

# Meet your Maths Team

Nicola Woodford-Smith

Hi, I'm **Nicola** – GCSE Maths Subject Partner. I joined the Maths team at Pearson after teaching both GCSE and A Level Maths for 13 years. I believe all learners have the potential to be mathematically successful and I am passionate about building effective resources to support teachers in delivering the content required to achieve the successes across our qualifications.

Mark Heslop

Hello, I'm **Mark** - A level Maths Subject Partner. I am responsible for our GCE qualifications in Mathematics, Further Mathematics. I joined the Pearson team in January 2021 following a 15-year career teaching in the North West after 10 years in Automotive Design and Engineering. I was also a member of the ALCAB Maths panel that updated the A Level Mathematics and Further Mathematics.

Leona So

Hello, I'm **Leona** - Senior Qualification Manager for the GCE Maths qualifications. Prior to joining Pearson, I was a Chartered Teacher teaching A level and GCSE Maths for over ten years, and have worked in several roles including department lead, CPD lead specialised in learning technology, and as an examiner. My role enables me to apply my previous experience to provide teaching and learning support in delivering our GCE qualifications.

Sunnil Singh

Hello. I am **Sunnil**, the Maths Subject Advisor. I joined Pearson after a 25-year career in education. In that time, I have held various roles: teacher with responsibility for A level mathematics, Head of Maths Department, SCITT PGCE Tutor and, most recently, a lead practitioner for a Multi-Academy Trust. My role will involve, amongst many other things, building rich relationships with our customers and a reputation for superior customer service. I will have accountability for both external and internal customer service delivery for maths. Update and advise the wider customer services team, business managers and regional staff on developments in mathematics subject area. This will involve collaboration with several dedicated and talented teams that work tirelessly behind the scenes.

Les Hopper

Hi, I'm **Les** – the Product Director for Pearson's maths and science qualifications, teaching and learning support, and our digital support.

Like the rest of the team, I'm passionate about STEM education! I've spent over 15 years working with teachers, educationalists, examiners and cross-functional teams in companies like ours to create products that empower effective education.

My goal is to help as many people as possible fall in love with STEM, and to be successful in their learning no matter where it takes them.

Edward Stratton

Hi, I'm **Ed** - Senior Strategy Manager for Maths Qualifications. I joined the Maths team at Pearson in 2021 having spent 8 years in the classroom teaching mathematics, and an additional 4 years working in partnership with schools across the country. My role in the Maths team is to ensure we are working in partnership with centres to develop best-in-class qualifications to meet your existing and emerging needs.

Seb Brummell

Hi, I'm **Seb** - Product Manager for GCSE Maths. I've been with Pearson working closely with the GCSE Maths and ELC Maths qualifications for the last 5 years. Before that I was a primary school teacher, working in London and the South East. My focus is to ensure that all of our GCSE Maths teachers are provided with the best possible teaching and learning support in order to deliver our Maths qualifications as effectively as possible.
