Edexcel, BTEC and LCCI qualifications

Edexcel, BTEC and LCCI qualifications are awarded by Pearson, the UK’s largest awarding body offering academic and vocational qualifications that are globally recognised and benchmarked. For further information, please visit our qualification websites at www.edexcel.com, www.btec.co.uk or www.lcci.org.uk. Alternatively, you can get in touch with us using the details on our contact us page at qualifications.pearson.com/contactus

About Pearson

Pearson is the world's leading learning company, with 40,000 employees in more than 70 countries working to help people of all ages to make measurable progress in their lives through learning. We put the learner at the centre of everything we do, because wherever learning flourishes, so do people. Find out more about how we can help you and your learners at qualifications.pearson.com

Unit 2: Fitness Training and Programming for Health, Sport and Well-being

Part A contains material for the completion of the preparatory work for the set task.

Part A is given to learners one week before Part B is scheduled. Learners are advised to spend no more than four hours on Part A.

Part A must be given to learners on the specified date so that learners can prepare in the specified way.

Part A is specific to each series and this material must only be issued to learners who have been entered to undertake the task in the relevant series.

Part B materials for the set task will be issued prior to the start of the supervised assessment period according to the guidance in the specification.

Instructions
Instructions to Teachers/Tutors

Part A should be issued to learners one week prior to undertaking Part B of the assessment.

Learners will be expected to do preparatory work and can take up to four sides of notes into the supervised assessment. The notes can be hand written or typed and they must contain bullets and not extended answers. Other content is not permitted.

Learners are expected to spend up to four hours in undertaking Part A.

It is expected that scheduled lessons or other timetabled slots will be used for some or all of the preparation.

Teachers/tutors should note that:

- learners should not be given any direct guidance or prepared materials
- learners should not be given any support in writing or editing notes
- all work must be completed independently by learners.
- learner notes will be retained securely by the centre after Part B and may be requested by Pearson if there is malpractice suspected

Refer carefully to the instructions in this task booklet and the Information for Conducting External Assessments (ICEA) document to ensure that the preparatory period is conducted correctly and that learners have the opportunity to carry out the required activities independently.
Instructions for Learners

Read the set task information carefully.

This contains Part A of the information you need to prepare for the set task.

You will need to carry out your own preparation over the next one week.

You will then be given the set task to complete under supervised conditions.

You must work independently and should not share your work with other learners.

Your teacher may give guidance on when you can complete the preparation.

Your teacher cannot give you feedback during the preparation period.

Set Task Brief

You are required to prepare notes in response to the information provided in the scenario in Part A Set Task Information.

The notes can be hand written or typed and they must contain bullets and not extended answers. Other content is not permitted.
Scenario
Mr Mann is 30 years old and works 9 hours a day in an office. He does not take part in any exercise and often has to do more work when he gets home.

He catches the bus to work each day, a journey of 3 miles.

He has recently noticed that he is gaining weight. He works with Miss Tibbs who exercises regularly and seems to be fitter, healthier and happier than him. Miss Tibbs suggests that Mr Mann joins her gym and trains for an aerobic endurance event.

Mr Mann decides to join the gym and takes part in a fitness assessment. As part of the fitness assessment he will be given a training programme to follow.

Mr Mann has previously completed a PAR-Q form and has indicated that he has no medical conditions and is fit to take part in physical activity.

Extended Certificate/Foundation Diploma/Diploma/Extended Diploma
Sample assessment material for first teaching
September 2016

Instructions

- **Part A** will need to have been used in preparation for completion of **Part B**.
- **Part B** contains material for the completion of the set task under supervised conditions.
- **Part B** should be undertaken in a single 2.5 hours during the assessment timetabled by Pearson.
- **Part B** is specific to each series and this material must only be issued to learners who have been entered to undertake the task in relevant series.
- **Part B** should be kept securely until the start of the 2.5 hour supervised assessment period.

Information

- The total mark for this paper is 60.
Instructions to Teachers/Tutors and/or Invigilators

This paper must be read in conjunction with the unit information in the specification and the BTEC Nationals Information for Conducting External Assessments (ICEA) document. See Pearson website for details.

The set task should be carried out under supervised conditions.

**Part B** is undertaken under supervision in a single session of 2.5 hours on the timetabled date. Centres may schedule a supervised rest break during the session.

Work should should be completed in this task and answer book.

All learner work must be completed independently and authenticated by the teacher/tutor and/or invigilator before being submitted to Pearson.

Learners must not bring anything into the supervised environment or take anything out without your knowledge and approval.

Centres are responsible for putting in place appropriate checks to ensure that only permitted material is introduced into the supervised environment.

