Standard mark = 54
In order to improve the process, what I decided to make the proportions of the parts of the face to make the picture more symmetrical. Therefore, I tried to adjust the size of the nose, mouth, and eyes to be more in line with the rest of the face. I also tried to make the eyes more symmetrical and balanced. I used a more balanced distribution of the different elements in the image to make it more visually appealing.

Comments:
• There is evidence of a confident and assured ability within the development of ideas. The candidate underpins their own visual ideas through a convincing critical understanding.
• The candidate explores ideas through inventive and creative photographic processes of experimentation and risk-taking.
• Annotation has purpose and confidently informs the preparatory studies. This demonstrates an assured use of critical judgement and analysis, including personal reflections.
• The refinement of ideas is informed by focused personal investigations. Knowledge, understanding and skills are comprehensive.
• The candidate has used the period of sustained focus to create a convincing outcome showing elements of risk-taking.
