1 Introduction

Why choose Edexcel GCSE History?

We've listened to feedback from all parts of the history subject community, including a large number of teachers. We've used this opportunity of curriculum change to redesign a qualification that will engage students with a broad and diverse study of the history of Britain and the wider world and give them skills that will support progression to further study of history and a wide range of other subjects.

A unified approach – we're offering a single GCSE History specification that gives you the freedom to select from the most popular topics in current Modern World and Schools History Project specifications, as well as a number of exciting new topics, including some that are brand new to GCSE.

Clear and coherent structure – our qualification has a straightforward structure with four elements, assessed through three externally examined papers. There are no prohibited combinations, giving you flexibility to design a coherent course that is appropriate for your students.

Historic environment sites nested within thematic studies – we have chosen a specific site linked to each of our well-established British thematic studies that will be engaging for students to study.

Period studies that provide an unfolding narrative – all of the topics we have selected tell a story about a period that shaped the world we live in today. We've retained two popular topics from current specifications (the Cold War and American West) as well as introducing several new, engaging period studies.

Modern non-British depth studies – all of our non-British depth studies are from the modern era, allowing the popular topics of Germany, Russia and the USA to be retained, while also including a new China topic. There is a focus on interpretations of history in these depth studies.

Medieval and early modern British depth studies – to meet the criteria requirement for depth studies to come from two eras, all our British depth studies are pre-modern, with two medieval and two early modern topics to choose from.

Clear and straightforward question papers – we have focused on ensuring that our question papers are clear and accessible for students and that mark schemes are straightforward in making the requirements clear.

Builds on Key Stage 3 – we have designed the GCSE to extend students' knowledge by studying new areas of content and by revisiting and deepening their knowledge of content studied previously.

Supports progression to A Level – we planned our GCSE and A Level specifications together. This ensures sensible progression of content from GCSE to A Level and similar approaches to assessment, so that students will have a coherent and diverse experience of history if they take both an Edexcel GCSE and A Level in History.

Supporting you in planning and implementing this qualification

Planning

- Our **Getting Started** guide gives you an overview of the GCSE History qualification to help you to get to grips with the changes to content and assessment and to help you understand what these changes mean for you and your students.
- We will give you an editable **course planner** and topic-specific **schemes of work** that you can adapt to suit your department.
- **Our mapping documents** highlight key differences between the new and 2013 qualifications.

Teaching and learning

There will be lots of free teaching and learning support to help you deliver the new qualification, including:

- **topic booklets**, with background information about the topic, resource lists and timelines
- guidance on **teaching approaches** to the thematic study and historic environment
- guidance on teaching source and interpretations skills.

Preparing for exams

We will also provide a range of resources to help you prepare your students for the assessments, including:

- **specimen papers** to support formative assessments and mock exams
- levelled **exemplars** of student work with examiner commentaries.

ResultsPlus

ResultsPlus provides the most detailed analysis available of your students' exam performance. It can help you identify the topics and skills where further learning would benefit your students.

2 Subject content

Qualification aims and objectives

The aims and objectives of this qualification are to enable students to:

- develop and extend their knowledge and understanding of specified key events, periods and societies in local, British, and wider world history; and of the wide diversity of human experience
- engage in historical enquiry to develop as independent learners and as critical and reflective thinkers
- develop the ability to ask relevant questions about the past, to investigate issues critically and to make valid historical claims by using a range of sources in their historical context
- develop an awareness of why people, events and developments have been accorded historical significance and how and why different interpretations have been constructed about them
- organise and communicate their historical knowledge and understanding in different ways and reach substantiated conclusions.

Summary of Department for Education content requirements

This GCSE complies with the requirements specified by the Department for Education (DfE) in its document *History GCSE subject content* (published April 2014). This requires students to study, as a minimum:

- two **depth studies**, each covering a substantial and short time span:
 - one must be a British depth study from the medieval (500–1500), early modern (1450–1700) or modern (1750–present) eras
 - the other must be a **European or wider-world depth study** from an era different to the British depth study
- a **period study** of at least 50 years from any of the eras
- the **historic environment** through the study of a particular site in its historical context
- a **thematic study** involving the study of people, events and developments drawn from all three eras defined above.

The DfE also requires that British history must form at least 40% of the assessed content.

