

# EXTENDED CERTIFICATE (360GLH) ANIMAL MANAGEMENT SAMPLE ONE YEAR DELIVERY PLAN

Clear unit planning and understanding of key deadlines are essential for a successful delivery programme. We have produced a sample delivery plan showing how the BTEC National **Extended Certificate** in Animal Management could be delivered over **one year** highlighting assessment milestones and indicating where you can teach units holistically.

**This plan is intended to be used as guidance only and is not the only possible delivery model.**

**Key**

- R = Revision for external assessment
- EXT = External assessment
- SA = Summative assessment
- WEP = Work Experience placement

This is a suggested plan for the Extended Certificate in Animal Management with 360GLH and consists of five mandatory units.

**Unit 3** is a synoptic unit and is externally set. The assessment comes near the end of the course to allow learners to draw on their knowledge over the entirety of the course. There is time to allow for a resit opportunity.

**Units 4, 5 and 6** are spread out across the terms to allow learners the opportunity to complete and reflect on practical tasks. This will also help to ensure learners have the underpinning knowledge necessary to complete assessments positively. All teaching for the learning outcome must be completed before the assignment is set as per BTEC guidance

**Unit 7:** A work experience placement is mandatory for this course and each learner needs to complete **75** hours and be passed by the employer. This ensures that there is adequate time should a learner have an illness during placement or need to complete additional hours.

Learners **must** complete and achieve a **PASS** in **Units 3 and 4**.
