Pearson Edexcel GCSE (9–1) History

This brochure will guide you through our Pearson Edexcel GCSE (9–1) History qualification. As both an awarding body and a publisher, we’ll outline how the course is designed to engage your students, as well as the unparalleled support and resources we provide for all aspects of planning, delivery and assessment of the qualification.

Our qualification has:

1. a flexible specification with topics that teachers want to teach and students want to study — Page 4
2. a manageable approach to the new Historic Environment requirement — Pages 6–7
3. clear and consistent exam papers and mark schemes — Pages 8–11
4. unbeatable and expert support every step of the way — Pages 12–19.

Look out for Pearson’s published resources on pages 13, 15, 16 and 19!

Supporting great history teaching

**History matters.** That’s why our GCSE (9–1) history qualification encompasses a wide range of themes, historical events and eras, so students can understand the past and its impact on the world around us.

**There’s no particular way to teach history.** With our specification, there’s choice and flexibility across options that means you can teach the topics that work best for you and your students. And when it comes to our assessments, they’re built to encourage every student to best show what they know and can do.

**It’s shaped by you, for your students.** We’ve worked with hundreds of practising teachers and the history education community to create a qualification that’ll help students become confident and successful historians. What’s more, we’ll support you every step of the way with tools and published resources to help you plan, teach, track and assess our course with confidence.

“Most of us spend too much time on the last 24 hours and too little on the last 6,000 years.”

Will Durant
A flexible specification with topics that teachers want to teach and students want to study

Our new Pearson Edexcel GCSE (9–1) specification brings together elements of the former Modern World and Schools History Project courses so GCSE students can explore a broader range of history than ever before.

- **There's more to choose from.** Our specification covers more than a thousand years of history, from medieval England and the American West to Mao's China.

- **The choice is yours.** There are no prohibited topic combinations, meaning you have the freedom to choose themes and eras that will work for you and your students.

- **There's tailored support.** Our specification is supported by an unbeatable range of free tools and resources that help you plan, teach, track and assess every element of our course with confidence.

- **There's consistency between our Edexcel GCSE, AS and A level qualifications.** Our GCSE specification was shaped alongside our new AS and A level courses so students can continue to succeed in history by building on what they’ve learned, rather than repeating it in further study.

- **Popular topics were retained.** We kept the specification topics you told us you wanted to continue teaching. Date ranges from these topics have also stayed the same, enabling you to use existing materials.

- **New topics were introduced to engage you and your students.** We chose to update and create new topics based on what you said you want to start teaching and on what you said you liked in the former controlled assessment units.

- **Some topics run up to the present day,** so students can link events of the past to what’s happening around them today.

- **You construct the course that works for your students.** Topics throughout the course can be combined thematically to create a coherent teaching and learning pathway.

- **Designed with progression in mind.** Our course builds on Key Stage 3 topics to help students confidently develop a more nuanced understanding of history. It also provides a stepping stone to further study at AS and A level with content and skills covered.

A manageable approach to the Historic Environment requirement

With our unique approach to the Historic Environment requirement, the sites we’ve chosen stay the same throughout the lifetime of the course. That way, you can focus on teaching the history rather than planning and finding resources for a different site every year.

Based on your feedback, we’ve specified Historic Environment sites so you can be confident that they will meet the new requirements.

The sites are proven to engage students, as they relate to popular options in the previous specifications. What’s more, teachers have told us they think the sites will help encourage students to choose to study GCSE (9–1) History.

We’ve chosen sites with a rich array of contemporary sources related to them, so there is plenty of ways to bring the history of the site to life.

Each Historic Environment site is linked to a thematic study, so students only have to study four distinct areas of content rather than five. What students learn in Medicine, Crime, or Warfare will give a broad context for the detailed study of the associated site.

The sites give students an opportunity to study modern British history, as well as build on what they’ve learned in the British breadth and depth topics.

Our qualification at a glance

Our course is designed to help your students make conceptual, geographical, period and thematic links between topics.

We’ve linked topics in Paper 1 together, so students can apply their contextual understanding from the thematic study to the Historic Environment study.
Clear and consistent exam papers and mark schemes

Our assessments are designed to be straightforward and consistent, encouraging all students to show what they know and understand about history to the best of their ability. Our three shorter papers cover specific areas of study, allowing students to focus more on certain topics and skills.

