

Pearson
BTEC Level 2 Extended Certificate
in Principles of Working in Trade
Business Services (QCF)

Specification

BTEC Specialist qualification

First teaching August 2015

Edexcel, BTEC and LCCI qualifications

Edexcel, BTEC and LCCI qualifications are awarded by Pearson, the UK's largest awarding body offering academic and vocational qualifications that are globally recognised and benchmarked. For further information, please visit our qualification websites at www.edexcel.com, www.btec.co.uk or www.lcci.org.uk. Alternatively, you can get in touch with us using the details on our contact us page at qualifications.pearson.com/contactus

About Pearson

Pearson is the world's leading learning company, with 40,000 employees in more than 70 countries working to help people of all ages to make measurable progress in their lives through learning. We put the learner at the centre of everything we do, because wherever learning flourishes, so do people. Find out more about how we can help you and your learners at qualifications.pearson.com

Purpose of this specification

The purpose of a specification as defined by Ofqual is to set out:

- the qualification's objective
- any other qualification that a learner must have completed before taking the qualification
- any prior knowledge, skills or understanding that the learner is required to have before taking the qualification
- units that a learner must have completed before the qualification will be awarded and any optional routes
- any other requirements that a learner must have satisfied before they will be assessed or before the qualification will be awarded
- the knowledge, skills and understanding that will be assessed as part of the qualification (giving a clear indication of their coverage and depth)
- the method of any assessment and any associated requirements relating to it
- the criteria against which the learner's level of attainment will be measured (such as assessment criteria)
- any specimen materials
- any specified levels of attainment.

1 Introducing BTEC Specialist qualifications

What are BTEC Specialist qualifications?

BTEC Specialist qualifications are qualifications from Entry to Level 3 on the Qualifications and Credit Framework (QCF). They are work-related qualifications available in a range of sectors. They give learners the knowledge, understanding and skills they need to prepare for employment. The qualifications also provide career development opportunities for those already in work. The qualifications may be offered as full-time or part-time courses in schools or colleges. Training centres and employers may also offer these qualifications.

Some BTEC Specialist qualifications are knowledge components in Apprenticeship Frameworks, i.e. Technical Certificates.

There are three sizes of BTEC Specialist qualification in the QCF:

- Award (1 to 12 credits)
- Certificate (13 to 36 credits)
- Diploma (37 credits and above).

Every unit and qualification in the QCF has a credit value.

The credit value of a unit specifies the number of credits that will be awarded to a learner who has achieved the learning outcomes of the unit.

The credit value of a unit is based on:

- one credit for every 10 hours of learning time
- learning time – defined as the time taken by learners at the level of the unit, on average, to complete the learning outcomes to the standard determined by the assessment criteria.

2 Qualification summary and key information

Qualification title	Pearson BTEC Level 2 Extended Certificate in Principles of Working in Trade Business Services (QCF)
QCF Qualification Number (QN)	601/6943/6
Qualification framework	Qualifications and Credit Framework (QCF)
Accreditation start date	01/08/2015
Approved age ranges	16-18 19+
Credit value	19
Assessment	Centre-devised assessment (internal assessment)
Guided learning hours	163-179
Grading information	The qualification and units are at pass grade.
Entry requirements	No prior knowledge, understanding, skills or qualifications are required before learners register for this qualification. However, centres must follow our access and recruitment policy (see <i>Section 10 Access and recruitment</i>).

QCF Qualification Number and qualification title

Centres will need to use the QCF Qualification Number (QN) when they seek public funding for their learners. Every unit in a qualification has a QCF unit reference number (URN).

The qualification title, unit titles and QN are given on each learner's final certificate. You should tell your learners this when your centre recruits them and registers them with us. There is more information about certification in our *UK Information Manual*, available on our website, qualifications.pearson.com

Qualification objective

The Pearson BTEC Level 2 Extended Certificate in Principles of Working in Trade Business Services (QCF) is for learners who want to work in, a trade business environment in roles such as: a Depot or Warehouse Operative, Administrator, Developer, Sales Representative or a Designer.

This qualification gives learners the opportunity to:

- develop knowledge related to customer service in a trade business environment, including understanding the customer relationship, sales techniques and telephone and email communications
- learn about key aspects of the role such as computer-aided kitchen design and stock management, as well as health and safety in a trade business environment
- develop own knowledge and skills in preparation to work by creating their CV, writing letters and interview techniques
- Develop employability skills in a role within a Trade Business environment, through the work experience programme in Unit 1.

Relationship with previous qualifications

This qualification is a new qualification and not a direct replacement for another qualification.

Progression opportunities through Pearson qualifications

Learners who have achieved the Certificate can progress to the Pearson Edexcel Level 2 Diploma in Trade Business Services (QCF), which is a competence-based qualification focusing on the skills required in job roles such as:

- Trade Business Depot or Warehouse Operative
- Trade Business Administrator
- Trade Business Sales Representative

Learners could also progress onto a related qualification within a functional area such as Pearson BTEC Level 3 Award in Retail Knowledge (QCF) or the Pearson BTEC Level 3 Award in Principles of Business and Administration (QCF).

Industry support and recognition

This qualification is supported by People Plus, a employment support and training services company helping people to transform their lives and businesses through work, training, education and financial advice.

3 Qualification structure

Pearson BTEC Level 2 Extended Certificate in Principles of Working in Trade Business Services (QCF)

The learner will need to meet the requirements outlined in the table below before Pearson can award the qualification.

Minimum number of credits that must be achieved	19
Number of mandatory credits that must be achieved	17
Number of optional credits that must be achieved	2

Unit	Unit reference number	Mandatory units	Level	Credit	Guided learning hours
1	J/505/4015	Planning and Participating in Work Experience	2	6	55
2	J/505/3432	Understanding How to Deliver Customer Relationships in Trade Business Services	2	5	40
3	R/505/3434	Health and Safety Awareness in a Working Environment	2	3	24
4	D/602/4769	Understanding Employment Responsibilities and Rights	2	3	30
		Optional units			
5	Y/505/3435	Understanding the Use of Email in Business to Business Communication	2	2	14
6	D/505/3436	Understanding How to Manage Stock for Customer Orders in Business to Business Services	2	2	14
7	H/505/3437	Understanding Sales Function for Business to Business Services	2	3	24
8	K/505/3438	Understanding the Use of Telephone Communications for Business to Business Services	2	2	14
9	M/505/3439	Understanding the Use of IT Software for Targeting Customers in Business to Business Services	2	2	14
10	H/505/3440	Sales Operations	2	3	20
11	K/505/3441	Understanding How to Use Computer Aided Design Software	2	3	30

4 Assessment

The table below gives a summary of the assessment methods used in the qualification.

Units	Assessment method
All units	Centre-devised assessment

Centre-devised assessment (internal assessment)

Each unit has specified learning outcomes and assessment criteria. To pass an internally assessed unit, learners must:

- achieve all the specified learning outcomes
- meet the standard determined by the assessment criteria by providing sufficient and valid evidence
- prove that the evidence is their own.

Centres need to produce assignment briefs for learners to show what evidence is required. Assignment briefs should indicate clearly which assessment criteria are being targeted. All assignment briefs created by centres should be fit for purpose and should be based on the unit assessment criteria.

Assignment briefs and evidence produced by learners must meet any additional requirements given in the *Information for tutors* section of each unit.

Assessment tasks and activities must enable the learners to produce valid, sufficient, authentic and appropriate evidence that relates directly to the learning outcomes and assessment criteria within the context of the '*Unit amplification*'. Centres need to look closely at the verb used for each assessment criterion when devising the assessments to ensure that learners can provide evidence with sufficient breadth and depth to meet the requirements.

Unless otherwise indicated in *Information for tutors*, the centre can decide the form of assessment evidence (for example performance observation, presentations, projects, tests, written tasks or reports, reflective journals) as long as the methods chosen allow learners to produce valid, sufficient and reliable evidence to satisfy the assessment criteria.

Centres are encouraged to give learners realistic scenarios and to maximise the use of practical activities in delivery and assessment. Centres may find it helpful if learners index and reference their evidence to the relevant learning outcomes and assessment criteria.

To avoid over-assessment, centres are encouraged to link delivery and assessment across units.

There is more guidance about internal assessment on our website. For details please see *Section 13 Further information and useful publications*.

Appeals

Centres must have a policy for dealing with appeals from learners. Appeals may relate to incorrect assessment decisions or unfairly conducted assessment. The first step in such a policy is a consideration of the evidence by a Lead Internal Verifier or other member of the programme team. The assessment plan should allow time for potential appeals after learners have been given assessment decisions.

Centres must document all learners' appeals and their resolutions. Further information on the appeals process can be found in the document *Enquiries and appeals about Pearson vocational qualifications policy*, which is available on our website, qualifications.pearson.com

Dealing with malpractice in assessment

Malpractice means acts that undermine the integrity and validity of assessment, the certification of qualifications and/or may damage the authority of those responsible for delivering the assessment and certification.

Pearson does not tolerate actions (or attempted actions) of malpractice by learners, centre staff or centres in connection with Pearson qualifications. Pearson may impose penalties and/or sanctions on learners, centre staff or centres where incidents (or attempted incidents) of malpractice have been proven.

Malpractice may arise or be suspected in relation to any unit or type of assessment within the qualification. For further details on malpractice and advice on preventing malpractice by learners please see *Pearson's Centre Guidance: Dealing with Malpractice*, available on our website.

The procedures we ask you to adopt vary between units that are internally assessed and those that are externally assessed.

Internal assessment

Centres are required to take steps to prevent malpractice and to investigate instances of suspected malpractice. Learners must be given information that explains what malpractice is for internal assessment and how suspected incidents will be dealt with by the centre. The *Centre Guidance: Dealing with Malpractice* document gives full information on the actions we expect you to take.

Pearson may conduct investigations if we believe that a centre is failing to conduct internal assessment according to our policies. The above document gives further information and examples, and details the penalties and sanctions that may be imposed.

In the interests of learners and centre staff, centres need to respond effectively and openly to all requests relating to an investigation into an incident of suspected malpractice.

External Assessment

External assessment means all aspects of units that are designated as external in this specification, including preparation for tasks and performance. For these assessments, centres must follow the JCQ procedures set out in the latest version of the document *JCQ Suspected Malpractice in Examinations and Assessments Policies and Procedures* (available on the JCQ website, www.jcq.org.uk).

