

# New 100% Internally Assessed Level 2, 3 and 4 BTEC Creatives qualifications in Art and Design and Creative Media

We've worked extensively with teachers and industry experts in the creative sectors to develop a new suite of **100% internally assessed** Art and Design and Creative Media qualifications for **post-16 learners**. These qualifications embrace an immersive, practical and applied learning experience, enabling learners to work across a range of technical skills areas, providing them with clear progression routes into further education or employment.

Each of the new creative qualifications have been designed with **indicative technical skills content** rather than optional specialist units, allowing for ultimate flexibility to develop your own specialist or broad-based programme.

## Key features and benefits:

- Simple structure and reduced admin
- Practical learning and assessment
- One common assessment criteria grid used to assess each qualification
- Fair and compensatory assessment
- Grading designed to reflect development

**'I am really looking forward to getting this new specification underway, I feel this will make a huge positive impact on both students and staff.'**

*Kim Graham, Programme Leader  
Level 3 Art and Design, New College Durham*
