Specification at a glance

The Edexcel GCSE in German consists of four units based on the following skills: speaking, listening, reading and writing.

The Edexcel GCSE (Short Course) in German: Spoken Language is formed of two of these units (speaking and listening) and the Edexcel GCSE (Short Course) in German: Written Language is formed of the other two units (reading and writing). It is possible to amalgamate the results from the two Short Courses to form a GCSE.

All qualifications offer choice, flexibility and focus.

The Edexcel GCSE Short Courses are available for first certification in 2010 and the Edexcel GCSE is available for first certification in 2011.

The GCSE combines controlled assessment of speaking and writing skills with Foundation or Higher tier external assessments for the listening and reading skills.

Overview of content

- The focus of the writing unit will be **chosen by the teacher in consultation with the student** and will relate to **one** or more of the following themes: *media and culture, sport and leisure, travel and tourism or business, work and employment* (or the **centre-devised option**).
- A student may undertake formal assessments in any appropriate setting, so long as these do not replicate those undertaken in *Unit 2: Speaking in German*. The theme may be the same as that chosen for Unit 2 but the purpose of the tasks must be different.

Overview of assessment

- This unit is internally assessed under controlled conditions.
- Centres may use tasks provided by Edexcel, devise their own tasks or modify tasks proposed by Edexcel. The student must demonstrate the ability to use the language for different purposes and in different settings.
- The student must complete **two separate writing tasks**** and each of these must be undertaken in controlled conditions in a single **assessment session** of no more than one hour. Although assessment is time constrained and primarily qualitative rather than quantitative, it is anticipated that students will produce at least **100** words in each of the two assessment sessions.

** It may be more appropriate for certain students to complete two shorter tasks rather than one longer one in a single assessment session. Consequently, it is possible for centres to submit more than two pieces of writing from these students so long as the work has all been produced in two assessment sessions.

- Students aiming for grade C or above will need to demonstrate extended writing skills and are expected to produce **over 200 words** in each task. Centres must limit the work submitted for external marking from these students to two pieces of written work.
- The **controlled assessments** can be undertaken at any time during the course prior to the deadline selected for the submission of students' work. Work is marked by Edexcel.
- Total number of marks is 60.

*See *Appendix 3* for description of this code and all other codes relevant to this qualification.

Knowledge, skills and understanding

Knowledge and understanding

This Edexcel GCSE in German requires students to develop their knowledge of vocabulary and structures in a range of settings which:

- are relevant and of interest to the student
- correspond to the student's level of maturity
- reflect, and are appropriate to, the culture of countries and communities where the language is spoken
- relate, where appropriate, to other areas of the curriculum.

Skills

The Edexcel GCSE in German qualification requires students to:

- develop the ability to listen to and understand spoken German in a range of contexts and a variety of styles
- communicate in speech for a variety of purposes
- read and respond to different types of written language
- communicate in writing for a variety of purposes
- understand and apply a range of vocabulary and structures
- develop language learning and communication skills which can be applied broadly.

The Edexcel GCSE (Short Course) in German: Spoken Language qualification requires students to:

- develop the ability to listen to and understand spoken German in a range of contexts and a variety of styles
- communicate in speech for a variety of purposes
- understand and apply a range of vocabulary and structures
- develop language learning and communication skills which can be applied broadly.

The Edexcel GCSE (Short Course) in German: Written Language qualification requires students to:

- read and respond to different types of written language
- communicate in writing for a variety of purposes
- understand and apply a range of vocabulary and structures
- develop language learning and communication skills which can be applied broadly.

Following on from the Key Stage 3 curriculum in Modern Languages, the Edexcel GCSE in German provides **flexibility, choice** and **scope for personalised learning**. Teachers and students have considerable **control of content in the speaking and writing units** and are free to **focus** on **one** or more of the following broad themes.