Creating a coherent and substantial course of study

The DfE's *History GCSE subject content* (April 2014) requires that GCSE History qualifications 'must provide a coherent and substantial course of study'.

Pearson has provided options in this specification that, in combination, will enable centres to create courses that are coherent and substantial. It is important that centres are clear about how their chosen combinations of options meet this requirement. Further information about different approaches to this can be found in *Appendix 2*.

How content is expressed

Centres should refer to Appendix 3, which provides guidance about how to interpret the requirements and expectations around what is taught in the topics.

Entry codes

The tables in *Appendix 1* show the entry codes that must be used for a centre's chosen options.

Paper 1: Thematic study and historic environment

Overview

The relevant pages of this section specify the content that must be taught for the chosen option. All of the content for the option is mandatory.

Each Paper 1 option is divided into two: a thematic study and a linked study of a historic environment. This linked structure promotes topic coherence across Paper 1 and aids teaching and learning by allowing the issues studied in the historic environment to be seen within a broader thematic context.

Both parts cover British history.

Thematic studies

The thematic studies require students to understand change and continuity across a long sweep of history, including the most significant characteristics of different ages from the medieval to modern periods. They include people, events and developments and reveal wider changes in aspects of society over the centuries and allow comparisons to be made between different periods of history.

Each thematic study begins with an introductory section called *The process of change*. This explains the focus and identifies the relevant concepts and factors that need to be understood and applied when teaching the content.

This content is then divided into four further sections, which run sequentially from medieval to the present day. The four sections provide a framework for understanding the option, but should not be taken in isolation from each other – students should appreciate developments across the option as a whole. Each section is divided into three strands, the third of which contains case studies that exemplify content outlined in strands 1 and 2 and provide opportunities to make detailed comparisons over time.

Assessment

Students will be assessed on their knowledge and understanding, with questions focusing on similarity and difference, and change and continuity. This may include turning points (significance), extent of, and causes or consequences of change.

Historic environments

Each historic environment is linked to a thematic study and focuses on that site in its historical context. It examines the relationship between a place and historical events and developments. Much of the content is linked to the thematic study, but additionally some of the content focuses on the place itself.

Assessment

The content is assessed through a question on features of the period and also through a historical enquiry. For the historical enquiry, students will need to develop the skills necessary to analyse, evaluate and use contemporary sources to make substantiated judgements, in the context of the historical events studied. To aid teaching, the content is divided into two sections: the first covers the site in its historical context; the second covers knowledge, selection and use of sources relevant to this historic environment for enquiries.

Option 10: Crime and punishment in Britain, c1000–present and Whitechapel, c1870–c1900: crime, policing and the inner city

Crime and punishment in Britain, c1000–present

The process of change

- In studying the content defined below in strands 1 and 2, students should understand how key features in the development of crime and punishment were linked with the key features of society in Britain in the periods studied.
- They should develop an understanding of the nature and process of change. This will involve understanding patterns of change, trends and turning points, and the influence of factors inhibiting or encouraging change within periods and across the theme. The key factors are: attitudes in society; individuals and institutions (Church and government); and science and technology.
- They should also understand how factors worked together to bring about particular developments at particular times.
- The selected case studies in strand 3 of each period exemplify, in context, the elements defined in strands 1 and 2. They provide opportunities to explore the operation of the key factors and to make detailed comparisons over time.

Paper 2: Period study and British depth study

Overview

The relevant pages of this section specify the content that must be taught for the chosen option. All of the content for the option is mandatory.

Students are required to study **one** British depth study **and** one period study. The two parts are independent and so any depth study can be combined with any period study.

British depth studies (pages 18–25)

The depth studies focus on a substantial and coherent short time span and require students to understand the complexity of a society or historical situation and the interplay of different aspects within it. Depending on the depth study chosen, these may include social, economic, political, religious and military aspects.

The content is divided into three key topics. These provide a framework for teaching and understanding the option, but should not be taken in isolation from each other. For each depth study, there is some chronological overlap between key topics – this structure helps highlight the complexity and interplay of different aspects within society.

Assessment

Students will be assessed on their knowledge and understanding. Questions will target key features and causation, and may also target other second order concepts (change, continuity, consequence, similarity, difference, significance).

Period studies (pages 26–35)

The period studies focus on a substantial and coherent medium time span of at least 50 years and require students to understand the unfolding narrative of substantial developments and issues associated with the period.

