynx, Vocal folds (false and true),
- Vocal folds vibrate to create sound, Breath control/support
- Diaphragm fact and fiction, Anchoring

*Creation of vocal tone:*
- Control of air exhalation, Vocal cords, Resonance

*Organs and muscles:*
- Tongue, Mouth, Palate, Larynx, Vocal folds. Epiglottis
- Trachea, Lungs, Ribs, Diaphragm, Intercostal muscles
- Spine

*Alignment:*
- Head, Neck, Ribcage, Spine, Pelvis

*Breath:*
- Posture, Lung capacity, Correct breath pressure, Ribs
- Use of diaphragm, Intercostal muscles, Control of tension

*Process of articulation:*
- Jaw, Lips, Teeth, Tongue, Hard palate, Soft palate, Throat

LO2  **Apply technique for voice production to develop voice and speech skills**

*Identifying vocal problems:*
- Appearance – posture, ribcage, asymmetry
- Sound – speaking voice clear tone and/or clean fold closure, resonance
- History – medication, vocal problems, surgery, previous training, acid reflux, Head neck or back injuries resulting in alignment problems
- Excessive air pressure/control of air exhalation – efficient release of abdominal wall
Tight tongue root
Insufficient or inappropriate body dynamic
Control of tension/ability to isolate
Diction
Use of resonators

Resolution of vocal problems and improvement of vocal skills through an appropriate programme of exercises:
Development of correct alignment and posture through techniques such as Feldenkrais Alexander
Control or isolation of effort to produce clear tone isolating false vocal folds from constricting due to effort (thoracic fixation) working true vocal folds at comfortable level

Control of air flow from vowel to consonant:
True vocal fold contact on vowel and release of/resistance to air for consonant use the lips to build up air pressure before releasing it

Positive and negative practice:
Identifying the false and true folds and alternating between constriction and retraction to feel the space change between insufficient voice use and efficient use of voice or clear tone

Abdominal wall:
Releasing the abdomen to allow diaphragm to function
Resonance exercises
Speech muscles – exercises to strengthen lips tongue palate

Expressivity:
Clarity, Pace, Dynamics, Character, Use of accents

Analysis of text:
Understanding, Interpretation, Vocal choices to convey character
Voice production:
Control of tension/isolation
Correct posture (head neck ribcage spine)
Resonators and tonal range
Formation of vowels and consonants
Projection of voice

Vocal delivery:
Breath, Note, Tone, Dynamics, Pitch, Pace, Timbre, Inflection

LO3 Apply vocal technique to a portfolio of performed material

Material:
Range of material designed to provide appropriate challenge e.g. Shakespearean sonnets poems political speeches monologues both contemporary and classical

Performance of material:
Analysis and interpretation of text
Translation of analysis into vocal performance
Quality of expressive capabilities
Vocal characterisation of text
Communication of text

Technical:
Anchoring
Projection
Diction
Control of breath
Pace and timing
Vocal texture
Timbre
Technique to convey meaning:
Modulation of tone
Volume
Clarity
Characterisation
Style
Dynamics
Use of pause
Pitch
Pace

LO4 Evaluate effectiveness of vocal delivery and identify areas for improvement

Review and analysis of own vocal performance:
Identifying how well the needs of the text were realised vocally and areas for development

Review of strengths and weaknesses of vocal instrument
Relaxation, Control, Isolation, Clear tone, Alignment/posture
Diction, Vocal characterisation, Pitch, Pace, Resonance

## Introduction

Significant physical demands are placed on the modern performer, whether it be to execute period movement or dance, participate in a fight sequence, perform in a physical theatre piece or to portray the precise physicality of a role.

The aim of this unit is to provide students with an understanding of the importance of developing an expressive body as an essential component of their performance toolkit. Students will acquire foundation skills in suppleness, strength and agility which will facilitate the development of movement capability and physical presence.

Topics included in this unit are identification of strengths and areas for improvement in terms of movement capabilities, exploration of movement methodologies, identifying a programme of exercises to develop somatic skills, and performing movement-based material.

On successful completion of this unit, students will be able to demonstrate that they understand the strengths and weaknesses of their movement skills, are able to address areas for improvement through a defined programme of exercises, develop material for performance and execute material for performance using appropriate movement skills.
Learning Outcomes

By the end of this unit students will be able to:

1. Assess the strengths and weakness of own movement skills
2. Create a programme of exercises to develop movement ability based on assessment of skills
3. Apply movement skills to developing material for performance in rehearsal
4. Apply movement skills in a performance context.
Essential Content

LO1 **Assess the strengths and weaknesses of own movement skills**

*Exploration of current movement levels:*

*Agility, movement range, spatial awareness and dynamics, movement qualities*

*Exploration of physiology of human body*

*Strengths and areas for improvement: action of the body, qualities of movement/dynamics, space/environment, relationship*

LO2 **Create a programme of exercises to develop movement ability based on assessment of skills**

*Explore work of a wide and diverse range of practitioners*

*Research and devise programme of exercises to address strengths and weaknesses*

*Health and safety: warm ups and cool downs, injury prevention, lifestyle choices, diet*

*Exercises: exercises for fitness, strength, stamina and suppleness, movement awareness, release, control of tension, development of movement vocabulary, release of blocks*

*Exercises to address components of movement: bodily action, movement qualities/dynamics, space/environment, relationship*

LO3 **Apply movement skills to developing material for performance in rehearsal**

*Space: use of levels, articulation of space/proxemics, group and individual body shapes*

*Physical: flexibility, co-ordination, posture, expression, gesture, fluency, travelling, timing, use of weight, movement dynamics/effort actions, movement phrasing, states of tension, relaxation, movement vocabulary, movement styles, character movement*

*Exploration of ideas: visual, aural, ideational, text*

*Structuring material: development of ideas, compositional devices*

*Rehearsal: discipline, accepting and developing ideas, creative input*

*Evaluation: evaluation/reflectin in action to improve work as part of process, targets for improvement*
LO4 **Apply movement skills in a performance context**

*Skills:*
Co-ordination
Alignment action of the body
Movement qualities/dynamics
Use of space
Relationships in space

*Performance:*
Realise ideas with accuracy
Timing and phrasing
Responsiveness to and interaction with other performers
Communication/interpretation of ideas
Movement definition and control
Awareness of semiotics of physical expression
Use of gesture
Physical expression of text
Use of composition

*Individual and group:*
Trust
Lifts
Body language
Dynamics

Introduction

The concept of a devised performance has been around for many years. However, in the ever-changing and evolving performing arts industry, devising has evolved into a wider collaborative process that the entire creative team can engage in. This could include theatre makers from any discipline – directors, writers, performers, choreographers, composers, designers, technicians, the audience and even the performance space itself. Devised pieces are being increasingly used as an important and effective method of communicating and engaging audiences in contemporary social issues, which is a powerful tool.

Due to the nature of devising, the most effective way of developing ideas and skills in this area is to fully explore a wide and diverse range of practitioners, productions and companies that have helped to shape this form of theatre. This diversity of these areas of study is essential to fully understand the exploratory nature of devising.

By the end of this unit, students will have developed a creative toolbox of methods, ideas, techniques that could all be applied to a devised work. They will also have improved their understanding of the contextual development of devising and its importance in today’s creative arts industry. Students will also have explored contemporary devising processes, including use of movement, text and ensemble, and developed their appreciation of the entire creative process and how it informs and links to the final product.
Learning Outcomes

By the end of this unit students will be able to:

1. Explore the history of devised theatre and influential practitioners
2. Explore a wide range of techniques and processes used to create a piece of devised work
3. Create and perform a piece of devised work
4. Evaluate the techniques and processes used in the creation and performance of a piece of devised work.
Essential Content

LO1 Explore the history of devised theatre and influential practitioners

Wide range of practitioners to include: Joan Littlewood, Jerzy Grotowski, Peter Brook, Antonin Artaud, Étienne Decroux, John Wright, Lecoq, Gaulier

Wide range of Theatre Companies to include: Frantic Assembly, Wooster Group, Cornerstone, Sojourn The Living Theatre, Open Theatre, Australian Performing Group, People Show, Teatro Campesino, Théâtre de Complicité, Legs on the Wall, Forced Entertainment, Goat Island, Graeae, DV8, Punchdrunk, Gecko, Kneehigh, 1927, Improbable

Wide range of Theatre styles and forms to include: Naturalism, Expressionism, Symbolism, Realism, Theatre of the Absurd, Classical, Physical Theatre, Mime, Theatre of Cruelty and Commedia dell’Arte, docu-theatre; verbatim, creative adaptation, political theatre/feminist theatre, epic theatre comedy/tragedy/melodrama/farce

Different forms of devised performances: Media, Technology, Live Theatre, Art works, genre collaboration

Cultural, Political, Social, and Ecological influences on devised performances

LO2 Explore a wide range of techniques and processes used to create a piece of devised work

Stimulus – to include: Image, Music, an event (historical, contemporary, current) text

Commissioning: types of commissions (to include commercial company, charity and museum)

Translation process: stimulus translation and commission translation. Translation process skills: negotiation, exploration, reflective practice, creating a brief and then working to a brief

Audience: demographics, communicating intentions and engagement

Exploration of relevant techniques in practice: Improvisation, Naturalism, Expressionism, Symbolism, Realism, Theatre of the Absurd, Classical, Physical Theatre, Mime, Theatre of Cruelty and Commedia dell’Arte, docu-theatre; verbatim, creative adaptation, political theatre/feminist theatre, epic theatre comedy/tragedy/melodrama/farce

Performance space considerations to include: Arena, Thrust, End Stage, Flexible, Environmental, Promenade, Black Box, Studio and Courtyard
LO3 **Create and perform a piece of devised work**

*Application of the following through the creation and performance:*
- Developed techniques
- Developed processes
- Communication with audience through defined and agreed audience aims and objectives
- Utilisation of performance space through defined and agreed objectives
- Effective translation of stimuli

LO4 **Evaluate the techniques and processes used in the creation and performance of a piece of devised work**

*Reflective practice:*
- Analysis of processes and techniques used in their effectiveness as a communication tool
- Analysis of audience engagement: interaction, gathering feedback, meeting aims and objectives
- Analysis of performance space: effective use, meeting defined aims and objectives
- Analysis of use of stimulus: effectiveness of translation, meeting the brief, effectiveness of working to a commission
- Analysis of working within group: communication within a team and effective working
- Analysis of own skill set: areas for development and future skill development

Introduction

With any event, show or production, a cohesive team is essential. To ensure the smooth running of a production, communication requires an in-depth understanding of all areas of a performance. With advanced technologies, methods of communication in the performing industry will include a variety of equipment, media and visual methods to enable, improve and ensure that all productions run well.

In this unit, students will learn to problem solve, be a creative innovator and be able to articulate, in detail and in a variety of ways, where skills are utilised within the creative industry. They will also have the opportunity to develop Health and Safety awareness, identifying alternative approaches to backstage or front-of-house co-ordination, and improve their skill set to enable them to be a supportive and crucial member within the whole of a team.

This unit will enable a student to communicate using a variety of methods such as oral communication and communication technologies. They will be able to develop and interpret tasks and competencies to ensure discussions and activities are logically organised and managed within the vocational context. These sets of skills can be utilised in any job which requires teamwork and innovative responses to specific tasks.
Learning Outcomes

By the end of this unit students will be able to:

1. Explore communication methods used in a production
2. Identify the main features of communication related to a set brief
3. Demonstrate communication skills through a defined role in a production
4. Assess the effectiveness of communication skills used in in a production.
Essential Content

LO1 Explore communication methods used in a production

*Managing members of a production team:*
- Communication skills (listening and understanding)
- Relationship building
- Delegation of activities/tasks
- Team morale
- Time management
- Discipline
- Motivation
- Personal Protective Equipment (PPE), manual handling
- Listening, observing, questioning, clarifying
- People skills
- Stress management
- Character types

*Managing staff:*
- Clarity in communication
- Follow up
- Supporting and guiding
- Supportive language
- Goal setting
- Reward
- Respect
- Discipline
- Time management
- Technology
- Health and wellbeing
LO2 **Identify the main features of communication related to a set brief**

*Managing staff:*
- Clarity in communication, follow up
- Supporting and guiding
- Supportive language
- Goal setting

*Health and Safety:*
- Review of existing knowledge
- Updating of information and resources
- Production specific regulations
- Manual handling
- Electrical testing (PAT)
- Fire regulations
- Set construction and venue
- Crowd control, pyrotechnics
- Disability access
- Disability Discrimination Act
- Environmental issues, heat, cold, wet
- Cleaning up
- Accountability

LO3 **Demonstrate communication skills through a defined role in a production**

*Identifying, selecting and scheduling events:*
- Booking events
- Contracts
- Considerations as to nature and size of venue
- Marketing strategies
- Audience promotion
- Budgeting
- Ticket sales
**Fundraising:**
Sourcing and securing funds from local authorities, business sponsors, trusts, private donors
Formats - spreadsheets, word, written
Flexibility
Ownership
Ability to change plans
Inform and record decisions
Production meetings
Agenda
Minutes, attendees, recording information
Control of Noise at Work Regulations 2005
First-stage and second-stage action limits
COSHH, PUWER, LOLER, risk assessments
HSE event safety guide

**LO4 Assess the effectiveness of communication skills used in a production**

*Producing and managing production paperwork*
*Compiling production requirements in preparation for a production meeting*

*Presenting information in a production meeting:*
Managing staff and meetings
Reading reference book
Legislative materials and plans
Using the information in production meetings
Posting production schedules and information on requirements of staff and equipment
## Learning Outcomes and Assessment Criteria

This unit links to:
*Unit 1: The Performing Arts Industry*
*Unit 2: Professional Development*
*Unit 22: Stagecraft*
*Unit 29: Crewing.*
Introduction

Stagecraft is the team working of the backstage crew in a production. This unit is designed to introduce the students to the principles and practicalities of backstage team work during a live production. Students will undertake a role in one department, developing and evidencing a full understanding of what that role requires.

The backstage of a live production is often a crowded area. A live production requires a team from each department to ensure that the performance runs smoothly, safely and as planned. Backstage work can range from scenic changes, costume and make up changes, lighting and sound requirements, to stage management and the provision of hand props for actors. Each team will need to understand both their own particular role and department, and also about how that role might impact on both the wider production team and the performers.

Space backstage is often limited, and each person backstage must accord all other backstage personnel a professional approach and utilise a particular backstage etiquette. Live productions are events which may go exactly as planned each time, or for many reasons may not. Plans must be made for each part of the performance, and each team must anticipate and risk assess instances which may occur in an unusual or emergency situation.

By the end of this unit students will be able to work efficiently backstage on a live production.
Learning Outcomes

By the end of this unit students will be able to:

1. Explain the responsibilities of backstage roles and the teamwork involved
2. Evaluate a script, defining the responsibilities of a specific role backstage in a production
3. Anticipate issues pertaining to that role, by risk assessment
4. Evaluate the backstage work of the production.
Essential Content

LO1  Explain the responsibilities of backstage roles and the teamwork involved

Preproduction:
Departmental responsibilities
Departmental hierarchy and roles
The wider production team
Interaction of differing department teams
Job specifics
Venues, performance, performers’ impact on backstage roles
Health and Safety
Backstage etiquette
Health and wellbeing

LO2  Evaluate a script, defining the responsibilities of a specific role backstage in a production

Type of script:
Type of performance
Venue
Set
Budget
Backstage space
Length of performance
Quick changes for your department
Consideration of wider production team
Script analysis for backstage
Performance planning
LO3 **Anticipate issues pertaining to that role by risk assessment**

*Risk assessments:*
- Anticipate potential issues
- Emergency kit required
- Contingencies
- Audience considerations
- Performer considerations
- Crew considerations
- Backstage space
- Health and wellbeing: stress management, anxiety and pressure etc

LO4 **Evaluate the backstage work of the production**

*Review:*
- Time management – speed of problem solving
- Communication methods and effectiveness
- Meeting aims and objectives
- Areas for development
- Health and wellbeing

Introduction

Lighting has become a vital tool in the performing arts, not only to see the performers and to draw the audience's attention, but to move us in time and place and to enhance the mood. During the performance itself, be that theatre, music or even commercial events, it is the lighting operator that makes it happen in real time by following a plan accurately but being able to respond to changes in a live situation.

This unit aims to introduce students to the skills, techniques and equipment that are used by the lighting operator in a theatre. They will investigate and explore the role and develop the skills required to plan, programme and operate the equipment.

Topics in the unit will look at different types of lighting operation equipment used currently in the industry, ranging from simple memory lighting desks to larger desks with intelligent lighting control, the creation, reading and following of documentation for lighting operation and the skills required to set-up, programme and operate for a live performance.

On successful completion of this unit, students will be able to perform the role of a lighting operator for the set-up and running of a public performance.
Learning Outcomes

By the end of this unit students will be able to:

1. Investigate the skills, equipment and techniques involved in the role of the lighting operator
2. Develop the skills and techniques required to carry out the role of a lighting operator using industry-standard practice
3. Demonstrate the ability to carry out the role of the lighting operator in preparation for performance
4. Perform the role of the lighting operator in a live performance to a professional standard.
Essential Content

LO1 Investigate the skills, equipment and techniques involved in the role of the lighting operator

*Investigate the roles, responsibilities and skills of the lighting operator:*

Production – attending rehearsals

Fit-up, e.g. setting up the physical equipment, setting up the lighting desk and patching

Rigging and focusing – operating the lighting desk for the focus, reading a focus schedule

Plotting – programming the lighting desk with cues, sub-masters and palettes

Tech and dress run – creating a cue sheet, following audio and visual cues

Performance run – power-up, equipment checks, power-down

Cue sheets, rig, patch and focus plans, manuals, show reports

Health, Safety and wellbeing

*Investigate the equipment used by the lighting operator:*

Lighting instruments – generic lanterns, intelligent lighting

Associated equipment, e.g. colour scrollers, smoke and haze machines

Power and communication – dimmers, DMX, Art-Net

Lighting consoles – simple theatre memory desk, large multi-cue desks with intelligent lighting functionality

LO2 Develop the skills and techniques required to carry out the role of a lighting operator using industry-standard practice

*Be able to use and operate lighting equipment*

*Setting up:*

Power distribution, communication, e.g. DMX, Art-Net

*Lighting desks:*

Setting up

Patching

Programming and editing (cues, chase, sub-masters, intelligent fixtures, palletes)
Advanced programming functions, e.g. timing, delay, LTP/HTP, tracking, mark cues, effects

*Setting up and using a visualiser*

*Playback:*
Responding to stage management
Visual and auditable cues
Manual live operation
Responding to problems

*Be able to read and create appropriate documentation:*
Rig and focus plans
Focus schedule
Stage management reports

**LO3** Demonstrate the ability to carry out the role of the lighting operator in preparation for performance

*The fit-up*

*Setting up*
Power distribution
DMX/Art-Net
addressing and patching

*Focus:*
Responding to the lighting designer
Health and Safety
Plotting

*Reading, creating and understanding focus plans and cue sheets:*
Programming and editing (cues, chase, sub-masters, intelligent fixtures, palletes)
Advanced programming functions, e.g. timing, delay, LTP/HTP, tracking, mark cues, effects
Responding to the lighting designer and directorial requirements
Tech and dress rehearsals
Responding to cues  
Responding to feedback  
Making minor alterations during the rehearsals  
Taking appropriate notes  
Editing cues  
Editing cue sheet

LO4 **Perform the role of the lighting operator in a live performance to a professional standard**

*Operate the lighting for a public performance*

*Load show*

*Playback:*
Communication etiquette  
Responding to visual and audio cues  
Responding to stage management and front of house

*Complex cues:*
Intelligent lighting  
Mark cues  
Chases  
Multiple cues  
Live manual operations (e.g. Step times using palettes)  
Self-cuing  
Sequences

*Other duties:*
E.g. Power-up  
Equipment check  
Health and Safety  
Issue reporting  
Emergency maintenance  
Problem solving  
Power-down
### Learning Outcomes and Assessment Criteria

Introduction

Sound and technical operations are a fundamental and integral part of today’s performing arts. Working as part of a wider technical team, the sound operator helps to realise the overall sound design for a live production. The role requires a diverse range of skills from sound theory and acoustics to technical ability and an understanding of today’s diverse performing arts sector.

The aim of this unit is to introduce students to the fundamental aspects of performance sound through hands-on technical experience and training. The skills and knowledge covered will provide a basis and point of reference for practical live sound operation in a range of performance scenarios.

Topics included in this unit cover a range of core concepts, to include sound theory, acoustics, sound equipment and specifications, sound reinforcement concepts, venue technical specifications, front of house (FOH) and stage/pit monitor mixing, Health and Safety, and working as part of a technical team. In addition, students will assess their work in the light of current industry practice.

