

Statement from Pearson in regards to evidence requirements for Unit 7 (Undertake Medicines Reconciliation and Supply) of the BTEC Level 3 Diploma in the Principles and Practice for Pharmacy Technicians

Pearson would like to clarify that Learning Outcomes 2, 3, and 4 for Unit 7 (Undertake Medicines Reconciliation and Supply) of the BTEC Level 3 Diploma in the Principles and Practice for Pharmacy Technicians allows for the following sources as acceptable student/learner evidence.

- *Redacted* hospital discharge records
- Direct interviews/discussions with patients – *ensuring patient confidentiality is respected*

Available Patient Medical Records/History may also be used for the purpose of medicines reconciliation.

These sources of evidence are in addition to the suggested sources given in the specification (e.g. under the Content of Learning Outcome 3). It should also be noted that the suggested sources are not an exhaustive list and that the available evidence will be affected by your local context. Where clarity is required, please get in touch either with Pearson directly or your allocated Standards Verifier.