In the interests of learners and centre staff, centres need to respond effectively and openly to all requests relating to an investigation into an incident of suspected malpractice.

Learner Malpractice

The head of centre is required to report incidents of suspected learner malpractice that occur during Pearson examinations. We ask centres to complete JCQ Form M1 (www.jcq.org.uk/malpractice) and email it with any accompanying documents (signed statements from the learner, invigilator, copies of evidence, etc) to the Investigations Team at pqsmalpractice@pearson.com. The responsibility for determining appropriate sanctions or penalties to be imposed on learners lies with Pearson.

Learners must be informed at the earliest opportunity of the specific allegation and the centre's malpractice policy, including the right of appeal. Learners found guilty of malpractice may be disqualified from the qualification for which they have been entered with Pearson.

Teacher/Centre Malpractice

The head of centre is required to inform Pearson's Investigations Team of any incident of suspected malpractice by centre staff, before any investigation is undertaken. The head of centre is requested to inform the Investigations Team by submitting a JCQ M2(a) form (downloadable from www.jcq.org.uk/malpractice) with supporting documentation to pqsmalpractice@pearson.com. Where Pearson receives allegations of malpractice from other sources (for example Pearson staff, anonymous informants), the Investigations Team will conduct the investigation directly or may ask the head of centre to assist.

Incidents of maladministration (accidental errors in the delivery of Pearson qualifications that may affect the assessment of learners) should also be reported to the Investigations Team using the same method.

Heads of Centres/Principals/Chief Executive Officers or their nominees are required to inform learners and centre staff suspected of malpractice of their responsibilities and rights, please see 6.15 of JCQ Suspected Malpractice in Examinations and Assessments Policies and Procedures.

Pearson reserves the right in cases of suspected malpractice to withhold the issuing of results/certificates while an investigation is in progress. Depending on the outcome of the investigation, results and/or certificates may not be released or they may be withheld.

We reserve the right to withhold certification when undertaking investigations, audits and quality assurances processes. You will be notified within a reasonable period of time if this occurs.

Sanctions & Appeals

Where malpractice is proven we may impose sanctions or penalties.

Where learner malpractice is evidenced, penalties may be imposed such as:

- Mark reduction for affected external assessments
- Disqualification from the qualification
- Debarment from registration for Pearson qualifications for a period of time

If we are concerned about your centre's quality procedures we may impose sanctions such as:

- working with you to create an improvement action plan
- requiring staff members to receive further training
- placing temporary blocks on your certificates
- placing temporary blocks on registration of learners
- debarring staff members or the centre from delivering Pearson qualifications
- suspending or withdrawing centre approval status

The centre will be notified if any of these apply.

Pearson has established procedures for centres that are considering appeals against penalties and sanctions arising from malpractice. Appeals against a decision made by Pearson will normally be accepted only from Heads of Centres (on behalf of learners and/or members or staff) and from individual members (in respect of a decision taken against them personally). Further information on appeals may be found in the Enquiries and Appeals policy, which is located on our website. In the initial stage of any aspect of malpractice, please notify the Investigations team via pqsmalpractice@pearson.com who will inform you of the next steps.

Reasonable adjustments to assessments

Centres are able to make adjustments to assessments to take account of the needs of individual learners, in line with the guidance given in the Pearson document *Supplementary guidance for reasonable adjustment and special consideration in vocational internally assessed units*. In most instances, adjustments can be achieved by following the guidance, for example allowing the use of assistive technology or adjusting the format of the evidence. We can advise you if you are uncertain as to whether an adjustment is fair and reasonable. Any reasonable adjustment must reflect the normal learning or working practice of a learner in a centre or working within the occupational area.

Further information on access arrangements can be found in the Joint Council for Qualifications (JCQ) document *Adjustments for candidates with disabilities and learning difficulties, Access Arrangements, Reasonable Adjustments and Special Consideration for General and Vocational qualifications*.

Both documents are on our website, qualifications.pearson.com

Special consideration

Centres must operate special consideration in line with the guidance given in the Pearson document *Supplementary guidance for reasonable adjustment and special consideration in vocational internally assessed units*. Special consideration may not be applicable in instances where:

- assessment requires the demonstration of practical competence
- criteria have to be met fully
- units/qualifications confer licence to practice.

Centres cannot apply their own special consideration; applications for special consideration must be made to Pearson and can be made on a case-by-case basis only. A separate application must be made for each learner. Certification claims must not be made until the outcome of the application has been received.

Further information on special consideration can be found in the Joint Council for Qualifications (JCQ) document *Adjustments for candidates with disabilities and learning difficulties, Access Arrangements, Reasonable Adjustments and Special Consideration for General and Vocational qualifications*.

Both of the documents mentioned above are on our website, qualifications.pearson.com

5 Recognising prior learning and achievement

Recognition of Prior Learning

Recognition of Prior Learning (RPL) is a method of assessment (leading to the award of credit) that considers whether a learner can demonstrate that they can meet the assessment requirements for a unit through knowledge, understanding or skills they already possess and so do not need to develop through a course of learning.

Pearson encourages centres to recognise learners' previous achievements and experiences in and outside the workplace, as well as in the classroom. RPL provides a route for the recognition of the achievements resulting from continuous learning.

RPL enables recognition of achievement from a range of activities using any valid assessment methodology. If the assessment requirements of a given unit or qualification have been met, the use of RPL is acceptable for accrediting a unit, units or a whole qualification. Evidence of learning must be sufficient, reliable and valid.

Further guidance is available in our policy document Recognition of Prior Learning Policy and Process, available on our website, qualifications.pearson.com

Credit transfer

Credit transfer describes the process of using a credit or credits awarded in the context of a different qualification or awarded by a different awarding organisation towards the achievement requirements of another qualification. All awarding organisations recognise the credits awarded by all other awarding organisations that operate within the QCF.

If learners achieve credits with other awarding organisations, they do not need to retake any assessment for the same units. The centre must keep evidence of credit achievement.

6 Centre resource requirements

As part of the approval process, centres must make sure that the resource requirements below are in place before offering the qualification.

General resource requirements

- Centres must have appropriate physical resources (for example IT, learning materials, teaching rooms) to support delivery and assessment.
- Staff involved in the assessment process must have relevant expertise and occupational experience.
- There must be systems in place that ensure continuing professional development (CPD) for staff delivering the qualification.
- Centres must have in place appropriate health and safety policies relating to the use of equipment by learners.
- Centres must deliver the qualifications in accordance with current equality legislation. For further details on Pearson's commitment to the Equality Act 2010, please see *Section 10 Access and recruitment* and *Section 11 Access to qualifications for learners with disabilities or specific needs*. For full details of the Equality Act 2010, please go to www.legislation.gov.uk

Specific resource requirements

As well as the general resource requirements given above, there are specific resources that centres must provide. They are listed by unit below.

Unit	Resources required
1: Planning and Participating in Work Experience	Learners will need a work placement programme in place, where they can expect to learn through experience from working in a trade business environment and to validate the theory and knowledge delivered in a classroom setting.
10: Understanding How to Use Computer Aided Design Software	Computer aided design software

7 Centre recognition and approval centre recognition

Centres that have not previously offered Pearson qualifications need to apply for, and be granted, centre recognition as part of the process for approval to offer individual qualifications.

Existing centres will be given 'automatic approval' for a new qualification if they are already approved for a qualification that is being replaced by a new qualification and the conditions for automatic approval are met.

Guidance on seeking approval to deliver BTEC qualifications is given on our website, qualifications.pearson.com

Approvals agreement

All centres are required to enter into an approval agreement that is a formal commitment by the head or principal of a centre to meet all the requirements of the specification and any associated codes, conditions or regulations.

Pearson will act to protect the integrity of the awarding of qualifications. If centres do not comply with the agreement, this could result in the suspension of certification or withdrawal of approval.

8 Quality assurance of centres

Quality assurance is at the heart of vocational qualifications. The centre assesses BTEC qualifications. The centre will use quality assurance to make sure that their managers, internal verifiers and assessors are standardised and supported. Pearson use quality assurance to check that all centres are working to national standards. It gives us the opportunity to identify and provide support, if needed, to safeguard certification. It also allows us to recognise and support good practice.

For the qualifications in this specification, the Pearson quality assurance model will follow one of the processes listed below.

- 1 Delivery of the qualification as part of a BTEC Apprenticeship ('single click' registration):
 - an annual visit by a Standards Verifier to review centre-wide quality assurance systems and sampling of internal verification and assessor decisions.
- 2 Delivery of the qualification outside the Apprenticeship:
 - an annual visit to the centre by a Centre Quality Reviewer to review centre-wide quality assurance systems
 - Lead Internal Verifier accreditation – this involves online training and standardisation of Lead Internal Verifiers using our OSCA platform, accessed via Edexcel Online. Please note that not all qualifications will include Lead Internal Verifier accreditation. Where this is the case, each year we will allocate a Standards Verifier to conduct postal sampling of internal verification and assessor decisions for the Principal Subject Area.

For further details please see the *UK Vocational Quality Assurance Handbook* on our website, qualifications.pearson.com

9 Programme delivery

Centres are free to offer this qualification using any mode of delivery (for example full-time, part-time, evening only, distance learning) that meets their learners' needs. Whichever mode of delivery is used, centres must make sure that learners have access to the resources identified in the specification and to the subject specialists delivering the units.

Those planning the programme should aim to enhance the vocational nature of the qualification by:

- liaising with employers to make sure that a course is relevant to learners' specific needs
- accessing and using non-confidential data and documents from learners' workplaces
- developing up-to-date and relevant teaching materials that make use of scenarios that are relevant to the sector
- giving learners the opportunity to apply their learning in practical activities
- including sponsoring employers in the delivery of the programme and, where appropriate, in assessment
- making full use of the variety of experience of work and life that learners bring to the programme.

Where legislation is taught, centres must ensure that it is current and up to date.

10 Access and recruitment

Pearson's policy regarding access to our qualifications is that:

- they should be available to everyone who is capable of reaching the required standards
- they should be free from any barriers that restrict access and progression
- there should be equal opportunities for all those wishing to access the qualifications.

Centres are required to recruit learners to BTEC Specialist qualifications with integrity.

Applicants will need relevant information and advice about the qualification to make sure it meets their needs.

Centres should review the applicant's prior qualifications and/or experience, considering whether this profile shows that they have the potential to achieve the qualification.