The content is divided into three key topics, which provide a framework for teaching and understanding the option. These run in chronological sequence, but should not be taken in isolation from each other – students should appreciate the narrative connections that run across the key topics.

Assessment

Students will be assessed on their knowledge and understanding. Questions will target: consequence; significance (of specified events in relation to situations and unfolding developments); and analytical narrative (requiring students not only to describe what happened, but also to analyse events to find connections that explain the way in which events unfolded).

Paper 3: Modern depth study

Overview

The relevant pages of this section specify the content that must be taught for the chosen option.

Students are required to study one modern depth study. All of the content for the option is mandatory.

The depth studies focus on a substantial and coherent short time span and require students to understand the complexity of a society or historical situation and the interplay of different aspects within it. Depending on the depth study chosen, these may include social, economic, political, cultural and military aspects.

The main content is divided into four key topics. These provide a framework for teaching and understanding the option, but should not be taken in isolation from each other. For each depth study, there is some chronological overlap between key topics – this structure helps highlight the complexity and interplay of different aspects within society.

Assessment

Students will be assessed on all four Assessment Objectives. All questions may relate to any content specified in the four key topics.

Questions focusing solely on knowledge and understanding will target causation.

Other questions will target the ability to analyse and evaluate contemporary sources and later interpretations. Students should be aware that interpretations are based on evidence from their period of study. They should be aware of a range of evidence that can be used to reach conclusions. They should study examples of such evidence and consider ways in which it could give rise to and support different interpretations. Students should understand a range of reasons why interpretations may differ. They should be aware that differences based on conclusions drawn from evidence are legitimate and can be explained. They should be able to evaluate given interpretations using their own knowledge of the period.

3 Assessment information

Paper 1: Thematic study and historic environment

(Paper codes: 1HI0/10–12)

- First assessment: May/June 2018
- The assessment is 1 hour and 15 minutes.
- The question paper is out of 52 marks.
- It comprises two sections: A and B.

Section A: historic environment

This section is worth 10%* of the total qualification.

It is marked out of 16. Both questions are compulsory.

- **Question 1:** this focuses on describing features (AO1).

Question 2 is a two-part question, targeting AO3. It uses two contemporary sources. One of them may be visual, but at least one will be written.

- **Question 2 (a):** students assess the usefulness of both sources for a specified enquiry, making use of their knowledge of the historical context.
- **Question 2 (b):** students suggest a follow-up enquiry relating to one of the sources.

Section B: thematic study

This section is worth 20%* of the total qualification.

It is marked out of 36.

Of the 36 marks, up to 4 marks in Question 5/6 will be awarded for spelling, punctuation, grammar and use of specialist terminology (SPaG).

All questions target AO1/AO2.

Questions 3 and 4 are compulsory. Students then select either Question 5 or Question 6.

- **Question 3:** this focuses on similarity or difference over time. Questions will cross sections of the specification and will normally span at least a century (and may span much longer periods).
- **Question 4:** this focuses on the process of change (e.g. why there was a rapid change/slow change/why change continued). Questions will normally span at least a century and may span much longer periods.
- **Questions 5/6:** requires a judgement and may focus any of the following: the *nature* or *extent* of change (change/continuity); *patterns* of change (turning points, i.e. significance); the *process* of change (factors bringing it about, i.e. causation); or the *impact* of change (i.e. consequence). Questions will normally span at least two centuries and may span much longer periods.

*This weighting relates to assessed content, before including marks for SPaG.

Paper 2: Period study and British depth study

(Paper codes: 1HI0/2A–2W)

- First assessment: May/June 2018.
- The assessment is 1 hour and 45 minutes.
- The question paper is out of 64 marks.
- It comprises two question and answer booklets: P and B.

Question and answer booklet P: period study

This section is worth 20%* of the total qualification.

It is marked out of 32.

All questions target AO1/AO2.

Students answer three compulsory questions:

- **Question 1:** this focuses on consequence.
- **Question 2:** this focuses on analytical narrative, in which students write an account that not only describes what happened, but also involves analysis to find connections and make sense of events and their impact to explain why events unfolded in the way that they did. This is likely to involve a mix of second order concepts (i.e. causation, consequence, change).
- **Question 3:** students select two from a choice of three parts. Each focuses on the importance of an event/person/development in terms of what difference they made in relation to situations and unfolding developments (i.e. their consequence and significance).