Theme	Possible related content
	The following content is indicative only. Students may undertake work on other topics that relate to the chosen theme.
1. Media and culture	Music/film/reading Fashion/celebrities/religion Blogs/internet
2. Sport and leisure	Hobbies/interests Sporting events Lifestyle choices
3. Travel and tourism	Holidays Accommodation Eating, food, drink
4. Business, work and employment	Work experience/part-time jobs Product or service information
5. Centre-devised option	This option enables German language learning to be linked to other areas of the curriculum not specified above. It may particularly appeal to centres offering content and language integrated learning (CLIL).
	NB: Centres should seek approval from Edexcel, using the <i>Ask the Expert Service</i> (see <i>Section C: Resources, support and training</i>).

Many students will appreciate the opportunity to focus on **one** broad theme relating to a specific interest or relevant curriculum area. However, it is acknowledged that some centres may wish to cover more than one theme, and this specification accommodates both approaches. Similarly, students can focus on one theme for the speaking unit and on a different one for the writing unit.

The qualification allows for **general, mixed** or **vocationally focused pathways** through the choice of themes. Although *travel and tourism* and *business, work and employment* offer more 'specialist' pathways, they provide **contexts** in which students can apply language skills and do not require any 'specialist' subject knowledge on the part of the student or teacher.

Alongside the themes, Edexcel has set the following four common topic areas and linked sub-topics. These, together with the minimum core generic vocabulary list (*Appendix 5*), have been produced to help teachers in planning and preparing students for the external examinations (*listening and understanding* and *reading and understanding*).

Common topic areas

The papers for listening and reading skills refer to the generic content areas specified below and feature scenarios set in a country where German is spoken. All students, regardless of their chosen pathway and theme(s), will be expected to become familiar with them.

Unit 1 Listening and understanding in German

Overview

Content overview

To prepare students adequately for this unit, teachers should present and exploit a range of vocabulary relevant to all the common topic areas listed in the *Common Topic Areas* table and, where appropriate, building on the Key Stage 3 Programme of Study. Students should become accustomed to hearing the German language spoken in a range of styles or registers and in a variety of different contexts, as appropriate to their age and level of understanding. Spoken material will feature both male and female voices and represent different age groups. Featured scenarios and situations are generally set in a German-speaking country and students will be expected to develop appropriate cultural awareness and understanding.

Assessment overview

- The content of the assessment tasks should be familiar and accessible to most students.
- Students will be asked to demonstrate their understanding of pre-recorded spoken German. The recording will feature male and female native German speakers who will speak at a rate appropriate to the expected level of student understanding.
- In addition to the times indicated below, students have five minutes in which to read through the paper before the examination starts. This gives students an opportunity to familiarise themselves with the length and the layout of the examination paper before hearing the recordings.

Foundation tier: 25 minutes plus 5 minutes reading time

Higher tier: 35 minutes plus 5 minutes reading time

- Each German passage is recorded twice, with pauses following the second hearing to allow each student sufficient time to write or note their response to each question (or part of a question) and to read the next question before the related extract is played. The recordings are sent out in CD ROM format or as sound files accessed via a secure download.

- A number of question types will be used in the Foundation tier paper, inviting non-verbal responses such as multiple-choice questions and matching exercises. A mixture of visual and short verbal cues in English will be given. In addition, certain questions will award marks for a student's own short, written English-language responses (two or three words may suffice) to certain questions. To encourage students to complete the entire paper, the Foundation tier will follow a 'peaks and troughs' model. Questions will appear in a mixed order in terms of difficulty rather than in order of increasing difficulty.
- The Higher tier paper will include the same questions targeting the C and D grades as used in the Foundation tier paper. These are commonly referred to as 'crossover' questions. It will also contain some questions that require short answers in English. Both papers carry a total of 40 marks and will be marked against an assessment-specific mark scheme.
- **The question titles and rubrics will be in English throughout the papers.**
- **From summer 2011 centres can opt to offer the Unit 1 examination in an onscreen format.** An example will be given on the Edexcel website in 2009 (www.edexcel.com).