For learners with disabilities and specific needs, this review will need to take account of the support available to the learner during teaching and assessment of the qualification. The review must take account of the information and guidance in *Section 11 Access to qualifications for learners with disabilities or specific needs*.

Learners may be aged between 14 and 16 and therefore potentially vulnerable. Where learners are required to spend time and be assessed in work settings, it is the centre's responsibility to ensure that the work environment they go into is safe.

11 Access to qualifications for learners with disabilities or specific needs

Equality and fairness are central to our work. Pearson's Equality Policy requires all learners to have equal opportunity to access our qualifications and assessments and that our qualifications are awarded in a way that is fair to every learner.

We are committed to making sure that:

- learners with a protected characteristic (as defined by the Equality Act 2010) are not, when they are undertaking one of our qualifications, disadvantaged in comparison to learners who do not share that characteristic
- all learners achieve the recognition they deserve from undertaking a qualification and that this achievement can be compared fairly to the achievement of their peers.

For learners with disabilities and specific needs, the assessment of their potential to achieve the qualification must identify, where appropriate, the support that will be made available to them during delivery and assessment of the qualification. Please see the information regarding reasonable adjustments and special consideration in Section 4, Assessment.

Learners taking a qualification may be assessed in British sign language or Irish sign language where it is permitted for the purpose of reasonable adjustments.

12 Units

Units have the following sections.

Unit title

The unit title is on the QCF and this form of words will appear on the learner's Notification of Performance (NOP).

Unit reference number

Each unit is assigned a unit reference number that appears with the unit title on the Register of Regulated Qualifications.

QCF level

All units and qualifications within the QCF have a level assigned to them. There are nine levels of achievement, from Entry to Level 8. The QCF Level Descriptors inform the allocation of the level.

Credit value

When a learner achieves a unit, they gain the specified number of credits.

Guided learning hours

Guided learning hours are the times when a tutor, trainer or facilitator is present to give specific guidance towards the learning aim for a programme. This definition covers lectures, tutorials and supervised study in, for example, open learning centres and learning workshops. It also includes assessment by staff where learners are present. It does not include time spent by staff marking assignments or homework where the learner is not present.

Unit aim

This gives a summary of what the unit aims to do.

Essential resources

This section lists any specialist resources needed to deliver the unit. The centre will be asked to make sure that these resources are in place when it seeks approval from Pearson to offer the qualification.

Learning outcomes

The learning outcomes of a unit set out what a learner knows, understands or is able to do as the result of a process of learning.

Assessment criteria

Assessment criteria specify the standard required by the learner to achieve each learning outcome.

Unit amplification

Unit amplification sets out the range of subject material required for the programme of learning and specifies the knowledge and understanding required for achievement of the unit. It enables centres to design and deliver a programme of learning that will enable learners to achieve each learning outcome and to meet the standard determined by the assessment criteria.

Where relevant and/or appropriate, unit amplification is informed by the underpinning knowledge and understanding requirements of related National Occupational Standards (NOS).

Relationship between amplification and assessment criteria

Although it is not a requirement that all of the amplification is assessed, learners should be given the opportunity to cover it all. However, the indicative amplification (see below) will need to be covered in a programme of learning to enable learners to meet the standard required in the assessment criteria.

Legislation

Legislation cited in the units is current at time of publication. The most recent legislation should be taught and assessed internally.

Information for tutors

This section gives tutors information on delivery and assessment. It contains the following subsections.

- *Delivery* – explains the content's relationship to the learning outcomes and offers guidance on possible approaches to delivery.
- *Assessment* – gives information about the evidence that learners must produce, together with any additional guidance if appropriate. This section should be read in conjunction with the assessment criteria.
- *Suggested resources* – lists resource materials that can be used to support the teaching of the unit, for example books, journals and websites.

Unit 1: Planning and Participating in Work Experience

Unit reference number: J/505/4015

QCF level: 2

Credit value: 6

Guided learning hours: 55

Unit aim

In this unit learners will plan and undertake a work experience placement. The unit aims to give learners the knowledge and skills needed for employment. Learners will prepare for the work placement by finding out information about the company or organisation where they will be working, and set skills and personal development goals from learning gained in the work experience placement.

Essential resources

For this unit, centres need work experience placements for their learners

Learning outcomes, assessment criteria and unit amplification

To pass this unit, the learner needs to demonstrate that they can meet all the learning outcomes for the unit. The assessment criteria determine the standard required to achieve the unit.

Learning outcomes		Assessment criteria		Unit amplification
1	Understand the importance of planning for a work experience placement	1.1	Explain how own interests inform the selected work experience placement	<ul style="list-style-type: none"> □ Own interests: e.g. working with others, being creative, music, technology, building, caring for animals □ Work experience placements in a Trade Business environment □ Own expectations: job roles available; development of knowledge and skills, e.g. self-management, team working, problem solving, communication skills, communication, customer awareness
		1.2	Explain the information needed before starting the work experience placement	<ul style="list-style-type: none"> □ Sources of information: e.g. company leaflets, brochures or website, Jobcentre Plus, learners who have previously been on a work placement at the same business, staff from the company or organisation, conversation or correspondence with company or organisation providing the work placement □ Information about the placement organisation: type of company or organisation; ownership, e.g. public or private, sole trader, partnership; function, e.g. service provision, retail, construction, logistics, administrative; location; size, e.g. small, large, global, number of employees; career prospects within the organisation □ Structure of the organisation: e.g. organisation chart, number of departments, internal and external customers, learner's place in the structure

Learning outcomes		Assessment criteria		Unit amplification
		1.3	Explain the importance of finding key information about the work placement	<ul style="list-style-type: none"> □ Key information: how to get to the placement; details about terms and conditions of work, e.g. hours of work, absence procedures, dress code; line manager or supervisor; seeking advice relating to work and/or colleague relationships □ Expectations of the employer: e.g. maintaining workplace values, personal presentation and hygiene, attitudes and behaviours, skills needed; allocated job role and responsibilities □ Importance: e.g. to ensure arrival on time, arrive appropriately dressed, who to seek advice from about allocated job role and tasks and skills needed

Learning outcomes		Assessment criteria		Unit amplification
2	Be able to work appropriately in a work placement	2.1	Use the information given at induction correctly during the work experience placement	<ul style="list-style-type: none"> □ Induction: information about the organisation; work placement colleagues and roles; health and safety responsibilities e.g. evacuation procedures, first aid procedures, reporting hazards; refreshment facilities; reporting absence and late arrival, confidentiality
		2.2	Explain own role within the work experience placement	<ul style="list-style-type: none"> □ Own role: overview of role within organisation, e.g. provide administrative support, help colleagues, knowing extent of own responsibilities, knowing the limitations of role and responsibilities, using appropriate sources of support and guidance in difficult or emotional stress situations; how the role will develop the key competencies needed for employability e.g. self-management, team working, problem solving, communication skills
		2.3	Perform a range of tasks correctly during the work experience placement	<ul style="list-style-type: none"> □ Tasks: daily routine tasks e.g. opening post, taking messages, checking emails, checking equipment for health and safety purposes, setting up equipment, liaising with line manager; project work □ Following instructions: asking questions or requesting clarification if instructions or messages are unclear or confusing, consulting user guides or requesting further assistance when using a new piece of equipment □ Self-management: e.g. accepting responsibility for own tasks, being flexible, resilient, self-starting, managing time to complete tasks, solving problems by analysing situations and developing solutions
		2.4	Interact appropriately with others in the workplace	<ul style="list-style-type: none"> □ Interacting appropriately: e.g. paying attention to effective working guidelines, codes of conduct and personal reviews/appraisals in the place of work, behaving appropriately towards colleagues and customers, interacting with customers in the workplace, communicating with other colleagues, being assertive, managing time and workload to complete allocated tasks, seeking help and advice when needed from correct person

Learning outcomes		Assessment criteria		Unit amplification
3	Be able to work safely in a work experience placement	3.1	Identify potential risks and hazards in the work experience placement	<ul style="list-style-type: none"> □ Risks: something that could cause an adverse effect, e.g. wet stairs or floor, trailing wires, loud noise, breathing in toxic substance □ Hazards: the likelihood that the risk will result in the adverse effect, e.g. slipping over on wet floor, tripping over trailing wires, loud noise resulting in hearing loss, breathing in toxic substance resulting in illness
		3.2	Apply organisational codes of practice, procedures and safety rules appropriately	<ul style="list-style-type: none"> □ Apply organisational procedures: applying procedures when carrying out the job e.g. following health and safety rules for dealing with hazardous substances, dealing with customer enquiries according to guidelines in the training manual; following the terms and conditions of the work placement; following dress codes imposed by the work placement; ensuring personal conduct follows organisational practice in upholding health and safety; locating health and safety information, e.g. fire exit notices on doors, sector-specific notices such as handling of hazardous materials

Learning outcomes		Assessment criteria		Unit amplification
4	Be able to set realistic goals relating to the work experience placement	4.1	Explain what has been learned from the work experience placement	<ul style="list-style-type: none"> □ Learning from the work placement: e.g. knowledge of new vocational area or area of interest, confirming whether or not to work in a particular sector or industry, awareness of personal skills and knowledge, awareness of strengths and weaknesses, desire to find out further information about a particular career, industry or organisation □ Personal skills used and gained: e.g. communication, problem solving, self-confidence, assertiveness, flexibility, positive approach □ Work skills used and gained: e.g. IT, teamwork, note taking, meeting attendance, punctuality, telephone manner, business and customer awareness, following instructions □ Reflecting on experiences gained: being ready to improve own performance based on feedback, reflective learning, e.g. reflecting on new knowledge and skills gained, identifying what went well and what could be improved; challenges faced; problems arising and how these were overcome or resolved
		4.2	Use feedback on the work placement experience to assist in making choices about a future career	<ul style="list-style-type: none"> □ Consider personal and work skills: methods, e.g. use strengths and weaknesses analysis tool, SWOT analysis, reflect on past performances and achievements □ Feedback from others: tutors, supervisors, mentors, peers
		4.3	Set goals for skills and personal development which build on learning from the work experience placement	<ul style="list-style-type: none"> □ Goal setting: goals should be realistic to placement expectation and responsibilities, SMART (specific, measurable, achievable, realistic, time-based), related to career aims □ Types of goals: short-term, long-term, personal, work-related goals, skills development, qualifications targeted

Information for tutors

Delivery

For learning outcome 1, learners will plan for their work experience placement by understanding how their interests and expectations relate to their work experience placement. They will learn what information they need before starting the placement and its importance. This unit could be delivered in conjunction with unit 2, Understanding How to Deliver Customer Relationships in Trade Business Services, to enable the learner to understand the relationship between their role and the structure of the organisation, levels of authority and its functions.