Question and answer booklet B: British depth study

This section is worth 20%* of the total qualification.

It is marked out of 32.

Students answer one question comprising three parts:

- **Q1 (a):** this is compulsory and targets AO1. It focuses on describing features.
- **Q1 (b):** this is compulsory and targets AO1/AO2. It focuses on causation.
- **Q1 (c):** students have a choice of two questions: (i) or (ii). These target AO1/AO2 and require a judgement. They may focus on any of the following: similarity, difference, change, continuity, causation or consequence.

*This weighting relates to assessed content, before including marks for SPaG.

- First assessment: May/June 2018.
- The assessment is 1 hour and 20 minutes.
- The question paper is out of 52 marks.
- It comprises two sections: A and B.

Section A

This section is worth 10%* of the total qualification.

It is marked out of 16 marks.

Students answer two compulsory questions:

- **Question 1:** this targets AO3, and focuses on making inferences from a source.
- **Question 2:** this targets AO1/AO2, and focuses on causation.

Section B

This section is worth 20%* of the total qualification.

It is marked out of 36 marks.

Of the 36 marks, up to 4 marks in Question 3 (d) will be awarded for spelling, punctuation, grammar and use of specialist terminology (SPaG).

All question parts are compulsory.

- **Question 3 (a):** this targets AO3 and uses two contemporary sources. One of them may be visual, but at least one will be written. Students assess the usefulness of both sources for a specified enquiry, making use of their knowledge of the historical context.
- **Question 3 (b):** this targets AO4 and uses two later written interpretations. Students explain *how* the two interpretations differ.
- **Question 3 (c):** this targets AO4 and uses the same interpretations as part (b). Students suggest *why* the two interpretations differ.
- **Question 3 (d):** this targets AO4 and re-uses the interpretations. It requires students to evaluate one interpretation, making use of the other interpretation and their knowledge of the historical context

*This weighting relates to assessed content, before including marks for SPaG.

Assessment of extended writing in Papers 1, 2 and 3

All GCSEs must provide opportunities for students to write responses which are of sufficient length to allow students to demonstrate the ability to construct and develop a sustained line of reasoning which is coherent, relevant, substantiated and logically structured.

In this GCSE, these abilities are rewarded in the mark schemes of questions which target AO2 and which carry 8 or more marks (the precise mix of these abilities rewarded will vary depending on the nature and length of the answer expected).

Stimulus points

Many of the questions that reward extended writing provide stimulus points, which students may (but are not required to) use in their answer. Students must, however, use additional points of their own; failure to do so will be penalised in the mark schemes.

Stimulus points may be taken directly from words that appear in the specified topic content; other stimulus points may not be directly specified where these are central to, and indicated by, the specified topic content.

Assessment Objectives

Students must:		% in GCSE
AO1	Demonstrate knowledge and understanding of the key features and characteristics of the periods studied.	35
AO2	Explain and analyse historical events and periods studied using second-order ¹ historical concepts.	35
AO3	Analyse, evaluate and use sources (contemporary to the period) to make substantiated judgements, in the context of historical events studied.	15
AO4	Analyse, evaluate and make substantiated judgements about interpretations (including how and why interpretations may differ) in the context of historical events studied.	15
Total		100

Breakdown of Assessment Objectives

Paper	Assessment Objectives				Total for all AOs
	AO1 %	AO2 %	AO3 %	AO4 %	
Paper 1: Thematic study and historic environment	11.25	11.25	7.5	-	30
Paper 2: Period study and British depth study	20	20	-	-	40
Paper 3: Modern depth study	3.75	3.75	7.5	15	30

Sample assessment materials

Sample papers and mark schemes can be found in the *Pearson Edexcel Level 1/Level 2 GCSE (9–1) in History Sample Assessment Materials (SAMs)* documents.

¹ Second order concepts are defined by the DfE's *History GCSE subject content* (April 2014) as: causation, consequence, similarity, difference, change, continuity and significance.

4 Administration and general information

Entries

Details of how to enter students for the examinations for this qualification can be found in our *UK Information Manual*. A copy is made available to all examinations officers and is available on our website: qualifications.pearson.com

Forbidden combinations and discount code

There are no forbidden combinations of options within this GCSE.

