Controlled Assessment – Exemplar Material

PREFACE

Exemplar Use

Please note that:

- Use of this exemplar material is restricted to your sole use in connection with your delivery of an Edexcel Limited qualification and programme.
- You may not sell, copy or distribute the exemplar material without express consent from Edexcel.
- Edexcel disclaims all liability in connection with any claims which may be brought against you for your unauthorised use of the work.
- Registering for the Exemplar Material Exercise automatically binds you to the terms and conditions stated above.

Notes on the Exemplar

Please note that:

- The exemplar materials are original candidate work and may contain grammatical errors.
- Some items may have been removed, such as references to individuals and places. Please refer to the notes by the Principal Moderator for specific references.

General comments:

Candidates are required to undertake two different types of task from the following:

- 1 a presentation followed by discussion
- 2 picture-based free-flowing discussion
- 3 open interaction.

The conduct of these tests should last between 4-6 minutes - Tests under 3'30" will have a deduction of 2 marks for Content and Response. For the presentation task type, the presentation must last between 1-3 minutes (max.). If the presentation is shorter than 1 minute, 2 marks will be deducted for the Content and Response. Other sections of the Assessment Criteria are not affected.

Candidates have access to 30 words of notes plus 5 small drawings (they **must** use the Edexcel Candidate note form (CA2)) as well as the task itself. Candidates have up to 6 hours (supervised time in school) over a maximum two-week period to prepare these tasks.

Content and Response:

Although these tasks will be prepared, the teacher should ask a few **unpredictable** questions. This is one of the assessment criteria necessary to achieve higher marks. The tasks should make this clear to candidates by stating e.g. *questions which may refer to* - the student should be expecting to be asked questions to elicit information over and above that required via the bullet points. We are also looking for **spontaneity** - this means that teacher-examiners will be listening to what their candidates say and asking questions which pick up on that information to try to engage the candidate in a more natural, i.e. spontaneous conversation. Candidates will not be working from a preset list of questions but will have been prepared thoroughly for these tasks. The criterion concerning **interaction** will be assessed in terms of how well candidates respond to the teacher/examiner's spontaneous questions. For the **Open Interaction** it will be necessary for the student to ask the teacher **at least two questions**.

Range of language and accuracy:

In addition, questions also need to elicit from candidates a range of vocabulary and structures (cf). Repetitive questioning, i.e. questions which elicit essentially the same content and therefore the same vocabulary and structures will not allow the candidate to demonstrate an adequate range. It is important to remember that it is no longer essential to elicit past and future tenses/time references from candidates. The grade descriptions on pages 41-42 of the specification detail, *a variety of vocabulary, structures and verb tenses* for grade A. For grade C, candidates need to use language which will allow them to demonstrate the ability to use a *variety of structures and may relate to past and future events*.

Example 6

Stimulus/ Task Title

Theme: Travel and Tourism

Task: Picture- based

Principal Moderator's comments

Content and Response mark: 3

The candidate offers limited information about the photo and the whole task is quite disjointed. There are few sentences and often responses are limited to single words or very short phrases.

It is clear that the candidate was unable to deal with the unpredictable questions about her holidays or where she would like to go in the future.

The candidate is clearly within the 1-3 mark band and just scores 3.

Range of Language mark: 1

The candidate uses a very limited range of vocabulary and structures. She is totally reliant on the teacher-examiner for structure and vocabulary for the majority of the time and uses relatively little of her own language. There are few complete sentences.

Accuracy mark: 1

There are only isolated examples of accurate language and many of these are supplied by the teacher-examiner who concedes structure and vocabulary. Pronunciation is generally understandable.

Total: 5 marks

Timing: 5'33"