Unit 2 Speaking in German

Overview

Content overview

- Students are required to develop oral communication skills in different settings and for different purposes, related to one or more of the following themes:
 - media and culture
 - sport and leisure
 - travel and tourism
 - business, work and employment
 - centre-devised option.
- Each of the broad themes gives students the scope to engage in activities that coincide with their true interests, experience and aspirations. Assessment scenarios should provide opportunities for them to demonstrate knowledge and understanding of German language and grammar, as well as to present, discuss, interact, ask and respond to questions, express feelings and give opinions in German. Teachers can adapt Edexcel-produced stimuli or create their own, and have considerable control over content. They can target assessment to the specific interests, learning needs and optimal performance level of each student. However, if teachers need reassurance on the suitability of a particular approach, topic or theme, they can consult an experienced examiner through Edexcel's *Ask the Expert* service.
- Teachers are encouraged to engage students in a variety of speaking activities as they prepare for their assessments. These may range from a simple transactional role play to a more complex group discussion or podcast production. Some possible sub-topics are listed in the *Common Topic Areas* table and many more can be used. Additional information on potential speaking activities is given in the *Teacher's Guide* that accompanies this specification. When determining the speaking tasks for formal assessment, it is important to avoid duplication across speaking and writing skills. Although the chosen theme and general topic may be the same, the content and purpose of the formally assessed tasks must be different in the speaking and writing units. However, teachers can assess a student informally using tasks that overlap in this way either as part of their general language learning and development, or if only one of these tasks (speaking or writing) is counted towards final assessment.

- Tasks may relate to contexts or situations in a German-speaking country, although this is not always feasible and could involve interactions and discussions with German speakers in their own country. Students are, therefore, expected to develop an appropriate awareness and understanding of the culture and society of German-speaking countries and communities as part of their German language study.
- **NB: If the centre is in any doubt about the suitability of the approach or potential overlap, the teacher responsible should refer to Edexcel's *Ask the Expert* service, clearly setting out the context, purpose and requirements of the tasks proposed for Unit 2 and outlining the tasks proposed for Unit 4.**

Assessment overview

- Students need to undertake **controlled assessments** that are marked by the teacher and Edexcel moderated. Please refer to the *Controlled Assessment* section for further information about controlled assessment and its impact on this unit.
- Centres must submit the marks from each student's **two speaking tasks**. Although it is anticipated that both will relate to **one theme**, the two tasks could be linked to different themes. Marks must be submitted from each student that relate to **two different task types** chosen from the following:
 - an open interaction
 - a picture-based free-flowing discussion
 - a presentation followed by discussion.
- Each task should last approximately 4-6 minutes and must take place in controlled conditions. This, together with reduced recording requirements, facilitates ongoing and classroom-based assessment rather than end-of-course oral tests. The latter are, however, possible and teachers can assess whenever it is most appropriate and practical for their students. Final marks and sample recordings can be submitted in either January or May.
- Submitting work in January could, for example, allow teachers to focus more on the development of writing skills during the remainder of the course. Full details of internal moderation procedures, marks submission arrangements, recording and sampling requirements for this qualification appear in the *Instructions and administrative documentation for internally assessed units document*.