On successful completion of this unit, students will be able plan and manage the sound specifications and ‘on the night’ realisation of a live performance event, including rigging and sound checking, FOH and monitor mixing, and managing live and pre-recorded musical cues and special effects (SFX).
Learning Outcomes

By the end of this unit students will be able to:

1. Assess the technical and acoustic factors of a performance venue
2. Produce a technical plan for a live performance
3. Undertake the sound operation of a live performance
4. Review the sound operation undertaken, identifying strengths and areas for development.
Essential Content

LO1 Assess the technical and acoustic factors of a performance venue

*Types of performance space to include:*
Theatres
Concert halls
Venues
Dance studios
Public spaces
Open-air venues

*Sound theory:*
Principles of sounds – frequency, wavelength, phase, amplitude, and harmonic content
Sound propagation – transmission, reflection, absorption, and directivity

*Acoustic factors and mitigations:*
Reverberation
Absorption
Room response
Resonance

*Screens, curtains, equalisation, and variable acoustics*

*Sound reinforcement:*
Microphones/DI – types, specifications, performance, usage and placement
FOH systems and stage/pit monitoring – mixing consoles, amplification, speaker arrays, IEMs, equalisation, dynamic range processing, time-based effects
Cables and connections
Noise levels – venue licensing considerations and public health
Playback and recording equipment
Accessibility
LO2 Produce a technical plan for a live performance

*Technical planning:*
Nature of performance space and acoustic considerations
Nature of performance and performer/audience factors, e.g. dance, spoken word, immersive theatre, music, stage and audience positioning, etc.
Sound reinforcement requirements (in reference to the considerations above)
Placement and practicalities
Health and Safety considerations
Budgeting and costs

LO3 Undertake the sound operation of a live performance

*Set-up and get-in:*
Set-up and sound check for a live performance – FOH, stage/pit monitoring

*Performance sound operation:*
FOH MIX – effective balance and correct gain structuring throughout the system
MONS MIX – effective balance and correct gain structuring throughout the system stage/pit monitoring, IEMs (in-ear monitoring)
Avoidance of distortion and feedback
Effective referencing and metering

*Music and SFX cues:*
Use of pre-recorded and live sound and music cues
Working with a ‘prompt book/calling script’

*Professionalism, communication, and team working skills:*
Communication with performers and other venue and technical staff
Communication with the Stage Manager/stage management team (DSM/ASM)
Health, safety and wellbeing
LO4 Review the sound operation undertaken, identifying strengths and areas for development

Critical analysis of work throughout the performance, informed through tutor and peer feedback and evaluation

Organisations

Key contacts

Impact of online activities through social media and technology skills required

Introduction

Special effects, or ‘Special FX’, create illusions which can play a large part in audience enthrallment, often providing spectacular visual parts of a production to make the audience gasp in amazement, or providing unanticipated shocks which can make an audience gasp in horror or fear. Special effects in the creative industries cover a vast range of options as new technology provides new possibilities.

The options can range from areas such as prosthetics or costume parts on performers to puppetry and animatronics, animated props, fake snow or fog, pyrotechnics, and lighting and sound effects. Each of these areas of effects has their own range of possibilities, tempered by the requirements of the specific production, the budget and also the Health and Safety considerations – which are a very important part of special FX. This unit also covers a wide range of special effects required to create specific illusions in productions. Every special effect must take into consideration, not only the impact on the audience, but also on the production and the performers.

This unit is designed to allow students to investigate special effects and all of the Health and Safety aspects arising from using those effects live onstage. Students will then undertake a role in providing special effects and evaluate the success of the effects produced.

By the end of this unit students will be able to create risk assessed special effects.
Learning Outcomes

By the end of this unit students will be able to:

1. Explain the range of special effects available for live productions, detailing the associated risks
2. Interpret a director's brief and script for a live production which requires special effects risk assessing as appropriate
3. Realise the plan for special effects in the production
4. Evaluate the success of the plan for special effects in the production.
Essential Content

LO1  **Explain the range of special effects available for live productions, detailing the associated risks**

*Research Special FX companies and technologies:*
Examine differing effects for each department in a production
Effects on audience
Effects on the production
Effects on performers
Dangers of effects
Risks of effects
Health and Safety legislation for effects

LO2  **Interpret a director’s brief and script for a live production which requires special effects, risk assessing as appropriate**

*The script/the director’s brief:*
Budget
The venue
Type of production
Desired effect on stage
Desired impact on audience
Potential effects available
Potential risks
Type of effects to be used
Dangers
Health and Safety
Current legislation
Communication with wider production team of effects
Co-operation with wider production team
Risk assessment for special effects team, venue, performers, production team, audience
LO3  Realise the plan for special effects in the production

*Undertake a special effects role in a live performance*

LO4  Evaluate the success of the plan for special effects in the production

*Review:*

- Time management skills
- Aims and objectives
- Communication methods and techniques
- Appropriateness of technical methods and skills
- Audience interaction
- Areas for future development

Introduction

The role of the scenic constructor is to make a set from designs produced by the set designer. The constructor must be able to interpret designs from plans and models, and communicate any potential issues with the set to the designer. The constructor must work with the designer’s ideas and be able to provide a set which is true to the design but also viable for the production and the performer in the production. It must also work with any constraint of the production space.

Health and Safety is a vital part of the scenic construction activity as the work often involves the use of hand tools, power tools and electricity in order to make and join the differing parts of the set. The scenic constructor must be aware of all current legislation for any Health and Safety aspects in the construction of the set, and risk assess any potential issues before commencing the construction.

The construction of a set is often a team effort which involves communicating with the designer, the director, the wider construction team and the production manager to ensure that a set is completed to a specific deadline which is often very short. The scenic constructor must take into consideration the timescale when planning the construction of the set. Successful communication ensures that the set when finished is fit for purpose for all departments, including the performers and the behind the scenes workers.

At the end of this unit, students will be able to work safely from designs to create a viable set for a production.
Learning Outcomes

By the end of this unit students will be able to:

1. Interpret designs for a production
2. Produce a set from the interpretation of those designs
3. Demonstrate Health and Safety risk assessment
4. Evaluate the success of the set within a live production.
Essential Content

LO1 Interpret designs for a production

- Checking and discussion of drawings/models
- Scaling of diagrams, models, drawings
- Consideration of performance space
- Industry-specific terminology
- Producing working drawings
- Liaison with designer and wider production team
- Technology considerations – projections, etc
- Budget
- Planning of timescale
- Delegation of work
- Communication of deadlines

LO2 Produce a set from the interpretation of those designs

- Initial planning
- Selecting appropriate materials, e.g. timber, sheet materials, rope, acrylic, plastic, fabric
- Selecting appropriate tools
- Selecting appropriate fixings
- Selecting appropriate construction techniques
- Selecting appropriate joining techniques
- Communication with team
- Communication with designer
- Time management
LO3 **Demonstrate Health and Safety risk assessment**

*Hazard:*
- Tools, power supply, chemicals
- Health and Safety legislation
- Tools and chemicals used
- Fire safety
- Safe working
- Risk assessment paperwork

LO4 **Evaluate the success of the set within a live production**

*Practicalities of the set*
*Durability of the set*
*Use of the set by performers*
*Use of the set by the production team*
*Backstage space usage*
*Audience and user feedback*
*Improvements for future*

Introduction

There are multiple visual areas that require bespoke, character costumes such as the theatre, film, TV and the music industry, dance and performing arts. Historical, contemporary and thematic research, sourcing, and developing a character creates a practical opportunity to develop and produce garments for both real and fictional characters.

Costume construction consists of understanding and developing the skills required to pursue a successful career within the industry. It also introduces the management and care of a garment, including wear and tear, flexibility, whether it is fit for purpose, and Health and Safety. To create a pattern requires an understanding of construction. Additionally, adapting a garment through recycling and salvaging fabrics and cloths requires innovation and material experimentation. The finished garments produced will need to durable enough to withstand all performances.

This unit will allow students to construct and create costumes using a variety of techniques and processes with a view to bring to life specific characters allocated through a production or themed brief. They should be able to produce a costume fit for purpose in relation to a set brief.

By the end of this unit, students will have developed a range of generic transferable techniques which will enable them to be innovative and adaptable with costume construction and respond effectively to the demands of employment within a costume role.
Learning Outcomes

By the end of this unit students will be able to:

1. Explore a range of methods for costume construction
2. Produce patterns for costumes to a set brief
3. Construct costume/s to a set brief using a wide range of construction methods
Essential Content

LO1  Explore a range of methods for costume construction

*Interpret:*
Concept
Text
Characters
Vision

*Identify:*
Sourcing
Hiring

*Experiment through:*
Cutting
Sewing techniques
Machine and hand sewing
Sampling
Dyeing
Distressing
Embroidery and embellishing
Material types
Adaptation of garments

LO2  Produce patterns for costumes to a set brief

*Source:*
Commercial
Prepare twarls, if required
Plan components of garments
Use blocks, if required
Adaptations of clothes sourced:
Log changes and adaptations
Identify constraints
Consider alternatives and log:
Cleaning
Pattern drafts
Storage
Material selection g swatches
Securing
Collars and cuffs
Fastenings

LO3 Construct costume/s to a set brief using a wide range of construction methods

Part or full constructions:
Sewing
Cutting
Weaving
Fastenings
Seam finishes
Hems
Trims
Printing
Yoke pattern
Sleeves
Skirts bodice pattern
Trousers
Fitting
Application and finishing
LO4 Analyse methods of construction for character costume

Logging:
Size conventions, e.g. Europe, U.S.
Fabric Health and Safety
Durability
Fragility
Adaptations
Hair and wig requirements
Cleaning and maintenance
Cast
Accessories
Evaluate
Suitability
Fit for performance
Reliability
Maintenance
Identify specified silhouette for a given body shape
Locate and select appropriate sources related to specific body shape
Fit a costume to be used in performance

Introduction

This unit is designed to help learners to understand the requirements of the role and hair and makeup artist in a live production, producing the necessary paperwork and evaluating the success of the role.

The hair and make-up department in a production work closely with the costume and set departments to determine the look of the characters for the chosen text. Hair and make-up application is not only an artistic skill, but it also requires expertise in a range of specialist technical skills and a full knowledge of health and safety issues pertaining to hair and skin sensitivities and allergies. Make-up and hair artists must be able to interpret the designs for the production and then understand how to use a range of techniques to achieve the desired effects required for successful characterisation. The make-up and hair applicator must be able to understand human anatomy and how to change the shapes of facial features and to apply imitation hair to achieve desired effects. These effects must be fully planned and documented so that the exact same look can be achieved every night of a performance. The make-up and hair applied must also be resilient enough in order to stay in place for the full length of the performance.

The hair and make-up department must have excellent communication skills, including diplomacy and sensitivity in working with actors.

By the end of this unit, students will be able to undertake a role as a hair and make-up artist for a live production.
Learning Outcomes

By the end of this unit students will be able to:

1. Produce plans to realise the make-up and hair designs for a live production
2. Produce risk assessments for make-up and hair techniques used on the performers in the production
3. Undertake a role as a make-up/hair artist in a live production
4. Analyse the success of the hair and make-up for a live production.
Essential Content

LO1 **Produce plans to realise the make-up and hair designs for a live production**

*Techniques*
*Applications*
*Materials – make up, hair styling*
*Costings*
*Timings*
*Performer’s considerations*

LO2 **Produce risk assessments for make-up and hair techniques used on the performers in a production**

*Risk assessments:*
Health and Safety in the workplace
Health and Safety of hair stylists
Health and Safety of make-up artists
Health and Safety of performers
Make-up product analysis
Hair product analysis
Use of sprays
Cleansers
Allergies
Wigs/hairpieces
Applicators
Equipment
Contingency
Precautions
LO3  **Undertake a role as a make-up/hair artist on a live production**

- Personal management
- Set up of kit
- Pre-preparation management
- Performance management
- Backstage plans
- Contingency
- Post-performance

LO4  **Analyse the success of the hair and make-up for a live production**

- Reflection on preparations
- Analysis of role
- Backstage etiquette
- Reflection on techniques
- Audience feedback
- Performer feedback

Introduction

Before the actors on a show can start their performance, there is a set of backstage professionals who work to short deadlines and to strict Health and Safety guidelines to ensure that the stage at the venue is correctly set up and ready for use. This team is called the crew, and can include those working on the construction of the set, the rigging of lighting and the cabling and setting up PA systems for the required sound.

Despite being from different departments, it is essential that the backstage crew work seamlessly together as a team so that the work can be completed correctly, efficiently and often to a very tight deadline. This teamwork is then carried on to the actual performance where the crew will work backstage during the live production, ensuring that all technical requirements, such as scene changes, lighting changes and sound effects, are well co-ordinated and effected at the correct times. The crew are often the unsung heroes of a production, literally working unseen ‘behind the scenes‘ to make sure that the show is an experience that the audience will enjoy. Backstage crew are often the unsung heroes of theatrical work – working long hours and being in the theatre long after the performers have gone home.

This unit is designed to give students the opportunity to work backstage on a live production, having undertaken a considered investigation and research of each role beforehand.

At the end of this unit, students will have a wide understanding of the full range of roles and responsibilities pertaining to backstage crew in a live production.
Learning Outcomes

By the end of this unit students will be able to:

1. Explain the roles and responsibilities associated with crewing for a live production
2. Detail the crewing required for a specific live production, risk assessing as necessary
3. Undertake a stage crew role for a live production
4. Analyse the skills and etiquette required backstage for the live production.
Essential Content

LO1 Explain the roles and responsibilities associated with crewing for a live production

Roles and responsibilities:
Stagehand
Follow spot operator
Dresser
Mic wrangler
Flyman
Call boy
Prop running

Following cues/directions:

Pre-production duties for specific roles

Duties during performance for specific roles

Organisation

Communication between crew members before and during performance

Likely tasks:
Taking responsibility for setting up start of show and re-setting before each performance
Following and listening out for cues
Carrying out assigned tasks or actions on cue
Deconstructing and dismantling items as part of striking the set
Taking part in the packing-up process
Taking note of the sequencing of activities
Working as part of a team to load
Dispose
Transport and/or return items and equipment
LO2  **Detail the crewing required for a specific live production risk assessing as necessary**

*Safe working practices:*
Handling equipment
Materials and substances
Lifting and manual handling
Safe use of power tools
Hazard identification
Reduction and assessment
Use of access equipment and working at height
Awareness of others and communicating instructions for others to ‘stand clear’
Safe use of stage equipment
Awareness of fire regulations and use of flameproof materials

*Documentation*
Carrying out risk assessments
Recording safety checks and instructions to others
Adequate labelling and marking out to avoid hazards
Inspection reports

LO3  **Undertake a stage crew role for a live production**

*Familiarity with backstage terminology:*
Geography of backstage
E.g. Wings
Upstage
Downstage
Stage right
Stage left
Prompt corner
Opposite prompt (OP) side
Cyclorama
Green room
Fly floor
Trap door
Orchestra pit
Scene dock

Stage equipment:
E.g. Flats
Braces
Stage weights
Trucks
Rostra
Fly lines
Rigging
Curtain tracks
Drapes
Gaffer tape
Hook and eyes

Carry out a role:
Responding to instructions from stage manager/production manager
Understanding the tasks required as a member of the stage crew
Following plans
Drawings
Instruction sheets to erect and position items of scenery

Roles include:
Organising and assembling scenic elements
Organising the props table
Positioning and setting up equipment that will be used in the show
E.g. Follow spot
Smoke machine
Remote-controlled scenic devices
Backstage communication system
LO4 **Analyse the skills and etiquette required backstage for the live production**

*Recognising different skills required*

*How these were applied and developed*

*Carrying out a personal skills audit, e.g. carpentry skills, craft skills, welding and fabrication skills, physical abilities*

*Assessing personal capabilities in relation to tasks, e.g. ability to lift a scenic element according to its weight compared with pushing a scenic element on wheels*

*Reading plans and following instructions in order to position pre-fabricated elements correctly*

*Familiarisation with equipment to determine the operation procedure*

*Evaluating how effectively the stage crew worked as a team during the whole process*

*Identifying those aspects of the stage crew’s performance during each run of the show that worked as planned and those that need improvement*

*Recognising and improving communication between members of the stage crew, particularly using talkback*

*Health, safety and wellbeing*

Introduction

The Fashion industry is an ever evolving, fast paced and highly competitive field. Makeup artists and hair stylists working within the Fashion and Fashion Editorial industry have to be innovative, creative and able to work under very tight time scales in a highly pressured environment. It is essential that makeup artists and hair stylists keep up to date with current trends which includes keeping up to date with the political and social environment which has always had a significant impact in the fashion world.

There are a variety of fashion and fashion editorial projects that hair and makeup artists must be experienced in and each have their own requirements. Magazines and runway shows, for example, will have their own style and artistic interpretation of what fashion is. As a makeup artist and/or hairstylist in this field, you have to demonstrate your own artistic ability whilst ensuring that you are working to the brief set by the designers and directors that have employed you.

Through this unit, students will develop Fashion and Fashion editorial hair and/or makeup designing abilities whilst developing the technical skills required to work within a diverse variety of contexts to industry standards. Students will also develop their team working skills whilst exploring the need to be flexible, adaptable and perform under intense pressure.
Learning Outcomes

By the end of this unit students will be able to:

1. Explore the historical development of hair and/or makeup styling in the Fashion and Fashion editorial industry
2. Demonstrate Fashion and Fashion editorial hair and/or makeup techniques
3. Undertake a role in a Fashion or Fashion Editorial Project working to a set brief
4. Analyse the strengths of the project in meeting the requirements of the brief and areas for future development.
Essential content

LO1 Explore the historical development of hair and/or makeup styling in the Fashion and Fashion editorial industry

Fashion and fashion Editorial Industry:
Social
Cultural
Political
Economic factors.

Roles:
Designers
Editors
Models
Photographers
Stylists
Fashion icons.

Editorials:
Types and formats
Print and digital
Impact of covers and spreads.

Catwalks:
Social
Cultural and political influences and trends – current and historic.

Current trends and influences:
Technology
Social
Cultural
Political
Economic factors
Diversity.
LO2 Demonstrate Fashion and Fashion editorial hair and/or makeup techniques

**Preparation:**
- Working to a brief
- Creating designs
- Planning process
- Drawings
- References
- Charts
- Working in a team
- Timescales
- Originality
- Exploring ideas.

**Health and safety:**
- Regulations
- Policies and procedures that must be adhered to
- Relevant to workplace environment and resources used.

**Fashion and Fashion Editorial Hair:**
- Industry standard tools
- Equipment and products
- Hair preparation
- Dressing
- Styling and finishing techniques
- Preparation and application of hair pieces.

**Fashion and Fashion Editorial Makeup:**
- Industry standard tools
- Equipment and products
- Skin preparation (body and face) skin aftercare
- Techniques for a wide and diverse range of environments.
Portfolio building:
Types of portfolio – digital or print – drawings and sketches
Reference documentation
Photographic images
Research materials
Portfolio requirements for employers.

LO3 Undertake a role in a Fashion or Fashion Editorial Project working to a set brief

Working to a brief:
Deadlines
time management
interpreting briefs.

Event type:
Photo shoot
Runway event
locations
lighting
health and safety policies and procedures.

Resources:
Kit
Model selection
Preparation
charts
Designs
Reference material.
Team Work:
Communication skills
Working under pressure
Working within a creative team
Confidence and assurity
Time management.

LO4 Analyse the strengths of the project in meeting the requirements of the brief and areas for future development

Working to a brief:
Meeting outcomes and expectations
Meeting deadlines
Time management.

Planning process:
Effectiveness of planning
Research
Design process
Originality.

Technical Skills:
Effectiveness and appropriateness of range of techniques, styles, tools and kit used.

Personal skills:
Communication skills
Team working skills
Time management
Confidence
Organisation
Independent skills.
Feedback:

Tutor
Peer
Audience
Industry specialists where possible.

Introduction

Working as a makeup artist or hair stylist requires a diverse range of skills to meet a wide area of settings. Duties and responsibilities depend on the sector or industry and artists will be required to use a portfolio of skills to suit the brief. Hair and/or makeup artists are frequently called upon to recreate historical hair and/or makeup to develop and produce period and iconic styles. There are a variety of historical fashions and trends to realistically recreate with the use of modern technology and tools to assist.

This unit is designed to enable students to work on a project for any medium and develop the required skills specific to work within defined historical periods. Students will be required to explore the expertise and knowledge required for a makeup/hair artist to work professionally within defined periods of history.

Students will be able to demonstrate how to recreate period designs and apply them with modern technology and tools. Through this unit students will develop the skills and concepts to work in professional settings to follow the professional standards and health and safety and produce Period Hair and/or Makeup portfolio to meet industry requirements.
Learning Outcomes

By the end of this unit students will be able to:

1. Explore the historical development of hair and/or makeup styling and techniques
2. Demonstrate hair and/or makeup techniques for a specified period of time, as defined through an industry standard set brief
3. Undertake a role in a period makeup and/or hair project, as defined by an industry standard set brief
4. Analyse the strengths of the period hair and/or makeup project in meeting the requirements of the brief and areas for future development.
Essential Content

LO1 Explore the historical development of hair and/or makeup styling and techniques

*History of Makeup styles and techniques:*
- Roman empire
- Medieval period
- 17th Century
- 18th Century
- 19th Century
- 20th Century
- 21st Century to today
- Cultural changes
- Political and Economical factors
- Environmental
- Trends
- Social factors
- Equipment
- Tools
- Products

*History of Hair styles and techniques:*
- Roman empire
- Medieval period
- 17th Century
- 18th Century
- 19th Century
- 20th Century
- 21st Century to today
- Cultural changes
- Political and economical factors
LO2 **Demonstrate hair and/or makeup techniques for a specified period of time, as defined through an industry standard set brief**

*Preparation:*
- Working to a brief
- Planning process
- Creating designs
- Drawings
- References
- Charts
- Working in a team

Introduction

This unit will equip students from any area of interest with core research skills. Alongside learning qualitative and quantitative research methods, students will have the opportunity to apply these methods in the completion of a mini dissertation. With a strong emphasis on taking a creative approach to research, the completion of this dissertation will, in addition, demonstrate the academic requirements to progress into Level 6.

Furthermore, the dissertation will also be an opportunity for students to gather data that will have useful and practical application to their desired area of expertise, which will have the potential to create a strong foundation for career entry. For example, a research project could include investigating gender diversity within the performing arts industry, the influence and impact on a specific practitioner or the role and audience impact of special effects in a production. The research project can be undertaken as individuals or in small groups. The written work must be completed individually.

By the end of this unit, students will be armed with the necessary tools to not only enter the final year of a university degree, but to embark upon any career path within the performing arts industry.

