Banksy Research

Banksy is an anonymous England-based graffiti artist, political activist and film director of unwritten identity. Their satirical street art and subversive designs, combined with humor and social commentary have been featured on streets, walls and bridges of cities throughout the world.

Banksy displays their art on publicly visible surfaces such as walls and self-installing spray planes. Banksy does not sell photographs or reproductions of their street graffiti, but art enthusiasts have been known to attempt to sell the art on location and leave the problem of its removal in the hands of the winning bidder.

Banksy has managed to keep his identity a secret. Many people think he is a man called Robert Bonningham. He started off as a street graffiti artist and in the early nineties he was a member of the Draconian Crew of Bristol.

He was born in 1974, in Bristol. He once created a 66666 hex icon next to the late Princess Diana's picture on a wall of Queen Elizabeth. Also Banksy described himself as a “Quirky Vandal”.
