## Update: BTEC Level 3 Nationals

### Additional Sample Assessment Materials

#### Review

Following on from communications issued in August and October, we are currently reviewing the assessment materials for the January 2018 assessment series for the following sectors and units.

- Engineering – Unit 1: Engineering Principles
- Sport & Exercise Science – Unit 1: Sport and Exercise Physiology
- Sport & Exercise Science – Unit 2: Functional Anatomy
- Sport – Unit 1: Anatomy and Physiology
- IT – Unit 1: Information Technology Systems

Therefore we have temporarily withdrawn the additional sample assessment materials from the website, as the new versions are due to be uploaded in late October/early November on a phased basis.

We will be issuing communications to centres once the updated material are available, with a summary of key changes made.