*Please refer to the accompanying Pearson-set Assignment Guide and the Theme Release document for further support and guidance on the delivery of the Pearson-set unit.
Learning Outcomes

By the end of this unit students will be able to:

1. Plan a creative research study through qualitative and/or quantitative research methods
2. Creatively engage with a topic of choice within chosen field of interest
3. Analyse research data collected and present it as part of a written dissertation
4. Evaluate how the creative research project has influenced career planning.
Essential Content

LO1 Plan a creative research study through qualitative and/or quantitative research methods

Introduction to qualitative and quantitative research methods
Define scope of study
Methodology and methods – setting up the study framework
Develop research questions

LO2 Creatively engage with a topic of your choice within your chosen field of interest

Develop list of research objectives
Plan a research timeline
Strategies to execute research
Collection of research data

LO3 Analyse research data collected and present as part of a written dissertation

Preparing materials for analysis
Methods of data analysis, e.g. discourse analysis, coding, semiotics
Use of software e.g. NVivo, Tams
Role of the researcher – bias, interpretation
Interpret multiple sources of data and develop evidence-based conclusions and recommendations

LO4 Evaluate how the creative research project has influenced career planning

Critically evaluate the research design
Identify practical outcomes of their research
Engage with industry for professional feedback

**Introduction**

This unit has been designed in order to further explore working in the performing arts industry. It will support students of all disciplines, helping them to apply practical skills to prepare them for future employment as a performing arts professional.

In completing Level 4 of this qualification, students will have explored their career goals and their own individual skills in relation to future employment. This unit supports students in analysing those goals and how accessible they are, and the sustainability of their potential employment, so that they are fully informed about their intended progression route.

In the ever-changing and evolving world of technology and social media, the increased emphasis on personal marketing is an essential component to gaining employment. Through this unit, students will explore the world of marketing, as relevant to their discipline, and will create a marketing strategy along with a relevant and appropriate online presence to present to industry. Additionally, students will explore and analyse health and wellbeing awareness so that they may engage in a healthy working environment and increase their longevity as a worker in this challenging industry.

By the end of this unit, students will have created a marketing strategy and online profile to enhance their future employability prospects. They will also have developed a personal strategy, having analysed health and wellbeing and their own development, to work towards a sustainable career in the performing arts industry.
Learning Outcomes

By the end of this unit students will be able to:

1. Analyse own career goal and accessibility to employment of chosen role
2. Analyse the importance of health, safety and wellbeing within the workplace and own career development
3. Review the sustainability of a career in the performing arts industry and strategies to support long-term employability
4. Create a marketing strategy that will enhance and prolong the chosen career.
Essential Content

LO1 Analyse own career goal and accessibility to employment of chosen role

*Personal development in relevance to career goal:*
Skills audit
Technical skills
Development needs
Time-management skills
Financial management skills
Administrative skills
Self-promotional skills
Technology skills
Updating of skills relevant to industry needs

*Working under a contract:*
Self-employed
PAYE
Contract length
Legal rights
Clauses and commitments

*Finance:*
Financial planning
National Insurance
Banking
Financial records and documentation
Accountants

*Job interviews:*
Auditions – closed calls, open calls, interviews
Job application tools:
CV/portfolio, e.g. resume, CV, show reel, portfolio, photos, online profile

Performing arts workforce:
Diversity of the performing arts industry
Areas of imbalance relevant to career aims and specialist area

LO2 Analyse the importance of health, safety and wellbeing within the workplace and own career development

Management of health and wellbeing:
Mental health
Eating disorders
Stamina fitness
Nutrition
Hydration
Injury prevention and management
Healthy working environment
Team building and support
Mentoring
Associations and organisations

Management of Health and Safety:
Legislation
Risk assessment
First aid
Legal responsibilities
Associations and organisations

Professional health and wellbeing development:
Fitness levels and management
Nutrition management
Mental health awareness and management
LO3  **Review the sustainability of a career in the performing arts industry and strategies to support long-term employability**

*Professional development:*
- Keeping up with industry trends
- Skills updating in response to industry need
- Technological advances and changes
- Legislation changes
- Fitness levels

*‘Resting’:*  
- Part-time work
- Flexibility
- Contract length
- Legal rights
- Clauses and commitments

*Finance:*
- Financial planning and budgeting
- Accountants for the performing arts industry

*Agents:*
- How to access agents
- Working with agents
- Contractual obligations

*Associations and organisations:*
- Unions and professional memberships relevant to specialist area
LO4 Create a marketing strategy that will enhance and prolong the chosen career

Marketing:
Promoting yourself
Creating a ‘buzz’
Difference between offline and online promotion
Marketing management
Role of agent in promotion
Marketing costs

‘Offline’ marketing activities:
Networking
Professional etiquette
live performances and showcases CV/portfolio: photos, CV/resume, show reel

‘Online’ marketing activities:
Internet marketing
Social media

CV/portfolio:
Photos
CV/resume
Show reel
Emerging technology and future developments
Branding relevance ease of use range of activities to match audience
Portfolios: Physical and/or digital
Career goals:
Career target
Intended audience
Aims and objectives
Personal development
Future-proofing own brand and product

Audience:
Audience research
Aims and objectives
Targets

Introduction

This unit is a progression from Level 4 Jazz and, as such, will further develop students in relation to technical acquisition and strength. It will involve assessed performance, class assessments and a presentation which will demonstrate students’ ability to compare different innovators within the field of jazz as a dance genre and show how their work has influenced the genre as it currently stands.

On successful completion of this unit, students will be able to execute the required content vocabulary in a range of combinations, incorporating and demonstrating musicality and artistry with secure jazz technique. Students will also have a greater knowledge of the different jazz techniques created by innovators and how this can assist their work.
Learning Outcomes

By the end of this unit students will be able to:

1. Demonstrate the required content and vocabulary, as directed, in complex combinations within class and performance
2. Produce work in class and performance that incorporates artistry, musicality and secure technique
3. Interpret feedback, as directed, and evidence self-correction
4. Assess different jazz techniques created by innovators during the development of jazz as a dance genre.
Essential Content

LO1 Demonstrate the required content and vocabulary as directed in complex combinations within class and performance

- A safe warm-up and cool-down
- Accurate placing and alignment within all technical requirements
- Core strengthening work
- Flexibility work
- Footwork
- Jazz ports de bras and adage
- Isolations
- Contractions
- Travelling steps using a low centre of gravity
- Turns
- Corner work
- Choreographic sequences

LO2 Produce work in class and performance that incorporates artistry and musicality and secure technique

Technique:
- Repetition of movement in order to create movement pathways connecting the brain to the muscles
- Interpret direction and instruction in order to appropriate the correct movement or sequence
- Use visual skills to replicate shapes and movements
- Undertake mental practice for success imaging and enhancement of danced skills
- Combine all the above skills to create a secure technical base
**Musicality:**
Consideration of the phrasing of all work given, both in choreography and music
Interpret different types of music to enhance performance
Count rhythm, considering dynamics, offbeats and syncopation in order to bring light and shade to the choreography

**Artistry:**
Interpret performance – either given by the choreographer/teacher or via own ideas
Explore and apply appropriate style, either via the request of the choreographer or personal choice
Create engaging and dynamic energy within performance by approaching the work with the correct dynamics, phrasing, musicality, technique and artistic flair

**LO3 Interpret feedback, as directed, and evidence self-correction**

*Learn how feedback is applied and processed*

*Practise applying feedback to all steps, both when given and when you remember what you have learned in order to apply it yourself without direction*

*Explore how you identify when you are doing something wrong and how you help yourself correct it, using mirrors, recordings, and recording your learning in your reflective journal to steer your exploration*

*Critically analyse immediate feedback so you can apply it to technical skills already achieved in order to progress*
LO4 Assess different jazz techniques created by innovators during the development of jazz as a dance genre

Innovators within the genre, e.g.:

Katherine Dunham
Jack Cole
Lester Horton
Luigi
Charles ‘Cholly’ Atkins
Matt Mattox
Gus Giordano
Bob Fosse
Frank Hatchett
Joe Tremaine
Rosie Perez
Mia Michaels

Introduction

This unit is a progression from the Level 4 unit, Unit 4: Ballet, and, as such, will further develop students in relation to technical acquisition and the development of the artistry required in performance.

Artistry and musicality are areas further explored in this unit. Students will investigate how they apply to the discipline of ballet in practical application. Through class work and performance, students will develop secure technique, exploring appropriate vocabulary in complex enchaînements.

By the end of this unit, students will be able to execute the required vocabulary in unset combinations and enchaînements, incorporating and demonstrating musicality and artistry with secure ballet technique. Students will also have a deeper understanding of the ‘how to’ of ballet and will be able to self-correct.
Learning Outcomes

By the end of this unit students will be able to:

1. Demonstrate the required vocabulary as directed in complex enchaînements within class and performance
2. Interpret feedback, as directed, and evidence self-correction
3. Produce work in class and performance that incorporates artistry, musicality and secure technique
4. Assess the development of own processes in training to work within the discipline of ballet.
Essential Content

LO1 Demonstrate the required vocabulary as directed in complex enchaînements within class and performance

At the barre

Pliés:
Demi and grand pliés in all positions, incorporating ports de bras forward, back, sideways and circular and rises and balances in closed and open positions on demi-pointe

Tendus:
In all positions, on straight legs and en fondu, closing in demi plié, repeated, combined with glissés and from 1st, 3rd or 5th

Glissés:
En croix and/or repeated in devant, seconde and derriere, piqué, en cloche, combined with tendus – from 1st, 3rd or 5th position

Rond des jambes:
En dehors and en dedans à terre and en l'air, incorporating ports de bras and balances in all positions, retiré and on one leg on a flat foot and demi-pointe, combined with battement fondu

Battement fondu:
À terre and en l'air, en croix and/or repeated in devant, seconde and derriere – from 5th position, combine with ronds de jambes en l'air

Adage:
Développés en croix from 3rd or 5th, with fondu on extension, demi and grand rond de jambes en l'air, pivots to the barre, balances in open positions on the flat foot and on demi-pointe, ports de bras in closed and open position on the flat foot and on demi-pointe

Grand battement:
En croix and/or repeated in devant, seconde and derriere on the flat foot and on demi pointe, combined with battements en cloche
**Battements en cloche:**
Devant and derrière in arabesque and attitude, combined with grand battements

**Stretch:**
Ballet-related stretching exercises – all areas of the body

**In the Centre**

**Centre practice:**
Demi and full pliés in 1st and 2nd, tendus en croix using all directions, battement glissé, ronds de jambe and battement fondu à terre

**Ports de bras:**
Forward, sideways, backwards and circular in open and closed positions, chassés and pas de bourrées, 1st, 2nd, 3rd, 4th, 4th crossed and 5th and 1st, 2nd and 3rd arabesque positions of the arms, combined with adage

**Adage:**
Développé devant and à la seconde, 1st, 2nd and 3rd arabesque en l’air, promenade and pivots in an en l’air position, utilising chassés, glissades, pas de bourrées as required to create enchaînements, combined with ports de bras

**Pirouettes:**
Single and double pirouette from 4th and 5th position to right and left
Chaîné, pose and emboîté turns to left and right (females)
Chaînés to left and right and turns in second to strongest side (males)

**Petit allegro:**
Échappé sauté to 2nd and en croix, using all directions, sautés in 1st, soubresauts, changements facing en face and with ¼ and ½ turn, utilising chassés, glissades, and pas de bourrées as required to create enchaînements

**Allegro:**
Assemble, jeté devant and derrière, sissone over, under, devant, derrière, en avant, en arrière, petit sissone devant, derrière, over and under, utilising chassés, poses, temps leves, glissades, and pas de bourrées as required to create enchaînements

**Batterie:**
Entrechat, changement battu, entrechat trois devant and derrière, échappé battu ouvert and ferme with and without changing
Grand allegro:
Grand jeté en tournant, fouetté sauté, demi and full contretemps, utilising chassés, glissades, runs, temps levés, pas de bourrées as required to create enchaînements

**LO2 Apply feedback, as directed, and evidence self-correction**

*Learn how feedback applies to you and how you process it by exploring your learning style and identifying what you do with feedback in order to make it work for you*

*Practise applying feedback to all steps, both when given and when you remember what you have learned in order to apply it yourself without direction*

*Explore how you identify when you are doing something wrong and how you help yourself correct it, using mirrors, recordings, and recording your learning in your reflective journal to steer your exploration*

*Critically analyse immediate feedback so you can apply it to technical skills already achieved in order to progress*

**LO3 Produce work in class and performance that incorporates artistry, musicality and secure technique**

*Technique:*
Repetition of movement in order to create movement pathways connecting the brain to the muscles
Interpret direction and instruction in order to appropriate the correct movement or sequence
Use visual skills to replicate shapes and movements
Undertake mental practice for success imaging and enhancement of danced skills
Combine all the above skills to create a secure technical base

*Musicality:*
Consider the phrasing of all work given, both in choreography and music
Interpret different types of music to enhance performance
Count rhythm, considering dynamics, offbeats and syncopation in order to bring light and shade to the choreography
Artistry:
Interpret performance – either given by the choreographer/teacher or via own ideas
Explore and apply appropriate style, either via the request of the choreographer or personal choice
Create engaging and dynamic energy within performance by approaching the work with the correct dynamics, phrasing, musicality, technique and artistic flair

LO4 **Assess the development of own processes in training to work within the discipline of ballet**

*Critically analyse the ‘how to’ of ballet in order to process how the body works within ballet using the following routes to steer and inform analysis:*
Your own understanding of how you are processing information given in class into a physical process within your body
Research via journals, books, and online blogs, films and tutorials (be selective and questioning of that which you find online)
Observe dancers, e.g. peers, teachers and professional dancers in class and performance

*Investigate how you can apply the knowledge gained from critical analysis this to your learning via practice, both mental imaging and physical practice*

*Identify any new processes implemented as a result of your analysis and how this has improved your technique*

**Introduction**

The demands on today's contemporary dancer are greater than ever before; and a need for robust training even more appropriate. Dancers in Matthew Bourne’s groundbreaking company perform eight shows a week for months on end. More and more, contemporary dancers will also perform in music videos and on tour with music acts in addition to a teaching schedule, professional development, personal fitness regime in the shape of pilates, weight training and/or yoga.

The aim of this unit is to give students a more intense exploration of contemporary dance technique and culture, achieving a degree of mastery over their creativity, stronger identification as a unique artist and ownership over quality of movement. They will focus on strengthening their bodies through dance combinations, learning modern dance language and contemporary dance technique, and so develop an even stronger relationship to musicality and creativity.

On successful completion of this unit, students will be able to use the required contemporary dance language to develop and maintain a robust technical foundation to use in the professional world of dance. They will be able to pick up and retain combinations of the required technique. An approach to research and delivery of said research will also be covered.

Students will develop other skills such as communication, research, reasoning and interpretation, recall, adaptation, which are all critical for gaining employment.
Learning Outcomes

By the end of this unit students will be able to:

1. Develop required technical skills, as directed in lessons, using the required dance language for the genre
2. Perform the required dance language with technique, musicality and creativity
3. Deliver a class using required technique from lessons and understanding of dance language for the genre as retained from lessons
4. Describe the current evolution of contemporary dance and how this relates to your technique and artistry.
Essential Content

LO1 Develop required technical skills, as directed in lessons, using the required dance language for the genre

The role of contemporary dance technique:
How and why the Graham technique was born
Why Cunningham developed his own technique
Why they are still relevant today

Implementation of contemporary dance technique:
Graham
Cunningham
Limon
Horton
Release
Contact

Implementation of contemporary dance combinations:
Experimentation with Cunningham-based random principles
Advanced Graham-based floor work and travelling sequence
Advanced tendu, plié, back stretches, turns, adage, triplets, leaps, falls within the relevant style

Identify contemporary dance language:
E.g. Falls
Gestures
Pitches
Contractions
Pleadings
Dynamics
Centre
Reach
Leaps
Jumps
Extensions

*Overview of contemporary dance-making:*
From Denishawn through to Michael Clark
Alvin Ailey through to Matthew Bourne

**LO2 Perform the required dance language with technique, musicality and creativity**

*The role of performance in contemporary dance*

*Implementation of technique, musicality and creativity*

*Overview of the unique artist voice:*
How to inject an individual personality into own practice

*Consider expression within the use of contemporary dance performance:*
e.g. the work of Lea Anderson (The Cholmondeleys and The Featherstonehaughs)
Philip Decouflé
Rosas
Akram Khan
Michael Clark
Matthew Bourne
LO3  **Deliver a class using required technique from lessons and dance language for the genre as retained from lessons**

*Research and plan a contemporary dance class:*
To last one hour and be based on any of the main techniques listed above

*Be able to provide a Scheme of Work*

*Acknowledge role of feedback and critical evaluation within a dance class*

LO4  **Describe the current evolution of contemporary dance and how this relates to your technique and artistry**

*Identify elements of the current contemporary dance scene*

*Determining requirements of current trends within the industry*

*Consideration of technique and artistry within the current contemporary dance scene*

Introduction

This unit is a progression from Level 4 Commercial Dance and, as such, will further develop students in relation to technical acquisition, style, musicality and strength. It will involve assessed performance, class assessments and a presentation which will demonstrate students' ability to compare different innovators within the field of commercial dance as a dance genre and show how their work has influenced the genre as it currently stands. It will also allow students to consider the employment opportunities that commercial dance can offer.

On successful completion of this unit, students will be able to execute the required content and vocabulary in a range of combinations, incorporating and demonstrating musicality and artistry with secure commercial dance technique. Students will also be more aware of specific innovators within the field and the job opportunities that may arise for commercial dancers.
Learning Outcomes

By the end of this unit students will be able to:

1. Demonstrate the required content and vocabulary as directed in complex combinations within class and performance

2. Interpret feedback as directed and evidence self-correction to enhance technical skills

3. Produce work in class and performance that incorporates artistry, musicality and secure technique

4. Evaluate the development of commercial dance and potential employment opportunities.
Essential Content

LO1 Demonstrate the required content and vocabulary as directed in complex combinations within class and performance

- A safe warm-up and cool-down vocabulary
- Core strengthening work
- Secure technique with accurate placing and alignment within all styles
- The movement vocabulary used within commercial dance, e.g. isolation, contractions and co-ordination
- The physicality needed to dance with sharpness and fluidity as required
- Using jazz and other dance techniques within commercial dance
- Choreographic sequences

LO2 Interpret feedback as directed and evidence self-correction to enhance technical skills

- Learn how feedback applies to you and how you process it by exploring your learning style and identifying what you do with feedback in order to make it work for you
- Practise applying feedback to all steps, both when given and when you remember what you have learned in order to apply it yourself without direction
- Explore how you identify when you are doing something wrong and how you help yourself correct it, using mirrors, recordings, and recording your learning in your reflective journal to steer your exploration
- Critically analyse immediate feedback so you can apply it to technical skills already achieved in order to progress

LO3 Produce work in class and performance that incorporates artistry, musicality and secure technique

- Technique:
  - Repetition of movement in order to create movement pathways connecting the brain to the muscles
  - Interpret direction and instruction in order to appropriate the correct movement or sequence
Use visual skills to replicate shapes and movements
Undertake mental practice for success imaging and enhancement of danced skills
Combine all the above skills to create secure a technical base

Musicality:
Consider the phrasing of all work given, both in choreography and music
Interpret different types of music to enhance performance
Count rhythm, considering dynamics, offbeats and syncopation in order to bring light and shade to the choreography

Artistry:
Interpret performance – either given by the choreographer/teacher or via own ideas
Explore and apply appropriate style, either via the request of the choreographer or personal choice
Create engaging and dynamic energy within performance by approaching the work with the correct dynamics, phrasing, musicality, technique and artistic flair

LO4 Evaluate the development of commercial dance and potential employment opportunities

Conception and development of commercial dance

Techniques/styles:
E.g. Locking
Popping
Voguing
Breakdancing
Street dance
Bboys
Krumpling
Hip-hop
House
Techno
Tutting
Waacking

Introduction

This unit has been created in order to build on skills and learning acquired during the Level 4 units, *Unit 7: Tap* and *Unit 8: American Tap* and, as such, contains more challenging vocabulary which is to be performed in complex combinations.

Technical and artistic development remain at the forefront of the rationale for the content, with an additional choreographic element which has been designed to allow creativity and imagination and to further develop understanding of the importance of musicality and rhythm within tap.

More in-depth research is required which will heighten students’ understanding of how tap is learned and which may assist them as they progress within their career as a potential teacher or choreographer.