- All three task types involve interaction. An **open interaction** can take place between a student and a teacher or, if feasible, between two supervised students. It is essentially an unscripted role play in response to a stimulus that students prepare on an individual basis in class, or under direct supervision, up to two weeks in advance and involving no more than six hours contact time.
- The interaction relates to a stimulus that provides both context and purpose. They may be formal and transactional in nature or, alternatively, relate to more informal situations such as a focused dialogue between friends. Students may refer to the stimulus when undertaking their open interaction assessment as well as their own notes – these should contain no more than 30 words and must be written in bullet point or mind map format. Although Edexcel produces a range of stimuli for each of the main themes (excluding centre-devised ones), teachers can adapt these or produce their own. The stimuli are generally open ended to invite student responses at different levels and may include teacher prompts and questions. Stimuli must be treated as live assessments and must be kept securely.
- Students should have access to stimuli only under supervised conditions and must not, under any circumstances, remove them from the centre. The stimuli usually provide some initial clues to support students and teachers can reduce or add to this according to the needs of the individual student. Both Edexcel-produced and centre-devised stimuli must be refreshed at least every two years. Please see the sample assessment materials for examples.
- Students can also engage in a **discussion related to a picture (or other visual) that they have chosen** or give a **presentation** and then respond to a series of linked, follow-up questions and answers. These tasks give students a choice of content and, therefore, enable them to take some ownership of their assessment. It is intended that students use the picture as a prompt to discussion and that it relates to something they have interest or involvement in (for example an activity, club or place). It is not envisaged that students will be presented with an unseen picture a few minutes before assessment or that they will be asked in-depth questions on every aspect of its visual content. Similarly, students giving a presentation must be able to choose its content and prepare. Students can prepare for a specific picture or presentation-based assessment on an individual basis in class, or under other direct supervision, up to two weeks in advance and involving no more than six hours contact time.

- Students wishing to give a short presentation (three minutes maximum) or discuss a picture should be able to refer to an A5 sheet of paper with bulleted notes (30 words maximum) or a mind map equivalent (30 words maximum). Those wishing to discuss a picture can give a short initial presentation (one minute maximum) to introduce their picture.
- As the assessment for all task types is outcome-based, teachers should ensure that they exploit the stimuli or ask questions that are sufficiently challenging to maximise student performance. Teachers should be familiar with the general content of student discussions and/or presentations in advance, so that they can prepare accordingly. However, teachers must not reveal any potential questions to students in advance.
- Students may, of course, engage in research or general preparation work related to the content of their chosen theme(s) on an ongoing basis. This may be undertaken outside the classroom and can be marked. However, no teacher feedback or guidance should be given to students when they are preparing for a specific live assessment other than to clarify the general requirements of the task.
- Teachers may assess students on more than one occasion (using **different** assessment tasks) and submit students' best marks. Each task attracts a maximum of 30 marks in accordance with the following assessment criteria that require a 'best fit' approach to marking. (Please also refer to the *Teacher's Guide*.) Marks are awarded for content and response, range of language and accuracy.

Unit 3 Reading and understanding in German

Overview

Content overview

To prepare students adequately for this unit, teachers should present and exploit a range of vocabulary relevant to all the common topic areas (in the *Common Topic Areas* table) and, where appropriate, building on the Key Stage 3 Programme of Study. Students should be presented with German language in a range of styles or registers and in a variety of different contexts, as appropriate to their age and level of understanding. Students will also be presented with different fonts and formats, for example short printed messages, advertisements and email messages. Material presented will usually relate to a German-speaking country and students will be expected to develop appropriate cultural awareness and understanding.

Assessment overview

- Students will be asked to demonstrate their understanding of a number of short texts. The texts will be in a range of contexts and styles, both formal and informal.

Foundation tier: 35 minutes

Higher tier: 50 minutes

- A number of question types will be used in the Foundation tier paper that invite non-verbal responses, such as multiple choice and matching exercises. A mixture of visual and short verbal cues in English will be given, and marks will be awarded for a student's own short, written English-language responses (two or three words may suffice). To encourage students to complete the entire paper, the Foundation tier will follow a 'peaks and troughs' model. Questions will appear in a mixed order in terms of difficulty rather than in order of increasing difficulty.

- The Higher tier paper will include the same questions targeting the C and D grades as used in the Foundation tier paper. These are commonly referred to as 'crossover' questions. It will also contain some questions that require short answers in English.
- Both papers carry a total of 40 marks and will be marked in accordance with an assessment-specific mark scheme.

The question titles and rubrics will be in English throughout the papers.

From summer 2011 centres can opt to take the Unit 3 examination as an onscreen test. An example will be given on the Edexcel website in 2009 (www.edexcel.com).

