## Modern, progressive International A Level qualifications

### For globally minded learners aged 16 - 19

Renowned across the world for academic excellence, Pearson Edexcel International Advanced Levels provide learners with the skills and knowledge they need to progress onto the most prestigious universities across the world.

Pearson Edexcel International Advanced Levels are part of iProgress, our complete series of academic qualifications for 3 to 19 year-old learners at international schools following a UK curriculum.

At every stage, our iProgress continuum delivers a consistent learning journey with world class support, assessments and teaching and learning resources for students and teachers, everywhere in the world.

# Qualifications for globally minded learners

## Introducing Pearson Edexcel International AS/A Levels

Pearson Edexcel International AS/A Levels, also known as Advanced Subsidiary Level/Advanced Levels, have been developed in consultation with the international school community specifically for international learners.

They take the popular and flexible modular approach\* where exams are taken at the end of each unit of study, throughout the programme of study when a student feels prepared and ready, or all together at the end of the course. This flexibility, together with exam series in January, June and October, for most subjects, means that students have more opportunities to get feedback to improve their performance and get the grade they need to progress.

Available in 21 popular subjects, they offer progression from International GCSEs, and are comparable to the linear UK A Level, equipping students for progression to university and employment.

\*for all subjects except Law

## World class assessment design for international students

Pearson Edexcel qualifications go through a rigorous world class assessment design process, which ensures that the content is relevant for international learners, and that there is a clear and consistent relationship between command words, marks and skills. With logical progression of difficulty throughout and consistency in template and design, our question papers are clear and provide suitable challenge and support for students of all abilities.

**“I wanted to study subjects that were relevant to a future career. Pearson Edexcel iAL provides learners with a firm knowledge base.”**

Nasim Mirzajani, now studying Chemical Engineering at Yale University, USA

# Recognised worldwide for academic excellence

## Opening doors to the world's best universities

Pearson Edexcel sets the standard for worldwide recognised qualifications aligned to the British educational system. Accepted by over 650 higher education institutions across the world – including top universities such as Oxford, Cambridge, Columbia University and Yale University – and with 21st century skills embedded in the curriculum, you can be confident students will have qualifications, skills and knowledge that admissions teams and employers are looking for.

## Comparability with GCE AS/A Level

International A Levels (IAL<sup>®</sup>) are comparable to the UK A Level, as confirmed by NARIC, the national agency responsible for providing information and expert opinion on qualifications and skills worldwide. See the table below for a comparison. The same rigorous standards are applied to all Pearson Edexcel qualifications.

# Pearson Edexcel International A Level Language Qualifications

## French, German and Spanish

### Flexible structure

The International Advanced Subsidiary level provides discrete skills-specific assessments and cultural aspects of the native speaking society. The International A Level offers a realistic progression from the International Advanced Subsidiary that:

- rewards advanced research/reading skills
- features integrated skills assessment
- facilitates knowledge and understanding of native-speaking cultures
- facilitates literary study.

This specification aims to engage students with minimal prescription and maximum choice, so that they enjoy language learning and achieve their full potential in IAL qualifications.

### Benchmarked against the CEFR

Achievement in these qualifications is benchmarked against the Council of Europe's Common European Framework of Reference for Languages.

### Clear and straightforward question papers

Our question papers are clear and accessible for students of all ability ranges. Our mark schemes are straightforward so that the assessment requirements are clear.

### Broad and deep development of skills

These qualifications will equip students with transferable skills such as autonomy, resourcefulness, creativity, critical and analytical thinking, and linguistic, cultural and cognitive flexibility. We designed the International Advanced Level and International Advanced Subsidiary Level qualifications to:

- develop students' cognitive skills in problem solving and critical thinking
- broaden students' communicative skills
- enable students to learn to work independently, become more adaptable in different communication styles and be able to use and produce information in different ways.

### Seamless progression from International GCSE

Pearson Edexcel International A Level is the next step in the iProgress learning journey after International GCSE, continuing a consistent path for students and teachers, everywhere in the world.

### Progression to further study or employment

International Advanced Level qualifications enable successful progression to undergraduate studies, further education or employment. Through our world-class qualification development process we consulted with higher education, teachers and professional bodies to validate the appropriateness of these qualifications, including content, skills and assessment structure.

### Aims of the qualifications

The aims and objectives of these qualifications are to enable students to develop:

- an understanding of a wide variety of complex reading texts for different purposes.
- an understanding of standard spoken language, whether live or broadcast, on both unfamiliar and familiar topics normally encountered in personal, social, academic or vocational contexts.
- the ability to write clear, well-structured texts using an appropriate style, highlighting relevant salient issues, expanding and supporting points of view with supporting arguments (where relevant) and demonstrating the controlled and accurate use of target language and grammar.
- the ability to express themselves fluently, spontaneously and appropriately in a range of speaking contexts with little obvious searching for expressions or use of avoidance strategies.
- the skills necessary for further study or employment, either in native-speaking countries or where the language is used as the main medium of communication for business and commerce.
- an understanding of the nature of language in different cultural contexts in order to build up competence in written communication.

## IAS results contribute to IAL grade

An International Advanced Subsidiary qualification can be claimed as a discrete qualification on completion of the two International Advanced Subsidiary (IAS) units. The International Advanced Level qualification can be claimed on completion of all four units in the specification.

The approach taken involves:

- Spoken communication skills that are assessed separately in Units 1 and 3.
- The skills of listening, reading and writing that are assessed in Units 2 and 4.
- General Topic Areas that relate to the interests of students studying a specific language.
- Culturally sensitive and authentic texts that appear throughout the qualification.

# Modular assessment

## Why is the modular approach so popular?

The modular assessment structure offers students the flexibility to sit examinations when they feel fully prepared and ready. Once they have sat a unit exam and received a unit grade, that result is banked until they have completed all units. Students then 'cash-in' the completed unit exam results to receive an overall qualification grade.

