Dear Colleague,

Amendment to specification for the Edexcel Level L3, 4, 6, and 7 Awards in Incident Command in Fire and Rescue Services (QCF)

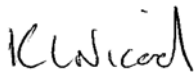

As a result of consultation with Skills for Justice and their NOS and Qualifications Workstream Group, the requirement for learners to be fully qualified fire-fighters has been removed from the above specification.

The group decision was that entry requirements for such roles are a recruitment issue, rather than a qualification issue.

This change is implemented with immediate effect. An updated version of the specification will be posted on the website as soon as possible.

If you have any queries, please contact customer services on: 0844 576 0026.

Yours sincerely,

Karon Nicod
Qualification Development Leader