Unit 4 Writing in German

Overview

Content overview

- Centres are required to submit **students' written work** for external marking by Edexcel. This work must be **completed during two sessions** of no more than one hour each. Students may choose the context of the written tasks according to the pathway that they have chosen to follow (general or vocational) and the work must relate to one or more themes selected from the following:
 - media and culture
 - sport and leisure
 - travel and tourism
 - business, work and employment
 - centre devised option.
- Each of the broad themes gives students the scope to engage in activities that coincide with their true interests, experience and aspirations. Assessment scenarios should provide opportunities for them to demonstrate knowledge and understanding of German language and grammar, as well as to inform, describe, give detail, express feelings and to give opinions in German. Teachers can adapt Edexcel-produced stimuli or create their own, and have considerable control over content so that they can target assessment to the specific interests, learning needs and optimal performance level of each student. However, if teachers need reassurance on the suitability of a particular approach, topic or theme, they can consult an experienced examiner through Edexcel's *Ask the Expert* service.

- Teachers must ensure that the formal assessments used enable students to demonstrate their ability to use language for different purposes. Although the context of the tasks may be common, teachers must check that there is no direct overlap of content across the formal speaking and writing assessments. For example, in *Unit 2: Speaking in German* the student completes an open interaction as an assistant in a tourist information office, providing information about local amenities (formal, giving information). For their second task, they present a picture stimulus related to a holiday/exchange visit spent in a German-speaking country and then follow this up with a discussion (informal, expressing opinions, evaluative). In Unit 4, the student may present a letter of complaint (formal) to the tourist information office about transport arrangements and also design a poster to attract fellow students to a school exchange. (informal, descriptive).
- Teachers can informally assess a student using tasks that overlap in content and purpose either as part of their general language learning and development, or if only one of these tasks (speaking or writing) is counted towards final assessment.
- **NB: If the centre is in any doubt about the suitability of the approach or the content of the tasks, the teacher responsible should refer to Edexcel's Ask the Expert service, setting out clearly the context, purpose and requirements of the tasks for Unit 4 and also for Unit 2.**

Assessment overview

- Controlled assessment allows for ongoing and classroom-based assessment rather than end-of-course testing, although this is still possible. Teachers can assess whenever it is most appropriate and practical for their students. Centres can submit students' written work to Edexcel either in January or May. More information is provided in the *Teachers' Guide* that accompanies this specification.
- The student must complete **two separate writing tasks*** and each must be undertaken in controlled conditions in a single **assessment session** of no more than one hour. Although assessment is time constrained and primarily qualitative rather than quantitative, it is anticipated that students will produce at least **100** words in each of the two assessment sessions.

*It may be more appropriate for some students to complete two shorter tasks rather than a longer one in a single assessment session. Consequently, centres can submit more than two pieces of writing from these students as long as the work has all been produced in two separate assessment sessions (maximum of four pieces of writing).

- Students aiming for grade C or above will need to demonstrate extended writing skills and are expected to produce **over 200 words** for each task. Centres must limit the work submitted for external marking from these students to **two** pieces of written work.
- **Controlled assessments** can be undertaken at any time during the course prior to the deadline selected for the submission of students' work.
- When undertaking their assessments in controlled conditions, students can refer to a dictionary or online dictionary, the relevant stimulus and brief notes in bullet point or mind map type format (30 words maximum) that must accompany the submitted work. Students will not be permitted access to online grammar and spell-checkers.