On successful completion of this unit, students will be able to execute the required vocabulary in unset combinations, incorporating and demonstrating rhythm, control, tone, musicality, style and performance. Students will also have a broader knowledge of how learners learn, and how to create a choreographed solo for themselves.
Learning Outcomes

By the end of this unit students will be able to:

1. Demonstrate the required vocabulary, as directed, in class
2. Interpret feedback, as directed in lessons, to enhance technical skills
3. Perform the required vocabulary in set and unseen combinations with rhythm, control, tone, musicality, style and performance
4. Analyse how different dancers learn to tap dance and how this may impact on classes and rehearsals.
Essential Content

LO1 **Demonstrate the required vocabulary, as directed, in class**

*All steps covered in Level 4, danced in complex combinations and the following – but not exclusively:*  
Time steps – single, double and triple pick-up time steps and break, free time steps, half breaks (facing front and turning), with tacit, starting on 8 and 1  
Consecutive pull backs on the flat foot or on the balls of the feet, depending on ability  
Wings from foot to foot  
Close work, e.g. 3- and 4-beat paddles (paradiddles), paddle breaks, and close work combinations which can be danced at speed  
5- and 6-beat cramp rolls  
6- and 7-beat riffs  
Consecutive shuffle pick-up changes travelling backwards  
Maxie Ford  
Suzie Q  
Buffalos

*Work on rhythm must be evidenced in assessment:*  
This may be done by giving an unseen rhythm to the class so they can replicate it by either clapping, marking, or choreographing it. Students may also be asked to count the steps they are working on both in class and assessment

*Combinations of the above are to be included in all assessments:*  
It is not sufficient to simply perform the above steps in isolation. Class assessment work should consist of a balanced class, e.g. demonstration of the more challenging technical steps and combinations using the steps above as dance sequences. Sequences may be choreographed using tacit and cross-phrasing.
LO2  **Interpret feedback, as directed in lessons, to enhance technical skills**

*Learn how feedback applies to you and how you process it by exploring your learning style and identifying what you do with feedback in order to make it work for you*

*Practise applying feedback to all steps, both when given and when you remember what you have learned in order to apply it yourself without direction*

*Explore how you identify when you are doing something wrong and how you help yourself correct it, using mirrors, recordings, and recording your learning in your reflective journal to steer your exploration*

*Critically analyse immediate feedback so you can apply it to technical skills already achieved in order to progress*

LO3  **Perform the required vocabulary in set and unseen combinations with rhythm, control, tone, musicality, style and performance**

**Technique:**

Repetition of movement in order to create movement pathways connecting the brain to the muscles

Interpret direction and instruction in order to appropriate the correct movement or sequence

Use visual skills to replicate shapes and movements

Use aural skills to interpret light, shade and tone

Undertake mental practice for success imaging and enhancement of danced skills

Combine all the above skills to create secure a technical base

**Musicality:**

Consider the phrasing of all work given, both in choreography and music

Interpret different types of music to enhance performance

Count rhythm, considering dynamics, off beats and syncopation in order to bring light and shade to the choreography
Artistry:
Interpret performance – either given by the choreographer/teacher or via own ideas
Explore and apply appropriate style, either via the request of the choreographer or personal choice
Create engaging and dynamic energy within performance by approaching the work with the correct dynamics, phrasing, musicality, technique and artistic flair

LO4 Analyse how different learners learn to tap dance and how this may impact classes and rehearsals

Observation of peers in class
Questioning peers and teachers
Reflecting on how you learn
Researching learning styles

Investigate how different learners react to and implement feedback using the following to inform your learning:
Observation of peers in class
Questioning peers and teachers
Reflecting on how you learn

Investigate how you could apply your learning to how you might approach teaching or choreographing:
Analyse how your understanding of how learners learn can assist you when working with dancers with different learning styles

Introduction

Performing in a musical requires a combination of acting, singing and dance skills. However, there are many dance genres which can be incorporated into a musical and, as such, this unit has been developed to allow for the study and exploration of the wide range of dance genres that can be used in musical theatre.

This unit has been designed to follow on from the Level 4 unit, Unit 3: Jazz Dance 1. It will allow students to explore various musical theatre styles and the associated techniques in class before developing those techniques and applying them in a performance.

Students will explore a wide and diverse range of musical theatre styles used in both film and theatre, key innovators and choreographers from musical theatre history. Students will also explore their techniques and skills in successfully communicating the style intentions.

On successful completion of this unit, students will be able to pick up and perform unseen routines in a variety of musical theatre styles. The required research will enhance knowledge of different musicals and the dance styles used.
Learning Outcomes

By the end of this unit students will be able to:

1. Explore a wide range of musical theatre dance styles in class, as directed
2. Demonstrate the relevant technique for a wide range of musical theatre dance styles, in class, as directed
3. Perform a range of musical theatre dance styles, as directed, with secure technique
4. Evaluate a wide and diverse range of musical theatre dance styles.
Essential Content

LO1 **Explore a wide range of musical theatre dance styles in class, as directed**

*Practical, class-based exploration of musical theatre dance technique, relevant to style and genre*

*Practical, class-based exploration of a wide variety of influencers and innovators*

*Practical, class-based exploration of a wide and diverse range of film and stage musical theatre choreographers*

LO2 **Demonstrate the relevant technique for a wide range of musical theatre dance styles, in class, as directed**

*Application and retention of relevant techniques as explored above, in class, to prepare for performance, e.g.:

- Visual skills to replicate shapes and movements
- Interpretation of performance style given by the choreographer

*Creating engaging and dynamic energy within a performance:*

- Approaching the work with the correct dynamics, phrasing, musicality, technique and artistic flair

*Communication:*

- Choreographic intentions and stylistic intentions – in class

LO3 **Perform a range of musical theatre dance styles, as directed, with secure technique**

*Application of relevant techniques, as explored in class, in a performance:*

- Repetition of movement in order to create movement pathways connecting the brain to the muscles
- Interpreting direction and instruction in order to appropriate the correct movement or sequence
- Using visual skills to replicate shapes and movements

*Communication: choreographic intentions and stylistic intentions in performance*
LO4 **Evaluate a wide and diverse range of musical theatre dance styles**

*Wide and diverse range of musicals: jukebox musicals, rock opera, breakthrough musicals, Broadway ‘compilation’ musicals, current musicals*

*Wide range of musical film*

*Wide and diverse range of musical theatre choreographers*

*Wide and diverse range of musical theatre composers/lyricists*

Introduction

Partner work is an advanced, dynamic form of technique and choreography, used in all genres of dance. From traditional, classical, pas de deux to leading-edge contemporary movement, from fresh hip-hop collaborations to physical theatre contortions, from high-flying circus combinations to fast-footed, old-school tap numbers, to work with a partner can bring life, emotion, joy, ecstasy, danger, virtuosity and so much more to a dance piece.

The aim of this unit is to provide students with a robust understanding of partner work in all its settings, being able to properly utilise partner work when choreographing as well as participating at an advanced level. Students will be able to discover and establish their own bodies as a tool with which to collaborate with others, creating original dance passages, unique stylistic ideas, and imaginative, physical dance rooted in skills and technique.

On successful completion of this unit, students will be able to use the learned skills to develop and maintain a career in the world of professional dance. They will able to talk about partner work with a strong degree of authority and be able to utilise this knowledge in their own practice, whether as a choreographer and/or a dancer. Students will also develop other skills such as collaboration, communication, interpretation, adaptation, thoughtfulness, mindfulness, which are all crucial for employment, building on transferable skills and the development of their own professional practice.
Learning Outcomes

By the end of this unit students will be able to:

1. Develop the required partnering technique for the genre, as directed
2. Demonstrate required technique and apply it to partner work, as directed in lessons
3. Create an original piece based on the required partnering technique for the genre
4. Evaluate the current position of partner work within their chosen genre's professional field.
Essential Content

LO1 **Develop the required partnering technique for the genre, as directed**

*Identify partner work language for chosen genre, e.g.:*
Research and establish the correct technique and vocabulary for the chosen genre

*Implementation of traditional and evolving styles, e.g.:*
Look into the history of the roots of partnering and how it has developed over the years

*Overview of the historic arc of partner work*

*Consider individualism within the use of partner work*

LO2 **Demonstrate required technique and apply it to partner work, as directed in lessons**

*The role of technique and how it relates to partner work, e.g.:*
Classical ballet pas de deux, presage
Contemporary-based throws and falls
Contact-based collisions
Release-based intuition

*Overview of various approaches to technique, e.g.:*
Classical ballet pas de deux
Contemporary dance trust exercises
Jazz dance/show dance partner combinations
Physical theatre gesture-based partnering
Implementation of technique as applied to partner work
LO3 **Create original piece based on the required partnering technique for the genre**

*Research and plan an original partner-based dance work: e.g.:*

Create ideas board/journal in planning work, citing sources of inspiration behind the piece

Be able to provide research notes and inspiration board

Acknowledge importance of feedback when developing ideas

LO4 **Evaluate the current position of partner work within their chosen genre’s professional field**

*Identify elements of partner work in today’s dance scene, e.g.:*

Which choreographers employ partnering as a motif of their style

Which choreographers tend not to stage partner work

Which choreographers present something truly contemporary

Which continue to rely on traditional approaches

*Determining use of partner work in own practice*

*Consideration of applied technique in the field of partner work*

Introduction

The roots of Contact Improvisation are attributed to dancer and choreographer Steve Paxton. The class structure is simultaneously a form of meditation, practised standing, where attention is paid to small postural adjustments and micro-weight transfers. This is then followed, during rehearsal time, by rolls, collisions, and jumps in the air. Steve Paxton utilised his training in modern dance with the Cunningham company and José Limón as well as his background in Aikido and gymnastics.

The aim of this unit is to give students a more intense exploration of contemporary dance technique, focusing specifically on Contact Improvisation. The unit will support students in how to achieve command of their creativity, establishing a multidimensional identification as a unique artist and providing ownership and freedom over quality of movement. They will practise working their bodies through alternative approaches, creating their own dance language and contemporary dance technique, and will develop an even stronger relationship to musicality and originality.

On successful completion of this unit, students will be able to use the required dance language to develop and maintain a robust artistic foundation to use in the professional world of dance. Students will develop other skills such as communication, research, reasoning and interpretation, recall and adaptation, all of which are all critical for gaining employment.
Learning Outcomes

By the end of this unit students will be able to:

1. Develop understanding of the required dance language for the genre
2. Demonstrate required technical skills and feedback, as directed in lessons
3. Perform the required dance language with originality, musicality and creativity
4. Evaluate understanding of the current evolution of Contact Improvisation/New Dance.
Essential Content

LO1  **Develop understanding of the required dance language for the genre**

*The role of contact improvisation technique, e.g.:*
Beginning class with meditation
Micro-transfers of weight
Finding centre
Introduction of metaphysical ideas relating to this approach
Postural adjustments, leading to rolls, collisions, moving across the floor
Air-based work
Rehearsal-based work at the end of class

*Overview of various approaches and schools of thought, e.g.:*
How Steve Paxton used his background in the Cunningham company and gymnastics to create this ground-breaking approach
Who led on from his inception and how

*Implementation of contact improvisation technique*

LO2  **Demonstrate required technical skills and feedback, as directed in lessons**

*Identify contact improvisation as a dance language, e.g.:*
Multi-dimensional approach, what it draws from other disciplines
What is it about this approach that makes it ‘Contact Improvisation’ or ‘New Dance’?

*Implementation of contact improvisation combinations*

*Overview of contact improvisation dance-making*

*Acknowledge role of feedback and critical evaluation within a rehearsal setting*
LO3  **Perform the required dance language with originality, musicality and creativity**

*The role of performance in contact improvisation*

*Implementation of originality, musicality and creativity*

*Consider the multi-dimensional unique artist voice*

*Consider unique approaches within the use of contact improvisation performance*

LO4  **Evaluate understanding of the current evolution of Contact Improvisation/New Dance**

*Identify elements of the current contact improvisation/new dance scene:*

Determining requirements of current trends within the industry

Consideration of technique and artistry within the current contact improvisation/new dance scene

**Introduction**

Physical theatre is, at least in many ways, an evolutionary strand of contemporary dance, mime, traditional acting and performance art. Lloyd Newson and his truly groundbreaking DV8 company is generally considered to have coined the term; and alongside Pina Bausch, Rosas, Les Ballets C de la B, Theatre Complicite, Frantic and Philippe Decouffe, is seen as one of the main protagonists of the genre as we know it today.

The aim of this unit is to give students a focused overview of the genre known as physical theatre: setting up an understanding of what it means, where it's headed, its triumphs and landmarks. The unit will strengthen each student's relationship with originality in movement-making, storytelling and conceptualising, crafting leading-edge work in the theatre, dance and beyond.

On successful completion of this unit, students will be able to use the required physical theatre movement-making language to develop and maintain a strong narrative foundation to use in the professional physical theatre. They will be able to apply both movement-making skills, as directed in class, as well as combine elements of dance technique and acting skills to create a piece of original work. They will also be able to present an authoritative project about their work.

Students will develop other skills such as strength of character, confidence, self-starting, communication, research, creativity, thinking outside the box, which are all critical for gaining employment.
Learning Outcomes

By the end of this unit students will be able to:

1. Demonstrate the required improvisational element, storytelling element and movement language for the genre, in class
2. Develop the required physical theatre/movement-making skills with spontaneity and originality
3. Construct own physical theatre piece using required physical theatre/movement-making skills, storytelling and movement language for the genre
4. Evaluate the current evolution in physical theatre and how this is reflected in own work.
Essential Content

LO1 Demonstrate the required improvisational element, storytelling element and movement language for the genre, in class

- The role of movement-making in physical theatre
- Overview of various approaches and schools of thought
- Implementation of contemporary movement-making technique

LO2 Develop the required physical theatre/movement-making skills with spontaneity and originality

- Identify differing approaches to improvisation
- Implement unique storytelling narratives
- Overview of the various creating tactics for use in physical theatre

LO3 Construct own physical theatre piece using required physical theatre/movement-making skills, storytelling element and movement language for the genre

- The role of contemporary dance, acting and mime in physical theatre
- Implementation of originality, intuition, spontaneity and creativity
- Overview of the unique artist voice
- Consider unexplored influences within the use of the contemporary skill set

LO4 Evaluate the current evolution in physical theatre and how this is reflected in own work

- Research and plan a physical theatre piece
- Be able to provide a creation map and research notes
- Create an original and unique piece of work
- Identify elements of the current physical theatre scene
- Determine requirements of current trends within the industry
- Consideration of maverick thinking within the current physical theatre scene

Unit 47: Choreography 2
Unit 40: Partner Work
Unit 41: Contact Improvisation.
Unit 43: Singing 2

Unit code | A/616/1962
---|---
Unit level | 5
Credit value | 15

Introduction

This unit is designed to build on the work done in the Level 4 unit, Unit 13: Singing, which laid the foundations for the production of a safe, controlled, and consistent sound. In Singing 2, students will continue to work on developing and maintaining good technique, considering breath control, support and anchoring, tonal quality, precise intonation and rhythmic accuracy.

In this unit, students will be required to add layers of characterisation and acting choices to their singing in order to produce a fully-rounded performance. They will explore how to interpret text through the vehicle of song and will learn how to apply a variety of vocal qualities to their performance to aid the storytelling process. The technique developed during the Singing unit 16 at Level 4 will give students the opportunity to allow the narrative to drive the vocal choices they make, and not be limited by their vocal technique.

At Level 4, students will have developed an understanding of the capabilities of their own voice. This knowledge will enable them to explore a variety of material at Level 5 and to source and rehearse musical numbers which suit their voice type and characteristics. By exploring a range of musical theatre songs, students will learn to further develop their technique and enhance their understanding of their own voice so that they are able to apply what they have learned in a wide range of practical situations.
Learning Outcomes

By the end of this unit students will be able to:

1. Consolidate a secure, controlled, and healthy technique, including breath control, support and anchoring, tonal quality, precise intonation and rhythmic accuracy
2. Communicate text, character, and human and dramatic predicament through song
3. Demonstrate command of the vocal qualities required in order to perform pieces from a range of genres in musical theatre, as directed
4. Perform repertoire which suits own vocal range and characteristics.
Essential Content

**LO1** Consolidate a secure, controlled, and healthy technique, including breath control, support and anchoring, tonal quality, precise intonation and rhythmic accuracy

*Continue to develop technical competence and increase consistency, e.g.:
Score reading
More complex melody lines
Increased speed of study
*Convey an understanding of the relationship between speech patterns and rhythms and song
Sing and sustain a technically secure melodic line while dancing/moving

**LO2** Communicate text, character, and human and dramatic predicament through song

*Explore the text of a song and potential approaches to text in the integration of singing and acting

*Discover the character and the journey of the narrative so there is a true understanding of storytelling and character input within a song

*Explore ways to express a clear and honest approach to a character's circumstances, intention and action

*Learn how to work freely in given circumstances, sustaining a coherent line of action with spontaneity
LO3  **Demonstrate command of the vocal qualities required in order to effectively perform pieces from a range of genres in musical theatre, as directed.**

*Develop the ability to recognise and recreate the primary vocal qualities used in musical theatre (speech quality, cry/sob, twang, opera, falsetto, and belt)*

*Identify the use of each of the vocal qualities and resonances in recorded musical theatre:*

- Understand their uses
- Evaluate their effectiveness in navigating gear changes and, most importantly, in communicating character and emotion

*Develop confidence in using a variety of vocal qualities and resonances*

LO4  **Perform repertoire which suits student’s own vocal range and characteristics**

*Explore the classification of songs, connecting to voice and character types*

*Select, rehearse and perform at least four contrasting pieces from the musical theatre canon*

Introduction

Contemporary performance is dominated by the realistic tradition, whether it be through cinema, television, online or theatre. Central to this tradition is the dominance of Stanislavsky-based systems as the essential component of actor training. While it should be acknowledged that Stanislavsky was not intent on his system being solely applicable to realistic theatre, it has essentially become shackled to this genre.

The aim of this unit is to either deepen the students’ understanding of Stanislavsky or Stanislavsky-based systems or develop acting skills beyond the traditional hegemony of Stanislavsky in the Western theatre tradition. Actors will be expected to embrace a range of performance styles as professionals which will require a flexible instrument which either utilises Stanislavsky or alternative practice to realise the demands of the text. The idea is to explore and experiment with techniques which challenge and expand to improve the imaginative and creative realm of the actor.

Topics in this unit are necessarily general in order not to curtail choice of technique. The intention is that a technique or techniques should be explored which are appropriate to the expertise of the teacher(s) delivering the unit.

On successful completion of this unit, students will have explored a range of techniques and, in so doing, broadened their understanding of acting processes, developed their skill set and appreciated a more diverse range of theatrical practice.
Learning Outcomes

By the end of this unit students will be able to:

1. Explore technique relevant to chosen acting style
2. Apply appropriate techniques in rehearsal to realise chosen style
3. Develop characterisation appropriate to acting style in rehearsal and performance
4. Demonstrate the application of chosen acting style in performance to present rehearsed material.
Essential Content

LO1  **Explore technique relevant to chosen acting style**

*Explore a range of theatrical contexts to ground acting methodologies in their social, political and historical context*

*Identify how the practitioners’ work evolved out of and was influenced by the context of their work*

*Define the key features and practice of the work and technique under investigation*

*Compare and contrast differences in acting techniques*

*Investigate through practice key features of acting style*

LO2  **Apply appropriate techniques in rehearsal to realise chosen style**

*Genre and practitioner, e.g.*:

Adler
Artaud
Barba
Brecht
Boal
Bogart/Viewpoints
Copeau
Gaullier Grotowski
Kogan
Lecoq
Lepage
Mcburney
Meisner
Mnouchkine

*Work in a particular genre, e.g. Greek, Elizabethan/Jacobean, Restoration, Absurd, Postmodern*
**Technique:**
Compare and contrast techniques of practitioners
Select appropriate techniques for style
Develop processes and techniques to realise theatrical genre/practitioner’s methodology

**Development:**
Sense of play
Experimenting with choices and styles
Improvising within the parameters of the script
Études
Making and editing choices

_Impret and realise text within the parameters of the chosen genre_

**Personal management**
Health and Safety
Physically and mentally
Time-keeping
Sustaining focus and concentration
Discipline
Trust and co-operation
LO3 Develop characterisation appropriate to acting style in rehearsal and performance

**Preparation:**
Preparation of text
Physical and vocal warm-up
Identification and employment of appropriate characterisation techniques to develop role commensurate with style

**Experimentation and development:**
Try out character choices and review and refine
Take risks in developing material
Conscious application of technique
Research:
Function of role
Exploration of psychology of role
Stylistic considerations in performing role
Linear or non-linear through-line of role

Technique:
Development of inner and outer characteristics
Movement and vocal qualities
Embedding key features of role, e.g. Verfremdungseffekt
Character physicality
Use of proxemics
Use of exercises and techniques to build character

Interpretation:
Define interpretation of role
Work with director to develop characterisation

Presentation:
Coherent stylistic and interpretive performance of character and text
Sustain role in performance contributing to overall meaning of performance

LO4 Demonstrate the application of chosen acting style in performance to present rehearsed material

Genre:
Present a unified and consistent performance of the chosen style
Use of vocal and physical technique to communicate text and role:

Gesture
Posture
Proxemics
Tension states
Effort actions
Vocal dynamics and range
Inflection
Projection

Embodiment:
Emotional engagement with role
Emotional range
Communication of text
Commitment to presenting role
Being in the moment

Meaning:
Theme and subject matter of material
Author's intentions
Communication of style
## Learning Outcomes and Assessment Criteria

Introduction

Immersive theatre is a significant growth area in the performing arts industry and has become increasingly important as a way of truly engaging an audience in a production.

Although immersive theatre productions have been growing over the past few years, the concept of immersive theatre is not a new one. However, the ways of immersing an audience have developed significantly. Defining immersive theatre can be complicated and, through this unit, students will explore all necessary elements, looking at how the audience is at the forefront of the production and exploring how to engage them. For example, stimulating their senses: through sight, sound, touch, taste and even smell, can be a vital component of enabling the audience to have a uniquely personal experience.

Immersive theatre is a wholly collaborative process where all areas of the creative team have an essential role to play. The venue, and how it is utilised to immerse the audience in the production, opens the door to a diverse range of ways for professionals to work as a team and explore and develop ideas whatever their specialist area or discipline.