**Maintaining security:**
Teachers/tutors and invigilators are responsible for maintaining security and for reporting issues to Pearson. In particular:

- Only permitted materials for the set task can be brought into the supervised environment
- During any permitted break and at the end of the session, materials must be kept securely and no items removed from the supervised environment.
- Learner notes related to part A must be checked to ensure length meets limitations
- Learner notes from Part A will be retained securely by the centre after Part B and may be requested by Pearson if there is suspected malpractice

**Outcomes for submission**

This task and answer booklet will need to be submitted by each learner.
Instructions to Teachers/Tutors and/or Invigilators

This paper must be read in conjunction with the unit information in the specification and the BTEC Nationals Information for Conducting External Assessments (ICEA) document. See Pearson website for details.

The set task should be carried out under supervised conditions.

Part B is undertaken under supervision in a single session of 2.5 hours on the timetabled date. Centres may schedule a supervised rest break during the session.

Work should be completed in this task and answer book.

All learner work must be completed independently and authenticated by the teacher/tutor and/or invigilator before being submitted to Pearson.

- Learner notes related to part A must be checked to ensure length meets limitations
- Learner notes from Part A will be retained securely by the centre after Part B and may be requested by Pearson if there is suspected malpractice

Outcomes for submission

You will need to submit the task and answer booklet on completion of the supervised assessment period.

Instructions for Learners

Read the set task information carefully.

You will need to refer to any preparatory work from Part A to complete the set task in Part B.

You will complete this set task under supervision in a single session of 2.5 hours. Your tutor/invigilator will tell you if there is a supervised break. Plan your time carefully. Your work will be kept securely during any break taken.

You must work independently throughout the supervised assessment period and should not share your work with other learners.

Outcomes for submission

You will need to submit the task and answer booklet on completion of the supervised assessment period.

Set Task

Complete the task and answer booklet based on your preparation and the additional information in the lifestyle questionnaire.

In your answer develop and justify lifestyle, nutritional guidance and a fitness training programme for a specific individual in response to the scenario and stimulus material.
Scenario

Mr Mann is 30 years old and works 9 hours a day in an office. He does not take part in any exercise and often has to do more work when he gets home.

He catches the bus to work each day, a journey of 3 miles.

He has recently noticed that he is gaining weight. He works with Miss Tibbs who exercises regularly and seems to be fitter, healthier and happier than him. Miss Tibbs suggests that Mr Mann joins her gym and trains for an aerobic endurance event.

Mr Mann decides to join the gym and takes part in a fitness assessment. As part of the fitness assessment he will be given a training programme to follow.

Mr Mann has previously completed a PAR-Q form and has indicated that he has no medical conditions and is fit to take part in physical activity.
Lifestyle questionnaire

Section 1: Personal details

Name:  Mr A Mann
Address:  5 The High Street
           Anytown

Home telephone: 01234 567890  Mobile telephone: 07123 456789
Email: amann1@email.com
Date of birth: 01/01/1975

Please answer the following questions to the best of your knowledge.

Occupation

1. What is your occupation?
   Office worker
2. How many hours do you work daily?
   9am–6pm with a 1 hour lunch break
3. How far do you live from your workplace?
   3 miles
4. How do you travel to work?
   Bus

Section 2: Current activity levels

1. How many times a week do you currently take part in physical activity?
   Not at all
### Section 3: Nutritional status

1. How many meals and snacks do you have each day?

2. Do you take any supplements? If yes, which ones?

Section 4: Your lifestyle

Please answer the following questions to the best of your knowledge.

1. How many units of alcohol do you drink in a typical week? 29
2. Do you smoke? No If yes, how many a day? 
3. Do you experience stress on a daily basis? Yes
   If yes, what causes you stress (if you know)?
   Tight deadlines at work
4. On average, how many hours sleep do you get per night? 6

Unit 2: Fitness Training and Programming for Health, Sport and Well-being – sample mark grid

General marking guidance

• All learners must receive the same treatment. Examiners must mark the first learner in exactly the same way as they mark the last.
• Mark grids should be applied positively. Learners must be rewarded for what they have shown they can do, rather than be penalised for omissions.
• Examiners should mark according to the mark grid, not according to their perception of where the grade boundaries may lie.
• All marks on the mark grid should be used appropriately.
• All the marks on the mark grid are designed to be awarded. Examiners should always award full marks if deserved. Examiners should also be prepared to award zero marks, if the learner’s response is not worthy of credit according to the mark grid.
• Where judgement is required, the mark grid will provide the principles by which marks will be awarded and exemplification may be limited.
• When examiners are in doubt regarding the application of the mark grid to a learner’s response, a senior examiner should be consulted.

Specific marking guidance

The marking grids have been designed to assess learner work holistically. Rows in the grids identify the assessment focus/outcome being targeted. When using a levels-based marking grid, the ‘best fit’ approach should be used.

• Examiners should first make a holistic judgement on which band most closely matches the learner’s response and place it within that band. Learners will be placed in the band that best describes their answer.
• The mark awarded within the band will be decided based on the quality of the answer in response to the assessment focus/outcome and will be modified according to how securely all bullet points are displayed at that band.
• Marks will be awarded towards the top or bottom of that band depending on how they have evidenced each of the descriptor bullet points.
