02 December 2016

Dear Mr Grix

As a Higher Education Institution, we will recognise the following qualifications as fulfilling entry requirements to a range of our higher education courses in related subject areas, either by meeting entry requirements in their own right or being accepted alongside other qualifications at the same level:

BTEC Level 3 National Extended Certificate in Construction and the Built Environment
BTEC Level 3 National Foundation Diploma in Construction and the Built Environment
BTEC Level 3 National Diploma in Construction and the Built Environment
BTEC Level 3 National Diploma in Building Services
BTEC Level 3 National Diploma in Civil Engineering
BTEC Level 3 National Extended Diploma in Construction and the Built Environment
BTEC Level 3 National Extended Diploma in Building Services
BTEC Level 3 National Extended Diploma in Civil Engineering

We welcome the inclusion of external assessment in these qualifications. Also, the introduction of a larger mandatory core, comprising over half of each qualification, will provide students with a solid foundation. This means that all students will study a broad and common element of content.

In the past, we have recruited students with Pearson BTEC National qualifications similar to those listed above on to our degree programmes in Architecture, Architectural Technology, Building Surveying, Civil Engineering and Construction Management.

I am happy for this letter to be made public on the Pearson websites to confirm our support for the qualifications.

Yours sincerely

Stewart Harper
Associate Registrar