By the end of this unit, students will have explored the history of immersive theatre and its place in today’s creative industries. Students will be clear on the importance of a story, and will have developed ideas and collaboratively worked on a piece of immersive theatre in line with today’s industry standards.
Learning Outcomes

By the end of this unit students will be able to:

1. Discuss the historical development of immersive theatre
2. Explore the key components essential to creating immersive theatre
3. Develop a piece of work for immersive theatre
4. Carry out a role in a piece of immersive theatre.
Essential Content

LO1 Discuss the historical development of immersive theatre

The ‘fourth wall’:
Breaking down barriers
The audience as a participant
Physical integration and breaking down formality
The history of call and response in theatre

Immersive theatre companies, e.g.:
Punchdrunk
Shunt
Blast Theory
Crew
Differencengine
Third Rail
Dreamthinkspeak
Fruit for the Apocalypse
Wilderness
Speakeasy Dollhouse

The development of interactive technology in the theatre

Social and artistic significance of past and existing productions

LO2 Explore the key components essential to creating immersive theatre

Stimulation:
The five senses: sight, sound, touch, taste and smell and how this can be represented

The role of the audience:
Participation, engagement and being immersed
Storytelling:
The role of the story – social significance and potential impact

Location/setting:
Installation
Fitness for purpose
Use of interactive technology
Audience location and placement
Flexibility
Accessibility

Collaborative working:
Definition of individual and group role
Allocation of roles
Time management
Communication tools
Collective decision-making
Creative engagement in practice
Common themes and vision
Setting aims and objectives

LO3 Develop a piece of work for immersive theatre

Collaborative working in development:
Definition of individual and group role
Allocation of roles
Time management
Communication tools
Collective decision-making
Creative engagement in practice
Common themes and vision
Setting aims and objectives
Performance space:
Fit for purpose
Health and Safety considerations
Accessibility
Flexibility
Audience placement
The role of the space in storytelling

Workshop ideas:
Utilising and developing existing techniques for the purpose of immersing the audience, e.g. improvisation and devised theatre techniques

Storytelling and working with a narrative in immersive theatre practice

Developing ideas for engaging and stimulating the audience through the use of the five senses, performance space

LO4 Carry out a role in a piece of immersive theatre

Collaborative working in application:
Individual and group role
Time management
Communication tools
Collective decision-making
Creative engagement in practice
Common themes and vision
Meeting aims and objectives

Realisation of ideas:
Engaging and stimulating the audience in practice

Communication:
Communicating the narrative/story
Communicating with the audience and creative team during the production
Technical skills:
Relevant to defined role within the production and aims and objectives

Aims and objectives:
Artistic intentions
Creative aims and objectives
Social significance (if appropriate)

Introduction

The passport to earning a living as a performer in the creative arts industry is to be successful at auditions. By their very nature, auditions are high-pressure situations which need excellent preparation and technique to guarantee success. The preparation includes understanding the requirements of the audition, making the correct choice of repertoire and knowing how to rehearse speeches and perform under pressure in the audition. All of this takes considerable time and effort to hone the necessary skills.

This unit explores and prepares students for auditioning, whether it be professionally or for a higher-level course. Essential to the process is a considered and informed choice of material which is honed and polished to present the performer in the best possible light. To make sound choices, students must understand their playing range, capabilities and what type of role they would be suitable for. To develop material sufficiently to be able to perform effectively at an audition, a range of techniques will need to be applied.

This unit also addresses performance technique in audition situations to ensure that students stand the best chance of performing to the best of their ability. Finally, students will develop an understanding of the appropriate etiquette and conduct for the audition situation so that they know how to present themselves.

In light of the #metoo movement there have been many discussions about casting and the audition process relating to professional standards and what is required. While exploring audition skills through this unit, students will also discuss current policies and guidance on casting and audition requirements.

On successful completion of this unit, students will be able to select a range of highly appropriate audition material for a variety of audition contexts, prepare their material vocally, physically and psychologically and present speeches demonstrating relevant performance and employability skills.
Learning Outcomes

By the end of this unit students will be able to:

1. Explore the process of accessing own chosen progression route and materials needed
2. Justify the suitability of material for an audition portfolio
3. Develop an audition portfolio, employing relevant techniques through the development process
4. Present audition material using appropriate technique that promotes the acquisition of work and/or progression.
Essential Content

**LO1** Explore the process of accessing own chosen progression route and materials needed

*Accessing Higher Education:* entry requirements, standards and expectations, finances and costs.

*Accessing the Industry:* Agents, Casting notices and access, organisations (eg. The Stage, Spotlight), showcases, networking, social media, standards and expectations, finances and costs

*Materials:* CVs, digital and physical portfolios, photography, showreels, social media profiles, appearance (suitable clothing etc.)

*Health and wellbeing:* Confidence, mental stability and stamina, coping with rejection, determination and will power, reflective practice.

*Marketing and Promotion:* Physical and digital networking, communications skills, social media, organisations (eg. Casting Call Pro, Spotlight, Linkedin), websites.

*Types of auditions:* Workshops, screen tests, recalls, commercial castings, one to one, corporate casting, radio.

*Policies, procedures and guidelines:* Requirements and expectations, professional standards, audition locations, casting guidance and policies (2018 onwards)

**LO2** Justify the suitability of material for an audition portfolio

*Material types:* types of text (eg. monologue) music, choreography etc.

*Audition requirements:* style, genre, theme, subject matter, context, audition briefs

*Current trends:* Appropriate material, standing ahead of the game, originality, industry awareness

*Promotion of strengths:* versatility, flexibility, range, artistry, confidence, communication skills, team skills and independence, professionalism, reflective practice
LO3 **Develop an audition portfolio, employing relevant techniques through the development process**

*Self Assessment:* awareness of skills and boundaries, range and technique assessment

*Technique development (relative to specialist area) could include:* text analysis, sight reading, improvisation, flexibility, mental stamina, characterisation

*Presentation Skills:* Confidence, communication, physicality, anxiety and nerves control

LO4 **Present audition material using appropriate technique that promotes the acquisition of work and/or progression**

*Policies, procedures and guidelines:* Requirements and expectations, professional standards, audition locations, casting guidance and policies (2018 onwards)

*Self taping:* types of camera, locations, lighting, framing, filming, editing

*Show reels:* range of material and type of content, settings, originality,

*Technical Skills (relative to specialist area) could include:* Improvisation, sight-reading, response to direction, physical technique, vocal technique

*Audition/Presentation Skills:* Communication, confidence, professional etiquette, presentation of self, audition prep (appropriate warm ups etc.) anxiety and nerve control

Introduction

This unit further develops students’ Choreography skills as the backbone of dance, explored in the Level 4, *Unit 10: Choreography*. Students will already have explored the technique, pairing it with a human body and used it to create a vital pathway of non-verbal communication.

The aim of this unit is to develop students’ use of their choreography in more complex routines, clearly demonstrating their understanding of the development and complexity of dance-making, and the history of movement-making as an art form. Successful communication of their intentions will be developed with an exploration of what is defined as artistry in the world of dance and how this translates into movement.

On successful completion of this unit, students will be able to use complex contemporary dance language to develop routines, appropriate for the professional world of dance. They will be able to pick up and retain complex combinations of the required technique and communicate their own artistic intentions to fellow dancers and the audience. Students will understand and develop their own unique choreographic style and apply this where appropriate.
Learning Outcomes

By the end of this unit students will be able to:

1. Develop required choreographic skills, as directed in lessons
2. Develop application of the required vocabulary for the genre
3. Create the required choreographic skills with technique, artistry, musicality and creativity
4. Construct own dance piece using required choreographic skills and dance language for the genre.
Essential content

LO1 **Develop required choreographic skills, as directed in lessons**

*Communication:* Dance language relevant to genre, delivery methods, working with an ensemble and individuals, professional behaviours and standards.

*Ideas development:* creation, originality, stylistic awareness through creation and relevant dance vocabulary, working with briefs, intent, stimulus – cultural, political and historical and social awareness.

*Practitioners relevant to genre* – influences, techniques, artistry, originality and communication methods and techniques.

*Safe working practices* – Health, safety and wellbeing. Sensitive and appropriate approaches in the direction of others.

LO2 **Develop application of the required vocabulary for the genre**

*Development of the use of dance vocabulary in context:* Range of choreographed work/combinations, genre, briefs, compositional devices (eg. motifs, repetition, manipulation)

*Ideas development to application:* creation, originality, stylistic awareness through creation and relevant dance vocabulary, working with briefs, intent, stimulus – cultural, political and historical, social awareness and civic engagement.

*Reflective practice:* Adapting to use of vocabulary

*Safe working practices through creation* – Health, safety and wellbeing. Sensitive and appropriate approaches in the direction of others.

LO3 **Create the required choreographic skills with technique, artistry, musicality and creativity**

*Consideration of technical needs:* Performance space/venue and staging, sound requirements, costume requirements, lighting, stage design

*Implementation:* technique, musicality, style, performance, artistry

*Ideas development to creation:* creation, originality, stylistic awareness through creation and relevant dance vocabulary, working with briefs, intent, stimulus – cultural, political and historical, social awareness and civic engagement.

*Originality:* Creativity, unique expression, the artists voice in practice,
LO4 Construct own dance piece using required choreographic skills and dance language for the genre

*Technical support:* Performance space/venue and staging, sound requirements, costume requirements, lighting, stage design

*Copyright:* Overview of the complexities of copyrighting choreography eg. Jerome Robbins/West Side Story

*Development to construction:* rehearsal process, time management,

*Ideas development to construction:* creation, originality, stylistic awareness through creation and relevant dance vocabulary, working with briefs, intent, stimulus – cultural, political and historical, social awareness and civic engagement.

*Communication:* Audience engagement, working with a group, managing vision, professional practice and standards.

*Reflective Practice:* Critical evaluation and response to feedback and critiques.

Introduction

For many actors, the challenge of classical texts and, in particular, Shakespeare, is seen as the pinnacle of their creative endeavours and one by which they test themselves against their contemporaries and forerunners. Irrespective of the reality of this contention, the classical canon poses a technical challenge which broadens an actor's creative range and technical acumen and, in so doing, feeds their artistic development.

This unit is designed to explore approaches to the realisation of classical texts and introduce the actor to the process of bringing alive heightened text. Topics included in this unit are combining understanding of context with practice to realise text, developing the actor's instrument imaginatively, vocally and physically to meet the dramatic challenge inherent in complex texts.

On successfully completion of this unit, students will have gained an insight into heightened dramatic worlds, explored these worlds to create imaginative possibilities, matched physical and vocal development to the depth and rigour of the dramatic material of classical texts, and broadened their imaginative horizons.
Learning Outcomes

By the end of this unit students will be able to:

1. Discuss relevant classical theatre performance skills in the realisation of texts
2. Explore performance styles of classical texts to develop skill set
3. Apply a range of performance techniques relevant to the rehearsal of classical texts
4. Apply relevant techniques to the performance of classical texts.
Essential Content

LO1 Discuss relevant classical theatre performance skills in the realisation of texts

*Research background of text:*
Origins, influences, political, social and historical context, sense of life
Demands, e.g. space, textual structure, language, form, costume, issues
Performance demands, e.g. movement and gesture, physicality, mask, voice, verbal facility, psychology of role, energy

*Employ knowledge from investigations into performance context to elucidate the texts and facilitate identification and comprehension of a range of playing choices and techniques*

*Appreciate and develop an understanding for the stylistic qualities and technical challenges of the text*

*Range:*
Greek tragedy and comedy
Medieval
Shakespeare/Renaissance/Jacobean
Restoration
Commedia dell’arte

*Analysis:*
Form and structure
Playwright’s intentions
Subject
Theme
Social conventions
Social etiquette
View of life
LO2  **Explore performance styles of classical texts to develop skill set**

*Research:*
Exploring different classical texts
Investigating language
Interpreting meaning
Identifying form and structure
Thematic concerns
Gender, race, sexuality
Performance conventions

*Comparison:*
Defining similarities and differences between genres
Identifying appropriate technique to realise technical emotion and psychological challenges of text

*Skills e.g.:
Verse speaking
Characterisation
Movement skills
Embodiment of role
Technical challenges of incorporating style in playing role
Improvisation
Lazzi
Embodiment of mask

LO3  **Apply a range of performance techniques relevant to the rehearsal of classical texts**

*Rehearsal:*
Health and Safety
Psychological and physical preparation
Trust and co-operation
Meeting the stylistic, emotional and dramatic challenges of texts, risk taking and challenge, interpreting text and making choices
Develop vocal and physical capabilities to create an instrument to meet the challenge of the text

**Voice:**
- Tone
- Breath support
- Projection
- Diction

**Character:**
- Analysis of text and embodiment of role understanding the approach to characterisation relevant to the context of performance (cf. Humours)
- Embodiment of archetype

**Text:**
- Language and imagery
- Metre and rhythm
- Words and images
- Literary devices

**Devices:**
- Alliteration
- Antithesis
- Assonance
- Consonance
- Dissonance
- Enjambment
- Hyperbole
- Irony
- Metaphor
- Onomatopoeia
- Oxymoron
- Personification
- Repetition
- Rhyme
- Rhythm
- Simile
- Symbolism
**Physical:**
Movement appropriate to genre
E.g. Choral movement in Greek tragedy
Character movement appropriate to genre
Social manners and formalities movement conventions use of costume and/or props

**Imagination:**
Improvising scenarios
Off-text work

**Collaboration:**
Working with others
Sharing good practice
Developing ideas/concepts/scenes
Working to present a unified interpretation

**LO4** Apply relevant techniques to the performance of classical texts

**Presentation of meaning:**
Themes
Ruling idea
Playwright's intentions and vision
Given circumstances communicated
Coherent realisation of the text
Realising the director's concept/vision
Stylistic features of the text fulfilled

**Physical performance:**
Use of gestures and physicality
Tempo-rhythm
Use of costume and props
Stylistic conventions of text
Vocal expression:
Vocal characterisation of role
Clarity of delivery and interpretation
Projection
Diction
Meeting the stylistic demands of the text

Characterisation:
Role embodied
Psychology of role as appropriate
Physical characterisation
Archetype
Sustaining the mask
Character traits projected

Ensemble:
Working with company
Character interaction
Working off
Communication with audience

Introduction

The unit will equip the students with a basic understanding of funding and fundraising, introducing them to the difference between commercial and non-profit theatre and the business models associated with mounting theatre productions. Students will learn about securing performance rights and choosing suitable venues, casting and the audition process from a producer’s perspective. As the performance arts industry is dependent on good audience attendance, students will also explore appropriate and innovative advertising and marketing methods and analyse current market trends.

Students will be given research tasks related to producing small productions in a fringe theatre or festival situation. They will be required to investigate the advantages and disadvantages of locations, seek permission for performance from rights-holders, explore possible funding options, consider advertising (both for casting and for ticket sales) and create a sales pitch for potential investors. Students will be required to critically assess their own work and the work of their peers.
Learning Outcomes

By the end of this unit students will be able to:

1. Explain the processes and business models suitable for producing small theatre pieces
2. Evaluate a selection of business proposals, ranking them in terms of quality and viability
3. Create a viable business proposal for a small-scale production of a theatre work, considering fundraising opportunities, (realistic) revenue projections, and all associated costs in order to balance the books
4. Investigate relevant information needed to present reasoned and persuasive arguments to a panel.
Essential Content

LO1 Explain the processes and business models suitable for producing small theatre pieces

Explore the role of the producer in theatre productions and how producers contribute to the process of mounting a piece of musical theatre

Investigate current small-scale productions and theatre companies, e.g. those operating in fringe venues, small regional theatres and at festivals

Explore a range of business models, e.g. non-profit, profit share, and commercial theatre

LO2 Evaluate a selection of business proposals, ranking them in terms of quality and viability

Discuss the factors which contribute to make a sound business proposal

Set tasks which requiring the critical analysis of the work of others, e.g. peers, and encourage constructive feedback

LO3 Create a viable business proposal for a small-scale production of a theatre work, considering fundraising opportunities, (realistic) revenue projections, and all associated costs in order to balance the books

Research appropriate projects

Identify potential funding streams

Identify the target audience for the project

Explore relevant marketing strategies designed to reach the target audience (for casting purposes as well as for an audience for the production)

Explore how to create and manage a budget, e.g. operating a contingency fund

Look at ways to create a rehearsal and performance schedule to ensure the effective allocation of resources

Investigate options for audition, rehearsal and performance space

Discover how to secure performance rights
LO4 Investigate relevant information to present reasoned and persuasive arguments to a panel

*Learn how to organise material in a coherent way with an appropriate sense of audience*

*Present written work clearly, neatly, and cogently*

*Present work (orally) in a clear, informative and engaging manner*

*Use research findings from the exploration of existing business proposals to underpin student proposals*

Introduction

The culmination of the rehearsal process is the presentation of a performance before an audience. One of the most significant challenges an actor faces is communicating the choices made in rehearsal through a well-developed and honed vocal instrument.

This unit is about the progression of vocal skills into a performance context. The foundation skills from the Level 4 Voice and Speech Skills unit 20, will be developed further and applied to performance.

Topics included in this unit are how to analyse text to identify performance choices, application of vocal process to realise text, how to develop vocal performance in the rehearsal room and transfer this to a performance in a space before an audience. Finally, students will evaluate the strengths and weakness of their vocal delivery and identify ways to develop vocal skills in order to sustain long-term development.

On successful completion of this unit, students will be able to effectively apply vocal technique to the performance of complex texts in a public arena.
Learning Outcomes

By the end of this unit students will be able to:

1. Develop relevant technique to realise text in performance
2. Analyse text to identify performance choices
3. Apply relevant vocal processes to rehearsing and performing complex dramatic text
Essential Content

LO1 Develop relevant technique to realise text in performance

Practitioners:
Exploring methods of key practitioners to realise text, e.g. Berry, Estill, Lessac, Linklater, Rodenburg, Skinner

Comparing voice methodologies/processes/techniques of practitioners:
Exercises
Processes
Solutions

Evaluate current level of technical acumen:
Technical proficiency
Strengths
Areas for improvement
Vocal health

Technique e.g.:
Development of range
Resonance
Support
Articulation
Pronunciation
Pitch
Volume
Tone
Qualities
Tempo/rhythm
Isolation of tension
Centring
Alignment
Resonance
Identify:
Warm-up processes
Text exploration ideas
Exercises to improve strengths and weaknesses

Expanding and developing voice:
Tempo/rhythm, articulation, pitch, volume, quality, range, breath
Vocal workouts/warm ups
Applying technique – giving meaning to words/phrases/text

LO2 Analyse text to identify performance choices

Breaking down text for comprehension:
Breaking up text for understanding, e.g. units/bits/events
Problems/tasks/objectives
Verbal action, analysing text for character, theme, subject matter, supertask

Structure of language:
Verbs
Adverbs
Adjectives
Nouns
Pronouns

Experiencing text/language:
Feel of words
Resonance of words
Impulse from text
Connecting with vowels and consonants
Connecting to images
Performance choices:
Exploration of script through text exercises
Investigating structure of text
Through length
Use of devices to create effect and meaning
Discovering imagery
Analysing wordplay
Finding the metre and rhythm
Verse/prose
Verse speaking
Analysing choice of verbal action
Clues to vocal characterisation
Accent and dialect

LO3 Apply relevant vocal processes to rehearsing and performing complex dramatic text

Text
Monologues suitable for audition purposes, e.g. political speeches, scenes from classical and contemporary canon

Research:
Background to speeches and scenes – context, playwright/speaker's intentions and message, stylistic features

Rehearsal:
Application of techniques for realising speeches
Analysis of form and content of text
Exploring meaning
Interpretation and presentation of meaning
Expressive qualities
Characterisation
Voice into language:
Preparation for voice work
Using the breath to support the text
Matching breath to thought
Embodying and finding connection to visceral nature of words
Developing vocal range and text
Adding resonance
Text exploration exercises to explore use of language
Variety and volume in using voice
Experiment with stresses
Length of thought
Vocal energy
Owning the character's words

Rehearsal and vocal process:
Read-through
Vocal preparation for rehearsals
Marrying vocal process with directorial process/working with directors
Rehearsal into performance/theatre
First run
Preparing for the theatre space
Awareness of set
Props and costume on vocal performance
Lighting/sound systems and vocal delivery
Tech and dress rehearsals
Marking and saving the voice
**Performance:**

Working in the space, e.g. assessing how the text matches the performance space, how to work the space to communicate with the audience, how the set will work in the space, finding the acoustic of the space, awareness of sight lines, adapting to the feel of the space

Breath, support, energy and articulation to meet the size of the space

Adapting to the configuration of the theatre, e.g. proscenium arch, thrust, in the round, studio, etc.

Working a dead space, e.g. support, on voice, articulation

Working in different mediums, e.g. film, tv, radio

**Audience:**

Preparation for performing for an audience

Warm ups

Dealing with first public performance

Adapting vocal performance to the audience

Dealing with fear/stage fright

Dealing with the challenges of the run

LO4 Analyse own vocal effectiveness in performance

**Vocal effectiveness:**

Evaluate vocal delivery in performance to identify areas for improvement and ways of maximising strengths

Identify vocal exercises and action plan for development

**Performance:**

Communication of message

Intent and interpretation of the text accuracy and effectiveness of vocal delivery in presenting meaning vocal dynamics and range flexibility of vocal instrument

Introduction

Versatility as a performer is an essential employment skill. It is more than likely that, during any career as an actor, a degree of movement, staging or dance will be required so this is increasingly seen as a specific employability skill for actors.

To this end, this unit has been designed in order to give acting students an opportunity to develop their dance skills and their knowledge of staging and movement, both of which would enhance an acting career.

This is a physical unit, which incorporates some research and explores a wide variety of dance styles and contexts. Students will explore their own dance and movement skills and analyse their own areas for further development to enable them to add dance/movement to their skills portfolio. Students will also analyse why movement skills are important for future employment in the performing arts industry, exploring the accessibility of roles that require movement skills.