Centres should be aware that students who enter for more than one GCSE, or other Level 2 qualifications with the same discount code, will have only the grade for their 'first entry' counted for the purpose of the School and College Performance Tables (please see *Appendix 1: Codes*). For further information about what constitutes 'first entry' and full details of how this policy is applied, please refer to the DfE website: www.education.gov.uk

Students should be advised that, if they take two GCSEs with the same discount code, schools and colleges to which they wish to progress are very likely to take the view that they have achieved only one of the two GCSEs. The same view may be taken if students take two GCSE or other Level 2 qualifications that have different discount codes but which have significant overlap of content. Students or their advisers who have any doubts about their subject combinations should check with the institution to which they wish to progress before embarking on their programmes.

Access arrangements, reasonable adjustments, special consideration and malpractice

Equality and fairness are central to our work. Our equality policy requires all students to have equal opportunity to access our qualifications and assessments, and our qualifications to be awarded in a way that is fair to every student.

We are committed to making sure that:

- students with a protected characteristic (as defined by the Equality Act 2010) are not, when they are undertaking one of our qualifications, disadvantaged in comparison to students who do not share that characteristic
- all students achieve the recognition they deserve for undertaking a qualification and that this achievement can be compared fairly to the achievement of their peers.

Language of assessment

Assessment of this qualification will be available in English. All student work must be in English.

Access arrangements

Access arrangements are agreed before an assessment. They allow students with special educational needs, disabilities or temporary injuries to:

- access the assessment
- show what they know and can do without changing the demands of the assessment.

The intention behind an access arrangement is to meet the particular needs of an individual student with a disability, without affecting the integrity of the assessment. Access arrangements are the principal way in which awarding bodies comply with the duty under the Equality Act 2010 to make 'reasonable adjustments'.

Access arrangements should always be processed at the start of the course. Students will then know what is available and have the access arrangement(s) in place for assessment.

Reasonable adjustments

The Equality Act 2010 requires an awarding organisation to make reasonable adjustments where a person with a disability would be at a substantial disadvantage in undertaking an assessment. The awarding organisation is required to take reasonable steps to overcome that disadvantage.

A reasonable adjustment for a particular person may be unique to that individual and therefore might not be in the list of available access arrangements.

Whether an adjustment will be considered reasonable will depend on a number of factors, which will include:

- the needs of the student with the disability
- the effectiveness of the adjustment
- the cost of the adjustment; and
- the likely impact of the adjustment on the student with the disability and other students.

An adjustment will not be approved if it involves unreasonable costs to the awarding organisation, timeframes or affects the security or integrity of the assessment. This is because the adjustment is not 'reasonable'.

Special consideration

Special consideration is a post-examination adjustment to a student's mark or grade to reflect temporary injury, illness or other indisposition at the time of the examination/assessment, which has had, or is reasonably likely to have had, a material effect on a candidate's ability to take an assessment or demonstrate their level of attainment in an assessment.

Further information

Please see our website for further information about how to apply for access arrangements and special consideration.

For further information about access arrangements, reasonable adjustments and special consideration, please refer to the JCQ website: www.jcq.org.uk.

Malpractice

Candidate malpractice

Candidate malpractice refers to any act by a candidate that compromises or seeks to compromise the process of assessment or which undermines the integrity of the qualifications or the validity of results/certificates.

Candidate malpractice in examinations **must** be reported to Pearson using a *JCQ M1 Form* (available at www.jcq.org.uk/exams-office/malpractice). The form should be emailed to candidatemalpractice@pearson.com. Please provide as much information and supporting documentation as possible. Note that the final decision regarding appropriate sanctions lies with Pearson.

Failure to report malpractice constitutes staff or centre malpractice.

Staff/centre malpractice

Staff and centre malpractice includes both deliberate malpractice and maladministration of our qualifications. As with candidate malpractice, staff and centre malpractice is any act that compromises or seeks to compromise the process of assessment or which undermines the integrity of the qualifications or the validity of results/certificates.

All cases of suspected staff malpractice and maladministration **must** be reported immediately, before any investigation is undertaken by the centre, to Pearson on a *JCQ M2(a) Form* (available at www.jcq.org.uk/exams-office/malpractice). The form, supporting documentation and as much information as possible should be emailed to pqsmalpractice@pearson.com. Note that the final decision regarding appropriate sanctions lies with Pearson.

Failure to report malpractice itself constitutes malpractice.

