

Pearson BTEC Level 3 Nationals Extended Diploma

Sport and Exercise Science

**Unit 13: Nutrition for Sport and Exercise
Performance**

Part A

June 2017

Paper Reference

31824H

You do not need any other materials.

Instructions

- Your Unit 13 assessment task contains two parts.
- **Part A** will contain a case study focusing on an individual that requires guidance on nutrition in response to his/her personal and training needs that are impacting on his/her performance.
- **Part A** will be released one week before your supervised assessment session (**Part B**).
- We suggest that you spend six hours independently conducting your research and making notes over the course of one week.
- You can take a maximum of two A4 sides of your research notes into the supervised assessment session (**Part B**).
- In **Part B**, you will be issued with supplementary stimulus information building on the case study information in **Part A**.
- In **Part B**, you will have 2.5 hours under supervised conditions specified by Pearson to respond to the task.
- Do **not** return research notes or **Part A** to Pearson.

Pearson

Instructions to Teachers/Tutors

This paper must be read in conjunction with the unit information in the specification and the BTEC Nationals Information for Conducting External Assessments (ICEA) document. See the Pearson website for details.

Part A should be issued to learners one week prior to undertaking **Part B** of the assessment.

Learners will be expected to conduct research over a maximum of six hours. Up to two sides of A4 notes can be taken into the supervised assessment (**Part B**).

Teachers / tutors cannot give any support to learners during the production of the notes and the work must be completed independently by the learner.

Part B is taken under supervision in a single session of 2.5 hours on the timetabled date. Centres may schedule a supervised rest break during the session.

Centres may choose **ONE** 2.5 hour slot on either of the two dates specified by Pearson. Centres must not schedule multiple sessions as this will be considered malpractice.

Guidance for Learners

Read **Part A** information carefully as this contains the information you will need to prepare for **Part B**.

You will need to carry out your own research over one week.

You will then be given **Part B** to complete under supervised conditions.

You must work independently and should not share your work with other learners.

Your teacher/tutor cannot give you feedback during the completion of **Part A** and **Part B**.

Part A Instructions

You are required to conduct research and prepare notes relating to the case study provided in **Part A** below. You should research nutrition for sport and exercise performance in order to provide nutritional guidance for the individual and their performance needs.

Part A will contain a case study focusing on an individual who requires guidance on nutrition in response to their personal and training needs that are impacting on their performance.

Part A

Current Typical Nutrition Programme							
Day	Breakfast 8-9am	Lunch 12-1pm	Dinner 6-7pm	Fluids throughout the day	Snacks throughout the day	Calories	Macronutrients