Clear question papers

1. Clear questions and accessible language are used throughout the exams, so each student can understand what they’re being asked to do.

2. Gradual ramping of demand throughout sections and papers encourages all students to engage with every part of the exams.

Three shorter papers: an assessment model teachers prefer

1. With three papers, there are more opportunities for students to show what they can do.

2. There’s a maximum of two topics covered in every paper, so students don’t need to switch between topics too often in an exam.

3. We’ve balanced assessment objectives across the papers so students can focus on particular skills in the exams.

4. Papers are shorter, so students are less likely to be affected by exam fatigue.

Straightforward level-based mark schemes

1. We researched and trialled our mark schemes with examiners and schools across the country to ensure they’re clear and reward responses appropriately.

2. Our mark schemes classify level descriptors as distinct ‘traits’, so you can see how individual traits progress across levels.

3. There’s a consistent approach across questions that test the same assessment objectives and comparable qualities, so you can focus on the historical skills and understanding rather than the mechanics of individual questions.

4. Our mark schemes are designed in a similar way at AS and A level too, so students can see how to progress in their history studies across the Key Stages.

**Paper 2 – Period Study and British Depth Study**

Change to Paper 2 layout:

From summer 2019 onwards, Paper 2 will be split into two physical question-and-answer booklets: the Period study (booklet P), and the British depth study (booklet B). Students will only be provided with questions for the topics they have studied. The specification and SAMs are being updated to reflect this change.

There are no changes to the Paper 2 topics or questions themselves, the timing of the examination (1 hour 45 mins) or the application of the mark scheme. On the day of the Paper 2 exam, candidates will also be provided with a separate sheet containing key information on how pupils should complete the two question-and-answer booklets.

**Assessment objectives**

- AO1: Demonstrate knowledge and understanding of the key features and characteristics of the periods studied.
- AO2: Explain and analyse historical events and periods studied using second-order historical concepts.
- AO3: Analyse, evaluate and use sources (contemporary to the period) to make substantiated judgements, in the context of historical events studied.
- AO4: Analyse, evaluate and make substantiated judgements about interpretations (including how and why interpretations may differ) in the context of historical events studied.

**Paid-for published resources**

We’re committed to helping teachers deliver our Pearson Edexcel qualifications and students to achieve their full potential.

To do this, our qualifications are supported by endorsed resources* produced by a range of publishers, including ourselves.

Endorsed resources are available at quals.pearson.com/gcsehistoryguide.

*Pearson’s paid-for resources, as well as other endorsed resources, are not a prerequisite for the delivery of Pearson Edexcel specifications.

**Supporting great history teaching**

Pearson’s paid-for resources support the delivery of Pearson Edexcel GCSE (9–1) History and are designed to help your students become confident, articulate historians able to access and develop the skills needed for the new assessments.

**Student Books for every option in the specification**

Series edited by Angela Leonard, these engaging textbooks will guide you and your students throughout the new course. Also available as ActiveBooks and Kindle editions, these accessible books provide support with developing conceptual understanding and literacy skills, include sample answers and commentaries, and offer help with all the new assessment requirements.

**Foundation Student Books**

We offer greater support to students with weaker literacy skills, or those for whom English is not their first language by providing foundation versions of the Student Books for the five most popular options.

The Pearson Progression Scale

The Pearson Progression Scale is a progression model designed to help track progress in history.

The Scale defines 12 steps of progress in history for students between the ages of 11 years and 16 years. Progress is defined along different ‘strands’ covering the second order concepts at the core of the GCSE qualification, and the necessary acquisition and understanding of historical knowledge. The average student is expected to make one step of progress per year.

In the example below, a student starting on step 4 at the start of Year 7 will be expected to be on step 9 at the end of Year 11.

The Pearson Progression Scale provides a simple and clear way of reporting progress to both students and parents.

Other publishers with endorsed resources include:

- Hodder Education
- ZigZag Education.

Why have we chosen to have chess pieces on the front of our new GCSE specification?

Chess has been played throughout the world for over 1,500 years. It was played by many of the famous characters in our history specification including William the Conqueror, King John, Henry VIII and Queen Elizabeth I. We chose chess pieces to highlight the chronological and geographical range of our new Pearson Edexcel GCSE (9–1) History specification. As well as being symbolic of conflict and power-relationships, they represent a link between the past and the present.
