

Pearson

Mark Scheme (Results)

January 2018

Pearson Edexcel Level 2 Certificate
In Digital Applications (DA205)

Unit 5: Coding for the web

Edexcel and BTEC Qualifications

Edexcel and BTEC qualifications are awarded by Pearson, the UK's largest awarding body. We provide a wide range of qualifications including academic, vocational, occupational and specific programmes for employers. For further information visit our qualifications websites at www.edexcel.com or www.btec.co.uk. Alternatively, you can get in touch with us using the details on our contact us page at www.edexcel.com/contactus.

Pearson: helping people progress, everywhere

Pearson aspires to be the world's leading learning company. Our aim is to help everyone progress in their lives through education. We believe in every kind of learning, for all kinds of people, wherever they are in the world. We've been involved in education for over 150 years, and by working across 70 countries, in 100 languages, we have built an international reputation for our commitment to high standards and raising achievement through innovation in education. Find out more about how we can help you and your students at: www.pearson.com/uk

General Marking Guidance

- All candidates must receive the same treatment. Examiners must mark the first candidate in exactly the same way as they mark the last.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.
- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.
- There is no ceiling on achievement. All marks on the mark scheme should be used appropriately.
- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.
- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.
- Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.

Activity 1: Build the website

Task	Response	Mark
Header	The Facebook and Twitter icons are positioned as shown (1) . Do not award if incorporated into the banner image	1
Navigation Bar	Two functional links are included, at least one from the navigation bar (1) and the link from the bottom of the page (1) .	2
Side bar	DayCareAnchor.png is positioned as shown on the wireframe (1) . A gradient to the right has been correctly applied (1) .	2
Title	IMAGE1.png and IMAGE2.png are positioned correctly (1) and the correct text is present and is centred (1) .	2
Page divider	A PAGE_DIVIDER.png has been positioned as shown on the wireframe (1) .	1
Day care text box	The box has rounded corners (40px) (1) . The border is 3px, solid, #000000 (1) . The background color (#C3D89C) and font color (#6F7172) are correct (1) .	3
Exercise	The space between IMAGE3.png and IMAGE4.png is 50px (1) . The border around IMAGE4 is 2px, dashed and color #789430 (1) .	2
Longer stays	The iframe is the correct size (500 x 200px) (1) and contains the correct content (1) .	2
Navigation	The background colour of the navigation bar is #789430 (1) and the font color is #FFFFFF (1) .	2
Page Layout	The space between the side bar and IMAGE GALLERY is 25px (1) . The space between the navigation bar and the title panel is 25px (1) . The margin between the edge of the page and the side bar is 25px (1) .	3

Holistic marks

Writing and Editing HTML		
Level	Descriptor	Mark
	No rewardable material	0
Level 1	The <head> element of each page contains an appropriate <title>. HTML elements are used to describe the structure of the page. No clear hierarchy of information is evident. There is evidence of HTML lists but these may be used inappropriately. A working link is included but may not function as intended.	1-2
Level 2	The <head> element of the page contains an appropriate <title> and at least one <meta> element is used appropriately. HTML elements are used to describe the structure of the page. A clear hierarchy of information is evident. HTML lists are used appropriately. A working link is included and functions as intended. Most images are in proportion. Class and id attributes are used.	3-4
Level 3	The <head> element of the page contains an appropriate <title> and <meta> elements are combined. HTML elements are used effectively to describe the structure of the page. An effective hierarchy of information is evident. HTML lists are used appropriately. All required links function as intended. All images are in proportion. Class and id attributes are used consistently.	5-6

Writing and Editing CSS		
Level	Descriptor	Mark
	No rewardable material	0
Level 1	<p>Students will have attached a style sheet (internal or external) to:</p> <p>style text (headings, sub headings and body copy) in the same way e.g. typeface, size, style, colour, alignment</p> <p>style boxes e.g. width and height, border (colour, width and style)</p> <p>style links consistently e.g. link, visited, hover and/or active</p> <p>style images e.g. size and alignment</p>	1-2
Level 2	<p>Students will have attached an external style sheet to:</p> <p>create a layout that resembles the wireframe</p> <p>create different styles for the text elements (headings, sub headings, body copy, captions, quotations) and apply them consistently on different pages e.g. typeface, size, style, colour, alignment, line height, text decoration</p> <p>style boxes e.g. width and height, border (colour, width and style), margin and padding</p> <p>style links consistently on each page e.g. link, visited, hover, focus and/or active or includes images for links</p> <p>style images e.g. size, alignment, background images</p>	3-4
Level 3	<p>Students will have attached an external style sheet to:</p> <p>create a layout that matches the wireframe</p> <p>create different styles for the text elements (headings, sub headings, different parts of the body copy, captions, quotations) and apply them consistently throughout the site e.g. typeface including use of the @font-face rule, size, style, colour, alignment, line height, text decoration, text transformation, letter and word spacing</p> <p>style boxes consistently e.g. width and height, border (colour, width and style), overflow, opacity, gradients, drop shadows, rounded corners, margin and padding</p> <p>style links consistently on each page e.g. link, visited, hover, focus and/or active or includes image sprites</p> <p>style images e.g. size, alignment, background images (repeat, attachment, position)</p> <p>style lists e.g. type, image, position, style</p>	5-6

Creating Forms – HTML, CSS & JavaScript		
Level	Descriptor	Mark
	No rewardable material	0
Level 1	The form may only contain one of the required fields as specified in the wireframe with appropriate form controls or contain the specified fields but without any of the appropriate form controls to make it operational. The form will bear no resemblance to the style of the wireframe and there will be no working JavaScript validation	1-2
Level 2	The form contains most, of the required fields as specified in the wireframe but not all of the form controls will have been applied appropriately, the style of the form will match some aspects of the wireframe e.g. background colour and some aspects of the JavaScript validation will work	3-4
Level 3	The form contains the required fields as specified in the wireframe, has the correct form controls, has been styled to match the wireframe and has fully functioning JavaScript validation	5-6

Writing JavaScript		
Level	Descriptor	Mark
	No rewardable material	0
Level 1	Although the JavaScript code will not produce an outcome to meet any of the client's requirements, some attempt at writing JavaScript has been made and some aspects of the coding are accurate	1-2
Level 2	Although the JavaScript code may not execute all of the client's requirements, it is accurate enough to produce a response that partially meets the client's requirements	3-4
Level 3	Accurate JavaScript has been written, either embedded on the page or linked to an external JavaScript file, to execute the client's requirements as specified in the client brief	5-6

Incorporating Interactive Elements through JavaScript		
Level	Descriptor	Mark
	No rewardable material	0
Level 1	Although not all of the HTML, CSS and JavaScript code will have been edited appropriately, some aspects of the code will be correct but significant errors will have been made e.g. the JavaScript files will not be linked within the source code, the JavaScript is edited incorrectly or the HTML code contains errors. These errors will mean that the interactive element(s) will not function as intended in a web browser.	1-2
Level 2	The interactive element(s) have been incorporated onto the page(s) i.e. the links to the JavaScript files are corrected inserted into the source code. However, the JavaScript and/or the HTML and CSS code have not been edited to meet the client's requirements. The element(s) function in the web browser but not according to the requirements of the client brief.	3-4
Level 3	The interactive element(s) have been incorporated onto the page(s) according to the requirements of the client brief i.e. the links to the JavaScript files are corrected inserted into the source code, the JavaScript has been edited as required and the HTML and CSS code are edited to meet the client's requirements. The element(s) function as intended in the web browser.	5-6