More-detailed guidance on malpractice can be found in the latest version of the document *JCQ General and Vocational Qualifications Suspected Malpractice in Examinations and Assessments*, available at www.jcq.org.uk/exams-office/malpractice.

Awarding and reporting

This qualification will be graded, awarded and certificated to comply with the requirements of Ofqual's General Conditions of Recognition.

The GCSE qualification will be graded and certificated on a nine-grade scale from 9 to 1 using the total subject mark where 9 is the highest grade. Individual papers are not graded.

Students whose level of achievement is below the minimum judged by Pearson to be of sufficient standard to be recorded on a certificate will receive an unclassified U result.

The first certification opportunity for this qualification will be 2018.

Student recruitment and progression

Pearson follows the JCQ policy concerning recruitment to our qualifications in that:

- they must be available to anyone who is capable of reaching the required standard
- they must be free from barriers that restrict access and progression
- equal opportunities exist for all students.

Prior learning and other requirements

There are no prior learning or other requirements for this qualification.

Progression

Students can progress from this qualification to:

- AS and A Levels in History and other subjects.
- Vocational qualifications, such as BTEC Nationals.

Type of code	Use of code	Code
Discount codes	<p>Every qualification eligible for performance tables is assigned a discount code indicating the subject area to which it belongs.</p> <p>Discount codes are published by DfE</p>	Please see the GOV.UK website*
Regulated Qualifications Framework (RQF) codes	<p>Each qualification title is allocated an Ofqual Regulated Qualifications Framework (RQF) code.</p> <p>The RQF code is known as a Qualification Number (QN). This is the code that features in the DfE Section 96 and on the LARA as being eligible for 16–18 and 19+ funding, and is to be used for all qualification funding purposes. The QN will appear on students' final certification documentation.</p>	The QN for this qualification is: 601/8092/4

Entry codes	<p>It is essential that the correct entry code is used as this will determine which examination papers are sent to the school.</p> <p>The table on the next page shows how to determine the correct entry code for the chosen options.</p>	See next page

*www.gov.uk/government/publications/2018-performance-tables-discount-codes

Entry codes

The first digit of the entry code is determined by the combination of Paper 1 and Paper 3, while the second is determined by the choice of Paper 2.

For example to combine:

Medicine in Britain, c1250–present and the British sector of the Western Front, 1914–18: injuries, treatment and the trenches

plus

Weimar and Nazi Germany, 1918–39

(= first entry code digit – **F**)

with:

Superpower relations and the Cold War, 1941–91 and Early Elizabethan England, 1558–88

(= second entry code digit – **R**),

the entry code would be **FR**.

Paper 1: Thematic study and historic environment	Paper 3: Modern depth study	Entry code digit 1
10: Crime and punishment in Britain, c1000–present <i>and Whitechapel, c1870–c1900: crime, policing and the inner city</i>	30: Russia and the Soviet Union, 1917–41	A
	31: Weimar and Nazi Germany, 1918–39	B
	+ 32: Mao’s China, 1945–76	C
	33: The USA, 1954–75: conflict at home and abroad	D
11: Medicine in Britain, c1250–present <i>and The British sector of the Western Front, 1914–18: injuries, treatment and the trenches</i>	30: Russia and the Soviet Union, 1917–41	E
	31: Weimar and Nazi Germany, 1918–39	F
	+ 32: Mao’s China, 1945–76	G
	33: The USA, 1954–75: conflict at home and abroad	H
12: Warfare and British society, c1250–present <i>and London and the Second World War, 1939–45</i>	30: Russia and the Soviet Union, 1917–41	J
	31: Weimar and Nazi Germany, 1918–39	K
	+ 32: Mao’s China, 1945–76	L
	33: The USA, 1954–75: conflict at home and abroad	M

The second digit is now a letter determined by the choice of specific Paper 2 topics. It corresponds to the Paper 2 reference code for each combination of topics.

