

GCSE (9–1) Mathematics

Summer 2019

Post-results support

Video from our Chair of Examiners

NEW for 2019

Talking you through the key headlines from the summer 2019 results.

Grade boundaries

Download the qualification and paper grade boundaries.

Chief Examiner Report

NEW style for 2019

A brief report presenting the grade boundaries, the outcomes, and sharing insights on overall performance.

Principal Examiner Reports

A question-by-question commentary for each paper on student performance and common misconceptions.

Post-results services

ResultsPlus – our free online results analysis tool that gives you a detailed breakdown of your students' performance.

Access to Scripts – free access* to your students' exam papers. *Written permission must be gained from candidates before scripts can be accessed.

Review of Marking – if you would like the marking to be reviewed, you can ask us to perform additional checks.

Access to all the data you need through the **Maths Emporium**

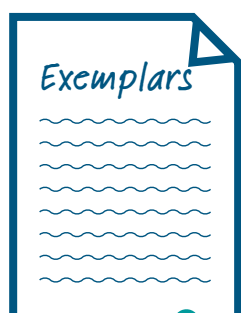

national performance data | grade boundaries | student performance data | summary statistics | mark distributions

Even more support just for you