On successful completion of this unit, students will have a basic dance vocabulary and technique and will be able to differentiate between dance, movement and staging.
Learning Outcomes

By the end of this unit students will be able to:

1. Evaluate a wide and diverse range of dance styles and associated techniques, as directed
2. Develop a range of dance techniques, in class, as directed
3. Demonstrate style, musicality and rhythm through performance
4. Evaluate how movement skills can influence employment accessibility.
Essential Content

LO1 Evaluate a wide and diverse range of dance styles and associated techniques, as directed

Explore a wide variety of contexts where actors are required to dance e.g.:
Weddings
Court scenes
Ballroom scenes
Romantic
Dream sequences
Improvisation
Film
TV
Stage

Explore own dance skill set and areas for development

Technical skills required for a range of dance styles:
Technique
Vocabulary
Fitness
Confidence and assurance
Partner work
Musicality

Explore a variety of film and theatre where actors have been required to dance.
Examples could include:
Scent of a Woman
Footloose
Pride and Prejudice
La La Land
Amadeus
Pulp Fiction
Dangerous Liaisons
Romeo And Juliet
Othello

*Styles and genres:*
Ballet
Jazz
Tap
American Tap
Court dances
Commercial dance
Folk dances

**LO2** Develop a range of dance techniques, in class, as directed

*Class-based assessment activity:*
Renaissance dances
Romantic era dances
Court dances
Jazz
Tap
Contemporary
Commercial dance
Traditional dances
Historical dances

*Technical skill development:*
Use of body
Musicality
Poise and posture
Use of dynamics

*Techniques:*
Relevant to styles as directed
Communication skills:
Communication with audience
Communication with a partner

Stylistic intentions

Characterisation

Use of body and movement for characterisation
LO3 Demonstrate style, musicality and rhythm through performance

Application of skills developed in class through performance:

Techniques: relevant to style rehearsed

Skills in application: use of body, musicality, poise and posture, use of dynamics

Communication skills in performance:
Communication with audience, communication with a partner, stylistic intentions, characterisation, use of body and movement for characterisation

LO4 **Evaluate how movement skills can influence employment accessibility**

**Employability skills and accessibility of employment as an actor in the performing arts industry:**

Versatility
Communication
Cross-discipline skills
Working within a creative team
Confidence
Stamina
Transferable skills
Competition
‘The triple threat’
CV-building
Cross-platform employment, e.g. film, theatre, games, museums, art galleries etc.
Exploration of case studies of the careers of actors in the industry, e.g.:
Hugh Jackman
Jennifer Lopez
Neil Patrick Harris
Catherine Zeta Jones
Jamie Foxx
Christopher Walken
Beyoncé
Kevin Bacon
Richard Gere
Daniel Day Lewis
Amy Adams
Natalie Portman
Audrey Hepburn
Mads Mikkelsen
Zoe Saldana

Introduction

The purpose of training is to have the necessary abilities to be able to perform for an audience. This unit culminates in a public performance.

This unit is designed to provide an opportunity to test the skills developed during training before an audience in either a live or recorded medium. Students will gain knowledge of rehearsal processes as well as performance techniques. The intention should be that the rehearsal and performance aspects of the unit reflect professional working practices and give students an authentic experience of the workplace.

On successful completion of this unit, students will have gained the satisfaction of producing a performance for an audience and appreciating the skills they have developed.
Learning Outcomes

By the end of this unit students will be able to:

1. Undertake relevant tasks associated with developing a performance project, as directed
2. Develop material in rehearsal through application of relevant skills, as directed
3. Demonstrate ability to work with others as part of an ensemble
4. Perform a role(s) in a performance for an audience, as directed.
Essential Content

LO1 Undertake relevant tasks associated with developing a performance project, as directed

Tasks:
Attend rehearsals
Take and implement direction learn lines/choreography/songs/blocking to deadline
Rehearse with professionalism
Advance work
Both independently and as part of an ensemble

Exploration:
Accept and develop ideas
Put forward constructive suggestions
Engage creatively with material and identify choices in concert with creative team

Research:
Investigate social
Historical and political context of text
Interpret and analyse findings to develop ideas for performance

LO2 Develop material in rehearsal through application of relevant skills, as directed

Preparation:
Background research
Learning material
Analysing material for understanding and creative choices
Developing work based on needs of the rehearsal/creative team notes
Vocal and physical practice regime
Self-management:
Timekeeping
Deadlines
Warming up
Attending meetings, e.g. costume fittings, press, Health and Safety

Rehearsal:
Exploration of relevant rehearsal process for project
Understanding and application of techniques and process to evolve material
Selecting and refining ideas in rehearsal to develop performance
Reviewing and improving work
Meeting deadlines
Organising and prioritising tasks
Employing appropriate technique to develop material
Problem-solving
Working with others
Professional conduct

Skills:
Employment of appropriate vocal
Physical
Psychological technique

Expressive capability:
Use of voice and physicality to communicate meaning and interpretation of material

Embodiment of role:
Emotional range
Communication and interaction with fellow performers and audience
Communication of stylistic features
Types of rehearsal:
Blocking
Cleaning
Technical
Dress
Camera
Song
Sitzprobe

LO3 **Demonstrate ability to work with others as part of an ensemble, as directed**

**Collaboration:**
Work as part of a team
Giving and receiving feedback
Working with creative team
Listening and responding to instructions
Behaving professionally
Responsibility to co-workers

**Ensemble**
Creating a unified effect by working on behalf of the play/musical/dance rather than individually

LO4 **Perform a role(s) in a performance before an audience, as directed**

**Communication of role:**
Vocal skills:
Tone
Articulation
Inflection
Accent
Projection
Physical skills:
Spatial awareness
Proxemics
Characterisation
Gesture
Facial expression
Tempo-rhythm

Musical:
Pitch
Tone
Rhythm
Intonation
Musicality

Interpretation:
Communicate subject and theme of text, characterisation – vocal, physical and psychological
Directorial concept
Stylistic features of text

Introduction

The mask is one of the oldest recorded items in human history, dating as far back as 50,000 years ago. The effect of wearing a mask can be powerful and transformative and, therefore, a possible reason for its longevity and global influence. What constitutes a mask is open to debate but, for the purpose of this unit, the mask is something that covers the face and transforms the performer.

This unit is designed to explore the process of acting with masks in order to fully appreciate how valuable mask work is as an expressive tool. Masks are influential in creating and developing performance and powerful as a means to improving acting skills more generally.

Topics included in this unit are the origins of masks and how masks have been used in performance throughout the history of theatre. Students will also explore the essential aspects of mask work, including shoeing a mask, embodiment of mask, internal monologue, status, playing to an audience, creating and developing material using a mask and performing in a mask while demonstrating the ability to interact with fellow performers and the audience.

On successful completion of this unit, students will be able to identify the origins of mask performance and appreciate its role in performance by researching theatre history. They will understand how to employ mask technique in developing skills and using those skills to rehearse and perform material in a mask.
Learning Outcomes

By the end of this unit students will be able to:

1. Investigate the origins of mask performance and its place in theatre history
2. Develop key techniques and skills for embodying the mask
3. Create material for performance by applying technique in rehearsals
4. Apply skills and techniques in performing in a mask.
Essential Content

LO1 Investigate the origins of mask performance and its place in theatre history

*Earliest examples of wearing masks*

*Exploration of why there is a need to wear masks*

*Origins and purpose of masks through theatre history e.g.:*
  - Ceremonial
  - Ritual
  - Shamanism
  - Disguise
  - Clowning

*Uses of masks in different cultures:*
  - Greek
  - Noh
  - Balinese
  - Kabuki
  - Commedia dell’arte

*Functions of masks:*
  - The transformative/possessive
  - As mirror
  - As exposer of truth
  - As mediator

*Use of mask in performance and training by a variety of practitioners:*
  - Copeau
  - Lecoq
  - Gaulier
  - Trestle
  - Vamos Theatre
  - Strangeface Horse and Bamboo
Different types of mask:
- Full face
- Half mask
- Full head
- Animal
- Character

LO2 Develop key techniques and skills for embodying the mask

Audience complicity in viewing the mask, suspending disbelief and joining in the game

Exploring the character of the mask:
- Physicality, rhythm, status, placing of weight, body language, sound
- Body reaction to what the mask sees
- Inner monologue
- Continuous underpinning thinking to keep the mask alive

Developing skill with inner monologue
- Being the mask rather than acting the mask

Audience interaction:
- ‘Clocking’ the audience, communicating realisations/thoughts to audience
- Length and weight of gesture in non-verbal mask theatre
- Realisation, decision, action
- Speed and rhythm of movement to communicate thought
- Not doing, stillness or less is more

Initial preparatory exercises:
- Putting the mask on/crossing the room and making contact with the audience, accept and build exercises, character centres, status
- Tension states or tempo/rhythm, exploration of tension states in improvisations
- Playing against the mask/countermask
- Focus work
Exploring different types of mask:
Commedia
Neutral
Trestle
Larval

Personal management:
Focus and concentration
Responding to instruction
Working with others
Accepting ideas
Contributing to development of material

LO3 Create material for performance by applying technique in rehearsals

Working from stimuli

Exploration and development of material:
Improvising from scenarios
Developing the character of the mask
Developing routines
Experimenting with form
Experimenting with text and silence
Introducing choreography physical theatre digital media
Expanding moments through exploiting the flexibility of the imaginative theatrical space
Working with soundtrack/music props costume
Altering the scale of performance
Structuring material

Narrative structures:
Linear
Non-linear
Episodic
Equilibrium/inciting incident/rising action/crisis/climax/falling action
Working with others:
Accepting and rejecting ideas
Contributing to developing material co-operation
Responding to feedback

**LO4 Apply skills and techniques in performing in a mask**

*Use of body*

*Projection of mask/character*

*Physical embodiment*

*Clarity of inner monologue*

*Connection and communication with audience*

*‘Clocking’ the audience*

*Interacting with other masks/actors*

*Expressivity of performance*

*Timing*

Introduction

Many productions will now employ a production designer who is in charge of the complete and unified look of the whole production. The production designer will work with the director and producer to agree a set of designs for the set, props, costumes, and sometimes lighting and sound design as well, ensuring a coherent look to the production. The production designer will then employ set constructors, costume and prop makers who will work to these designs, often on a freelance basis.

This unit will allow students to produce, realise and analyse a set of production designs for a live production. This will entail in-depth exploration of the production designer role, including working with the text and the director's brief to ensure a complete set of designs for the production, adhering to set budgets and observing deadlines. They will also consider types of venue, especially for shows touring to differing locations.

At the end of this unit, students will be able to understand the process of producing relevant production designs for live productions.
Learning Outcomes

By the end of this unit students will be able to:

1. Produce a set of initial response designs to a specified text and director's brief for a live production
2. Develop designs to take forward to the construction phase
3. Produce a budgeted plan for the realised production designs, adhering to set deadlines
4. Analyse the designs realised for the production.
Essential Content

LO1  **Produce a set of initial response designs to a specified text and director's brief for a live production**

- Text analysis
- Analysis of brief
- Research
- Exploration of ideas
- Contextual references
- Stage requirements

LO2  **Develop designs to take forward to the construction phase**

- Design generation
- Design development
- Plans, scales, CAD
- Constraints
- Production team considerations
- Meeting minutes

LO3  **Produce a budgeted plan for the realised production designs, adhering to set deadlines**

- Construction methods
- Deadlines
- Budgets
- Materials
- Staffing
- Risk assessments
- Health and Safety
LO4 Analyse the designs realised for the production

Introduction

A management role in a production means being fully responsible for the success of the production pertaining to the production department that you are heading. To ensure success, excellent communication with the director, the wider production team, the performers and your own set of staff is essential. Each manager must understand the full responsibilities of their own section and department in relation to the specific performance. Constraints such as deadlines, budget and staffing must be taken into consideration, and the planning of the teamwork of the department during the performance should be approached with meticulous detail. The manager must ensure that the team work well together in their own section while also understanding backstage etiquette and working with the wider production team backstage.

Health, Safety and wellbeing is a large part of the role as the manager has a duty of care for their staff and also any crew or performers who are affected by any issues arising from their department. The manager must have a full understanding of any Health and Safety issues at the venue or for the production, and be able to provide coherent risk assessment relating to current legislation. The manager is also in charge of the budget for their department, and must ensure at all times that correct budgets and deadline are planned for and adhered to.

This unit is designed to impart the skills required to undertake a management role for the production of a live performance. Students will fully understand the responsibilities of the role to be undertaken and the management of staff.

By the end of this unit, student will be able to undertake a management role with competence and knowledge of responsibilities.
Learning Outcomes

By the end of this unit students will be able to:

1. Undertake a management role in a live production
2. Explain what will be needed by the selected department for the live production
3. Risk assess a live production in terms of departmental requirements and staffing
4. Evaluate the success of the management role for the live production.
Essential Content

**LO1** Undertake a management role in a live production

*Issues pertaining to the specific department and the production:*

- Budget
- Venue
- Pre-production
- Performance
- Post-performance
- Staffing
- Department requirements
- Equipment required
- Construction/making/buying requirements
- Backstage requirements: security, storage, facilities, transport if required, office furniture
- Communication, e.g. phones, radios, headsets, computers
- Risk assessment

**LO2** Explain what will be needed by the selected department for the live production

*Team requirements*

*Hierarchy*

*Team roles*

*Bonding*

*Teamwork*

*Communication*

*Resolving staff issues*

*Duty of care*
LO3  Risk assess a live production in terms of departmental requirements and staffing

  Health and Safety

  Risk assessment paperwork

  Budgets

  Contingencies

  Staffing issues

  Adhering to deadlines

  Adhering to professional etiquette

LO4  Evaluate the success of the management role for the live production

  Pre-production

  Post-production

  Performance issues

  Staffing issues

  Staffing

  Budget

  Deadlines

  Backstage

  Facilities

  Health, safety and wellbeing

Introduction

Sound has always been a key component in the performing arts, capable of lifting performances to new levels. Today's technology provides an ever-growing medium for dramatic communication, and sound design has become a fundamental element of creative production. Working alongside the creative production team, a sound designer helps to create aesthetic experiences, aids communication and narrative, and develops mood and ambiance, taking audiences on new journeys of the imagination.

The aim of this unit is to introduce students to the fundamental aspects of sound design through hands-on technical experience and training. The skills and knowledge covered will provide a basis and point of reference for practical sound design in a range of performance scenarios.

On successful completion of this unit, students will be able to record, produce and arrange sonic elements for the performing arts, aided by development in critical listening and analytical skills, and enhanced contextual, theoretical and aesthetic awareness. They will be competent using industry-standard DAW platforms, and have a good command of core and common functionality. In addition, reflective practice and critical thinking are used to analyse and evaluate progress throughout, all of which are highly useful employability skills.
Learning Outcomes

By the end of this unit students will be able to:

1. Analyse the sound design of a current professional production
2. Produce a sound design plan for a live performance
3. Undertake the sound design for a live performance
4. Evaluate the sound design produced, identifying strengths and areas for development.
Essential Content

LO1 **Analyse the sound design of a current professional production**

*The role of sound design in the performing arts:*
- Drama
- Theatre
- Ballet
- Dance
- Music
- Musicals
- Opera

*Approaches to sound design:*
- Realistic/non-realistic/stylistic
- Diegetic sound/non-diegetic sound
- Onstage/off stage
- Scene setting, e.g. period, location, time, mood, environment

*Character, scene and aesthetic development:*
- Atmosphere, expectation, information
- Creating and changing mood, transitions, continuity, dramatic effect, audience expectation, and supporting narrative and understanding

LO2 **Produce a sound design plan for a live performance**

*Sound design planning, e.g.:*
- Venue acoustics and technical specification
- Script analysis and aesthetic development
- Working with other stakeholders, e.g. director, producer, performers, sound operator
- Budgets and cost considerations
- External factors, e.g. lighting, costume, set design
- Copyright, production
- Preparing technical layout and cue sheets
LO3 **Undertake the sound design for a live performance**

*Introduction to a DAW:*
- Arrange, mix, and edit windows
- Transport and timeline
- Audio, MIDI preferences and configuration
- Basic functionality and workflow
- Recording and programming, e.g. real-time and step-time
- MIDI/audio editing, e.g. MIDI/Audio regions (trim, edit, arrange), MIDI/audio data (quantise, groove, velocity)
- DAW workflow, markers and screen sets
- Working with synchronisation – SMPTE and SMPTE lock
- Tempo mapping and time signature changes

*Recording and sound design:*
- Microphone operations, e.g. type, use, specifications, placement
- Field recording techniques
- Recording and editing voice
- Foley and sound effects
- Working with sound libraries
- Sampling and synthesis
- Audio manipulation (fade/normalise/loop/pitching)

*Mixing and post-production:*
- Introductory mixing skills, e.g. balance and stereo position, width and space
- Signal routing, e.g. channel, auxiliary, group and master buss signals
- Insert and send effects
- Introduction to different FX categories, e.g. time-based, dynamic, harmonic, modulation and spatial
- Use of automation to control channel parameters (volume and pan), instrument parameters, mixer and global parameters
LO4 Evaluate the sound design produced for LO3, identifying strengths and areas for development

The process of reflective practice:
Description of techniques implemented
Rationale behind their implementation
Evaluation of success and areas for development
Development of further strategies based on reflective practice

Analysis of relevant pre-existing works:
Production values
Engineering techniques
Compositional processes
Key technologies used

Use of feedback and self-evaluation as a device for further learning and development

**Introduction**

Lighting has become a vital tool in the performing arts, not only to see the performers and to draw the audience’s attention, but to move us in time and place and to enhance the mood. During the performance itself – be that theatre, music or even commercial events – the lighting designer uses their knowledge of equipment and techniques to plan and implement the lighting, taking into consideration all of the requirements of the event.

This unit aims to introduce students to the understanding, skills, and techniques used in lighting design so that they may learn to formulate and communicate lighting for live events. They will explore the different approaches to lighting design and practise methods of planning and communication before applying this to a live event.

Topics in the unit will look at different approaches and techniques for lighting design, different methods of planning and communication, carrying out the role of the lighting designer when responding to the brief and to the needs of the event.

On successful completion of this unit, students will be able to perform the role of a lighting designer for a live event.
**Learning Outcomes**

By the end of this unit students will be able to:

1. Investigate the skills, equipment and techniques involved in the role of the lighting operator

2. Develop the skills and techniques required to carry out the role of a lighting operator using industry standard practice

3. Demonstrate the ability to carry out the role of the lighting operator in preparation for performance.

4. Evaluate the lighting design and own performance as a lighting designer.
Essential Content

LO1 Investigate the skills, equipment and techniques involved in the role of the lighting operator

Design process:
- Initial ideas
- Marking up scripts/scores
- Selection and rejection of ideas
- Responding to brief
- Selection of equipment
- Design documentation
- Realisation

Communication:
- Written verbal
- Hand-drawn plans
- CAD 2D and 3D modelling software
- Attending meetings and responding to other members of the creative process

Rigging and focusing:
- Monitoring the rigging
- Directing the focus

Plotting:
- Programming the lighting desk with cues, sub-masters and palettes

Tech and dress run:
- Creating a cue sheet, ensuring that the lighting follows the plan

Health and Safety:
- Use of Electricity at Work Regulations 1989, visual effects, e.g. strobe, Work at Height Regulations 2005, etc.
- Evaluation of the design

Investigate the approaches and techniques used in lighting design
**Types of event:**
Plays
Musicals
Contemporary performance
Dance
Cabaret
Gigs
Classical music
Installation art

**Approaches:**
Wash/cover
Specials
Side lighting
Backlighting
Up-lighting
Use of colour and diffusion
Use of angles and shadow
Use of fades and chase
Cyclorama
Colour temperature
Fade timing

**Purpose:**
To see/not see
To enhance mood or atmosphere to set time
Place or weather
Artistic effect
Architectural
Relation to other elements:
Space
Scenery
Costume
Sound
AV

Lighting instruments:
Generic lanterns
Intelligent lighting
Follow spots

Associated equipment e.g.:
Colour scrollers
Smoke and haze machines
Mirror balls

Power and communication:
Dimmers
DMX
Art-Net

Lighting consoles:
Simple theatre memory desk
Large multi-cue desks with intelligent lighting functionality
LO2 **Develop the skills and techniques required to carry out the role of a lighting designer using industry standard practice**

*Develop skills in relation to lighting design:*

- Read and create design ideas in response to a brief, e.g. creation of mood board and research ideas
- Respond to the requirements of the performance, justifying designs considering artistic, practical, economic, style, time constraints
- Create documentation to communicate ideas using industry standard techniques, e.g. technical drawing, 2D CAD, 3D CAD, visualisers, rig plans, focus plans and cue sheets
- Communicate ideas to the creative team visually and verbally
- Communicate ideas to the technical team visually and verbally

LO3 **Demonstrate the ability to carry out the role of the lighting designer in preparation for performance**

*Design process:*

- Analysing the brief
- Reading the script
- Carrying out research
- Liaising with the creative team

*Initial ideas:*

- Identifying cues, creating mood boards and sketches, storyboards, refining ideas using industry standard techniques, e.g. technical drawings, drawings, 2D and 3D CAD, visualisers
- Communicating ideas and responding to feedback

*Documentation:*

- Rig and focus plans
- Equipment list
- Budget sheet
- Lighting sections
- Power supply calculations
- DMX map
Preliminary cue list
Storyboard
Colour call
Circuit list
State list
Cue sheet
The fit-up
Communication with technical staff
Riggers
Focus team
Lighting operator
Follow-spot operator
Stage management

Be able to direct the focus to the plan making any necessary corrections and adjustments

*Direct the plotting phase in line with the plan:*
Liaise with the lighting operator and director/choreographer/stage manager, make any corrections or adjustments

*Technical and dress run:*
Ensure that the lighting works to the design

**LO4** Evaluate the lighting design and own performance as a lighting designer

*Evaluate the lighting design and own practice:*
Meeting the requirements of the brief – artistic, interpretation, effective use of lighting, integration with other technical and performance elements, appropriateness of equipment and techniques

*Professionalism – quality of communication materials, effectiveness of communication, working relationships, meeting deadlines, Health and Safety*

*Potential for future development of skills*

Introduction

The role of a set designer, in providing a setting for a production, is to create an illusion which will help to suspend the belief of the audience and then send them to a new world outside of the theatre walls for a set amount of time. This is achieved by providing relevantly designed spaces for performers to work in which allow an audience to become engrossed in a specific time and event.