The structure of Pearson Edexcel IAL qualifications allows teachers to construct a course of study that can be taught and assessed as either distinct modular units or a linear course assessed in its entirety at the end.

## How the modular approach works

### Bank robust and ongoing evidence of performance

This 'building blocks' approach means that students can 'bank' their unit exam results throughout their period of study. This provides robust evidence of their studies and performance, providing more options to obtain the grade they need to progress.

### Multiple exam opportunities throughout the year

Students can take and re-sit individual unit assessments in any series, with examination opportunities in January, June and October in most subjects. This means students have more opportunities to get feedback and get the grades they need to progress.

### Students 'cash in' unit results when ready

Once a student has all their unit results for the qualification they are taking, they exchange those for a grade – this is called 'cashing in'. To cash in, all units must have been entered. International AS qualifications can be taken as a separate, standalone qualification, as well as contributing to an Advanced Level qualification.

## The benefits of a modular route

A modular approach allows students to take their exams when they feel ready and prepared. They benefit from more exam practice and familiarity. Unit exam results provide formal feedback earlier on in their studies, so students understand the standard required to reach the final level of achievement they are aiming for. This understanding motivates them to improve and builds a sense of ownership through bite-size, short-term goals.

The modular approach can help reduce the mental load and stress at exam time by allowing learners to focus on one year of curriculum content at a time and spread out their high stakes exams over two years and multiple exam series. Learners can also take advantage of multiple re-sit opportunities if needed.

A modular route provides teachers with rich mid-cycle data on learner performance. It offers international schools greater flexibility for exam administration across the school year. And where parents pay exam fees, it helps with budgeting by enabling families to spread their child's exam fees over two years.

## The benefits of a linear route

Whilst the modular approach works well for students who want to spread the exam load and bank their performance throughout their studies, doing the exam all in one go at the end of the period of study suits others better.

This approach means assessments for all units are taken together in one exam series so students study all the content and then prepare for all the assessments at the end of their period of study, rather than a more continuous pattern of study and assessment.

## What this means for you

Pearson Edexcel were the first awarding organisation to introduce the modular International AS/A Levels, so can offer a wealth of experience and support for international schools – we also offer the most subject options. The modular approach is so popular with schools, teachers, parents, and students, that we now offer a modular approach for International GCSE which is great preparation for Pearson Edexcel International AS/A Level.

**The choice is yours though! The structure of the Pearson Edexcel International A Level qualifications means you can choose the right assessment approach to benefit students and help create a compelling competitive advantage for your school.**

**"I like the modular nature of IAL, the fact that I can choose whichever core units I want to do, whichever applied units I want to do. It's very comprehensive. It opens up many doors to many international universities."**

Wang, Pearson Edexcel International Advanced Level student from Sri Lanka, studying Chemistry, Biology, Physics, and Mathematics.

# Building transferable skills

## The most in demand skills are human skills

In recent years, higher education institutions and employers have consistently flagged the need for students to develop a range of transferable skills to enable them to respond with confidence to the demands of undergraduate study and the world of work.

In fact, universities and employers consider transferable skills – otherwise known as Core Competencies, or 21st century skills – to be the largest skills gap overall.

## Supporting the development of transferable skills in your school

If you follow Pearson Edexcel IAL specifications, or your students are using our IAL textbooks, you've already started integrating transferable skills into your teaching.

That's because our qualifications and resources are mapped to the National Research Council's framework for 21st century skills, which includes cognitive, intrapersonal and interpersonal skills. They are embedded and signposted in the specifications and schemes of work, with accompanying skills mapping and transferable skills definitions for every subject.

Transferable skills are also developed as part of activities in the Student Books. These are clearly labelled, so you and your learners can easily identify the skills they are building.

We help you instil and embed these skills, supporting children to grow into resilient, curious and globally connected young adults.

**No.1**

**9/10** of the most in-demand skills are human skills<sup>3</sup>

The highest priority for skills training is analytical thinking, followed by creative thinking<sup>2</sup>

**87%** of companies say they have skill gaps, or expect to within a few years<sup>1</sup>

**Dos apellidos**

Algo que despierta mucha curiosidad y confusión en otros países es el hecho de que los españoles tengamos dos apellidos: uno paterno y otro materno, pues lo habitual en otros lugares del mundo es que una persona tenga solo un apellido.

En España, al igual que en los países latinoamericanos, nos identificamos con el nombre y dos apellidos: el primer apellido corresponde con el primer apellido del padre, y el segundo con el primer apellido de la madre. En la actualidad, si alguien lo desea, puede cambiar el orden de sus apellidos para poner como primero al materno. Puede que este sistema parezca complicado, pero puede facilitar averiguar quiénes fueron nuestros antepasados.

Antes del siglo XIX no existían unas normas establecidas sobre cómo debía apellidarse la gente. En esa época no hacía falta tener una autorización para coger un apellido, sino que la única condición era que el apellido elegido no perjudicara o afectara a nadie por llevarlo. Desde 1871, año en que se implantó el registro civil con el fin de llevar un control e identificación de los ciudadanos, ya aparecen oficialmente escritos el nombre y los dos apellidos de cada persona.

**4. En tu opinión, antes de empezar a trabajar ¿es más útil hacer prácticas laborales o estudiar en la universidad?**

La universidad siempre es más útil a causa del nivel de los estudios disponibles.

This is one side of the argument, but to produce a fully developed answer, the invitation to extend things linguistically should not be missed. The conclusion might be: 'Sin embargo, cuando uno hace prácticas laborales está en el mundo real y se aprende mucho. La teoría es necesaria, pero saber desarrollarla es lo que produce el éxito.'
