

Statement of Purpose

500/9432/4 – Pearson BTEC Level 3 Subsidiary Diploma in Horse Management (QCF)

The Horse industry/sector is fragmented but a major employer of labour, through its identity and significance is sometimes overlooked. It is divided into three key parts; the racing industry, the non-thoroughbred industry and horse associated activities. There are more than 19,000 horse businesses and 41,200 employees. Equine businesses include riding schools, livery yards, competition yards, trekking centres, breeders, trainers, welfare charities and freelance services. Since this industry is so diverse, ambitious learners can now consider a broad list of possible horse careers. These include, but are not exclusive to:

- saddler
- competition rider
- yard supervisors
- lecturers
- stud/yard manager
- trainer
- horse dealer
- sales
- race track staff
- transporters.

The Pearson BTEC Level 3 Subsidiary Diploma (360 GLH) in Horse Management is part of a larger suite of Horse Management qualifications, in a range of sizes, which share the common purpose of helping people to become occupationally ready to take up employment in the Land-based sector at the appropriate level. This can follow either directly after achieving the qualification, or via the stepping stone of Higher Education (HE) in university or college. By studying a BTEC National, learners develop knowledge, understanding and skills required by the sector, including essential employability skills, and apply them in real work contexts. Learners can operate at a standard that can reasonably be expected of an 18 year old in full-time education.

The Pearson BTEC Level 3 Subsidiary Diploma in Horse Management (360 GLH) is primarily a Technical Level qualification, equivalent in size to an A level, which has been designed to occupy one third of the curriculum within a broader programme of study, which could include other vocational or academic qualifications. Its main purpose is to allow learners to develop specialist knowledge, understanding and skills, including animal biology and physiology, animal feeding and equestrian teaching, required by the sector. It provides a basis for progression into a broad range of roles within the sector when supported by relevant qualifications at level 2, such as GCSE English and mathematics, and/or at level 3, such as GCE Biology, GCE Chemistry or GCE Applied Business or British Horse Society (BHS) stage one or two.

As the qualification was designed in close collaboration with industry, it is fully supported by the Sector Skills Council (SSC) for the sector, LANTRA. A range of professional organisations/employers in the sector has also confirmed their support for this Pearson BTEC Level 3 Subsidiary Diploma in Horse Management. This means it is a highly respected route for those who wish to move into employment in the sector, either directly or following further study.

A significant proportion of recruitment in this sector is at graduate level. The Pearson BTEC Level 3 Subsidiary Diploma in Horse Management also provides a well-established route into a variety of specialist Higher Education (HE) courses in this sector, when taken alongside other qualifications appropriate for the desired course of study. UCAS has reviewed the qualification to assess its value for access to higher education, and has allocated UCAS points. See details