For learning outcome 2, learners will carry out a period of work experience, using the information provided at the induction to the organisation where they will carry out their placement. They will develop an understanding of their role in the placement. They will carry out a range of tasks and interact with others. This unit could also incorporate delivery of with Unit 2, Understanding How to Deliver Customer Relationships in Trade Business Services, allowing the learner to demonstrate appropriate work behaviours and to understand from practice, methods of communicating effectively, with colleagues and customer. Elements of Unit 4, Understanding Employment Responsibilities and Rights, could also be delivered with this unit linking the relationship of legislation and company policies with the need to work appropriately.

For learning outcome 3, learners will need to work safely, identifying potential risks and hazards, exploring organisational procedures and codes of practice. This could be delivered in conjunction with Unit 3, Health and Safety Awareness in a Working Environment, allowing the learner to demonstrate how they have identified hazards or risks and reported in line with their organisation policy.

For learning outcome 4, learners will review their placement, using feedback received. They will use this feedback to set goals for their personal development.

Learners will be attending different work settings for their placement experience and developing their own personal and professional work skills. This unit gives them the opportunity to learn about the structure and functions of organisations operating in the facilities sector, and to gain general employable skills that can be applied to any work situation, such as teamwork and communicating effectively. The delivery of this unit allows learners to undertake independent research, give presentations and participate in discussions. Guest speakers will help learners relate the content of the unit to the workplace.

Centres are expected to offer learners a meaningful work placement as part of their programme of learning. The DfE definition of meaningful work experience is:

- 'Purposeful, substantial, offers challenge and is relevant to the young person's study programme and/or career aspirations.
- It is managed well under the direction of a supervisor in order to ensure that the student obtains a genuine learning experience suited to their needs.
- It ensures that time is well spent: the employer has prepared a structured plan for the duration of the work placement that provides tangible outcomes of the student and employer.
- It provides up-front clarity about the roles, responsibilities and the expectations of the student and employer.

- It is reviewed at the end: the employer provides some form of reference or feedback based on the young person's performance during their time on the work placement.'

The work placement may be experiential, i.e. based on one or two short periods of work experience or work-related learning to test vocational sectors with a view to progressing future study or employment in that sector; vocational, i.e. focused on a particular vocational area to complement a study programme; or extended, i.e. focused on developing employability skills such as self-management, team working, problem solving, communication, literacy, numeracy and IT skills for learners who may be on a traineeship or supported internship. It is considered to be good practice for a work experience placement to last for at least two weeks.

Centres and learners should work with employers in planning the work placement, including the learner's role, the tasks to be carried out and the skills that learners hope to develop.

Work placements must be flexible to accommodate the needs of young people. They must be matched to learners' interests and aspirations, with learners undertaking high-quality work rather than simply observing employees or carrying out mundane tasks.

A written agreement must be made between the centre and employer and the work placement must be planned in advance with clear objectives. Learners on work placement must receive a structured induction at the start of the placement, which provides them with clear objectives.

Learners must have the opportunity to receive clear feedback at key stages of the placement with their employer and centre.

Assessment

The centre will devise and mark the assessment for this unit.

Learners must meet all assessment criteria to pass the unit.

For assessment criterion 1.1, learners should give at least two examples of their own interests and explain how they have helped inform the choice of work placement.

For 1.2, learners could complete a table which gives key information about their selected work placement and stating where they obtained this information. Learners should give details on the type, size and purpose of the organisation, the organisational structure and its internal and external customers (if relevant).

Assessment criterion 1.3 requires learners to explain the terms and conditions of work relevant to their work placement, and the expectations of the employer. Information could include, for example, details such as hours of work, dress code, number of days attending work placement, breaks, absence procedures. Learners should give two reasons for the importance of finding this information before starting the placement.

For assessment criterion 2.1, learners need to demonstrate that they have used the information given at induction correctly. This could be by answering questions, by taking part in various procedures, for example evacuation, and reporting any absences correctly. Supervisors could complete a witness statement when learners have demonstrated actions related to knowledge given at induction.

Assessment criteria 2.2, 2.3 and 2.4 require learners to keep a portfolio of evidence to show the activities carried out and to demonstrate effective working practice by interacting with others. The portfolio could contain a log or diary, observation reports, witness testimonials, a reflective account of activities completed, skills learned etc. Details could cover procedures to be followed, health and safety issues, quality checking processes, for example checking work has been completed to a satisfactory standard by the line manager, timescales (if relevant). It is important that learners are able to interact positively with colleagues from a range of levels and familiarity.

To achieve assessment criterion 3.1, learners should identify at least two potential risks and two potential hazards with reasons, within their work placement.

For assessment criterion 3.2, learners must be able to apply at least two organisational procedures appropriately, with supporting evidence from an observation report or witness testimonial. For example, using IT correctly, completing forms accurately, answering telephone calls to deal with enquiries or taking messages efficiently.

For learning outcome 4, learners must present evidence of tasks undertaken during the work placement and what was learned from these tasks. For 4.1, an appraisal-style interview could be used for the assessment, supported with evidence showing that the learner has learned something new. It is not sufficient for the learner to simply write a description of an activity or task undertaken. Learners must also be able to explain how they have evidenced that they have learned something new, for example a checklist completed by the work placement supervisor, a witness statement, the practical demonstration of a new skill.

For 4.2, learners need to receive feedback from at least two appropriate people on their work experience placement. Feedback can be in written form or in the form of a discussion. Learners need to show that they are able to make a formal assessment of the value of the work they have carried out, recorded evidence must be available for external standards verification.

For 4.3, learners must demonstrate the ability to set specific, realistic goals for skills and personal development. They need to provide four goals – two short-term and two long-term SMART goals – as a result of what they have learned from their work placement. Any potential objectives written before the work placement could be reviewed and developed.

Unit 2: Understanding How to Deliver Customer Relationships in Trade Business Services

Unit reference number: J/505/3432

QCF level: 2

Credit value: 5

Guided learning hours: 40

Unit aim

The purpose of this unit is to provide learners with knowledge of customer relationships and their customers' expectations in the trade business sector. Learners will develop knowledge of the part that customer service practitioners are expected to play in delivering customer relationships in trade business organisations, best practice in the development of customer relationships, and the impact legislation and regulation have on customer relationships.

This unit aims to develop and broaden learners' understanding of customer relationships in the trade business sector. Learners will look into the different types of internal and external customer relationships and the specific needs that each may have. It is also important to understand how organisations set internal policies and procedures to ensure that customer relationship standards are maintained by staff.

Essential resources

There are no special resources needed for this unit.

Learning outcomes, assessment criteria and unit amplification

To pass this unit, the learner needs to demonstrate that they can meet all the learning outcomes for the unit. The assessment criteria determine the standard required to achieve the unit.

Learning outcomes		Assessment criteria		Unit amplification
1	Understand customer relationships	1.1	Describe the difference between internal and external customer relationships	<ul style="list-style-type: none"> □ External customers: new customers, account customers, repeat custom. □ Internal customers: other departments, other branches. □ Different behaviour and communication style required for internal and external customers.
		1.2	Explain the characteristics of a customer relationship in the trade business sector	<ul style="list-style-type: none"> □ Customer relationships, how to go the extra mile to deliver more, how to use the appropriate language and techniques to avoid undermining customer relationships.
		1.3	Describe why customer relationships are important in the trade business sector	<ul style="list-style-type: none"> □ The role of the customer in sustaining loyalty; growing new business through satisfaction and identifying opportunities for new products and services.
		1.4	Describe actions that may exceed customer relationship expectations to build customer loyalty	<ul style="list-style-type: none"> □ Customer expectations, different behaviours and culture, the range of communication styles and methods adopted, leads to repeat transactions and loyalty.
		1.5	Describe actions that undermine the customer relationship	<ul style="list-style-type: none"> □ Undermining customer relationships (attitude, presentation and communication of information, hostility, faulty products and poor service).

Learning outcomes		Assessment criteria		Unit amplification
2	Understand how a customer relationship is developed	2.1	Identify different job roles involved in the delivery of the customer relationship	<ul style="list-style-type: none"> □ Job roles and their contribution to building customer relationships (management, counter sales, warehouse, administration, design, sales and business development).
		2.2	Compare different responsibilities of people in the organisation to develop and maintain customer loyalty	<ul style="list-style-type: none"> □ Different roles within the organisation and how each role contributes to and maintains customer loyalty.
		2.3	Describe what actions are required to deliver the customer relationship	<ul style="list-style-type: none"> □ Techniques for dealing with customers (acknowledge, listen, answer, confirm). □ Overcoming objections (define, identify, prove, agree, desire, action (DIPADA) understanding functions of the product or service that is being sold).
		2.4	Describe how behaviour impacts on the customer experience	<ul style="list-style-type: none"> □ Developing customer relationships (body language, verbal and non-verbal communication, making an impression smile, eye contact, appearance, introduction).
		2.5	Identify customer service issues that can affect customer relationships	<ul style="list-style-type: none"> □ Common factors that can add value to building customer relationships and those that are likely to limit or adversely affect customer relationships.

Learning outcomes		Assessment criteria		Unit amplification
3	Understand how to communicate effectively in a trade business organisation	3.1	Describe how to greet a customer in line with organisational requirements	<ul style="list-style-type: none"> □ Greeting customers – eye contact, smiling, approachable, listening to needs, putting customers at their ease.
		3.2	Describe how to use positive communication techniques within the customer relationship	<ul style="list-style-type: none"> □ Key communication techniques, e.g. body language, appropriate wording, both written and oral, facial expressions, prior customer knowledge and etiquette.
		3.3	Describe how to show customers respect in line with organisational requirements	<ul style="list-style-type: none"> □ Application of the principles of communication and the impact of company guidelines and requirements on written communication.
		3.4	Describe how to use communication skills to close a sale in line with organisational requirements	<ul style="list-style-type: none"> □ The importance of following organisational guidelines in closing a sale, using correct language, appropriate processes and procedures and follow-up activities.
4	Understand how organisational customer service procedures contribute to growing and sustaining customer relationships	4.1	Describe how teamwork contributes to the customer relationship in an organisation	<ul style="list-style-type: none"> □ Impact of organisational customer service rules and processes on individual and collective roles and responsibilities within a team. □ Team loyalty. □ Team contributions. □ Understanding impact of acts and omissions within the team on growing and sustaining customer relationships.
		4.2	Assess how organisational procedures grow and sustain the customer relationship	<ul style="list-style-type: none"> □ How organisations develop policies and procedures to maintain their customer base through effective after-sales services.