In order to do this, the set designer must work with the director and the wider production team to produce designs which are viable for the space concerned, and take into account constraints such as budget, health and safety considerations, the context of the production and the work of the performers.

The designer must be competent in research and be able to produce designs which match the design brief for the production. The designer must also be able to produce scale plans and/or models which communicate exactly to a scenic constructor how the designer’s ideas are to be made.

This unit will give students the opportunity to produce a set of instructions for a live production, to be used by a set constructor to create a viable set for that specific production.

At the end of this unit, students will be able to understand the process of how to produce designs and plans for a production which adhere to the needs of a live production and allow delegation of the safe building of that set to a set constructor.
Learning Outcomes

By the end of this unit students will be able to:

1. Interpret the text to produce a set of initial responses to a director’s brief
2. Explain the constraints of the design in relation to the specific issues of the production
3. Analyse the response to the design development process, including risk assessment and materials
4. Produce a set of plans/models to allow a set constructor produce the set designed.
Essential Content

LO1 **Interpret the text to produce a set of initial responses to a directors brief**

_The text:_
Context and content

_The director's brief:_
Artistic context and considerations

_Research of text and brief considerations:_
Primary
Secondary
Notes

_The initial responses to the text and brief:_
Thumbnails
Sketches
Ideas

LO2 **Explain the constraints of the design in relation to the specific issues of the production**

_Practical issues:_
Budget – martial
Venue
Space
Health and Safety
Type of performance, e.g. dance, acting, musical
Making the set, e.g. workshop areas

_Other production areas, e.g. lighting, sound, choreography, costume_
LO3 Analyse the response to the design development process, including risk assessment and materials

Select the design to progress:
Analyse why, e.g. notes and journal
Pick materials
Risk assess

LO4 Produce a set of plans/models to allow a set constructor produce the set designed

Technical drawings
Plans/models
CAD
Notes to go with plans, e.g. construction notes
Budget
Materials
Communications to constructor
## Learning Outcomes and Assessment Criteria

**Introduction**

The stage management department sits at the heart of each production, managing the rehearsal process and providing a hub which gives answers and solutions for production staff and performers. This essential department ensures that all of the crew and performers clearly understand their individual responsibilities for the production. They provide rehearsal schedules, risk assessments, and have responsibility for the prompt book which holds all of the necessary instructions for set changes, blocking and how the entire production will work. The stage management team work hard and are essential in ensuring that the production runs smoothly and according to the director’s wishes.

In this unit, students will explore what is required to be successful in stage management. They will focus on the development of a wide range of skills, for example organisational skills, people skills, management skills, excellent communication skills and how to hone the ability to keep calm and think rationally while under intense and urgent pressure. This unit will allow students to use communication and organisational skills and apply them to the role of stage manager during the preparation, planning and realisation of a live production.

In a small production, the stage manager will undertake all responsibilities. However, in a larger production, the stage manager will be able to delegate some work to a deputy and an assistant stage manager.

At the end of this unit, students will be able to apply appropriate stage management skills to a live production.
Learning Outcomes

By the end of this unit students will be able to:

1. Explain the responsibilities of a stage manager for a specific live production
2. Produce the appropriate stage management paperwork for the live production
3. Undertake a role as stage manager for the live production
4. Analyse the success of the stage management role.
Essential Content

LO1 **Explain the responsibilities of a stage manager for a specific live production**

*Primary responsibilities of a stage managers:*
Supervising the setting-up and running of rehearsals
Using designer's plans for mark-out of set
Listing and arranging the supply and return of all action props
Props budgeting
Supervision of props and scenery setting/striking

*Physical resources:*
Arranging the supply of stage equipment, materials and tools

*Production planning:*
Taking into account creative factors
Production concepts
Requirements
Objectives
Style
Available
Resources
Human
Physical
Budget
Constraints
Sequencing of processes
Availability of people
Health and Safety
Costs
Processes:

Tools, materials and equipment:
Access equipment
Hand and power tools
Electrical equipment, e.g. Smoke machines, correct handling and storage of props (especially food and drinks, cigarettes, swords, guns)
Location and use of fire extinguishers on stage, safety curtain

Overall responsibility for safe working:
Clear communication of protocols to crew and technicians both in-house and visiting
Allocation of adequate resources
Risk analysis documentation
Method statements

LO2  Produce the appropriate stage management paperwork for the live production

Documentation relating directly to a production:
Script breakdown
Props requirements lists
Prop-setting lists
Backstage cue sheets
Production and rehearsal schedules and plans
Production meeting records
Rehearsal and show reports

Administrative documentation:
Props and petty cash budget
Records and accounts
Stage management and crew rosters and time sheets
Contact lists
Stock lists
Safe procedures:
Handling and lifting heavy/awkward items
Communicating and co-ordinating with others
Working at heights
Use of toxic materials, e.g. Glues, paints,
Recognising potential hazards
Electrical isolation
Securing cables/flooring
Keeping fire exits and gangways clear

Legislation and regulation:
Control of Substances Hazardous to Health (COSHH)
Lifting Operations and Lifting Equipment Regulation (LOLER)
Provision and use of Work Equipment Regulation (PUWER)
PAT (Portable Appliance Testing)
Disability Discrimination Act (DDA) and others
Roles e.g. Agents
Producer
Director
Sound design
Lighting design
Costume design
Hair and make-up design
Set design
 Composer
 Author/writer
 Choreographer
 Performers
 Musicians
 Musical director
 Stage management
Technicians (sound lighting etc.)
Wardrobe
Crew
Ushers
Marketing
Finance and merchandise

**LO3** **Undertake a role as stage manager for the live production**

*Pre-performance preparation*
*Production planning*
*Post-production planning*

*Human resources:*
Motivating
Organising and supervising the work of the stage management team
Co-ordinating the work of the stage crew during performances
Maintaining backstage discipline
Liasing and co-ordinating with other departments
Health and Safety, ensuring smooth running of performances

*Physical resources:*
Organising and maintaining all backstage and storage areas maintenance of stage equipment, materials and tools

**LO4** **Analyse the success of the stage management role**

*Reflection on preparation*
*Reflection on production*
*Reflection on post-production*
*Director feedback*
*Team feedback*
*Crew feedback*
*Development of role*
*Health, safety and wellbeing*

Introduction

Costume designers play an extremely important role within the creative industries. The generation of believable characters, and the visual adaptation of those roles, is key for any successful production. The ability to provide an audience with characters related to any period, concept or cultural consideration, from film to TV to theatre, is essential to the costume designer role.

In this unit, students will develop their understanding of the role of a costume designer by exploring how the plot of a performance is made authentic with the use of texture, colour and accessories. Costume design can include revamped clothing, adapted to fit with the character, or it can be made from scratch. It is the creative response to the character designs that allows or supports the actor/performer to project and perform.

Students will familiarise themselves with the narrative and individual characters of a performance and investigate methods of costume design in relation to it, presenting their initial ideas to a director and adapting them where necessary.

By the end of this unit, students will have developed drawing skills to support their vision of production outcomes, produced costumes to change a character, distinguished between main and supporting characters and reinforced the dimensions of the script. This growing industry requires innovative costume designers with an eclectic knowledge of costume cultural context and history.
Learning Outcomes

By the end of this unit students will be able to:

1. Analyse the key information required for a given character for the purpose of costume design
2. Explore design ideas and methods for characters script analysis
3. Create design ideas for selected character(s) for suitable for a performance
4. Present designs intention to a panel and production team.
Essential Content

LO1 Analyse the key information required for a given character for the purpose of costume design

*Text:*
Interpreting script
Context
Character types
Genre
Historical context

*Working with the Creative Team:*
Director's brief
Roles and responsibilities

*Historical and contemporary designers relevant to text*

LO2 Explore design ideas and methods for characters script analysis

*Cultural and historical context and how this can be communicated through costume*

*Exploration:*
Colour
Shapes
Textures
Embellishments
Visual ideas
Material ideas
Process exploration
Experimenting with techniques
Collaborative working:
- Working with the director’s brief
- The creative team
- The production team
- Working within a budget
- Time restraints

Communication:
- Communication tools
- Mood boards
- Collaborative working
- Workshops
- Discussions
- Video
- Live streams

LO3 **Create design ideas for selected character(s) for suitable for a performance**

Consideration of design concepts:
- Character
- Measurements
- Budget
- Style
- Health and Safety
- Constraints
- Wearability and movement restrictions
- Director’s brief

Context:
- Research
- Fit for purpose
- End product
- Social and cultural context
Exploration of end product:
- Colour
- Shapes
- Textures
- Embellishments
- Visual ideas
- Material ideas
- Process exploration
- Experimenting with techniques

LO4 Present designs intention to a panel and production team

Presentation skills and tools:
- Mood boards
- Powerpoint
- Discussions
- Communication
- Evaluation
- Peer observations
- Use of technology
- Sketch books and work books
- Samples
- Newspaper and magazine cuttings
- Templates
- Tracings
- Drawing and mix media skills
- Colour work
- Photographs
- Portfolio (online and offline)
## Learning Outcomes and Assessment Criteria

Introduction

The role of a hair and/or make-up designer is to produce considered designs for performers which fully meet the requirements of a specific production. The designer must be proficient with research techniques to ensure that the designs are meeting the requirements of the script, and also understand the constraints of working from a director’s brief and with the wider production team, both which may impact on the production of the final designs.

This unit will allow students to produce make-up and/or hair designs for a live production, taking into consideration all aspects of any possible constraints and practical aspects. The make-up and hair designer is responsible for the look of the performers’ characters in relation to their make-up and hair. This can range from a light touch for some modern contemporary performances to a full set of meticulously researched designs for a particular period in time.

All sets of designs will have their own sets of particular issues to address, and all types of designs must take into consideration the script, the director’s brief, the performer, the type of performance and the consequences of the utilitarian aspects of that performance on the make-up and hair. Extra resilience, for instance, will be required for a fast and physical dance performance. The designer should also take into consideration if there is time and space backstage in between scenes for hair or make-up to be adjusted, remedied or changed for a new look or scene.

At the end of this unit, students will be able to produce considered designs for a production which a hair and make-up artist would then be able to take and use for that production.

*Please note, students may choose to evidence hair and/or makeup skills for this unit
Learning Outcomes

By the end of this unit students will be able to:

1. Produce a set of initial responses to a director's brief for a live production
2. Produce a set of working designs, working within the wider production team for a production
3. Provide risk assessment for the designs, abiding by appropriate Health and Safety legislature
4. Provide working instructions for the application and realisation of the hair and/or make-up design.
Essential Content

LO1  **Produce a set of initial responses to a director’s brief for a live production**

*Interpreting text:*
- Analysis of script
- Character breakdown and analysis
- Character in a working context
- Number of characters
- Time frame of text

*Context:*
- Type of production
- The creative team
- Budget
- Director’s brief
- Time management

*Initial responses to the text and brief:*
- Design ideas
- Initial design sketches
- Design development
- Material selection

LO2  **Produce a set of working designs, working within the wider production team for a production**

*Working with the production team:*
- Communication tools
- Collective vision and ideas
- Working with a director’s brief as a collective
- Time management
- Budgets
Production meetings
Collaborative working across teams
Organisation team-building skills

Development of initial ideas:
Evolving process
Producing working drawings
Problem solving
Practical outcomes
Communication of design ideas
Consideration for practical application
Experimental practices and exploration material selection

LO3 Provide risk assessment for the designs, abiding by appropriate Health and Safety legislature

Safe working practices:
Potential issues, e.g. allergies, hygiene, tools, electricity, types of make-up available, spraying inside, toxic substances, application of prosthetics, cleansing
Risk assessments, Health and Safety legislature, roles and responsibilities in relation to Health and Safety

LO4 Provide working instructions for the application and realisation of the hair and/or make up design

Communication:
Methods
Creating plans
Accuracy
Techniques
Clarity
Tools for application and realisation:
Starting points
Material types
Bases
Make-up types
Cleansers
Colours
Shading
Digital/paper-based
Video
Layout
Accessibility
Techniques
Tools
Hygiene
Processes
Products

Introduction

Masks and puppetry have been used within the performing industry for hundreds of years and still continue to inspire audiences. Their history and cultural context have influenced and contributed to the visual arts and embody all aspects and fundamental components of art practice. Masks and puppetry continue to be used as stimulating components within the theatre, TV and film industry. Both are also extensively used for narrative, ritual, religion and spiritual purposes and have been a powerful method of teaching within education.

These ancient arts form allow for communication to be used to portray ideas and current issues in a stimulating and creative way while, at the same time, an audience can indulge in an imaginative and reflective way. The approach differs from presenting a ‘real’ actor although, it has to be said, masks and puppets are only truly brought to life through the expertise of the actor. The introduction of theatre performances such as The Lion King, War Horse, Avenue Q and King Kong has certainly paved the way for creative artists to continue to develop the practice of puppet and mask making. Puppets can be made in a variety of ways and operated by one finger or through a team of puppeteers.

This unit will allow students to investigate the genre by using the wide range of materials, techniques and processes that underpin puppet-making and mask making skills. Researching both historical and contemporary puppet making will give students the opportunity to create their own puppet.

By the end of this unit, students will be able to engage with the characteristics and skills required in the making of a puppet and/or mask suitable for use in theatrical productions.
Learning Outcomes

By the end of this unit students will be able to:

1. Explore historical and contemporary puppet and/or mask types and construction
2. Explore techniques and processes for puppet and/or mask making
3. Create a character puppet and/or mask using a range of materials and methods
4. Evaluate the physical mechanisms of the constructed puppet and/or mask.
Essential Content

LO1 Explore historical and contemporary puppet and/or mask types and construction

Mask/Puppets types and purpose:
Historical and cultural, e.g. Punch and Judy, Burmese, Indian, Chinese, European, Native American

Contemporary mask and/or puppet companies and festivals, e.g.:
Festival Mondial des Théâtres de Marionnettes
Suspense Puppetry Festival
Henson International Festival of Puppet Theatre and the Blind Summit Theatre

Influential contemporary productions:
Lion King
War Horse
Avenue Q
King Kong

LO2 Explore techniques and processes for puppet and/or mask making

Techniques and processes for puppet and/or mask making:
Hand
Rod
String
Shadow
Humanettes
Animation
Mouth puppets
Marionettes
LO3 Create a character puppet and/or mask using a range of materials and methods

Experimentation, construction, forming and manipulation

Materials:
- Glues and solvents
- Wood
- Clay
- Fabrics
- Papier mâché
- Card
- Polystyrene
- Foam rubber
- Plastic and cloth

Methods:
- Carving and modelling

Mould preparation:
- Plaster
- Latex
- Compound
- Expandable foam
- Fibreglass

Frames:
- Mechanisms

Tools:
- Health and Safety
- Use of hand and power tools, glue gun, soldering equipment
LO4  Evaluate the physical mechanisms of the constructed puppet and/or mask

Present puppet and/or mask making and final construction:
Step-by-step accounts
Sketches
PowerPoint
CAD
Purpose
Potential use for performances
Durability
Size
Diagrams
Character analysis

Introduction

The ability to unpack and demystify what is done in order to perform well can often be an art in itself. Whether teaching informal one-to-one lessons or delivering a workshop or masterclass to a group, a considered and structured approach to learning will improve the experience and results, and enhance student development.

For many professionals working in the creative industry, teaching has become a staple part of their portfolio careers. This unit is designed to introduce students to working within a creative arts educational environment and to explore and develop skills required in a variety of educational settings.

In this unit, students will explore ways to use their vocational experience and subject knowledge to deliver learning in a variety of scenarios and settings. They will gain insight into the range of ways in which students might learn new knowledge or skills and develop their understanding of how to support, enable and monitor progress. Students will also design Programmes of Study and explore creative assessment methods to motivate and engage learners.

By the end of the unit, students will be prepared to take their first confident steps as a creative arts educator.
Learning Outcomes

By the end of this unit students will be able to:

1. Assess pedagogic strategies for variety of creative arts educational contexts
2. Develop materials and plans for the delivery of effective learning in a variety of teaching contexts
3. Deliver a range of activities in a variety of teaching contexts
4. Evaluate the quality of teaching and learning across a series of taught sessions.
Essential Content

LO1 **Assess pedagogic strategies for variety of creative arts educational contexts**

*Teaching methodologies:*
- Learning styles
- Differentiation
- Psychology of learning
- Motivation and engagement
- Feedback and feedforward
- Peer-to-peer learning

LO2 **Develop materials and plans for the delivery of effective learning in a variety of teaching contexts**

*Planning:*
- Creating session objectives
- Formal and informal assessment activities
- Formative and summative assessment
- Use of learning resources
- Flipping the classroom
- Schemes of Work and session plans
- The starter and the plenary

LO3 **Deliver a range of activities in a variety of educational contexts**

*Contexts:*
- Large group or lecture
- Masterclass
- Workshop
- Small group
- 1-2-1
- Online/video lesson
**Delivery:**
- Pace and style
- Transitions and plenaries
- Assessment and checking learning
- Questioning strategies
- Feedback
- Alignment with learning objectives

**Classroom management:**
- Management of resources
- Engagement and inclusivity

LO4 **Evaluate the quality of teaching and learning across a series of taught sessions**

**Reflecting:**
- Peer observation
- Self-evaluation
- Student satisfaction
- Student achievement

Introduction

The role of director in any production, whether a theatre production or a recorded media production, requires a wide range of diverse skills and the ability to not only apply these skills, but to do so with a very clear creative vision. Although originating in the theatre, the role of director has expanded to include many different types of production, including film, TV, radio, games and to this end, this unit has been created to allow the space to explore directing in any applicable context. Please note the term recorded media in this context, refers to film, radio, TV and games.

The ever evolving world of technology has become an increasingly vital consideration in not only the realisation of a creative vision, but also in its concept. The creative use of technology should be explored through this unit as a tool to realise directorial vision.

In this unit, students will explore the skills required to direct including exploring key directors and their techniques, interpreting and planning the realisation of creative content, working with a creative team to capture and inspire, the style and structure of a work and exploring the importance of having a strong understanding of the acting and writing process. Leadership and management skills and the skills required to create a healthy and creative working environment will also be explored. Students will demonstrate their skill development through directing their own production, allowing them to develop their own unique style and artistry in a practical and relevant context.

By the end of this unit, students will be able to carry out the role as a director and critically evaluate their own directing process and skills, in a production in either theatre or recorded media format.
Learning Outcomes

By the end of this unit students will be able to:

1. Analyse the practices of a range of directors in theatre and/or recorded media
2. Explore a wide range of directing skills needed theatre and/or recorded media
3. Carry out a role as a director in a production
4. Evaluate own directing processes and areas for future development.
Essential Content

LO1 Analyse the practices of a range of directors in theatre and/or recorded media

Analysis of a wide and diverse range of directors from theatre and/or recorded media

The historical development of practices used and the pioneers in the relevant field

The social, political, cultural and historical context

Methods and techniques used to explore innovative directing and achieve artistic vision

The impact of technology in influencing practices, ground breaking productions relevant to medium

Career development of directors:
routes to directing
training routes
barriers
diversity

LO2 Develop materials and plans for the delivery of effective learning in a variety of teaching contexts

Artistic vision:
Development process and realisation and achievement

Technical skills and creative Skills:
Methods and practices
Use of technology
Storytelling
Approaches to text
Leadership and Management Skills:
Meeting aims and objectives
Communication skills and methods
Time management skills
Working with performers and awareness of relevant techniques
Working with production team
Creating a working environment

Working with a production team:
Resource management
Scheduling
Time management
Problem solving
Transparency

LO3 Carry out a role as a director in a production

Realisation of artistic vision in practice

Creative and technical Skills in practice

Leadership and management skills in practice

LO4 Evaluate own directing processes and areas for future development

Evaluation of:

Artistic vision:
Development process and realisation and achievement
Technical and creative skills in practice:
Methods and practices
Use of technology
Storytelling
Approaches to text
Leadership and management skills:
Meeting aims and objectives
Communication skills and methods
Time management skills
Working with performers
Working with production team
Creating a working environment
Health, safety and wellbeing

Introduction

The roles and responsibilities of a freelance hair and/or makeup artist in today's world is diverse, varied and can cross over into many industries. Makeup and hair artist may work in the creative industries which includes film, tv, games, theatre, fashion but also may work in the beauty and wedding industry. Working as a freelance artist, also requires acute business and self-management skills, managing budgets and the ability to work both independently and within a team. Social media also, now has an increasingly important role to play in this industry and is an essential marketing tool.

This unit has been designed to explore the skills required to be a freelance makeup and/or hair artist in any appropriate setting, as defined by a brief. Briefs could include working as a film/tv makeup/hair artist, a beauty youtuber, theatre makeup/hair artist, wedding beauty specialist or salon artist.

Through this unit, students will explore a wide range of skills appropriate for working as a freelance hair and/or makeup artist include the business roles and responsibilities, including working to a budget, time management, health and safety, teamwork, communication and working under pressure. Students will also explore the depth of research required to meet employer needs to ensure briefs are followed, fulfilled and developed where appropriate.
**Learning Outcomes**

By the end of this unit students will be able to:

1. Explore the role and responsibilities of a freelance hair and/or makeup artist
2. Produce designs based on an industry standard brief
3. Apply advanced makeup and/or hair techniques to meet the requirements of an industry standard brief
4. Analyse the success of meeting the requirements of the brief and areas for future development.
Essential content

LO1 Explore the role and responsibilities of a freelance hair and/or makeup artist

Role types:
Film/TV
Theatre
Wedding
Beauty salon
Youtuber
Fashion
Fashion editorial.

Marketing:
Social Media
Portfolio types
Networking
Branding
Sponsorship.

Administration relevant to setting:
Budgets
Scripts
Call sheets
Continuity sheets
Briefs
Planning documentation
Schedules
Time scales
Invoicing
Health and safety.
LO2 Produce designs based on an industry standard brief

Brief types:
Film/TV
Theatre
Wedding
Beauty salon
Youtuber
Fashion
Fashion editorial.

