- A** taking drugs
- B** drinking alcohol
- C** obesity
- D** pollution

TOTAL FOR SECTION ONE = 15 MARKS

Section Two

16 Read the following Case Study and answer all the questions that follow.

Assie is 42 years of age and has two children. Ruby is 15 years of age and Kayleigh is eight years of age. Assie's husband died nine months ago from cancer. Although both children are progressing well at school Assie has become increasingly concerned about their behaviour. Kayleigh is finding it difficult to sleep and her concentration is poor in school. Ruby was caught smoking on the school premises. Assie does not like the friends that Ruby has started socialising with but does not want to say anything as they have already argued over this issue. Assie is worried that her children are not coping well with their father's death.

(a) Identify the life stage which Assie, Ruby and Kayleigh are currently in.

(3)

Assie's life stage:

Ruby's life stage:

Kayleigh's life stage:

(b) Identify and describe **one** formal source of support Assie could use to help her daughters come to terms with their father's death.

(4)

*(e) Discuss how self-concept may be influenced by peer group pressure.

(10)

A series of horizontal dotted lines for writing the answer.

(Total for Question 16 = 27 marks)

17 Read the following Case Study and answer all the questions that follow.

Assie works as a Practice Nurse in a busy GP surgery. Many of the patients that Assie sees are unemployed, live in poor housing conditions and suffer a range of health conditions such as stress, angina and diabetes. Assie runs a number of different clinics which help patients come to terms with their illness and attempt to help them lead a better life.

One of her patients is James who was recently diagnosed with diabetes. Assie, however, is not sure whether his illness was inherited or came as a result of his obesity, poor diet and heavy drinking.

(a) Identify and describe **two** physical factors which could be affecting James' health.

(4)

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

(b) Explain the difference between genetic inheritance and environment.

(4)

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

(c) Explain how James' self-esteem may have changed after being diagnosed with diabetes.

(4)

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

(d) Explain how poverty may affect the health and wellbeing of patients attending the clinic.

(6)