Learning outcomes		Assessment criteria		Unit amplification
5	Understand legislative requirements that apply to customer relationships	5.1	Identify the legislative requirements to protect customer data	<input type="checkbox"/> Data Protection Act. <input type="checkbox"/> Freedom of Information Act. <input type="checkbox"/> Other relevant legislation.
		5.2	Describe how to protect the security of customer information in line with organisational procedures	<input type="checkbox"/> How the Data Protection Act applies in the organisation's policies and procedures.
		5.3	Identify how consumer legislation safeguards the trade business customer in relation to <ul style="list-style-type: none"> • credit agreements • faulty goods • description of goods 	<input type="checkbox"/> How the following can protect customers during and after trade business transactions: <ul style="list-style-type: none"> - Sale of Goods Act 1979 - Consumer Credit Act 1974 - Supply of Goods and Services Act 1982 - Misrepresentation Act 1967
		5.4	Describe how the organisation meets consumer legislative requirements	<input type="checkbox"/> The organisation's procedures in relation to the application of: <ul style="list-style-type: none"> - Sale of Goods Act 1979 - Consumer Credit Act 1974 - Supply of Goods and Services Act 1982 - Misrepresentation Act 1967

Learning outcomes		Assessment criteria		Unit amplification
		5.5	Identify how equality and diversity legislation applies to customer relationships in the trade business sector	<ul style="list-style-type: none"> □ Discrimination, body language, written and oral communication, stereotypes.
		5.6	Describe how to apply equality and diversity legislative requirements when dealing with customers	<ul style="list-style-type: none"> □ Customer base, including local, regional and national diversities. □ Application of the Equality Act 2010 and the organisation's policies in relation to it.

Information for tutors

Delivery

All the outcomes lend themselves to flexible delivery. Formal training sessions should have input from the trainer/assessor to identify the theoretical material and standard information but the learner can work individually or in a group researching and gathering information about the customer service approaches and policies provided by the company. Researching the company's policies and practices regarding customer service, observation of customer service interactions, and discussions all offer interactive approaches to learning about the products and services. Learners will be expected to have some knowledge of the legislative requirements in respect of data, product descriptions, sale and return of goods and the creation of credit agreements.

The learner will be introduced to the customer relationship, how it works and what their role is in within a team approach to secure consistently high levels of customer service within the organisational culture and approach adopted by the company.

Discussions, role play and other active training techniques provide motivational and interactive activities. By shadowing experienced members of the customer service team, learners will be able to see how to communicate with customers, build rapport, and sell products and services within the legislative and organisational constraints. Work placements must be flexible to accommodate the needs of young people. They must be matched to learners' interests and aspirations, with learners undertaking high-quality work rather than simply observing employees or carrying out mundane tasks.

This unit could be delivered in conjunction with Unit 1: Planning and Participating in Work Experience, where the learner can contextualise their learning in accordance with the organisation within which they carry out their work experience programme.

A written agreement must be made between the centre and employer and the work placement must be planned in advance with clear objectives. Learners on work placement must receive a structured induction at the start of the placement, which provides them with clear objectives.

Learners must have the opportunity to receive clear feedback at key stages of the placement with their employer and centre.

Assessment

The centre will devise and mark the assessment for this unit.

Learners must meet all assessment criteria to pass the unit.

Unit 3: Health and Safety Awareness in a Working Environment

Unit reference number: R/505/3434

QCF level: 2

Credit value: 3

Guided learning hours: 24

Unit aim

The purpose of this unit is to provide learners with an understanding of the possible health and safety issues and risks that may occur in a working environment. It aims to equip learners with an awareness of the potential hazards in a work environment, how to report these hazards and to whom and the correct procedures for dealing with any health and safety issues as they occur within the limits of their own role.

Essential resources

There are no special resources needed for this unit.

Learning outcomes, assessment criteria and unit amplification

To pass this unit, the learner needs to demonstrate that they can meet all the learning outcomes for the unit. The assessment criteria determine the standard required to achieve the unit.

Learning outcomes		Assessment criteria		Unit amplification
1	Understand the organisation's Health and Safety Policy	1.1	Identify the personnel responsible for Health and Safety	<ul style="list-style-type: none"> □ Individual responsibility and name individuals with specific responsibilities for health and safety.
		1.2	Describe the Health and Safety procedures for the organisation	<ul style="list-style-type: none"> □ Health and safety policy, risk assessment, manual handling, lifting, VDU (Visual Display Unit), RIDDOR 2013 (Reporting of Injuries, Diseases and Dangerous Occurrences Regulations), COSHH 2002 (Control of Substances Hazardous to Health).
2	Understand where potential hazards can occur in the workplace	2.1	Describe potential hazards in the workplace environment	<ul style="list-style-type: none"> □ Machinery, vehicles, storage and electrical equipment.
		2.2	Identify potential hazards associated with working practices	<ul style="list-style-type: none"> □ Slips and falls. □ Manual handling and safe lifting. □ Office equipment (guillotines, photocopiers, IT equipment, shredders etc.). □ Hazardous substances.
		2.3	Describe the process of risk assessment	<ul style="list-style-type: none"> □ Identification of risk, analysis of risk, prevention and training.

Learning outcomes		Assessment criteria		Unit amplification
3	Know how to maintain a safe working environment	3.1	Explain the role that good housekeeping plays in maintaining a safe working environment	<ul style="list-style-type: none"> □ Cleanliness and tidiness, safe storage, use of handrails, keeping alleyways and doors clear.
		3.2	Describe ways of ensuring the working environment is safe	<ul style="list-style-type: none"> □ Training, signage, health and safety policy, induction, safe storage, observation, and personal responsibility.
4	Understand the individual's responsibility for Health and Safety at work	4.1	Explain the importance of using personal protective equipment	<ul style="list-style-type: none"> □ Storage, accident prevention, sight and hearing loss, avoiding slips and falls.
		4.2	Outline the correct procedures for manual handling	<ul style="list-style-type: none"> □ How to lift correctly and store correctly.
		4.3	Outline the correct procedures for the use of display screen equipment	<ul style="list-style-type: none"> □ Installation, screen colour and brightness, font, height, light source.
		4.4	Explain why it is important to report all accidents, diseases and dangerous occurrences in the workplace	<ul style="list-style-type: none"> □ Reduce risk of repetition, safety of others, criminal and civil liability and risk assessment.

Learning outcomes		Assessment criteria		Unit amplification
5	Understand the procedures for fire prevention and emergency evacuation	5.1	Outline the correct procedure for evacuating the premises in an emergency	<ul style="list-style-type: none"> □ Fire exits, assembly points, emergency procedures, who to contact, fire marshals.
		5.2	Describe the key elements of fire prevention	<ul style="list-style-type: none"> □ Safe storage of chemicals, fire blankets, electrical wiring, storage, cigarette smoking.
		5.3	Explain the process for raising the alarm in the event of fire	<ul style="list-style-type: none"> □ Sprinkler systems, break glass, fire marshals, fire assembly points, fire exits, fire brigade.

Unit 4: Understanding Employment Responsibilities and Rights

Unit reference number: D/602/4769

QCF level: 2

Credit value: 3

Guided learning hours: 30

Unit aim

This unit supports learning of employment rights and responsibilities across all occupations and sectors.

Learners should be aware of and conversant with the rules, principles and regulations governing employment rights and responsibilities to ensure they understand the conditions under which they work. This understanding protects both the employee and the employer, ensuring that work practice is undertaken in a mutually respectful and safe environment.

Essential resources

There are no special resources needed for this unit.

Learning outcomes, assessment criteria and unit amplification

To pass this unit, the learner needs to demonstrate that they can meet all the learning outcomes for the unit. The assessment criteria determine the standard required to achieve the unit.

Learning outcomes		Assessment criteria		Unit amplification
1	Know the statutory rights and responsibilities of employees and employers within own area of work	1.1	Outline employee rights and responsibilities under Employment Law	<ul style="list-style-type: none"> □ Difference between rights and responsibilities; current employment legislation.
		1.2	Describe how related legislation can support employees in the workplace	<ul style="list-style-type: none"> □ Current anti-discrimination legislation, e.g. gender, race, religion, disability, age; working hours and holiday entitlement; data protection; other relevant examples.
		1.3	Describe employer responsibilities in the workplace	<ul style="list-style-type: none"> □ Duty of care to employees, e.g. safe and healthy workplace, public liability insurance; appropriate training and development; adhere to terms of contract.
		1.4	Identify sources and types of information and advice on own employment rights and responsibilities	<ul style="list-style-type: none"> □ HR department; line manager; trade union representative; professional body; Citizens Advice Bureau; community legal advice; internet; trade magazines and journals.

Learning outcomes		Assessment criteria		Unit amplification
2	Understand agreed ways of working that protect own relationship with employer	2.1	Explain the terms and conditions of own contract of employment	<ul style="list-style-type: none"> □ Terms and conditions; hours; pay rate; holiday entitlement; format of contract.
		2.2	Describe information shown on own pay statement	<ul style="list-style-type: none"> □ Gross wages; deductions; net pay; personal information, e.g. national insurance number, employee number.
		2.3	Explain the procedures to follow in event of a grievance	<ul style="list-style-type: none"> □ Grounds for grievance; informal approach; formal procedure within own workplace.
		2.4	Identify the personal information that must be kept up to date with own employer	<ul style="list-style-type: none"> □ Personal data, e.g. name, address, telephone number(s), qualifications, national insurance number, tax code, bank details, disabilities, employment history, absence details, training. □ Personal responsibility; data protection considerations.
		2.5	Explain agreed ways of working with employer	<ul style="list-style-type: none"> □ Workplace procedures for leave entitlement, e.g. holiday, maternity, paternity, compassionate; procedures to deal with bullying or discrimination; procedures for self-certification.

