**Unit 6: Health, Wellbeing and Lifestyle**

Friday 11 June 2010 – Morning Time: 1 hour	Paper Reference <b>SH106/01</b>
---	------------------------------------

You do not need any other materials.

Total Marks
-------------

### Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Answer **all** questions.
- Answer the questions in the spaces provided  
– *there may be more space than you need.*

### Information

- The total mark for this paper is 60.
- The marks for **each** question are shown in brackets  
– *use this as a guide as to how much time to spend on each question.*

### Advice

- Read each question carefully before you start to answer it.
- Keep an eye on the time.
- Try to answer every question.
- Check your answers if you have time at the end.

**4** (a)

At the health centre in the town, doctors and nurses assess patients' health and wellbeing in different ways. One way is to take baseline measurements.

- (i) Identify **two** different ways, other than baseline measurements, used to assess a patient's health.

(2)

1 .....

2 .....

- (ii) Joe smokes cigarettes.

Identify **one** baseline measurement that could be used to assess whether smoking is affecting the health of Joe's lungs.

(1)

(b)

Tanya sees her midwife at the health centre to check her health and the health of her baby. The midwife takes Tanya's blood pressure (BP). Her last BP test gave a reading of 130/95 mm Hg. This reading is high. Tanya must rest and go back for another BP test.

- (i) Identify a baseline measurement that could be used to assess Tanya's health during her pregnancy.

(1)

- (ii) Using your own knowledge and **not** information from the case study, identify **one** other baseline measurement, and **one** worker who could carry out this measurement, to assess Tanya's health and wellbeing.

6

At the health centre Tanya and her midwife discuss Tanya's overall health and wellbeing. Tanya has the opportunity to say how she feels about her health and the midwife gives Tanya her thoughts on how Tanya could improve her health and wellbeing.

Using the information given throughout the case studies, assess Tanya's health and wellbeing. Do this by looking at her lifestyle choices and suggesting what Tanya could do to improve her health and wellbeing.