Paper 2 reference	Period study	British depth study	Entry code digit 2
2A	P1: Spain and New World	B1: Anglo-Saxon and Norman England	A
2B	P1: Spain and New World	B2: King Richard I and King John	B
2C	P1: Spain and New World	B3: Henry VIII and his ministers	C
2D	P1: Spain and New World	B4: Early Elizabethan England	D
2E	P2: British America	B1: Anglo-Saxon and Norman England	E
2F	P2: British America	B2: King Richard I and King John	F
2G	P2: British America	B3: Henry VIII and his ministers	G
2H	P2: British America	B4: Early Elizabethan England	H
2J	P3: The American West	B1: Anglo-Saxon and Norman England	J
2K	P3: The American West	B2: King Richard I and King John	K
2L	P3: The American West	B3: Henry VIII and his ministers	L
2M	P3: The American West	B4: Early Elizabethan England	M
2N	P4: Superpower relations	B1: Anglo-Saxon and Norman England	N
2P	P4: Superpower relations	B2: King Richard I and King John	P
2Q	P4: Superpower relations	B3: Henry VIII and his ministers	Q
2R	P4: Superpower relations	B4: Early Elizabethan England	R
2T	P5: Conflict in the Middle East	B1: Anglo-Saxon and Norman England	T
2U	P5: Conflict in the Middle East	B2: King Richard I and King John	U
2V	P5: Conflict in the Middle East	B3: Henry VIII and his ministers	V
2W	P5: Conflict in the Middle East	B4: Early Elizabethan England	W

For example to combine:

Entry code digit 1

Medicine/British Sector of Western Front AND Weimar and Nazi Germany = first entry code digit F

Entry code digit 2

Superpower relations AND Early Elizabethan England = second entry code digit R

The entry code for this combination would be FR.

Appendix 2: Creating a broad and coherent course of study

Options have been selected that will meet the DfE criteria and, at the same time, allow conceptual, geographical, period and thematic links to be made between across a course of study.

Each thematic study is linked to a specific historic environment. This linked structure has been chosen because it will make for a more coherent qualification than would be the case if the historic environment were completely free standing. This linkage allows the issues studied in the historic environment to be seen within a broader thematic context.

Since the thematic studies cover both medieval and early modern British history, this provides geographical and period context for the British depth studies. In addition, the fact that the historic environments focus in depth on modern British history provides balance to the overall coverage of British history.

The modern depth studies are non-British and link conceptually to the early British depth studies: together they allow students to explore the nature of societies, the operation of power and the forces for change in power-relationships in Britain and a non-British society. Students will study in detail the issues, individuals and events that impacted on each.

Finally, the period studies have been chosen for their suitability to show unfolding narratives of substantial developments which have shaped the world we live in today. Links can be made between the period studies and modern depth studies in terms of chronology, place or issues covered.

There are many ways in which the defined content gives teachers opportunities to make the course of study coherent. Some examples are given below, showing links that exist between different parts of the course. Similar links could equally be made by replacing or moving topics in these tables, and also by redesigning it, for example to show links between the British depth and modern depth studies, or between the thematic studies and modern depth studies.

Appendix 3: Interpreting topic content

The guidance below helps make clear expectations for what needs to be taught.

Semi colons are used to break up content to separate ideas that are related, where commas might be unclear or confusing, for example (*Option 10: Crime and punishment through time, c1000–present*).

- The abolition of the death penalty; changes to prisons, including the development of open prisons and specialised treatment of young offenders; the development of non-custodial alternatives to prison.

Colons are used to show where content is exclusive and limited. In the following example from Option 10 (*Key Topic 2, c1500–1700: Crime and punishment in early modern England*), the only crimes that must be studied in relation to new definitions of crime are vagabondage and witchcraft:

- New definitions of crime in the sixteenth century: vagabondage and witchcraft.

'Including' is used to draw attention to examples that are particularly relevant within the framework of broader developments, but without limiting the content to these examples. In the same section from Option 10, heresy and treason are singled out (below), as examples which must be studied because of their prominence in this period and capacity for illustrating change in the nature of crime, but they are not the only relevant examples; others may also be used to illustrate continuity with, and change from, the period *c1000–1500*.

- Continuity and change in the nature of crimes against the person, property and authority, including heresy and treason.

Appendix 4: The context for the development of this qualification

All our qualifications are designed to meet our World Class Qualification Principles^[1] and our ambition to put the student at the heart of everything we do.

We have developed and designed this qualification by:

- reviewing other curricula and qualifications to ensure that it is comparable with those taken in high-performing jurisdictions overseas
- consulting with key stakeholders on content and assessment, including the Royal Historical Society, the Historical Association, the Schools History Project, teachers, and higher-education academics to ensure this qualification is suitable for a UK context
- reviewing the legacy qualification and building on its positive attributes.