Learning outcomes		Assessment criteria		Unit amplification
3	Know how own role fits within the wider context of the sector	3.1	Describe the effect of own role on service provision	□ Own job description, organisation's aim.
		3.2	Describe how own role links to the wider sector	□ Aims and objectives of the employment sector.
		3.3	Describe the main roles and responsibilities of representative bodies that influence the wider sector	□ Trade unions, professional bodies, Health and Safety Executive.
		3.4	Outline different viewpoints around an issue of public concern relevant to the sector or occupation	□ Consider the effect of recent high-profile events on the industry.
		3.5	Describe how issues of public concern have altered public views of the sector or occupation	□ Introduction of legislation and good practice, e.g. Criminal Record Bureau checks, risk assessment; health and safety legislation, disabilities and effects on building regulations.
4	Know career pathways available within own and related sectors	4.1	Describe occupational opportunities within own sector and related sectors	□ Progression routes within own sector; progression routes within related sectors; importance of continuing professional development.
		4.2	Identify sources of information related to a chosen career pathway	□ Line manager, Sector Skills Councils, Job Centres, relevant websites.
		4.3	Identify next steps in own career pathway	□ Create a development plan; consult related websites.

Information for tutors

Delivery

This unit includes general topics and those that apply specifically to the learner's workplace. Input should be as varied as possible making good use of internet resources and websites, together with group work, individual study and team activities as well as more traditional written tasks. Learners should be encouraged to read around the subject to gain more understanding of the contents of the relevant legislation.

This unit can be delivered in conjunction with Unit 1, Planning and Participating in Work Experience, where the learner can contextualise their learning in accordance with the organisation within which they carry out their work experience programme.

Visiting speakers, who work in various parts of the organisation or who work for associated organisations, would greatly enliven the programme. All study should be related to the workplace.

Assessment

The centre will devise and mark the assessment for this unit.

Learners must meet all assessment criteria to pass the unit.

Naturally occurring evidence should be used where possible. It is likely that learners will undertake an induction process for any work role or work placement. Learners could build a portfolio of evidence or produce a workbook that, as well as showing evidence of achievement, could be used as a point of reference for their future work.

Unit 5: Understanding the Use of Email in Business to Business Communication

Unit reference number: Y/505/3435

QCF level: 2

Credit value: 2

Guided learning hours: 14

Unit aim

The purpose of this unit is to provide learners with knowledge and understanding of the importance of email and how it can be used to increase sales within trade businesses. It covers how email can be used as a tool to generate customer leads as well as communicate with existing customers.

Essential resources

There are no special resources needed for this unit.

Learning outcomes, assessment criteria and unit amplification

To pass this unit, the learner needs to demonstrate that they can meet all the learning outcomes for the unit. The assessment criteria determine the standard required to achieve the unit.

Learning outcomes		Assessment criteria		Unit amplification
1	Understand how email is used to generate business in a business to business environment	1.1	Describe potential benefits of communicating a trade event to a distribution list	<ul style="list-style-type: none"> □ Direct to customer, no 'lost in post', can target specific customer type (established, new business, lapsed) by use of distribution lists, no 'gate-keeper'. □ Easier to evaluate impact comparing sent mail targets to increased sales on product. □ Target trade business events to wide spectrum of businesses. □ Easier to add and remove customer information from distribution lists. □ Easy to send promotional flyers. □ Quick and time effective using draft documents. Information can be re-sent quickly. Guaranteed a quick turnaround on quotes and proposals.
		1.2	Explain the advantages and disadvantages of emailing account information to customers in comparison to other methods	<ul style="list-style-type: none"> □ Advantages: an efficient communication method for updating account status information to new and existing customers, interactive so that people can respond, bespoke to the trade business, quick and cheap. □ Disadvantages: poorly maintained distribution list, information sent to wrong customer target, impersonal, unemotional, can't respond to questions, easy way out, takes the place of face-to-face or voice-to-voice customer interaction, detached, misinformation circulated, over-used, less brand control, increases the risk that the trade business may stop talking to customers, anonymous to the trade business and recipient if not signed by sender.

Learning outcomes		Assessment criteria		Unit amplification
2	Know how to create and distribute emails	2.1	Describe the different purposes for sending internal customer emails	<ul style="list-style-type: none"> □ Communication, information, clarification, launch of new products, marketing and sales, policies and procedures.
		2.2	Describe the different purposes for sending external customer emails	<ul style="list-style-type: none"> □ Marketing and sales, promotions, launch of new products, product recall, networking, compliance.
		2.3	Describe the content and structure required for different types of email	<ul style="list-style-type: none"> □ Formal emails that incorporate organisational policy. □ Informal emails that incorporate organisational policy.
		2.4	Describe the importance of using in-house style(s) for sending emails	<ul style="list-style-type: none"> □ In-house templates, corporate culture, branding.
		2.5	Identify the most effective processes for emailing different types of information to customers	<ul style="list-style-type: none"> □ Creation of contacts listings. □ Attachments. □ Read and receipt requests. □ Group emails. □ Address book.
		2.6	Describe the company guidelines for the use of email systems	<ul style="list-style-type: none"> □ Organisation's policies that take account of: <ul style="list-style-type: none"> - Data Protection Act (1998), Freedom of Information Act (2000) - organisation's communication policy - disclosure of sensitive information.

Learning outcomes		Assessment criteria		Unit amplification
3	Understand the potential impact of poor email communication on business	3.1	Describe the potential results of inefficient use of email communication on business	<ul style="list-style-type: none"> □ Customers receive literature irrelevant to their business. □ Missed appointments. □ Trade-day events under-attended.
		3.2	Describe the potential results of incorrect use of email communication on business	<ul style="list-style-type: none"> □ Impact (loss of business, infringement of Data Protection Act (1998); impact of the Freedom of Information Act (2000), impact of social networks, loss of reputation/customer loyalty). □ Incorrect account status information to customer. □ Mail-shots targeted incorrectly, customers receive incorrect trade promotions, aggravated customers, loss of customer accounts, loss of new business through misinformation, proposals and/or quotations sent to the wrong customer.

Information for tutors

Delivery

All the learning outcomes can be delivered flexibly. Learners will be introduced to email, how it works and what their role is in a team approach to secure consistent use of company policy.

Formal training sessions should include input from the trainer/assessor to identify the theoretical material and standard information, but learners can work individually or in a group researching and gathering information about the use of email and associated policies provided by the company. Researching the company's policies and practices regarding email, observation of use of emails in the company, and discussions on the effective use of email all offer interactive approaches to learning about the role email plays in developing customer service, improving communications and generating sales. Learners will be expected to have some knowledge of the legislative requirements in respect of the use of email, and the limitations and potential negative impact it can have on a trade business organisation.

Discussions, role play and other active training techniques provide motivational and interactive activities. By shadowing experienced members of the customer service team, learners will be able to see how to communicate with customers using email to build a rapport, and sell products and services using company guidelines.

Assessment

The centre will devise and mark the assessment for this unit.

Learners must meet all assessment criteria to pass the unit.

Information for tutors

Delivery

This unit includes general topics and those that apply specifically to the learner's workplace. Input should be as varied as possible making good use of internet resources and websites, together with group work, individual study and team activities as well as more traditional written tasks. Learners should be encouraged to read around the subject to gain more understanding of the contents of the relevant legislation.

Visiting speakers, who work in various parts of the organisation or who work for associated organisations, would greatly enliven the programme. All study should be related to the workplace.

Assessment

The centre will devise and mark the assessment for this unit.

Learners must meet all assessment criteria to pass the unit.

Naturally occurring evidence should be used where possible. It is likely that learners will undertake an induction process for any work role or work placement. Learners could build a portfolio of evidence or produce a workbook that, as well as showing evidence of achievement, could be used as a point of reference for their future work.

Unit 6: Understanding How to Manage Stock for Customer Orders in Business to Business Services

Unit reference number: D/505/3436

QCF level: 2

Credit value: 2

Guided learning hours: 14

Unit aim

The purpose of this unit is to provide learners with the knowledge and understanding of stock control processes and procedures in relation to customer orders within trade business services. It includes the typical trading format of trade business services. The stock control process is typically undertaken by warehouse support staff working within these depots, following company procedures. This unit also covers the necessary reporting and recording procedures.

Essential resources

There are no special resources needed for this unit.

Learning outcomes, assessment criteria and unit amplification

To pass this unit, the learner needs to demonstrate that they can meet all the learning outcomes for the unit. The assessment criteria determine the standard required to achieve the unit.

Learning outcomes		Assessment criteria		Unit amplification
1	Know how to order stock for business to business customers	1.1	Describe the procedure for ordering stock for business to business customers	<ul style="list-style-type: none"> <input type="checkbox"/> Correct use of EPOS system (Electronic Point of Sale). <input type="checkbox"/> Supplier lead times. <input type="checkbox"/> Supply chain view of stock requirement criteria. <input type="checkbox"/> Customer required date in conjunction with local stock availability.
2	Know the allocation and transfer of stock in a business to business environment	2.1	Describe how stock is allocated once it has arrived	<ul style="list-style-type: none"> <input type="checkbox"/> Goods-inwards policy.
		2.2	Explain the impact of allocation on stock holding	<ul style="list-style-type: none"> <input type="checkbox"/> Cost of stock, space utilisation.
		2.3	Explain how to book and receive stock transfers to and from company storage facilities	<ul style="list-style-type: none"> <input type="checkbox"/> Booking and receipt of purchase orders. <input type="checkbox"/> Correction of delivery errors. <input type="checkbox"/> Booking and receipt of inter-branch transfers. <input type="checkbox"/> Booking and receipt of customer returns and exchanges.
		2.4	Explain the line check process	<ul style="list-style-type: none"> <input type="checkbox"/> Stock taking and ordering additional stock to meet anticipated and actual customer demand.

Learning outcomes		Assessment criteria		Unit amplification
3	Understand the maintenance of stock records in a business to business environment	3.1	Describe how to update stock records	<input type="checkbox"/> Stock audit preparation <input type="checkbox"/> Stock file checks and amendments using EPOS system <input type="checkbox"/> Isolation and disposal of damaged/discontinued product <input type="checkbox"/> Product grouping <input type="checkbox"/> Stock rotation.
		3.2	Explain the importance of maintaining up-to-date stock records	<input type="checkbox"/> Accurate picking and assembly of customer orders.