- Stimuli should usually include task instructions and a scenario outline in English but task prompts can be in either German or English, as appropriate to context (for example an extract from a German website questionnaire should be in German, whereas a request to send information about a student's leisure interests to a German partner school might be more appropriate in English language bullets). The tasks require students to respond in German to a stimulus linked to a prescribed or centre-devised theme. Edexcel produces a range of stimuli for each of these (excluding centre-devised options) and teachers can adapt these or produce their own. For many students, an essay title supported by open-ended bullets could be a suitable task. The Edexcel stimuli are generally open-ended but teachers can target the assessments by modifying content to meet the different needs of their students more closely. Both Edexcel-produced and centre-devised stimuli must be refreshed at least every two years. Please see the sample assessment materials for examples.
- Teachers must not provide any help or give specific feedback to students on their preparatory work.
- The assessments can be undertaken at any time during the course before the deadline selected for the submission of students' work. Teachers may carry out more than two controlled writing assessments with their students as long as the stimuli used and work produced are different on each occasion. Teachers could then select the two best pieces of written work to submit for external marking. It is not possible for a student to carry over written work from one controlled assessment session to another. Teachers and students must complete the *Controlled Assessment Authenticity Record Sheet – Writing (Appendix 7)* before submitting of work to Edexcel with related notes and stimuli.
- This is a non-tiered unit since the final mark will be determined by the variety, appropriateness and complexity of language used and the length of the submitted tasks. Submitted work will be assessed by external examiners. Marks will be awarded for communication and content, knowledge and application of language and accuracy.

Entering your students for assessment

Student entry

Details of how to enter students for this qualification can be found in Edexcel's *Information Manual*, a copy is sent to all examinations officers. The information can also be found on Edexcel's website: www.edexcel.com

Students studying unitised GCSE Short Course and GCSE qualifications are required to complete at least 40 per cent of the overall assessment requirements as terminal assessment.

Forbidden combinations and classification code

Centres should be aware that students who enter for more than one GCSE qualification with the same classification code will have only one grade (the highest) counted for the purpose of the School and College Performance Tables.

Students should be advised that, if they take two specifications with the same classification code, schools and colleges are very likely to take the view that they have achieved only one of the two GCSEs. The same view may be taken if students take two GCSE specifications that have different classification codes but have significant overlap of content. Students who have any doubts about their subject combinations should check with the institution to which they wish to progress before embarking on their programmes.

Access arrangements and special requirements

Edexcel's policy on access arrangements and special considerations for GCE, GCSE, and Entry Level aims to enhance access to the qualifications for students with disabilities and other difficulties (as defined by the Disability Discrimination Act 1995 and the amendments to the Act) without compromising the assessment of skills, knowledge, understanding or competence.

Please see the Edexcel website (www.edexcel.co.uk/sfc/feschools/access-consideration) for:

- the Joint Council for Qualifications (JCQ) policy Access Arrangements and Special Considerations, Regulations and Guidance Relating to students who are Eligible for Adjustments in Examinations.
- the forms to submit for requests for access arrangements and special considerations
- dates for submission of the forms.

Requests for access arrangements and special considerations must be addressed to:

■ Controlled assessment

In controlled assessments, control levels are set for three linked processes: task setting, task taking and task marking. The control levels (high, medium or limited, dependent on the subject) are set for each process so that the overall level of control secures validity and reliability, provides good manageability for all involved and allows teachers to authenticate the student work confidently.

The summary of the controlled conditions for this specification are shown below.

■ ■ Summary of conditions for controlled assessment

Control levels for the controlled assessment in German are defined for the three stages of the assessment.

Task setting

To give teachers some control over assessment content, and to permit personalised learning, there is a **limited level of control** for task setting for both the **speaking and writing units**. Although Edexcel provides exemplar stimuli for use in controlled assessments, teachers may adapt these or create their own. All tasks used for live assessments **must** be refreshed every two years.

Task requirements should be clear and concise for students. As tasks are designed to develop German language speaking or writing skills, related stimuli should feature a minimal amount of text (maximum 70 words) and may feature visual prompts, potentially with some additional English-language explanation of context. Prompts and cues may be set in either English or German, appropriate to the specific scenario.

As tasks allow outcome-based assessment, teachers must ensure that students can perform at their optimal level. This means that tasks should provide **opportunities for appropriate stretch and challenge for all students**. It is important that students' performances are not unduly constrained by stimuli content and demands in the case of speaking related teacher questioning. For example, it should be possible to ask most students to express a simple opinion (although the level of response may vary considerably from student to student).

Task taking

To facilitate potential for less 'high stakes' oral assessment and to enable teachers to assess students more flexibly, a **medium level of control** has been set for task taking in *Unit 2: Speaking in German*. However, as students must complete all the written work submitted for assessment independently, *Unit 4: Writing in German* has a **high level of control** for task taking.