Brief analysis:
Customer/employer need
Budget
Event type
Location
Timescale
Tools and equipment
Script analysis (if appropriate)

Design development:
Location
Lighting
Event type
Durability
Research methods
Documentation.
LO3  **Apply advanced makeup and/or hair techniques to meet the requirements of an industry standard brief**

*Preparation:*
Working to a brief
Creating designs
Planning process
Drawings
References
Charts
Working in a team
Timescales
Originality
Exploring ideas.

*Health and safety:*
Regulations
Policies and procedures that must be adhered to
Relevant to workplace environment and resources used.

*Hair:*
Industry standard tools
Equipment and products
Hair preparation
Dressing
Styling and finishing techniques
Preparation and application of hair pieces/wigs/facial hair.

*Makeup:*
Industry standard tools
Equipment and products
Skin preparation (body and face) skin aftercare
Techniques for a wide and diverse range of environments.
Resources:
Kit
Model selection
Preparation
Charts
Designs
Reference material.

Portfolio building:
Types of portfolio – digital or print
Drawings and sketches
Reference documentation
Photographic images
Research materials
Portfolio requirements for employers.

LO4 Analyse the success of meeting the requirements of the brief and areas for future development

Working to a brief:
Meeting outcomes and expectations
Meeting deadlines
Time management.

Planning process:
Effectiveness of planning
Research
Design process
Originality

Technical Skills:
Effectiveness and appropriateness of techniques, styles, tools and kit used.
**Personal skills:**
Communication skills
Team working skills
Time management
Confidence
Organisation
Independent skills.

**Feedback:**
Tutor
Peer
Audience
Employer/customer/industry specialists where possible.

Introduction

The world of Special FX has seen some vast changes and the technology has had a significant impact on the creative industries. The area is vast with mechanical effects, optical effects and visual effects all sit under the heading of Special FX. For the purpose of this unit, the focus is on the different types of special FX used in a range of productions and events – prosthetics, lighting and sound effects, animated props and animatronics, pyrotechnics, fake snow/fog etc. This unit has been designed to allow students to explore their specialist area under the Special FX heading e.g. Special FX Makeup Artist, Prosthetics Artist, Special FX technician.

Please note for students wishing to explore Visual Effects, there are units available in the Higher National Diploma in Creative Media available to MLN (Level 4: Unit 19: Visual Effects Practices and Level 5: Unit 43: Advanced Visual Effects Studies)

Students will explore a range of Special FX and then focus on their own special FX area. They will work on developing designs and ideas using the appropriate industry standard processes and procedures and produce a portfolio of their work relevant to their specialist special FX area.
Learning Outcomes

By the end of this unit students will be able to:

1. Analyse a range of special FXs, appropriate for a variety of mediums and the importance of keeping up to date with current trends.
2. Explore special FX design ideas using industry standard tools and techniques.
3. Produce a portfolio of special FX designs, working to a defined brief.
4. Analyse the strengths and areas of development of the Special FX portfolio.
Essential Content

LO1 Analyse a range of special FXs, appropriate for a variety of mediums and the importance of keeping up to date with current trends

Types of Special FX:
Mechanical
Optical
CGI
e tc.

Health and safety:
Regulations
Policies and procedures that must be adhered to
Relevant to workplace environment and resources used.

Industry standard tools, equipment, products, and techniques for a wide and diverse range of environments

Current trends and influences:
Technology
Social
Cultural
Political
Economic factors
Diversity.
LO2 Explore special FX design ideas using industry standard tools and techniques

*Preparation:*
- Working to a brief
- Creating designs
- Planning process
- Drawings
- References
- Charts
- Working in a team
- Timescales
- Originality
- Exploring ideas.

*Development of Health and safety:*
- Regulations
- Policies and procedures that must be adhered to
- Relevant to workplace environment and resources used.

*Design development:*
- Location
- Lighting
- Event type
- Durability
- Research methods
- Documentation.

*Industry standard tools, equipment, products, and techniques for a wide and diverse range of environments.*
Resources:
Kit
Model selection
Preparation
Charts
Designs
Reference material
Materials
Tools
Moulds.

Portfolio building:
Types of portfolio – digital or print
Drawings and sketches
Reference documentation
photographic images
Research materials
Portfolio requirements for employers.
LO3  **Produce a portfolio of special FX designs, working to a defined brief**

*Portfolio building:*
Types of portfolio – digital or print
Drawings and sketches
Reference documentation
photographic images
Research materials
Portfolio requirements for employers.

*Health and safety in practice:*
Regulations
Policies and procedures that must be adhered to
Relevant to workplace environment and resources used.

LO4  **Analyse the strengths and areas of development of the Special FX portfolio**

*Working to a brief:*
Meeting outcomes and expectations
Meeting deadlines
Time management.

*Planning process:*
Effectiveness of planning
Research
Design process
Originality.

*Technical Skills:*
Effectiveness and appropriateness of range of techniques
Styles
Tools and kit used.
*Personal skills:*
Communication skills
Team working skills
Time management
Confidence
Organisation
Independent skills.

*Feedback:*
Tutor
Peer
Audience
Industry specialists.

*Portfolio:*
Content
Presentation
Portfolio type
Industry standard
Use of technology.

The qualification will be awarded to students who have demonstrated:

<table>
<thead>
<tr>
<th>FHEQ Level 5 descriptor</th>
<th>Performing Arts HND Programme Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>Knowledge and critical understanding of the well-established principles of their area(s) of study, and of the way in which those principles have developed</td>
<td>KU1 Knowledge and understanding of the principles and practices of a performing arts-based environment.</td>
</tr>
<tr>
<td>KU2 A critical understanding of the evolving concepts, theories and models within the study of performing arts across a range of practical and hypothetical scenarios.</td>
<td></td>
</tr>
<tr>
<td>KU4 An ability to evaluate and analyse a range of concepts, theories and models to make appropriate decisions.</td>
<td></td>
</tr>
<tr>
<td>KU5 An appreciation of the concepts and principles of CPD, staff development, leadership and reflective practice as methods and strategies for personal and people development.</td>
<td></td>
</tr>
<tr>
<td>KU6 Knowledge and understanding of vital concepts, principles and theories relating to the role of law, policy and professional regulation in the performing arts industry.</td>
<td></td>
</tr>
<tr>
<td>KU7 Critical understanding of how performing arts organisations, professionals and services communicate with one another, support processes and lead to collaborative, informed solutions to a problem.</td>
<td></td>
</tr>
<tr>
<td>FHEQ Level 5 descriptor</td>
<td>Performing Arts HND Programme Outcome</td>
</tr>
<tr>
<td>-------------------------</td>
<td>---------------------------------------</td>
</tr>
<tr>
<td>KU9</td>
<td>Critical understanding of the use of industry standard technical documentation and practices.</td>
</tr>
<tr>
<td>KU11</td>
<td>Deploy appropriate tools, theories, principles and methodologies to analyse, specify, construct, test and evaluate.</td>
</tr>
<tr>
<td>Ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context</td>
<td>AS1 Evidence the ability to show client relationship management and develop appropriate policies and strategies to meet stakeholder expectations.</td>
</tr>
<tr>
<td></td>
<td>AS2 Apply innovative ideas to develop and create new systems or services that respond to the changing nature of performing arts and the performing arts industry.</td>
</tr>
<tr>
<td></td>
<td>AS3 Integrate theory and practice through the investigation and examination of practices in the workplace.</td>
</tr>
<tr>
<td></td>
<td>AS5 Apply performing arts practice concepts and principles to critically evaluate and analyse complex practical problems and provide effective solutions.</td>
</tr>
<tr>
<td></td>
<td>CS2 Recognise and critically evaluate the professional, economic, social, environmental, moral and ethical issues that influence sustainable performing arts practice.</td>
</tr>
<tr>
<td>Knowledge of the main methods of enquiry in the subject(s) relevant to the named award, and ability to evaluate critically the appropriateness of different approaches to solving problems in the field of study</td>
<td>CS3 Critique a range of systems and operations and their application to maximise and successfully meet strategic objectives.</td>
</tr>
<tr>
<td></td>
<td>KU13 An understanding of the appropriate techniques and methodologies used to resolve real-life problems in the workplace.</td>
</tr>
<tr>
<td></td>
<td>TS1 Develop a skill set to enable the evaluation of appropriate actions taken for solving problems in a specific organisational context.</td>
</tr>
<tr>
<td>An understanding of the limits of their knowledge, and how this influences analysis and interpretations based on that knowledge</td>
<td>TS2 Self-reflection, including self-awareness, the ability to become an effective self-student and appreciate the value of the self-reflection process.</td>
</tr>
<tr>
<td></td>
<td>TS3 Undertake independent learning to expand on own skills and delivered content.</td>
</tr>
</tbody>
</table>
Typically, holders of the qualification will be able to:

<table>
<thead>
<tr>
<th>FHEQ Level 5 descriptor</th>
<th>Performing Arts HND Programme Outcomes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis</td>
<td>TS3 Undertake independent learning to expand on own skills and delivered content.</td>
</tr>
<tr>
<td></td>
<td>TS4 Competently use digital literacy to access a broad range of research sources, data and information.</td>
</tr>
<tr>
<td></td>
<td>CS5 Synthesise knowledge and critically evaluate strategies and plans to understand the relationship between theory and real-world scenarios.</td>
</tr>
<tr>
<td>Effectively communicate information, arguments and analysis in a variety of forms to specialist and non-specialist audiences, and deploy key techniques of the discipline effectively</td>
<td>TS4 Competently use digital literacy to access a broad range of research sources, data and information.</td>
</tr>
<tr>
<td></td>
<td>TS5 Communicate confidently and effectively, both orally and in writing, both internally and externally with individuals, organisations and other stakeholders.</td>
</tr>
<tr>
<td></td>
<td>AS8 Locate, receive and respond to a variety of information sources (e.g. textual, numerical, graphical and computer-based) in defined contexts.</td>
</tr>
<tr>
<td></td>
<td>TS7 Communicate effectively, verbally and in writing and articulate well-defined issues, for a variety of purposes, taking into account the audience viewpoint.</td>
</tr>
<tr>
<td>Undertake further training, develop existing skills and acquire new competences that will enable them to assume significant responsibility within organisations</td>
<td>TS9 Identify personal and professional goals for continuing professional development in order to enhance competence to work within the performing arts industry.</td>
</tr>
<tr>
<td></td>
<td>TS10 Take advantage of available pathways for continuing professional development through higher education.</td>
</tr>
</tbody>
</table>
Holders will also have:

<table>
<thead>
<tr>
<th>FHEQ Level 5 descriptor</th>
<th>Performing Arts HND Programme Outcomes</th>
</tr>
</thead>
<tbody>
<tr>
<td>The qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and decision-making</td>
<td>TS11 Develop a range of skills to ensure effective team working, independent initiatives, organisational competence and problem-solving strategies.</td>
</tr>
<tr>
<td></td>
<td>TS12 Show an ability to work as a member of a team, recognising the different roles within a team and the different ways of organising teams.</td>
</tr>
<tr>
<td></td>
<td>TS13 Reflect adaptability and flexibility in approach to work, showing resilience under pressure and meeting challenging targets within given deadlines.</td>
</tr>
<tr>
<td></td>
<td>TS17 Display emotional intelligence and sensitivity to diversity in relation to people and cultures.</td>
</tr>
<tr>
<td></td>
<td>CS6 Evaluate the changing needs of the performing arts industry and have confidence to self-evaluate and undertake additional CPD as necessary.</td>
</tr>
</tbody>
</table>

# Appendix 3: Glossary of terms used for internally assessed units

This is a summary of the key terms used to define the requirements within units.

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
</table>
| Analyse       | Present the outcome of methodical and detailed examination either:  
|               |   ● breaking down a theme, topic or situation in order to interpret and study the interrelationships between the parts and/or  
|               |   ● of information or data to interpret and study key trends and interrelationships.  
|               | Analysis can be through activity, practice, written or verbal presentation.                                                                |
| Apply         | Put into operation or use.  
|               | Use relevant skills/knowledge/understanding appropriate to context.                                                                        |
| Arrange       | Organise or make plans.                                                                                                                   |
| Assess        | Offer a reasoned judgement of the standard/quality of a situation or a skill informed by relevant facts.                                    |
| Calculate     | Generate a numerical answer with workings shown.                                                                                           |
| Compare       | Identify the main factors relating to two or more items/situations or aspects of a subject that is extended to explain the similarities,  
|               |   differences, advantages and disadvantages.  
|               | This is used to show depth of knowledge through selection of characteristics.                                                               |
| Compose       | Create or make up or form.                                                                                                                |
| Communicate   | Convey ideas or information to others.  
|               | Create/construct skills to make or do something, for example a display or set of accounts.                                                |
| Create/       | Skills to make or do something, for example, a display or set of accounts.                                                               |
| Construct     | Critically analyse                                                                                                                        |
|               | Separate information into components and identify characteristics with depth to the justification.                                       |
| Critically     | Make a judgement taking into account different factors and using available knowledge/experience/evidence where the judgement is supported  
<p>| evaluate      | in depth.                                                                                                                                |
| Define        | State the nature, scope or meaning.                                                                                                       |
| Describe      | Give an account, including all the relevant characteristics, qualities and events.                                                         |</p>
<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Discuss</td>
<td>Consider different aspects of a theme or topic, how they interrelate, and the extent to which they are important.</td>
</tr>
<tr>
<td>Demonstrate</td>
<td>Show knowledge and understanding.</td>
</tr>
<tr>
<td>Design</td>
<td>Plan and present ideas to show the layout/function/workings/object/system/process.</td>
</tr>
<tr>
<td>Develop</td>
<td>Grow or progress a plan, ideas, skills and understanding</td>
</tr>
<tr>
<td>Differentiate</td>
<td>Recognise or determine what makes something different.</td>
</tr>
<tr>
<td>Discuss</td>
<td>Give an account that addresses a range of ideas and arguments.</td>
</tr>
<tr>
<td>Evaluate</td>
<td>Work draws on varied information, themes or concepts to consider aspects, such as:</td>
</tr>
<tr>
<td></td>
<td>• strengths or weaknesses</td>
</tr>
<tr>
<td></td>
<td>• advantages or disadvantages</td>
</tr>
<tr>
<td></td>
<td>• alternative actions</td>
</tr>
<tr>
<td></td>
<td>• relevance or significance.</td>
</tr>
<tr>
<td></td>
<td>Students’ inquiries should lead to a supported judgement showing relationship to its context. This will often be in a conclusion. Evidence will often be written but could be through presentation or activity.</td>
</tr>
<tr>
<td>Explain</td>
<td>To give an account of the purposes or reasons.</td>
</tr>
<tr>
<td>Explore</td>
<td>Skills and/or knowledge involving practical research or testing.</td>
</tr>
<tr>
<td>Identify</td>
<td>Indicate the main features or purpose of something by recognising it and/or being able to discern and understand facts or qualities.</td>
</tr>
<tr>
<td>Illustrate</td>
<td>Make clear by using examples or provide diagrams.</td>
</tr>
<tr>
<td>Indicate</td>
<td>Point out, show.</td>
</tr>
<tr>
<td>Interpret</td>
<td>State the meaning, purpose or qualities of something through the use of images, words or other expression.</td>
</tr>
<tr>
<td>Investigate</td>
<td>Conduct an inquiry or study into something to discover and examine facts and information.</td>
</tr>
<tr>
<td>Justify</td>
<td>Students give reasons or evidence to:</td>
</tr>
<tr>
<td></td>
<td>• support an opinion</td>
</tr>
<tr>
<td></td>
<td>• prove something is right or reasonable.</td>
</tr>
<tr>
<td>Outline</td>
<td>Set out the main points/characteristics.</td>
</tr>
<tr>
<td>Plan</td>
<td>Consider, set out and communicate what is to be done.</td>
</tr>
<tr>
<td>Produce</td>
<td>To bring into existence.</td>
</tr>
<tr>
<td>Reconstruct</td>
<td>To assemble again/reorganise/form an impression.</td>
</tr>
<tr>
<td>Term</td>
<td>Definition</td>
</tr>
<tr>
<td>--------------------</td>
<td>-----------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Report</td>
<td>Adhere to protocols, codes and conventions where findings or judgements are set down in an objective way.</td>
</tr>
<tr>
<td>Review</td>
<td>Make a formal assessment of work produced. The assessment allows students to:</td>
</tr>
<tr>
<td></td>
<td>• appraise existing information or prior events</td>
</tr>
<tr>
<td></td>
<td>• reconsider information with the intention of making changes, if necessary.</td>
</tr>
<tr>
<td>Show how</td>
<td>Demonstrate the application of certain methods/theories/concepts.</td>
</tr>
<tr>
<td>Stage and manage</td>
<td>Organisation and management skills, for example, running an event.</td>
</tr>
<tr>
<td>State</td>
<td>Express.</td>
</tr>
<tr>
<td>Suggest</td>
<td>Give possible alternatives, produce an idea, put forward, for example, an idea or plan, for consideration.</td>
</tr>
<tr>
<td>Undertake/carry out</td>
<td>Use a range of skills to perform a task, research or activity.</td>
</tr>
</tbody>
</table>
This is a key summary of the types of evidence used for BTEC Higher Nationals:

<table>
<thead>
<tr>
<th>Type of evidence</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Case study</td>
<td>A specific example to which all students must select and apply knowledge.</td>
</tr>
<tr>
<td>Project</td>
<td>A large scale activity requiring self-direction of selection of outcome, planning, research, exploration, outcome and review.</td>
</tr>
<tr>
<td>Independent research</td>
<td>An analysis of substantive research organised by the student from secondary sources and, if applicable, primary sources.</td>
</tr>
<tr>
<td>Written task or report</td>
<td>Individual completion of a task in a work-related format, for example, a report, marketing communication, set of instructions, giving information.</td>
</tr>
<tr>
<td>Simulated activity/role play</td>
<td>A multi-faceted activity mimicking realistic work situations.</td>
</tr>
<tr>
<td>Team task</td>
<td>Students work together to show skills in defining and structuring activity as a team.</td>
</tr>
<tr>
<td>Presentation</td>
<td>Oral or through demonstration.</td>
</tr>
<tr>
<td>Production of plan</td>
<td>Students produce a plan as an outcome related to a given or limited task.</td>
</tr>
<tr>
<td>Reflective journal</td>
<td>Completion of a journal from work experience, detailing skills acquired for employability.</td>
</tr>
<tr>
<td>Poster/leaflet</td>
<td>Documents providing well-presented information for a given purpose.</td>
</tr>
</tbody>
</table>
## Appendix 4: Assessment methods and techniques for Higher Nationals

<td>Transferable skills development</td>
<td>Formative or Summative</td>
</tr>
<tr>
<td>----------------------</td>
<td>-------------</td>
<td>---------------------------------</td>
<td>------------------------</td>
</tr>
<tr>
<td>Oral/Viva</td>
<td>This technique asks students to display their knowledge of the subject via questioning.</td>
<td>Oral communication Critical thinking Reasoning</td>
<td>Summative</td>
</tr>
<tr>
<td>Peer review</td>
<td>This technique asks students to provide feedback on each other's performance. This feedback can be collated for development purposes.</td>
<td>Teamwork Collaboration Negotiation</td>
<td>Formative Summative</td>
</tr>
<tr>
<td>Presentation</td>
<td>This technique asks students to deliver a project orally or through demonstration.</td>
<td>Oral communication Critical thinking Reasoning Creativity</td>
<td>Formative Summative</td>
</tr>
<tr>
<td>Production of an artefact/ performance or portfolio</td>
<td>This technique requires students to demonstrate that they have mastered skills and competencies by producing something.</td>
<td>Creativity Interpretation Written and oral communication Interpretation Decision-making Initiative Information and Communications Technology Literacy, etc.</td>
<td>Summative</td>
</tr>
<tr>
<td>Assessment technique</td>
<td>Description</td>
<td>Transferable skills development</td>
<td>Formative or Summative</td>
</tr>
<tr>
<td>----------------------</td>
<td>-------------</td>
<td>---------------------------------</td>
<td>------------------------</td>
</tr>
<tr>
<td>Project</td>
<td>This technique is a large scale activity requiring self-direction, planning, research, exploration, outcome and review.</td>
<td>Written communication, Information literacy, Creativity, Initiative.</td>
<td>Summative</td>
</tr>
<tr>
<td>Role playing</td>
<td>This technique is a type of case study, in which there is an explicit situation established, with students playing specific roles, understanding what they would say or do in that situation.</td>
<td>Written and oral communication, Leadership, Information literacy, Creativity, Initiative.</td>
<td>Formative</td>
</tr>
<tr>
<td>Self-reflection</td>
<td>This technique asks students to reflect on their performance, for example, to write statements of their personal goals for the course at the beginning of the course, what they have learned at the end of the course and their assessment of their performance and contribution; completion of a reflective journal from work experience, detailing skills acquired for employability.</td>
<td>Self-reflection, Written communication, Initiative, Decision-making, Critical thinking</td>
<td>Summative</td>
</tr>
<tr>

Appendix 6: Recognition of Prior Learning

QCF Pearson BTEC Level 4 Higher National Certificate in Performing Arts unit content mapped to the Level 4 units available in the RQF Pearson BTEC Higher National in Performing Arts.

HNCs in Performing Arts: Unit Mapping Overview

This mapping document is designed to support centres who wish to recognise student achievement in older QCF Higher Nationals within the new RQF suites. The document demonstrates where content is covered in the new suite, and where there is new content to cover to ensure full coverage of learning outcomes.

P – Partial mapping (some topics from the old unit appear in the new unit)

X – Full mapping + new (all the topics from the old unit appear in the new unit, but new unit also contains new topic(s))

N – New unit