Information for tutors

Delivery

All the outcomes lend themselves to flexible delivery. Formal training sessions should have input from the trainer/assessor to identify the theoretical material and standard information, but learners can work individually or in a group researching and gathering information about the customer service approaches and policies provided by the company. Researching the company's policies and practices regarding stock control, observation of stock taking, and discussions all offer interactive approaches to learning about managing stock for customer orders. Learners will be expected to have some knowledge of picking, packing, use of EPOS systems and stock rotation.

Learners will be introduced to stock control, how it works, what their role is the management of stock, and the importance of accuracy in the picking of customer orders to ensure consistently high levels of customer service within the organisational culture and approach adopted by the company.

Discussions, role plays and other active training techniques provide motivational and interactive activities. By shadowing experienced members of the warehouse team, learners will be able to see how to communicate with customers, build rapport and accurately pick products using the organisational guidelines.

Assessment

The centre will devise and mark the assessment for this unit.

Learners must meet all assessment criteria to pass the unit.

Unit 7: Understanding Sales Function for Business to Business Services

Unit reference number: H/505/3437

QCF level: 2

Credit value: 3

Guided learning hours: 24

Unit aim

The purpose of this unit is to provide learners with the knowledge and understanding of the various sales and customer accounts processes used in a trade business environment. It covers production of quotes, sales orders, refunds and paperwork used.

Essential resources

There are no special resources needed for this unit.

Learning outcomes, assessment criteria and unit amplification

To pass this unit, the learner needs to demonstrate that they can meet all the learning outcomes for the unit. The assessment criteria determine the standard required to achieve the unit.

Learning outcomes		Assessment criteria		Unit amplification
1	Know how to process business to business sales orders	1.1	Describe the procedure for producing quotes	<ul style="list-style-type: none"> <input type="checkbox"/> Organisation's approach <input type="checkbox"/> Written and verbal quotations <input type="checkbox"/> Check understanding with the customer <input type="checkbox"/> Note any time limit.
		1.2	Describe the procedure for producing sales orders	<ul style="list-style-type: none"> <input type="checkbox"/> Organisation's approach <input type="checkbox"/> Accuracy check with customer <input type="checkbox"/> Costs <input type="checkbox"/> VAT and non VAT <input type="checkbox"/> Delivery date <input type="checkbox"/> Contact details <input type="checkbox"/> Correct description of goods and numbers.
		1.3	Describe the process for refunds	<ul style="list-style-type: none"> <input type="checkbox"/> Organisation's approach <input type="checkbox"/> Written receipt <input type="checkbox"/> Reasons for refund <input type="checkbox"/> Payment method and recording.

Learning outcomes		Assessment criteria		Unit amplification
2	Know how to maintain the balance of the tills	2.1	Describe how to process cash adjustments	<input type="checkbox"/> Organisation's approach <input type="checkbox"/> Overcharging <input type="checkbox"/> Refunds.
		2.2	Describe procedures for moving cash between tills, checking, clearing and closing tills	<input type="checkbox"/> Organisation's approach <input type="checkbox"/> Overcharging <input type="checkbox"/> Refunds <input type="checkbox"/> End-of-day balance <input type="checkbox"/> Transfer of cash to bank.
3	Know how to manage business to business accounts	3.1	Describe how to process account payments	<input type="checkbox"/> Organisation's approach <input type="checkbox"/> Recording <input type="checkbox"/> Counter signatures.
		3.2	Describe how to process trade service expense payments	<input type="checkbox"/> Eligible evidence of spends <input type="checkbox"/> Organisation's expenses policy <input type="checkbox"/> Counter signature <input type="checkbox"/> Payment method and payment date.
		3.3	Describe the process for correcting a payment error	<input type="checkbox"/> Organisation's approach <input type="checkbox"/> Recording the error <input type="checkbox"/> Counter signature.

Learning outcomes		Assessment criteria		Unit amplification
4	Know how to manage business to business customer accounts	4.1	Describe how to open customer accounts	<input type="checkbox"/> Organisation's policy <input type="checkbox"/> Eligibility <input type="checkbox"/> Customer details <input type="checkbox"/> Credit limits <input type="checkbox"/> Payment methods and timescales.
		4.2	Describe the importance of monitoring account status and reporting any discrepancies	<input type="checkbox"/> Organisation's policy <input type="checkbox"/> Late payment notification <input type="checkbox"/> Bad debts.
		4.3	Describe how to produce a statement of account	<input type="checkbox"/> Organisation's policy <input type="checkbox"/> Sales <input type="checkbox"/> Customer details. <input type="checkbox"/> VAT.
		4.4	Explain how to produce statement remittances	<input type="checkbox"/> Organisation's policy <input type="checkbox"/> Customer details <input type="checkbox"/> Payments made.

Information for tutors

Delivery

All the outcomes lend themselves to flexible delivery. Formal training sessions should have input from the trainer/assessor to describe the legal and fiscal requirements of account management and handling of cash. Learners need to be able to understand how account management supports customer loyalty and a long-term customer relationship.

Learners will be introduced to how account management functions within the organisation in which they work. They will understand how to balance a till and the basic principles of banking money on a daily basis.

Discussions, role plays and other active training techniques provide motivational and interactive activities. By shadowing experienced members of the team, learners will be able to see how to manage accounts, build rapport, and sell products and services within legislative and organisational constraints.

Assessment

The centre will devise and mark the assessment for this unit.

Learners must meet all assessment criteria to pass the unit.

Unit 9: Understanding the Use of IT Software for Targeting Customers in Business to Business Services

Unit reference number: M/505/3439

QCF level: 2

Credit value: 2

Guided learning hours: 14

Unit aim

The purpose of this unit is to give learners knowledge and understanding of how IT can be used to generate and increase revenue within a trade business.

The unit specifically covers how e-shots and databases are utilised in order to target new and existing clients for increased sales activities as well as monitoring business performance.

Essential resources

There are no special resources needed for this unit.

Learning outcomes, assessment criteria and unit amplification

To pass this unit, the learner needs to demonstrate that they can meet all the learning outcomes for the unit. The assessment criteria determine the standard required to achieve the unit.

Learning outcomes		Assessment criteria		Unit amplification
1	Understand the business benefits of using IT to target customers in a business to business environment	1.1	Describe the business benefits of using IT to target customers	<ul style="list-style-type: none"> □ Speed of contact, targeting and market segmentation, follow-ups, launch of new products, right first time in communication of information, after-sales service, building customer relationships, up-selling and promotional event communication.
2	Understand how to design and use effective e-shots to increase sales in a business to business environment	2.1	Describe the purpose of e-shots	<ul style="list-style-type: none"> □ Promotional activity to existing customers and new customers □ Brand awareness □ Customer communication □ Competitor advantage □ Speed of communicating potential sales to a large audience.
		2.2	Describe what makes an effective e-shot	<ul style="list-style-type: none"> □ Clear communication, visuals, follow-up activity, knowledge of customer base.
		2.3	Describe the organisation's guidelines for compiling e-shots	<ul style="list-style-type: none"> □ Organisation's policy for creation and use of e-shots.
		2.4	Describe the systems for managing customer responses	<ul style="list-style-type: none"> □ Development, updating and cleansing of CRM systems □ Follow up communications and recording of actions.
		2.5	Describe the impact of e-shots on sales and revenue generation	<ul style="list-style-type: none"> □ Advantages of its use, costs, increased customer base □ Organisation's planned and actual sales and revenue targets.

Learning outcomes		Assessment criteria		Unit amplification
3	Understand how customer databases are used to increase sales and monitor business performance in a business to business environment	3.1	Identify employer requirements for compliance with current data protection legislation	<ul style="list-style-type: none"> □ Data Protection Act □ Organisational policy.
		3.2	Identify employee requirements for compliance with current data protection legislation	<ul style="list-style-type: none"> □ The organisation's policy □ Non-disclosure of sensitive client information □ Non-disclosure of confidential information.
		3.3	Describe the impact customer databases can have on trade businesses	<ul style="list-style-type: none"> □ Application of the principles of database development, impact of the Data Protection Act and Freedom of Information Act, report writing, updating entries and trend analysis.
		3.4	Describe the importance of maintaining up-to-date customer databases	<ul style="list-style-type: none"> □ Targeted promotion, knowing your customer base, product development, branding, follow-up/after-sales service, growing customer loyalty.
		3.5	Describe how customer databases can be used to increase sales	<ul style="list-style-type: none"> □ Targeted marketing, customer segmentation, promotions and research for future product development.
		3.6	Describe the importance of monitoring business performance	<ul style="list-style-type: none"> □ Meeting annual targets, business continuity and business growth, competitor advantage.
		3.7	Describe how business performance can be monitored	<ul style="list-style-type: none"> □ Business reporting, market share, competitor analysis.

Unit 10: Sales Operations

Unit reference number: H/505/3440

QCF level: 2

Credit value: 3

Guided learning hours: 20

Unit aim

This unit provides the learner with the understanding and skills they need to ensure product knowledge that enables them to sell products effectively and provide good customer service. This includes knowing the company's structure and mission, knowing that work has to be carried out safely, having knowledge of the products and services offered by the company, and understanding what customers require.

So that they are able to highlight the advantages of their company's products and services. learners need to know how the products and services differ from those on offer from competitor companies.

Learners need to establish customer requirements. By understanding the company's products and services and what else is available in the marketplace, learners can then target customers and offer them suitable products and services from the company's range. It is important to match product and service features to customers' needs, sales staff have to communicate the benefits to customers of purchasing the products and services. Learners can target both new and existing customers with the possibility of repeat sales opportunities. As well as knowing what customers require, staff must have a positive approach when dealing with them as this will contribute towards ensuring that the company's purposes are met.

Essential resources

There are no special resources needed for this unit.

Learning outcomes, assessment criteria and unit amplification

To pass this unit, the learner needs to demonstrate that they can meet all the learning outcomes for the unit. The assessment criteria determine the standard required to achieve the unit.

Learning outcomes		Assessment criteria		Unit amplification
1	Know the characteristics of products	1.1	Describe the products and services provided by the organisation	<input type="checkbox"/> Stock levels <input type="checkbox"/> Product types.
		1.2	Outline the features of products and services provided by the organisation	<input type="checkbox"/> Style, finish, colour, product specifications.
		1.3	Identify similar products offered by competitors	<input type="checkbox"/> Knowledge of competitors and the importance of maintaining competitor advantage.
		1.4	Identify the benefits of the products and services provided by the organisation in comparison to competitor offerings	<input type="checkbox"/> Cost, availability <input type="checkbox"/> Quality standards; design services; safety standards.

