Section Two

16 Read the following Case Study and answer **all** the questions that follow.

Marianne works in the Poppins Day Centre which cares for children from six weeks to four years of age. She mainly works with children between three and four years of age.

One of the children she looks after is called Damian. Damian is quiet and shy for his age and has a hearing impairment. Marianne has noticed that some of the other children make fun of Damian because he has to wear two hearing aids. Marianne has tried to talk to the children to raise their awareness of how wrong it can be to make fun of other children.

At the moment the children are learning about the different seasons of the year and have been cutting out pictures, drawing, painting and making different things to represent each of the seasons. The children all thoroughly enjoy art and take great pride in their work.

(a) From the case study identify **two** ways in which Marianne is helping the children develop their fine motor skills.

17 Read the following Case Study and answer **all** the questions that follow.

Marianne lives with her partner Imran. They are both 22 years of age and live together in a rented flat. Imran is studying to become a doctor. He works long hours and sometimes does not see Marianne for two or three days.

They would like to get married but Marianne's parents are against the marriage as Imran is from a different culture. This has caused great distress to both Marianne and Imran but they are determined to go ahead with their plans when Imran's training is finished.

As Marianne is the only one earning money, they sometimes find it difficult to pay the rent and buy what they need. This has meant they have seen less of their friends.
