Marking The Script

The learner has followed the instructions and completed the form using acceptable conventions. The exception to this is the phone number, where they have not added in the full phone number. In this instance, they would lose one mark for this.

Part B has been completed correctly, and the learner would pick up full marks.

The learner would get six out of seven marks. It is important to note that the first part of this question is a standalone element of the writing assessment, and they would need two out of three marks to pass this and, in turn, the whole assessment.
