Qualification at a glance

Consists of two externally examined papers.

Our specification is structured into two themes, taking students from how entrepreneurs start businesses (Theme 1) through to growing and global businesses (Theme 2). There are two equally weighted exam papers, focusing on each specification theme.

Theme 1 concentrates on the key business concepts, issues and skills involved in starting and running a small business. It provides a framework for students to explore core concepts through the lens of an entrepreneur setting up a business.

Theme 2 examines how a business develops beyond the start-up phase. It focuses on the key business concepts, issues and decisions used to grow a business, with an emphasis on aspects of marketing, operations, finance and human resources. It also considers the impact of the wider world on the decisions a business makes as it grows.

<thead>
<tr>
<th>Theme 1: Investigating Small Business</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Written examination: 90 minutes</strong></td>
</tr>
<tr>
<td><strong>50% of the qualification (90 marks)</strong></td>
</tr>
</tbody>
</table>

**Content overview**
- Topic 1.1 Enterprise and entrepreneurship
- Topic 1.2 Spotting a business opportunity
- Topic 1.3 Putting a business idea into practice
- Topic 1.4 Making the business effective
- Topic 1.5 Understanding external influences on business

**Assessment overview**
The paper is divided into three sections:
- Section A: 35 marks
- Section B: 30 marks
- Section C: 25 marks.

The paper will consist of calculations, multiple-choice, short-answer and extended-writing questions.
Questions in Sections B and C will be based on business contexts given in the paper.
Calculators may be used in the examination.

</table>

**Content overview**
- Topic 2.1 Growing the business
- Topic 2.2 Making marketing decisions
- Topic 2.3 Making product decisions
- Topic 2.4 Making financial decisions
- Topic 2.5 Making human resource decisions

**Assessment overview**
The paper is divided into three sections:
- Section A: 35 marks
- Section B: 30 marks
- Section C: 25 marks.

The paper will consist of calculations, multiple-choice, short-answer and extended-writing questions.
Questions in Sections B and C will be based on business contexts given in the paper.
Calculators may be used in the examination.
Mapping documents from your current exam board

To make the transition from your current exam board as easy and straightforward as possible, we’ve created two mapping documents:

- Switching from AQA to Pearson Edexcel
- Switching from OCR to Pearson Edexcel
- Switching from WJEC/Eduqas

Why choose Pearson Edexcel for your GCSE Business qualification?

**Flexibility**

You’ll see that our new qualifications are designed to help you cover the content flexibly, in the way that’s right for your school. Based on your feedback, we’ve also made improvements to the clarity and structure of our new specification and exam papers – including ramped questions that help to build students’ confidence.

The specification structure also offers flexibility. You may wish to change the order of the content within topics, reorganise the content across topics or even reorganise topics across themes.

Download our course guide to learn more.

Practical content and case studies

Pearson Edexcel’s GCSE Business (2017) qualification uses practical and enterprising content to engage and develop your students.

- Our assessments help to engage your students by using real and relevant business examples.
- The content provides opportunities to engage students with local, business enterprise examples in Theme 1 through to the international brands they recognise in Theme 2.
- Real-world contexts and examples of modern business practice enable you to make Pearson Edexcel GCSE Business (2017) relevant to the business world and accessible to your students.

---

### SECTION B

**Answer ALL questions.**

Look at Figure 2, read the following extract carefully, then answer Questions 4, 5 and 6.

Write your answers in the spaces provided.

Fender® is an American company which produces musical instruments, such as electric guitars. Its most famous brands of guitars have been used by popular musicians such as Bruno Mars. Fender’s most expensive guitars are manufactured using the finest raw materials such as wood from ash trees. These hand-made guitars are seen as some of the finest musical instruments in the world and are unique to each individual musician. As a result of using job production for its guitars, Fender is able to charge prices as high as £10 000 per guitar.

In 2012 Fender started using 3D printing, a process of making three-dimensional (3D) solid objects from a digital model. Fender uses 3D printers to trial new designs for its guitars. Ideas for new guitar models can now be printed-off in Fender’s factory, instead of using a specialist model-building company.
