17 Read the following case study and answer all the questions that follow.

Eva is 76 years of age and lives on her own. She is German and came to live in the United Kingdom 30 years ago. Eva's English is very poor and she rarely leaves her house.

Eva developed a severe chest infection that has left her confused and confined to her bed for two weeks. Alf, a neighbour, has been very supportive and helpful with daily routines such as cooking and cleaning.

As a District Nurse Kaitlyn also visits Eva to see how she is progressing and to ensure she is taking her medication. They often discuss how Eva is feeling emotionally.

(a) Identify three PHYSICAL characteristics associated with Eva's life stage. (3 marks)

1 _____