Learning outcomes		Assessment criteria		Unit amplification
2	Know the responsibilities and procedures associated with sales representatives	2.1	Identify sales representatives' responsibilities	<ul style="list-style-type: none"> □ Build customer relationships; prospecting for new customers; sources of new customer information (estate agents, internet, newspapers, referrals, competitor sites, informal contacts, company database); following up on leads; troubleshooting; selling products and services; product knowledge (features, benefits); sources of product information; implications of inadequate knowledge.
		2.2	Describe how to work safely when selling	<ul style="list-style-type: none"> □ Employer duty of care; own responsibilities; personal protective equipment; responsibilities; entering a site; site reporting; carrying stock in vehicles; handling products.
		2.3	Explain how to use the organisation's databases	<ul style="list-style-type: none"> □ Customers; products; making enquiries (logging on, user names, passwords, using the enquiry screens); setting up accounts; type of customer, customer details required; suppliers; supplier patterns; supplier numbers; sales reports; call logs; expenses claiming.
3	Know how to provide customers with appropriate products	3.1	Explain the different approaches needed for different types of customer	<ul style="list-style-type: none"> □ Equality and diversity, new and existing customers, identification of potential customers in respect of different products □ Different types of communication, language and promotional activity.
		3.2	Explain how to establish customers' needs	<ul style="list-style-type: none"> □ Type of customer (client, repeat, one-time, prospective) □ Anticipating customer queries.
		3.3	Describe methods of dealing with customer queries and complaints	<ul style="list-style-type: none"> □ Organisational policy □ Informal approaches □ Formal approaches □ Feedback and agreed actions.

Information for tutors

Delivery

All the outcomes lend themselves to flexible delivery. Formal training sessions All the learning outcomes can be delivered flexibly. Formal training sessions have input from the trainer/assessor to identify the theoretical material and standard information, but learners can work individually and in a group researching and gathering information about matters related to the products and services provided by the company. Researching products and services, practical work, case studies, business simulations, in-tray exercises and discussions all offer interactive approaches to learning about the products and services. Learners will be expected to have some knowledge of their own company, other companies and the industry.

Learners will be introduced to the range of products and services together with details of their features and the benefits they provide to customers. Consideration is then given to responsibilities of sales representatives and their role in the company in ensuring the company's purposes are met. Finally, learners will be introduced to customer service and its importance in sales if selling is to be successful.

Discussions, role play and other active training techniques provide motivational and interactive activities. The use of new technologies, especially the company's own systems, will be similarly engaging as well as providing additional practical expertise in their use when identifying products, services and customers. By shadowing experienced sales representatives or sales managers, learners will be able to see how customers are targeted for specific products and services and how staff convey product and service information in a sales environment by tailoring it to the customers' needs and how they win business.

Assessment

The centre will devise and mark the assessment for this unit.

Learners must meet all assessment criteria to pass the unit.

Unit 11: Understanding How to Use Computer Aided Design Software

Unit reference number: K/505/3441

QCF level: 2

Credit value: 3

Guided learning hours: 30

Unit aim

This unit provides the learner with the understanding and skills they need to be able to use computer aided design (CAD) software to produce kitchen designs that meet customer requirements.

Design staff need to be proficient in a range of areas. They need to identify customers' requirements by eliciting customers' needs and as work will involve site visits, learners need to work safely. They need to be able to measure accurately so that the measurements can be incorporated into the designs.

Work requires discussion with clients, so learners will need to use customer service skills in their dealings with clients to ensure that they win the business and that value-added products can be sold. Knowledge of the organisation's range of products will allow the designer to match the products to customer requirements.

The designer needs to be able to use the CAD software to realise the customer's design. There are also design requirements specific to kitchens, such as safety and access requirements, and knowledge of ergonomics. Some CAD is specific to building and kitchen design and offers an array of customised tools that speeds the design work by automating some of it. The CAD software allows the alternative designs that can be developed and discussed with clients to ensure optimal solutions that meet client needs.

By fulfilling a customer's design requirements, the company will gain business and ensure that further business is generated through recommendation and that the company's purposes are met.

Essential resources

For this unit, centres need to ensure that appropriate computer aided design software is available.

Learning outcomes, assessment criteria and unit amplification

To pass this unit, the learner needs to demonstrate that they can meet all the learning outcomes for the unit. The assessment criteria determine the standard required to achieve the unit.

Learning outcomes		Assessment criteria		Unit amplification
1	Understand how to establish a customer's requirements	1.1	Describe the products and services provided by the organisation	<ul style="list-style-type: none"> □ Rooms, appliances, flooring, sinks and sanitary ware, doors and joinery, features (style, finish, colour, product specifications) □ Benefits (cost, availability) □ Quality standards; design services; company design standards; safety standards □ Sources of product knowledge □ Comparison with competitor products.
		1.2	Describe how to establish the customer's design requirements	<ul style="list-style-type: none"> □ Discussion with customer: customer requirements (cabinets, appliances, worktops, sinks, taps, flooring, surface equipment; lighting, ventilation; extraction, special requirements); room shape; obstructions; style; atmosphere; look; lifestyle needs; materials; finishes; budget; layout.
2	Understand how to use computer aided design software	2.1	Identify the function of computer aided design software tools	<ul style="list-style-type: none"> □ CAD software for room design: opening the application; creating a file; opening existing files; saving files; exiting the application; title bar; menu bar; window control; mode selection; mode palette; toolbar; buttons and their functions; auto features; filters; cursor control.
		2.2	Describe how to use computer aided design software tools to lay out a design	<ul style="list-style-type: none"> □ Design: walls; angled walls; layout; floors; stepped floors; ceilings; ceiling wedges; angled ceilings; doors; windows (standard, Velux, dormer); niches; alcoves; units; fillers; plinths; cornices; panels; worktops; floor coverings; wall coverings; lighting (auto, manual, group, task); shelving; openings; closures; islands; corner solutions; push to corner; appliances; cubic capacity; elevations; plans; perspectives; multi-views, dimensioning; annotation; duplication.

Learning outcomes		Assessment criteria		Unit amplification
3	Understand how to design	3.1	Describe how to interpret a customer's design specification	<ul style="list-style-type: none"> □ Organisational approach to meeting customer requests through use of computer aided design □ Taking an idea and producing a design plan.
		3.2	Describe how to measure a site for installation	<ul style="list-style-type: none"> □ Room layouts (straight, galley, L-shaped, U-shaped, island); collision areas; entries; exits; walkways; working sequences; dimension requirements (safety, apertures, doors) □ Legal and regulatory requirements; units; corner posts; pipe work; electrical installation; safety margins; access; budget constraints.
		3.3	Explain how to produce a design that meets a customer's requirements	<ul style="list-style-type: none"> □ Understanding customer needs, checking at each stage that the design meets the customer's requirements, use of appropriate language in questioning and checking □ Communicate to the customer how the design meets their request.

Information for tutors

Delivery

All the learning outcomes can be delivered flexibly. Formal training sessions should have input from the trainer to identify some of the theoretical material and standard information relating to design, as well as describing how the software works. Learners can work individually and in a group researching and gathering information about matters related to the products and services provided by the company when carrying out design work for customers. Researching products and services, practical work, case studies, business simulations, in-tray exercises and discussions all offer interactive approaches to learning about kitchen design. Up-to-date materials are available about the company's products and services and it is normally possible to identify what similar products and services are available from competitor organisations as well as developments in kitchen design that reflect current customer demands. Learners will be expected to have some knowledge of their own company and of the kitchen design industry.

Learners will be introduced to kitchen design by identifying how to establish customer requirements and the nature of the work to be done. Consideration is then given to how to use the CAD software by identifying what it offers and how it is used. Finally, learners will be required to design a kitchen that meets a customer's design specification.

Discussions, simulations, practical work and other active training techniques provide motivational and interactive activities. The use of computers and software tools on the company's own system will provide the necessary practical expertise in their use when designing kitchens.

Assessment

The centre will devise and mark the assessment for this unit.

Learners must meet all assessment criteria to pass the unit.

- *Equality Policy (Pearson)*
- *Recognition of Prior Learning Policy and Process (Pearson)*
- *UK Information Manual (Pearson)*
- *UK Quality Vocational Assurance Handbook (Pearson).*

All of these publications are available on our website.

Publications on the quality assurance of BTEC qualifications are available on our website at qualifications.pearson.com

Our publications catalogue lists all the material available to support our qualifications. To access the catalogue and order publications, please go to qualifications.pearson.com

Additional resources

If you need further learning and teaching materials to support planning and delivery for your learners, there is a wide range of BTEC resources available.

Any publisher can seek endorsement for their resources, and, if they are successful, we will list their BTEC resources on our website, qualifications.pearson.com

14 Professional development and training

Pearson supports UK and international customers with training related to BTEC qualifications. This support is available through a choice of training options offered on our website: qualifications.pearson.com

The support we offer focuses on a range of issues, such as:

- planning for the delivery of a new programme
- planning for assessment and grading
- developing effective assignments
- building your team and teamwork skills
- developing learner-centred learning and teaching approaches
- building in effective and efficient quality assurance systems.

The national programme of training we offer is on our website at: qualifications.pearson.com. You can request centre-based training through the website or you can contact one of our advisers in the Training from Pearson UK team via Customer Services to discuss your training needs.

BTEC training and support for the lifetime of the qualifications

Training and networks: our training programme ranges from free introductory events through sector-specific opportunities to detailed training on all aspects of delivery, assignments and assessment. We also host some regional network events to allow you to share your experiences, ideas and best practice with other BTEC colleagues in your region.

Regional support: our team of Curriculum Development Managers and Curriculum Support Consultants, based around the country, are responsible for providing advice and support in centres. They can help you with planning and curriculum developments.

To get in touch with our dedicated support teams please visit: qualifications.pearson.com

Your Pearson support team

Whether you want to talk to a sector specialist, browse online or submit your query for an individual response, there's someone in our Pearson support team to help you whenever – and however – you need:

- Subject Advisors: find out more about our subject advisor team – immediate, reliable support from a fellow subject expert
- Ask the Expert: submit your question online to our Ask the Expert online service and we will make sure your query is handled by a subject specialist.