The following task setting controls relate to both the speaking and writing units.

Authenticity controls: Students must undertake **all formally assessed work in controlled conditions** under the supervision of a teacher. Any preparation for a specific formal assessment must also be teacher supervised (although not necessarily in the classroom) and must not, under any circumstance, be set as homework. They should have up to two weeks in advance and no more than six hours contact time for a formal speaking assessment and may have longer for writing controlled assessments. Students and teachers must complete and sign a *Controlled Assessment Authenticity Record Sheet (Appendices 6 and 7)*. Students can, as part of their language learning development, receive general guidance on the requirements of the task types used for assessment and be trained to acquire the appropriate skills and knowledge to undertake them effectively. In this period, before starting work on a formal assessment task, they should have full access to resources and feedback to support them.

Feedback control: All formal assessment-specific preparatory work must be done under fully supervised conditions. Teacher feedback is restricted to the clarification of general task requirements.

Collaboration control: It may be possible for some assessment tasks in *Unit 2: Speaking in German* to involve more than one student in task taking, although this is **not** an assessment requirement. If teachers undertake assessments that involve more than one student, they should exercise extreme caution and ensure that the performance of one student does not prejudice or restrict the performance of another.

Resource control: Key resources that students have consulted for each specific assessment must be identified on the *Controlled Assessment Authenticity Record Sheet (Appendices 6 and 7)*. In *Unit 2: Speaking in German*, students are able to refer to a visual, notes depending on the task during their test (see the unit description for more details) but they must not refer to a dictionary, except when preparing. Conversely, in *Unit 4: Writing in German*, students may refer to notes and a dictionary although access to an earlier draft, online grammar or spellchecker is prohibited (see unit description for more details).

Time control: In *Unit 2: Speaking in German*, students must carry out two different types of controlled assessment. Each task should last between **4-6 minutes** and may relate to one specific chosen theme.

In *Unit 4: Writing in German*, students must produce two* distinctly different pieces of work, although these may relate to one specific chosen theme. The work should be completed in **two sessions** of up to **one hour** each.

*It is possible that, for some students, it is appropriate to set two shorter tasks rather than one longer one in an assessment session. However, students aiming for grade C or above will need to demonstrate more extended-writing skills and are, therefore, expected to produce **over 200 words** in each task.

Teachers are free to assess Units 2 and 4 whenever it is most appropriate and practical for their students. Students can be assessed on repeat occasions but must not undertake the same assessment task twice if it is being counted towards their final assessment.

Task marking

Again, to facilitate less 'high stakes' and more flexible oral assessment, *Unit 2: Speaking in German* features a **medium level** of marking **control**. Teachers can assess their own students' work and this is then externally moderated. Edexcel provides marking support and guidance for teachers through comprehensive training and guidance. Please refer to the unit description to view the assessment criteria and to the *Instructions and administrative documentation for internally assessed units* for full details on recording and sampling requirements and marks submission arrangements.

In *Unit 4: Writing in German*, there is a **high level** of marking control. Edexcel will mark work from all students. Examiners will require the stimuli and student notes used in the writing assessments to accompany all submissions.

Internal standardisation

Teachers must show clearly how the marks have been awarded in relation to the assessment criteria. If more than one teacher in a centre is marking students' work, there must be a process of internal standardisation to ensure that there is consistent application of the assessment criteria.

Authentication

All students must sign an authentication statement. Statements relating to work not sampled should be held securely in your centre. Those which relate to sampled students must be attached to the work and sent to the moderator. In accordance with a revision to the current Code of Practice, any candidate unable to provide an authentication statement will receive zero credit for the component. Where credit has been awarded by a centre-assessor to sampled work without an accompanying authentication statement, the moderator will inform Edexcel and the mark adjusted to zero.

