Assessment and Grading

Types of assessment
Your BTEC Level 3 Nationals Children’s Play, Learning and Development qualifications take a unit-by-unit approach and offer a combination of assessment styles.

This gives your learners the opportunity to showcase their skills and apply their knowledge in an appropriate, work-related context, and provides evidence of what they can do when they apply to enter higher education or employment.

Assessing BTEC Nationals

Grading
A learner’s final qualification grade reflects their achievements across units in their BTEC Nationals course.

Both internally and externally assessed units are individually graded, and each final unit grade is allocated points.

- Internally assessed units are marked and graded in the Centre (school, college or training provider) and subject to external verification by Pearson.
- Externally assessed units are marked and graded by Pearson.
- Units are graded Pass, Merit or Distinction, with external units also having a N grade in most Level 3 sectors.

Total points scored across all units are used to calculate the final qualification grade.

Achievement of a Certificate with a D grade:

The skills to succeed – the confidence to progress

Assignments (internally assessed)
Set and marked by: Centre
Verified by: Pearson
Assignments are practical tasks set in work-related scenarios that can be tailored to local industry needs for your learners. Learners demonstrate how they apply knowledge and skills to complete a practical project over a period of time, working individually or in groups.

Tasks (externally assessed)
Set and marked by: Pearson
Tasks are practical work-related scenarios completed in realistic, time-based situations. They are completed in controlled conditions and some tasks have pre-released information. Learners demonstrate how to apply learning to common workplace or HE scenarios. Tasks provide evidence of a consistent standard of assessment for all BTEC learners.

Written Exams (externally assessed)
Set and marked by: Pearson
For written exams, learners draw on essential information to create written answers to practical questions in exam conditions. Learners demonstrate how they can apply appropriate knowledge to a work-related challenge in timed conditions.
