07 December 2016

Dear Mr Grix

As a Higher Education Institution, we will recognise the following qualifications as fulfilling entry requirements to a range of our higher education courses in related subject areas, either by meeting entry requirements in their own right or being accepted alongside other qualifications at the same level:

- BTEC Level 3 National Extended Certificate in Construction and the Built Environment
- BTEC Level 3 National Foundation Diploma in Construction and the Built Environment
- BTEC Level 3 National Diploma in Construction and the Built Environment
- BTEC Level 3 National Diploma in Building Services
- BTEC Level 3 National Diploma in Civil Engineering
- BTEC Level 3 National Extended Diploma in Construction and the Built Environment
- BTEC Level 3 National Extended Diploma in Building Services
- BTEC Level 3 National Extended Diploma in Civil Engineering

We welcome the inclusion of external assessment in these qualifications. Also, the introduction of a larger mandatory core, comprising over half of each qualification, will provide students with a solid foundation. This means that all students will study a broad and common element of content.

In the past, we have recruited students with Pearson BTEC National qualifications similar to those listed above on to our degree programmes in Architecture & Planning, Architectural Technology & Design, Building Surveying and Construction Project Management.

I am happy for this letter to be made public on the Pearson websites to confirm our support for the qualifications.

Yours sincerely

Kerry Fey

Head of Admissions