Assessing your students

The first assessment opportunity for Units 1 and 3 of this qualification will take place in the June 2010 series but will only be available as paper-based exam. In each of the following June series the paper-based or on screen options will be available for the lifetime of the specification. The first assessment opportunity for Units 2 and 4 will take place in June 2010 series and in each following January and June series for the lifetime of the specification.

Awarding and reporting

The grading, awarding and certification of this qualification will comply with the requirements of the current GCSE/GCE Code of Practice for courses starting in September 2009, which is published by the Qualifications and Curriculum Authority. The GCSE qualification will be graded and certificated on an eight-grade scale from A* to G. Individual unit results will be reported.

The first certification opportunity for the Edexcel GCSE in German: Spoken Language (Short Course) or Edexcel GCSE in German: Written Language (Short Course) will be 2010, and the first certification opportunity for the Edexcel GCSE in German will be 2011.

Students whose level of achievement is below the minimum judged by Edexcel to be of sufficient standard to be recorded on a certificate will receive an unclassified U result.

■ ■ Resitting of units

Students can resit the assessment requirements for an internally and externally assessed unit once before claiming certification for the qualification. The best available result for each contributing unit will count towards the final grade.

For internally assessed units students will need to retake the entire assessment requirements for that unit. In terms of controlled assessment for this qualification, students can be assessed on repeat occasions but must not undertake the same assessment task twice if it is being counted towards their final assessment.

Students that want to resit after they have completed all the assessment requirements of the course will be required to retake at least 40 per cent of the assessment requirements.

Results of units will be held in Edexcel's unit bank for as many years as this specification remains available. Once the GCSE Short Course and GCSE qualification has been certificated, all unit results are deemed to be used up at that level. These results cannot be used again towards a further award of the same qualification at the same level but unit results used for a GCSE Short Course remain available for use in a GCSE qualification.

■ ■ Language of assessment

Assessment of this specification will be available in German although some questions will be set in English and require responses in English. Assessment materials will be published in German.

■ ■ Stretch and challenge

Students can be stretched and challenged in all units through the use of different assessment strategies, for example:

- a requirement to use and recognise complex language structures and grammar
- a requirement to recognise and convey feelings and opinions
- use of open-ended questioning and stimuli
- a requirement to communicate effectively and accurately in German (Units 2 and 4)
- a requirement to produce extended German (Unit 4 only).

Malpractice and plagiarism

For up-to-date advice on malpractice and plagiarism, please refer to the Joint Council for Qualifications *Suspected Malpractice in Examinations: Policies and Procedures* document on the JCQ website www.jcq.org.uk

Student recruitment

Edexcel's access policy concerning recruitment to our qualifications is that:

- they must be available to anyone who is capable of reaching the required standard
- they must be free from barriers that restrict access and progression
- equal opportunities exist for all students.

Progression

This qualification offers a suitable progression route to GCE AS and GCE Advanced Level in German language study as well as other Level 3 qualifications. In addition, the study of one language at GCSE can facilitate and help promote the learning of other languages.

The qualification may also add to an individual's employability profile.

In addition to acquiring knowledge about language structures and the development of practical language skills, effective language learning involves a promotion of cultural understanding. This specification requires students to consider a range of common topic areas, to focus on one or more broad themes and develop an appreciation of the culture and society of German-speaking countries and communities. Consequently, teachers can link students' language study to the issues listed above.

Appendix 5 Minimum core vocabulary list

The following vocabulary list is intended to assist teachers in planning their work. It provides the minimum core generic vocabulary that all students will need to acquire (regardless of chosen theme). It is an essential vocabulary list that students should refer to and build on when preparing for listening and reading examinations.

All assessment tasks in *Unit 1: Listening and understanding in German* and *Unit 3: Reading and understanding in German* targeted at grades G–C will be based on this vocabulary list. Occasional glossing of individual words may occur in the examinations although this will be avoided whenever possible.

The speaking and writing units, it is important to note that the vocabulary requirements, even within each of the chosen pathways (**media and culture, sport and leisure, travel and tourism, business, work and employment** or **centre-devised**), could vary between students.