This qualification has also been developed to meet criteria stipulated by Ofqual in their documents *GCSE (9 to 1) Subject Level Conditions and Requirements for History*, published in February 2014.

^[1] Pearson's World Class Qualification Principles ensure that our qualifications are:

- **demanding**, through internationally benchmarked standards, encouraging deep learning and measuring higher-order skills
- **rigorous**, through setting and maintaining standards over time, developing reliable and valid assessment tasks and processes, and generating confidence in end users of the knowledge, skills and competencies of certified students
- **inclusive**, through conceptualising learning as continuous, recognising that students develop at different rates and have different learning needs, and focusing on progression
- **empowering**, through promoting the development of transferable skills, see *Appendix 5*.

From Pearson's Expert Panel for World Class Qualifications

May 2014

“ The reform of the qualifications system in England is a profoundly important change to the education system. Teachers need to know that the new qualifications will assist them in helping their learners make progress in their lives.

When these changes were first proposed we were approached by Pearson to join an 'Expert Panel' that would advise them on the development of the new qualifications.

We were chosen, either because of our expertise in the UK education system, or because of our experience in reforming qualifications in other systems around the world as diverse as Singapore, Hong Kong, Australia and a number of countries across Europe.

We have guided Pearson through what we judge to be a rigorous qualification development process that has included:

- Extensive international comparability of subject content against the highest-performing jurisdictions in the world
- Benchmarking assessments against UK and overseas providers to ensure that they are at the right level of demand
- Establishing External Subject Advisory Groups, drawing on independent subject-specific expertise to challenge and validate our qualifications
- Subjecting the final qualifications to scrutiny against the DfE content and Ofqual accreditation criteria in advance of submission.

Importantly, we have worked to ensure that the content and learning is future oriented. The design has been guided by what is called an 'Efficacy Framework', meaning learner outcomes have been at the heart of this development throughout.

We understand that ultimately it is excellent teaching that is the key factor to a learner's success in education. As a result of our work as a panel we are confident that we have supported the development of qualifications that are outstanding for their coherence, thoroughness and attention to detail and can be regarded as representing world-class best practice. ”

Appendix 5: Transferable skills

The need for transferable skills

In recent years, higher education institutions and employers have consistently flagged the need for students to develop a range of transferable skills to enable them to respond with confidence to the demands of undergraduate study and the world of work.

The Organisation for Economic Co-operation and Development (OECD) defines skills, or competencies, as 'the bundle of knowledge, attributes and capacities that can be learned and that enable individuals to successfully and consistently perform an activity or task and can be built upon and extended through learning.'^[1]

To support the design of our qualifications, the Pearson Research Team selected and evaluated seven global 21st-century skills frameworks. Following on from this process, we identified the National Research Council's (NRC) framework as the most evidence-based and robust skills framework. We adapted the framework slightly to include the Program for International Student Assessment (PISA) ICT Literacy and Collaborative Problem Solving (CPS) Skills.

The adapted National Research Council's framework of skills involves:^[2]

Cognitive skills

- **Non-routine problem solving** – expert thinking, metacognition, creativity.
- **Systems thinking** – decision making and reasoning.
- **Critical thinking** – definitions of critical thinking are broad and usually involve general cognitive skills such as analysing, synthesising and reasoning skills.
- **ICT literacy** – access, manage, integrate, evaluate, construct and communicate.^[3]

Interpersonal skills

- **Communication** – active listening, oral communication, written communication, assertive communication and non-verbal communication.
- **Relationship-building skills** – teamwork, trust, intercultural sensitivity, service orientation, self-presentation, social influence, conflict resolution and negotiation.
- **Collaborative problem solving** – establishing and maintaining shared understanding, taking appropriate action, establishing and maintaining team organisation.

Intrapersonal skills

- **Adaptability** – ability and willingness to cope with the uncertain, handling work stress, adapting to different personalities, communication styles and cultures, and physical adaptability to various indoor and outdoor work environments.
- **Self-management and self-development** – ability to work remotely in virtual teams, work autonomously, be self-motivating and self-monitoring, willing and able to acquire new information and skills related to work.

Transferable skills enable young people to face the demands of further and higher education, as well as the demands of the workplace, and are important in the teaching and learning of this qualification. We will provide teaching and learning materials, developed with stakeholders, to support our qualifications.
