

## Advance information

Following feedback on Monday 7 February we have updated the GCSE Mathematics advance information document to ensure the collated list matched the individual papers lists. These updates are reflected on pages 6 and 21. Please, check the latest version on our website, which is named as 'Version 2'.

## **NEW** November 2021 Past Papers and student-friendly mark schemes

Past Papers and mark schemes for all papers from the November 2021 exam series.

## **NEW** GCSE Maths Mock Set 7 – published 4th Jan

A brand-new full set of mock papers has now been released for GCSE Maths. Mock Set 7 includes modified questions papers, word and pdf question papers, mark schemes and a Question Level Analysis Sheet (QLA).

## Shadow Papers

Shadow Papers are slightly amended versions of live papers intended to be used for mock exams. These papers have been created so that teachers can use set unseen mock exams which have grade boundaries that can be applied. For that reason, we ask that you do not post questions or solutions on websites.

## Practice Sets 1-18

Eighteen sets of practice tests using past GCSE and International GCSE questions, comprising both three 80-mark papers and mark schemes at each tier. Sets 1-5, 7 and 13 have also been split into six 40-mark papers and mark schemes at each tier. Suggested grade boundaries are provided at the end of the mark schemes, based on performance data for past examinations.

## Themed Practice Papers

Foundation and Higher-themed papers and mark schemes with student-friendly mark schemes.

## Aiming for Grades 4, 7, 9 Papers

[Aiming for grade 4 Practice Papers](#) 

[Aiming for grade 7 Practice Papers](#) 

[Aiming for grade 9 Practice Papers](#) 

## Problem Solving (AO3) Papers - Bronze, Silver and Gold

AO3 Problem Solving questions for GCSE Mathematics (9-1) examinations. These have differentiated scaffolding for multi-step questions. Bronze papers have more sub-parts to the question, Silver papers have fewer sub-parts and Gold papers are as you would expect in the examination with all of the scaffolding removed.

## Other resources on the Maths Emporium

Browse the Maths Emporium website for 1-mark questions, crossover practice papers, topic tests and re-ordered papers.

## Classroom posters

Download our suite of posters, which covers topics such as revision, command, conversion and geometrical reasoning.

## Mocks Service for GCSE Maths

GCSE Maths Mock Set 7 and the November 2021 papers are available and can be ordered to be delivered to your centre on-demand. Post them back to us to be marked by our examiners and get the results back within 3 weeks. You can also use the ResultsPlus service to get more in-depth analysis of student performance.
